FRANCE PREPARES NEW AMERICAN DEBT OFFER

Counter-Proposal is Expected to be Ready for Submission Sometime Next Week

[BY CABLE AND ASSOCIATED PRESS]

PARIS, Oct. 21.—Finance Minister Caillaux is preparing a counter-proposal for the settlement of France's debts to the United States, which is expected to go forward to Washington next week. The substance of the new offer was discussed by Premier Painleve and M. Caillaux at luncheon today. Other members of the French debt mission which visited Washington also attended the luncheon.

This question was considered at the last meeting of the Cabinet, which approved the suggestion of the Finance Minister that another effort be made at once to come to a compromise with the American debt-funding commission before presenting to the Chamber of Deputies the provisional agreement reached at Washington. By the terms of this provisional settlement France was to pay $40,000,000 annually for five years as full current interest on the consolidated debt of approximately $4,200,000,000 which France owes the United States.

STRONG OPPOSITION

The Cabinet decided that another attempt to come to a definite final arrangement with America was preferable to an effort to get Parliament to ratify the provisional accord. In both the Chamber of Deputies and the Senate a strong current of opinion has set in against the provisional agreement.

What France can offer in addition to the proposals the Caillaux mission made at Washington was the subject of today's discussion between the Premier and Finance Minister. It is generally agreed in official and political circles that France's capacity to pay her foreign debts depends upon the solution of the pressing difficulties of her treasury.

The key to M. Caillaux's plan to renovate French finances is the provision of a sinking fund for both domestic and foreign debts. A settlement with Washington, it is remarked by officials here, would be easier when the financial measures now in view have been accepted by Parliament, but the Minister of Finance is unwilling to delay the renewal of negotiations with the American government until domestic problems are out of the way.

Therefore, with the authority of the Cabinet, M. Caillaux probably will send a new offer to Washington before the end of next week.

TERMS UNDECIDED

The terms of the new offer remain to be fixed, it was said in official circles tonight, but the opinion of persons close to M. Caillaux is that he can only raise the figures of the last French offer at Washington by asking in return that the American debt commission accept a clause safeguarding France

(Continued on Page 2, Column 2)

COOLIDGE IS SUPPORTED

Banks to Refuse France Loan

Financiers Insist That Paris Make American Debt Payment

Caillaux Reported About to Submit Counter Proposition

[EXCLUSIVE DISPATCH]

WASHINGTON, Oct. 21.—France, at no distant date, will be seeking a loan of $100,000,000 or more in Wall street to stabilize her currency on a gold basis.

But France is not going to get any loan from American bankers until she settles and begins paying her $4,200,000,000 war debt to the United States.

American bankers are standing shoulder to shoulder with Coolidge on this proposition, Charles E. Mitchell, president of the National City Bank of New York, told the President at the White House today. So says also Dwight Morrow of J. P. Morgan & Co., who was a college mate of Mr. Coolidge at Amherst and is a frequent visitor at the White House these days.

"There is no other money mart than America for France to turn to for the gold to stabilize her currency, for Great Britain, in order to return to the gold standard, closed her doors to foreign loans, which would have drained the British gold reserve.

HANDWRITING ON THE WALL

That France sees the handwriting on the wall and realizes that a settlement must be made eventually if her credit is to be maintained is the inference drawn here from the Paris cablegram today stating that Finance Minister Caillaux is about to make a counter-proposal to the offer of the American Debt Funding Commission to accept $40,000,000 a year from France for the next five years as interest in full for that period on the full debt. Caillaux admitted that France is able to pay $40,000,000 a year at present, but evidently he is bent on obtaining still more favorable terms than those offered as a temporary arrangement pending a funding of the full debt five years hence.

The utmost significance is attached to the conference today between the President and the head of the greatest banking institution on the American continent. It is understood that the President and Mitchell discussed the war debt situation in some detail, Mr. Coolidge being extremely pleased by the attitude of cooperation with the policies of the administration manifested by the international bankers.

What Banker Mitchell thinks of French credit with the war debt of France unsettled, he startlingly and piquantly stated to the newspaper reporters when he emerged from the conference with the President.

"Any large loan to France under the circumstances could be made only on faith, hope and charity," he said.

"FLYER" IN FAITH

He went on to explain that it would be necessary to ask the American people to subscribe to any loan to France that might be obtained in Wall street and with the credit of France impaired by her failure to fund her debts and stabilize her finances, American subscribers would be investing in the loan as a "flyer" in faith, hope and charity. He made it clear that it does not require President Coolidge's ban to deter American bankers from loaning to debtors that have not settled with Uncle Sam. They are deterred by the impaired credit of debtors who do not settle.

That the capacity of France to pay the United States is not an economic but a political question, was another striking and significant assertion of the New York banker. He declined with a smile to elucidate this somewhat cryptic utterance, but it was deduced he meant that France is well able to pay, but that the majority of French people are opposed to paying. As long as the French are in that mood, any ministry that should negotiate a settlement with Washington would fall

ENTIRE FAMILY NOW IN JAIL AT PHOENIX

[EXCLUSIVE DISPATCH]

PHOENIX, Oct. 21.—The County Jail now accommodates a family of four, following the arrest of the father, G. S. Fields, on a charge of passing bad checks at El Centro. The father, mother and two small children were made comfortable in one large cell.

SHIP SAILS TO MEMORY SEA

Last American Clipper Bid Tearful Farewell as She Leaves to be Dismantled

[BY A. P. NIGHT WIRE]

NEW YORK, Oct. 21.—A requiem was sung today for an American institution. The last American clipper ship has "set sail" on her final voyage, a journey to the land of memories. Within a few weeks she will be ground to bits under the heels of progress because she has outlived her usefulness. She is to be dismantled.

A little group of sober-faced seamen who had swabbed her decks and oiled her masts in years gone by, men who had raced with her round the Horn, comprised the few who bid the Benjamin F. Packard, last of the clippers, farewell today.

There was little to be said or done. Cheers seemed out of place. It was all too real to these men, who realized that the last emblem of America's sea achievement, the last sign of her old supremacy, the last shrine of the Yankee sailor, was passing forever.

Some little ceremony was planned. Capt. D. J. Martin, who brought the Packard safely through her last trip, was to haul down her ensign. He grasped the halyards, the little group in the waist faced aft, and with bared heads watched the ensign flutter to the deck.

It did not stay down, for Capt. Martin sent it aloft again immediately. It was a moment before anyone grasped just what was happening. The clipper is to go proudly to her doom with flags flying. When her guard of honor realized this the response was instantaneous. Shoulders bent with the weight of years were drawn a little farther back, eyes dimmed by the lash of driven spray, sparkled a trifle brighter, and hands, once firm, held hats aloft as an involuntary cheer broke from husky throats.

"Champagne is good, and so is rum," boomed Capt. P. B. Blanchard. In a flash the "crew" was at the main sheet, tailing away, and roaring the chorus, "Whisky for my Johnny" and "Beer is good enough for some, but whisky for my Johnny."

The chantey floated over the harbor as her main sheet was dropped. Reminiscences were in order.

Never again will the Packard haul out of the Bay of Bengal, leave Ceylon and Madagascar on her starboard side, double the Cape of Good Hope and bear steadily up the west coast of Africa with the Benguala Current.

One by one the famous ships have gone. The Glory of Seas, the Young America, the Tamoshanter, the Sovereign of the Seas, the May Queen and the Swallow Tail, all have passed. With the passing of each, some little bit of sentiment, some modicum of a sailor's love has been transferred to the ones remaining.

Because of this the Packard, with her holds empty, her decks deserted, and her wheel forever in beckets, bears a cargo of forgotten memories far more precious than any freight she carried in the halcyon days.

Though they tear her rigging down, strip her mighty yards, and strike her ensign, the Benjamin F. Packard will not die.

Captained by a phantom skipper, manned by a ghostly crew, she will sail on in the remembrance of those who trod today for the last time, the decks of a clipper ship. Better than "a painted ship upon a painted ocean," she will be recalled to hail around many a fireside when old skippers assemble to swap yarns.

Senator Gerry Will be Wed to Mrs. Vanderbilt

[BY CABLE AND ASSOCIATED PRESS]

LONDON, Oct. 21.—United States Senator Peter Goelet Gerry of Rhode Island will be married here tomorrow to Mrs. Edith Vanderbilt, widow of George Washington Vanderbilt.

Senator Gerry was divorced in an action brought by his wife in Paris several months ago. The Rhode Island Senator is socially prominent, member of a family famous in American history since early colonial times, and is known as a lawyer, scientist and philanthropist. He is 46 years of age.

SCHWAB HAILS PROSPERITY

Radio and Electricity Growth Cited in Talks Before Industry Conference and Packers' Institute

[BY A. P. NIGHT WIRE]

CHICAGO, Oct. 21.—Peace and prosperity are peering over the horizon with a promise to be boon companions of American business in the years immediately ahead, Charles M. Schwab, chairman of the board of directors of the Bethlehem Steel Company, told the second annual conference on education and industry held in connection with the annual meeting of the Institute of American Meat Packers at the University of Chicago today.

The outlook for steel never was better, and he called steel the nation's business barometer.

RADIO HAS GROWN

Radio has grown from a $2,000,000 infant in 1920 to a lusty five-year-old of $50,000,000 last year, and an estimated $500,000,000 this year, said Maj.-Gen. James G. Harbord, president of the Radio Corporation of America, adding his optimism to that of the great steel manufacturer.

Electricity's future likewise is optimistic, bearing promise of electrified railroads and cheap power and light to the farmer, to whom they are "more important than to any other class of our population," said E. W. Rice, Jr., honorary chairman of the board of the General Electric Company.

It was consideration of the condition of the farmer which brought to the gathering a threat of a dire emergency in the future because of impoverishment of "the common dirt from which vegetation springs."

Frank O. Lowden, former Governor of Illinois, and "dirt farmer," said that although "our's is a new land, we have reached the point where the problem of food supply for the future becomes vital."

He pleaded for a national agrarian policy to restore the fertility

(Continued on Page 2, Column 7)

AMERICAN WARSHIPS HEED CALL

Vessels Hurried to Egypt as Protection Asked by Nationals in Syria

[BY CABLE AND ASSOCIATED PRESS]

LONDON, Oct. 22.—A dispatch to the Exchange Telegraph from Bagdad reports that 300 persons were killed when the Druse tribesmen and Arabs burned the native quarter in Damascus.

[BY A. P. NIGHT WIRE]

WASHINGTON, Oct. 21. — Two American destroyers have been ordered from Gibraltar to Alexandria, Egypt, to remain in readiness there for use in Syrian ports should their presence become necessary for the protection of American lives and property as a result of the revolt by tribesmen in that country.

Instructions were cabled Vice-Admiral Roger Wells, commanding the European squadron, after a request for the ships had been received here from Paul Knabenshue, American consul in Beirut, Syria.

State Department officials are hopeful that it will not be necessary to move the ships from Alexandria, but in any emergency they will be within quick sailing distance of Syrian ports.

Advices concerning the Syrian disturbance show that it centers in the vicinity of Damascus. A high mountain range separates Damascus and the Mediterranean coast and for this reason it is believed the revolt will not spread to the coastal regions to threaten American life or property.

Admiral Wells's flagship, the Pittsburgh, was en route from Cherbourg to Gibraltar when the instructions were dispatched. It is due in Gibraltar probably today. The Navy Department left to the judgment of Admiral Wells the ships which shall be sent to Alexandria.

It is estimated that about 150 Americans are in Damascus or the immediate vicinity. The majority of these, as well as of the more than 1000 American nationals in the Lebanon administrative district, which lies in the mountains between Damascus and the coast, are naturalized Syrians who have been in the United States and returned to their native country and who have registered with the American consulates, insuring themselves American protection.

RED CHIEF IN ENGLAND CAPTURED

Chairman of Communist Party Charged With Plot to Incite Sedition

[BY CABLE AND ASSOCIATED PRESS]

LONDON, Oct. 21.—Scotland Yard today announced the arrest of Arthur McManus, chairman of the Communist party in Great Britain since its formation and John Thomas Murphy, a frequent contributor to the Communist press, on charges of conspiring to incite sedition and mutiny.

The arrests were in continuance of the campaign against the communists begun by the authorities last week with the arrest of six prominent members of the party, including Albert Inkpin, the secretary; John Campbell, editor of the Workers' Weekly, and Harry Pollitt, secretary of the national minority movement.

CRISIS SEEN IN BALKANS

Bulgarians and Greeks Clash

Countries at Delicate Point in Relations Over Firing on Frontier Guards

Athens Demands Apology and Indemnity from Sofia After Tweny-four-Hour Battle

[BY CABLE AND ASSOCIATED PRESS]

LONDON, Oct. 21.—Greece and Bulgaria are at a delicate point in their relations over the shooting of frontier guards near Demirhissar on the Greco-Bulgarian border last Monday.

Versions of the incident differ sharply. News dispatches from Athens report that severe fighting lasting twenty-four hours ensued after the killing of a Greek official and the wounding of a Greek captain by Bulgarian forces which fired on a Greek post near Demirhissar.

Bulgarian Telegraph Agency asserts that a Greek soldier entered Bulgarian territory near Demirkapu, Macedonia and wounded a Bulgarian sentinel, who in turn fired and killed the Greek. This was followed by fusillades across the frontier, until a Bulgarian officer managed to get in contact with the Greek commander at Demirhissar.

Meanwhile the Greek government has demanded an indemnity and an apology from the Bulgarian government.

GREEK ULTIMATUM SENT TO BULGARIA

[BY CABLE AND ASSOCIATED PRESS]

ATHENS, Oct. 21.—Greece has demanded an indemnity of 2,000,000 French francs gold from Bulgaria for what Greece contends an unprovoked attack on Greek soldiers on the frontier near Demirhissar. Other demands are set forth, such as an apology and punishment of the responsible Bulgarian officers, in an ultimatum sent to the Bulgarian government fixing, it is reported, a time limit of forty-eight hours.

Premier Pangalos declared this evening that Greek troops have not entered Bulgarian territor, but have been stationed along the frontier. The initiative for additional military measures, he added, was left to the general commanding the Third Army Corps with headquarters at Saloniki.

EFFORTS TO BE MADE FOR FOREIGN MEDIATION

[BY CABLE AND ASSOCIATED PRESS]

LONDON, Oct. 21. — An Exchange Telegraph dispatch from Athens says efforts will be made to obtain foreign diplomatic mediations on the frontier incident. The correspondent adds that contrary to earlier information the Greek note handed to the Bulgarian Legation does not fix a time limit and is not an ultimatum.

OFFICIAL INQUIRY INTO INCIDENT URGED

[BY CABLE AND ASSOCIATED PRESS]

SOFIA, Oct. 21.—The Bulgarian government has proposed to the Greek government that an official inquiry be instituted on the spot where the Greeks and Bulgars clashed. Bulgaria is also prepared to have a neutral commission appointed by the League of Nations to investigate and fix the responsibility for the frontier incident. No official announcement has yet been made of the receipt of a Greek ultimatum.

The Bulgarian version of the incident on the Greek frontier was given today by the Bulgarian Telegraphic Agency.

According to this account, a Greek soldier entered Bulgarian territory near Demirkapou on Monday and wounded a Bulgarian sentinel, who, in return fired and killed his assailant.

A long fusillade across the border followed. The firing continued until last night, when a Bulgarian officer gained contact with the Greek commander at Demirhissar.

TAX SLASH PROMISED

'Substantial' Cut Forecast

House Committee Chairman Approves Proposal by Mellon

Club Envoys Urge Repeal of Levies on Gifts and Estates

[BY A. P. NIGHT WIRE]

WASHINGTON, Oct. 21.—Promise of a "very substantial" reduction in the income surtax rates was given today by Chairman Green of the House Ways and Means Committee in reply to such a request presented by the Iowa Tax Club.

Green mentioned no figure, but in effect he expressed approval of Secretary Mellon's proposal for a reduction of the maximum surtax rate from 40 to 20 per cent.

The request of the Iowa Tax Club was one of many urging various forms of revenue revision or relief submitted to the committee at its third day of public hearings preparatory to the drafting of a bill for consideration of Congress in December.

Repeal of the estate and gift taxes again was advocated by witnesses, together with exemption from taxation of incomes of all municipal employees and of Americans resident abroad and engaged in American trade, while the American Medical Association proposed that physicians be allowed to deduct from taxable income money spent in post-graduate work and in traveling to medical meetings.

The Treasury, meanwhile continued work on estimates covering its entire revision program. Indications were given that it might propose an increase from $400 to $500 in the exemption allowed in income taxes for each dependent.

YEAR'S RECEIPTS

Treasury figures forwarded today to the committee estimated that receipts for this fiscal year on the basis of present rates will total $1,840,000,000 from income taxes, $364,00,000 from miscellaneous taxes and $565,000,000 from customs. Of the miscellaneous taxes, tobacco was counted on to yield $245,000,000, estate taxes $110,000,000 and automobiles $150,000,000. Repeal of the estate levy and reduction of the automobile tax has been recommended by Mr. Mellon. The present tax on mah jongg sets was estimated to yield $3600 this year and $1000 next year.

On the basis of the Treasury's estimates, Secretary Mellon on Monday proposed a reduction in taxes of $200,000,000, the amount of the surplus over government expenditures, which he said will result from the receipts. Of this reduction, he would make $140,000,000 in the income rates.

The Iowa Tax Club's delegation, including fifty representatives of most of the industries of that State, presented appeals for a reduction of the surtax rates and repeal of the estate tax.

Henry L. Adams of Des Moines, speaking for the group, declared taxpayers of Iowa would be more interested in seeing the surtaxes cut than in having personal exemptions increased or the normal rates applying to smaller incomes reduced.

OTHER SPEAKERS

Others speakers, including State Senators William Baird, William Pitt and Lieut.-Gov. Kimball centered their attacks on the estate tax, which they described as unfair in view of the heavy taxation in this field by most States.

The Chicago Stock Exchange, through William S. Bennett, asked that partnerships be permitted to elect to tax as corporations. Partners desiring to reinvest profits in their business are penalized, he said, under the present law.

Voicing some disapproval of the proposal, Representative Mills, Re-

(Continued on Page 2, Column 4)

OPERATING KNIFE MAY GO

Electric Cutting Needle Threatens to Supercede Scalpel as Badge of Surgeon's Calling

[EXCLUSIVE DISPATCH]

PHILADELPHIA, Oct. 21.—The time-honored knife of the surgeon, the badge of his calling, now has a successful rival which already is in use in Jefferson Hospital. It is the cutting needle, in which such a high degree of heat is generated by electricity that when it is gently applied to the skin, the tissues instantly fall apart cleanly, by mere contact.

One form of the needle consists of a light sterilizable handle armed with a needle, long, short, or bent, according to the work to be done, to which is attached in circuit, a sterilizable cord. A high frequency current produces the cutting and prevents the needle from sticking in the flesh.

"The current passes so rapidly through the needle that the nerves have no time to record it," declared L. H. Froehlich, demonstrating technician of the new instrument, today.

"An analogy would be the recording of moving pictures by the nerves of the eye. The pictures are run so rapidly that they seem to be continuous in motion, as the eye sees them. The current of the needle is run so continuously that the nerves have no time to receive and record shocks."

A piece of meat was used in demonstration in an operating room of the hospital and by mere contact with the point of the needle the flesh fell away in a clean cut, the needle penetrating as deeply as the operator desired.

The needle has been used in op-

LONDON FAVORS LOCARNO PACT

Unanimous Indorsement of Treaty Expected

Ramsey MacDonald May Make Slight Criticism

Signing Will be Signal for Gay Festivals

[BY CABLE—EXCLUSIVE DISPATCH]

LONDON, Oct. 21.—Austen Chamberlain, the British Foreign Secretary, reported to the Cabinet today on his work at the Locarno conference and received a most enthusiastic indorsement. It is not expected that the slightest difficulty awaits the approval by Parliament of the security pact and action on it may even be unanimous.

Former Prime Minister Lloyd George already has approved the Locarno treaty and while Ramsey MacDonald, as leader of the opposition, may make some more or less friendly criticism, it is expected that he will lead his party into the aye lobby when the time for a vote comes.

It is understood that the Allies are satisfied now that the two big questions which have been delaying the evacuation of Cologne have been favorably settled. These are the demilitarization of the Krupp works and of the Schupo police. Only a few details remain to be accomplished before there is formal recognition that Germany has complied with the demands of the Allies.

The military chiefs already are planning the evacuation which is expected to begin about November 15 and to be completed in about six weeks.

The slow evacuation is necessary because of the desire not to disorganize civilian railway traffic and other transportation, and because there are many business affairs to be settled after five years of occupation, such as the turning over of barracks, the terminating of contracts, etc. The British have 9000 troops at Cologne alone. A part of these will be brought home and the rest will be sent to Weisbaden, which the British will take over from the French.

Arrangements also are being discussed for making the greatest possible occasion of the signing of the treaty in London on December 1. St. James Palace will be turned over to the delegates and a series of dinners, balls and other entertainments have been arranged.

It is hoped that President Doumergue of France will be able to come as well as Aristide Briand, the French Foreign Minister; Hans Luther, the German Chancellor, and Gustav Stresemann, the German Foreign Minister. It has been suggested that President Von Hindenburg of Germany might also be invited, but this is very uncertain. Premier Mussolini may come for Italy.

CHURCHMEN PLEASED WITH LOCARNO PACTS

[BY A. P. NIGHT WIRE]

WASHINGTON, Oct. 21.—France and Germany, through their prominent churchmen, were congratulated today on the recent Locarno agreements by officials of the Federal Council of Churches.

A cablegram saying "all here deeply gratified," signed by Dr. S. Parkes Cadman, the council's president; Dr. Charles S. MacFarland, general secretary, and Dr. Sidney L. Cullick, secretary of its commission on international justice and good will, was addressed to Paul Fuster and E. Gruner, French church federation leaders, and to President Kapler of the German church federation.

Charles Rigolout and His Bride

[BY CABLE—EXCLUSIVE DISPATCH]

PARIS, Oct. 21.—Not until he had proved himself the strongest man in the world would Mlle. Magda Roche, pretty young French cinema actress, marry Charles Rigolout, whose weight-lifting feats have popularised him in France.

Rigolout, in a weight-lifting, weight-throwing exhibition has just defeated a pretender to the title, by lifting from the floor, over his head, a dumb-bell weighing 573 pounds.

As a reward for his victory, Mlle. Roche, who weighs 113 pounds, married him the next day.

PARIS PREPARES NEW DEBT PLAN

(Continued from First Page)

from making payments that would gravely embarrass her in case her financial restoration were unduly delayed for any reason.

It is recalled in this connection that the financial committee of the radical congress at Nice last week passed a resolution demanding that the French government undertake to pay no more on the war debts than France received from Germany on the reparations account. While this motion was adopted by the financial committee, the congress as a whole refrained from discussing it. There is good reason to suppose, however, that M. Caillaux will disregard this action of one group of his party in his new offer to Washington and will make no effort to link the debt payments with reparations.

PROBLEM OF ITALY'S DEBT DISCUSSED

[BY CABLE AND ASSOCIATED PRESS]

ROME, Oct. 21.—The question of Italy's war debt to the United States returned to the front pages of the newspapers today, on the eve of the departure of the Italian mission under Finance Minister Count Volpi, which is sailing from Naples tomorrow.

The newspapers fill columns with comments ranging from expressions of best wishes for the success of the negotiations to warning against being led into promising too much under the influence of "opulent surroundings" in the United States.

Il Tevere, Fascist paper, editorially says:

"It must be made crystal clear at Washington that if the Germans do not pay, we do not pay either."

Wales Proposes to Send Chile Naval Mission

[BY CABLE AND ASSOCIATED PRESS]

LONDON, Oct. 21.—Pursuant to a request made to the Prince of Wales by President Allessandri, negotiations are under way for dispatch of a British naval mission to Chile.

The mission probably will consist of seasoned officers of all branches, but the Chileans will be especially instructed in gunnery and squadron control.

The Prince is understood to be keenly interested in the project.

Federal Bank's Mail Seized by Three Bandits

[BY A. P. NIGHT WIRE]

CHICAGO, Oct. 22.—Three Federal Reserve Bank messengers were held up by three men in two automobiles near the Chicago Federal Reserve Bank early today and robbed of a small package thought to have contained money and two sacks of registered mail containing valuables.

COSMETIC COMPANY HIT BY COMMISSION

[BY A. P. NIGHT WIRE]

WASHINGTON, Oct. 21.—Harriet Hubbard Ayer, Inc., of New York City, the third largest manufacturer of cosmetics in the United States, with 8000 customers, principally retail merchants, was ordered by the Federal Trade Commission today to discontinue certain business practices involving the fixing of resale prices as constituting unfair methods of competition. The commission found that, when price cutting was brought to the attention of the company in some instances, further shipment of its product to the dealer was refused.

ELECTRIC INQUIRY GIVEN NEW DATA

[BY A. P. NIGHT WIRE]

NEW YORK, Oct. 21.—Investigation into the extent of the holdings of the Radio Corporation of America and associated companies being made by the Federal Trade Commission to sift charges of illegal combination, today included examination into the status of one electrical corporation that has dropped out of sight in Soviet Russia.

The company which disappeared was the Russian General Electric Company, incorporated at several million rubles which has been swallowed up in the maze of the Russian revolution. Percy M. Haight, secretary-treasurer of the International General Electric Company, told the commission his firm held 16.66 per cent of the shares of the Russian company, but that nothing had been heard of it since 1917.

Mr. Haight also testified that his company owns some 12,416 preferred shares and 75,078 common stock in the Radio Corporation of America.

Tomorrow the commission will take up the case of the Westinghouse Company and its affiliations.

ONE DIES IN STREET CAR, AUTO CRASH

Injured Companion Held as Suspected Bandit After Fatal Collision

A spectacular head-on collision late last night between a racing automobile and a yellow street car at Vernon avenue and Lima street brought death to Manuel Aguerra, 28 years of age, and injuries of a possibly fatal nature to John Pulsi, 46.

Aguerra died shortly after being taken to Receiving Hospital. His companion was found to be suffering from internal injuries, a severed vein and bruises and lacerations. A revolver found in the pocket of the coat worn by the dead man caused detectives to conclude that both might be bandits and Pulsi was booked at the City Jail on suspicion of robbery. He will be transferred to the detention ward of the General Hospital as soon as his condition permits.

Police Surgeon C. M. Stewart, who attended both men, stated he found evidence that they had been drinking. Witnesses stated the car driven by the men was traveling at racing speed when it swerved and crashed head-on the street car.

The force of the collision smashed the automobile into splinters. Aguerra being pinned in his seat.

HEAVY CUT IN TAX PROMISED

Substantial Reduction Due, Declares Chairman

Green Approves Plans of Secretary Mellon

Repeal of Levy on Estates and Gifts Urged

(Continued from First Page)

publican, New York, asked if this problem would not be solved by reduction of the surtaxes to a maximum rate of 20 per cent. Bennett agreed such a change would obviate to a great extent the necessity for the revision he seeks.

Appeals for exemptions from income tax of employees of municipally owned utilities, particularly waterworks, met with suggestions from the committee that this is a question for the courts to determine.

It was pointed out that the Internal Revenue Bureau ruled only recently that such employees are subject to the Federal income tax. Attempts to collect taxes for previous years under this ruling were said to be causing considerable difficulty. Representative Johnson, Republican, Washington, appearing for the municipal employees of Tacoma, Wash., and B. C. Little of Rochester, N. Y., speaking for the American Waterworks Association, presented the arguments for exemption of these workers.

TRUST PROVISIONS

The American Bankers' Association, through W. H. Baden of Washington, sought repeal of provisions taxing the creator of a trust for that part of it over which he retains power to regain title. He argued the provision taxes a creator of a trust rather than the actual beneficiary. Committee members replied that the provision was inserted in the law last year at the request of the Treasury to eliminate a loophole for evasions and suggested that the trust creator make arrangements with the beneficiary respecting taxes.

Requests for increased exemptions of members of the medical professions were advanced by Drs. C. W. Richardson of Washington and William C. Woodward of Chicago, appearing for the American Medical Association. They also asked that the tax on physicians dispensing narcotics be decreased from $3 to $1 a year.

O. K. Davis of New York, speaking for the National Foreign Trade Council, made the appeal for exemption from taxation of American citizens, residing abroad, who are engaged in American trade. Similar exemptions were allowed by all other nations, he said, and as a consequence American foreign trade is handicapped.

LOWER MUNICIPAL TAXES ESPOUSED

[BY A. P. NIGHT WIRE]

ST. LOUIS (Mo.) Oct. 21.—Congressman Martin B. Madden of Chicago, chairman of the House Appropriations Committee, told the St. Louis Chamber of Commerce today that the elimination of unjust tax burdens was a task for the people to accomplish by demanding that their State and municipal governments join the Federal tax-reduction movement.

The Federal government, he said, is cutting costs at every opportunity, but the taxpayer's resulting benefit is negligible, since municipal State and county taxes are increasing.

"The difficulty lies mainly with the people themselves," he said. "They continue to insist upon government activity which it ought not to assume. They cannot do this unless they are willing to bear the cost. The remedy is forceful public sentiment."

Governmental expenditures during the World War, he said, totaled more than twice as much as they had fro mthe day the Declaration of Independence was signed until the day war was declared with Germany.

Whereas the cost of Federal government prior to the war was $1,000,000,000 annually, it rose to $19,000,000,000 in 1919, but is now about $2,500,000,000 annually.

"Every one pays these taxes. The man who thinks he escapes is the man who really pays. He pays it in higher living costs. The burden is passed on to him."

Widow of Four Slayers Takes Fifth Husband

[BY A. P. NIGHT WIRE]

OAKLAND, Oct. 21.—Mrs. Evan Bollinger, widow of four murderers, was married here the 16th inst. to Calvin Crester Williams, a carpenter, one week after her fourth husband, Alfred Bollinger, was hanged at Folsom Prison. It was learned today that the wedding ceremony was performed last Friday by a Salvation Army officer.

The woman's first husband, Charles Neff, killed a man in a drunken brawl and served eight years' imprisonment. The second husband, Roe Damon, killed two men and himself. James Mellarky, husband No. 3, served a long term for murder before marrying the woman, and Bollinger killed a man with an ax for mistreating Bollinger's dog.

Elect Angeleno to Head State Eastern Stars

[BY A. P. NIGHT WIRE]

SANTA CRUZ, Oct. 21.—Cora Springholland of Los Angeles, was today elected Worthy Grand Matron of the Grand Chapter of the Order of Eastern Star at the annual convention of the organization here today. Waldo Frances Postel, San Francisco, was chosen Grand Patron.

Other officers elected were: Mrs. Hazel Piper, Santa Cruz, Worthy Associate Grand Matron; Raymond H. Griest, Los Angeles, Worthy Associate Grand Patron; Kate Josephine Willats, San Francisco, Secretary; Bessie A. Perce, Los Angeles, Grand Treasurer; Gladys Fitch Pierce, Santa Barbara, Grand Conductress; Pauline Ada Hanse, Associate Conductress.

VESSEL ON COAST ROCK, FREES SELF

Early S.O.S. from Helpless Ship Stirs Anxiety Here as Aid Rushes to Scene

The British oil tanker Ampullaria went aground during a fog at Point Sur, twenty-five miles south of Monterey, at 9:50 o'clock last night and less than an hour later got off without assistance, according to word received by the Federal Telegraph Company here. The Ampullaria was reported proceeding to San Francisco under her own steam. Several ships stood by to render assistance if needed and tugs had been sent out from San Francisco on receipt of word of the Ampullaria's plight.

The Radio Corporation of America, at Los Angeles Harbor, picked up the call from the Ampullaria stating that she was aground at Point Sur, which has a reputation for treacherous rocks. The Yale of the Los Angeles Steamship Company, on her way from San Francisco here, started for her assistance. The steamer A. F. Lucas and the Canadian Observer were also reported near at hand.

A second radio message said the Ampullaria was in no immediate danger but did not cancel the call for help. Later the Federal Telegraph Company learned the vessel had pulled off the rocks. Preliminary examination revealed no dangerous leak.

The Ampullaria was in ballast, bound from England for San Francisco. She is owned by the Anglo-Saxon Petroleum Company and operated by the Shell Oil Company. She carries a crew of thirty-five.

HUNDREDS OF MASONS GET HONOR

Group of 509 Invested as Knights Commander in Colorful Ceremony

[BY A. P. NIGHT WIRE]

WASHINGTON, Oct. 21.—Under the blaze of myriad lights and with all the color of the order's ritual, 509 Thirty-second Degree Masons were invested tonight as Knights Commander of the Court of Honor in the House of the Temple as part of the ceremonies incident to the biennial session of the Supreme Council, Scottish Rite Free Masonry, Southern Jurisdiction.

The 230 Knights Commander elected yesterday and today to receive the Thirty-third Degree will receive the honor Friday night.

The council today adopted a recommendation of its committee on altruistic work, authorizing State jurisdictions to undertake relief of needy members. The council will match contributions of State jurisdictions up to 25 cents per capita of their membership out of a $100,000 fund.

Invitations to the council to conduct its next meeting at Manila, Philippine Islands, Omaha and Portland, Or., have been referred to a committee for recommendation.

Harry Chandler, publisher of the Los Angeles Times, and leading figure in interscholastic patriotic oratorical contests, was one of five chosen today by the Supreme Council, to be awarded the Thirty-third Degree Friday night with others previously selected.

Former Senator George E. Chamberlain, Oregon, and Isaac Blair Evans, Long Beach, were other westerners picked today for that honor, the two remaining being from Washington, D. C. These five were selected at large.

Awards of the Grand Cross, one of the order's highest distinctions, were made to Charles S. Lobinger, Shanghai, Supreme Council Deputy in China, and former United States judge at Manila; Edwin Carmi Hopkins, Sacramento, and R. E. Simpson, Charlotte, N. C.

Three awards of the Grand Cross is the maximum number allowed by the council statutes.

FINGER WATCH NOW WORN

MONTE CARLO, Oct. 21.—Finger watches set in a background of diamonds have made their appearance on the fingers of some of the fair habitues of the Casino here.

NEAR DEATH IN CLUTCHES OF GORILLA

Wild Animal Hunter Has Close Call in Encounter With Maddened Brute

[EXCLUSIVE DISPATCH]

NEW YORK, Oct. 21.—Benjamin Burbridge, retired real estate operator of Florida, and his son, Clinton, 23 years of age, are visitors here after an absence of one year in the Belgian Congo. In a cage down in the trunk room is Congo, a 4-year-old female gorilla, the first ever brought to this country. The animal was captured by the elder Burbridge.

In stalking gorillas Burbridge after several experiments found that the easiest way to entice the animals into the open was by imitating the snarl of a tiger.

One afternoon as the hunters were crawling through the dense woods the dark forms of a band of twelve gorillas and two young ones were seen by Burbridge.

As soon as Burbridge began snarling the gorillas darted for the open, leaving what Burbridge believed to be the young. In the twilight Burbridge saw what appeared to be a young gorilla moving about. He crawled to within springing distance, gave a leap and landed on the back of a fine, husky, 125-pound gorilla, large enough to kill a leopard.

He looked around for his boy, but he had gone. As soon as he landed, Burbridge saw his mistake. He grasped the animal by the throat. For several minutes it was a rough and tumble battle between them, but the gorilla was always three holds ahead of Burbridge. He held to the gorilla's throat and called to his guides. The gorilla, infuriated by the attack, pulled Burbridge's head toward his jaws while they rolled about. Burbridge suddenly released his grip on the gorilla's throat and grasped the animal's "hands." At the same time the gorilla thrust the hunter's hands into his mouth and began chewing them.

Burbridge, with every ounce of strength, shoved his hands down the gorilla's throat to strangle him. He was about to collapse when the guides came upon the struggling man and animal. The gorilla was beaten off after it had chewed to a pulp the upper joint of the left thumb and gnawed almost to the bone the hunter's hands.

BRITONS TO FIGHT FILM MONOPOLY

Invasion of All Fields by American Producers Will be Strongly Contested

[BY CABLE—EXCLUSIVE DISPATCH]

LONDON, Oct. 21.—Representatives of 1000 British film theaters met today to devise a means of freeing Great Britain from the grip of the American motion-picture barons. The delegates represented approximately one-third of all the British exhibitors.

It is charged that the Americans have gobbled up the entire British film industry, gaining a throttle hold on English theaters via block booking and flooding the country with foreign films which are strongly flavored with American propaganda. It is asserted that Americans, not content with the capturing of the film market, are actually invading the show-house field, endeavoring to acquire the key film theaters in the large cities. It is asserted that Wall street is prepared to spend $250,000,000 to enable the Americans to buy theaters in England.

The meeting unanimously resolved to combat block bookings and to resist American control of the film industry. Film men say that easily 90 per cent of the films shown in England come from America.

INJURIES FATAL TO FLYER

[BY A. P. NIGHT WIRE]

DENVER, Oct. 21.—Frank W. Simonik, Denver commercial aviator, died early today of injuries suffered late yesterday when his airplane crashed 800 feet near Englewood, south of here. Simonik's machine went into a tail spin while he was performing "stunts."

SCHWAB HAILS PROSPERITY ERA

(Continued from First Page)

of the soil, "a paramount question for the American people."

FOOD COSTS TO MOUNT

"I think it is agreed we have reached the point of diminishing returns from the land," said the former Governor. "That is, increase in the production of food from now on will be at a constantly increasing cost. If it were not for one limiting factor, no one could say to what heights this industrial era in which we live might go. That limiting factor is the raw materials that come from the earth. Most important of these is food."

The time when "the fields will become as waste a place as the forests with which we are more familiar," is some time ahead, however, Mr. Lowden agreed.

But, with no threat of war clouds in the sky and only omens of bettered business conditions visible, the immediate present presents a vista which, Mr. Schwab said, justified his reiteration of optimism.

PREDICTS ETHER ERA

"I am an optimist, have always been an optimist, always will be an optimist," he said. "Ever since I have been in business I have believed in investing money, building up properties, going ahead in accordance with my dreams of what could be, and ought to be. It is amazing how often these dreams have come true."

Bethlehem's marvelous plant for production of munitions has been turned 99 per cent to production of implements of peace, and all of "Bethlehem's investment in new properties and new advancement is in full confidence that the years to come will be years of peace."

Undeveloped possibilities in South America, Africa and Asia, promise America a part undreamed of in years past.

Radio has a future in which entire newspapers will be flashed as complete pictures, international broadcasting will be commonplace, entertainment and instruction will penetrate to the remotest corners of the world and static will be chained a captive, said Maj.-Gen. Harbord.

WANTS CONFERENCE

But in the near future, he thinks, there must be an international radio conference "to settle grave issues that cannot be much longer delayed."

"America has taken the lead in radio communications which total 60,000 miles with trans-oceanic circuits to many parts of the world," he said. "There are more than 600 radiocasting stations in the United States and the radio business has grown from a total of approximately $2,000,000 in 1920 to $350,000,000 in 1924 and to an estimated total of $500,000,000 in 1925." The problems of the industry and of its future fall into three classes: technical, commercial and those touching public and governmental relations, he outlined.

Anent the technical problems he considered interference: "The common highway has a capacity definitely limited and on which traffic must be carefully limited. Radio engineers are continually working to decrease space needed by particular services and the boundary walls necessary to protect them."

In efforts toward accuracy "radio promises you as commercially available within a year, the fac simile radiogram. The received copy is the fac simile of the original and its accuracy will be beyond question."

"The trend on the commercial side," is toward stabilization in radio invention as well as in radio merchandising. Too many men have tried to make a fortune out of radio. It is already an overcrowded industry. A selective process must be begun.

LITHUANIAN AUTONOMY FOES LOSE

Supporters of Movement Win Twenty-eight Seats in Parliament Election

[BY CABLE AND ASSOCIATED PRESS]

MEMEL (Lithuania) Oct. 21. The Memel Parliamentary elections resulted in a substantial victory for the parties favoring autonomy and a plebiscite to decide the sovereignty of the territory awarded to Lithuania by the Council of Ambassadors. Such a plebiscite was denied when the territory was severed from Germany under the Versailles Treaty.

The final election returns give the autonomous parties, consisting largely of Germans, 47,446 votes, netting them twenty-eight seats, while the pro-Lithuanians, by virtue of 2677 votes, get only one seat. The Communists and other minorities made negligible showings.

Parliament will be composed of twelve representatives of the Agrarians, eleven of the People's party, six Socialists and one of the Lithuanian Peasant party.

Memel, which has a population of about 170,000, was detached from Germany by the Versailles Treaty and was handed over to Lithuania in February, 1923, subject to certain conditions regulating the use of the port by both Lithuania and Poland.

CO-OPERATION BENEFIT TOLD

Simmons Talks at Phoenix Chamber Banquet

Common Interests of Arizona and California Cited

Los Angeles Held Neighbor State's Market Place

[EXCLUSIVE DISPATCH]
PHOENIX, Oct. 22.—Something of a love feast between California and Arizona has been known in Phoenix for the past two days. Los Angeles was represented by Seward C. Simmons, head of the marketing division of the Coast city's Chamber of Commerce, who told at a Phoenix Chamber of Commerce banquet of the benefits that are being obtained by co-operation between the two States. He said that "when Arizona suffers, California does likewise and when Arizona benefits, just so does California."

"We have been neighbors since God created the two great States," Simmons continued, "and we have come to recognize that our interests are in common; that we are the same sort of people and that we can co-operate without thought of selfish interest. Los Angeles is becoming appreciated as the logical marketing place for Arizona and we pledge our earnest endeavor to see that you get quality and service."

The speaker told how President R. W. Pridham soon will be here, at the head of a Chamber of Commerce committee, to study marketing conditions. He also referred to the manner in which his Chamber of Commerce has been distributing Arizona literature at eastern fairs and the stand that has been taken on the Coast in favor of equal freight tariffs.

In view of the fact that the new Southern Pacific main line through Phoenix is to be in operation next year, especial interest also attached to the presence of a number of the road's executives, including President William Sproule and Vice-President Paul Shoup, the latter the principal speaker at the dinner. He devoted little of his address to features of transportation, but gave high praise to the development efforts that have been put forth in the Salt River Valley within the past few years.

Other railroad visitors were President W. R. Scott of the Southern Pacific lines in Texas and Louisiana, and Walter Douglas and A. D. McDonald, directors in the parent corporation.

Court Decides Against Injured City Employee

[EXCLUSIVE DISPATCH]
PHOENIX, Oct. 21.—The Arizona Supreme Court has decided that municipalities are not liable for injuries to their employees, even though caused by municipal negligence.

Oscar Jones sued the city of Phoenix for injuries received when a garbage truck ran away and the brakes failed. In the decision, which sustains one of a lower court, the three Supreme justices united in an expression of regret that the suit had to be decided upon the law as it was at the time of the accident and not upon "what we as citizens might wish it to be."

STOCKTON OFFICES CLOSE FOR FUNERAL

[EXCLUSIVE DISPATCH]
STOCKTON, Oct. 21.—The funeral of John T. Lewis, former State Senator and for the past two years, councilman and vice-mayor of Stockton was held yesterday. All city offices were closed and a host of friends from this city and other cities paid their last tribute to him.

ITALY TO SWEAR OFF SWEARING

Drive Against Profanity Receives Support of King Victor

[BY CABLE AND ASSOCIATED PRESS]
ROME, Oct. 21.—A campaign against profanity has been started in Italy under the leadership of King Victor Emmanuel. The Minister of Instruction, Prof. Pietro Fedele, has sent a circular note to all the educational authorities, directing that lectures on the subject be delivered in the schools.

IMPERMANENT WAVE DEBT UNCOLLECTABLE

[BY A. P. NIGHT WIRE]
SAN FRANCISCO, Oct. 21.—Forty-five "permanent" waves on the head of Miss Eileen Palvey, a school teacher, rolled away between the hairdresser's and her home, she testified yesterday before Justice of the Peace Barnett, when the hairdresser sued her for $25 on a stopped check. Justice Barnett decided the suit in favor of Miss Palvey.

COURT ACTIONS TO BE HASTENED

Federal Supreme Tribunal Two Years Behind

Rules Changed to Reduce Number of Cases

Department of Justice Also Taxed to Limit

BY FREDERIC J. HASKIN
[EXCLUSIVE DISPATCH]
WASHINGTON, Oct. 21.—New rules and procedure are to be invoked to clear up Federal Court docket congestion. The jam of cases piled up in Federal Courts has produced a situation that is without precedent in the nation's legal history. It is largely the result of ever increasing litigation, both of criminal and civil nature, begun in the courts under laws enacted during the war and post-war period. Prohibition, revenue and tax laws contributed heavily to the docket burden.

The United States Supreme Court began its fall term the first week in October a full two years behind in its business. Federal District and Circuit Courts likewise were far behind, varying from one to two years. At the same time the machinery of the government's law enforcing arm, the Department of Justice, was found taxed to the limit, not only to handle pending litigation, but to rush to conclusion the preparation of other hundreds of cases in which prosecution is contemplated.

RULES CHANGED

Something had to be done to find a way out of this perplexing situation, in order that the work of the judiciary might be facilitated. The Supreme Court at one stroke found a solution for the problem confronting that tribunal by drastic changes in its rules. These new rules were the result of numerous conferences among the justices since the close of the last term of the court, and they now are in effect. The Supreme Court, it is now announced, will take up cases largely by certiorari, and thus it will be largely within the discretion of the court whether or not it shall consider a controversy. The effect of this procedure will be to reduce the number of appeals from the lower courts. Under the new rules, a larger amount of litigation can be disposed of by the lower courts. So, it is expected the Supreme Court can gradually catch up with the present heavily loaded docket. The Supreme Court now has about 100 more cases on the calendar than last year, including many cases of major interest which were carried over from the last term.

Equally important are material changes in procedure made in the Federal District Courts to speed up the hearing of cases, and to weed out from the dockets all cases in which the chance of conviction is doubtful. In effecting these material changes in procedure the judges have the closest co-operation of the Attorney-General and of district attorneys throughout the country.

Recent action by the Department of Justice in revising its policy of handling government litigation before the courts will have a most far-reaching effect in aiding the judges themselves in reducing the number of pending cases.

CASES CLASSIFIED

A most careful study is to be made of the Federal Court dockets by district attorneys, with a view to classifying the cases as to their relative importance. Such cases as may be of a character wherein conviction is doubtful, or those in which essential witnesses have disappeared or adequate evidence is lacking, are to be nolle prossed. In this process there are to be advanced toward the head of the dockets, long pending cases of major importance. Hundreds of cases in the civil group that have been caught in the jam, and in which delay has been costly to defendants, probably will be swept out of the way through settlements or compromises effected by government counsel.

The new policy of the Attorney-General will be to concentrate the attention and energy of his department on the more serious violations of law. Loss of time and money in futile investigations will be eliminated. District attorneys no longer will have their efforts diverted from their major prosecution work into investigative channels. It is revealed that many of them have been compelled in the past to spend a surprisingly large part of their time investigating unsubstantial complaints.

Old-World Violins

Harry Dykes, world-famous expert on old violins . . . of Dykes & Sons, London, England, is holding an exhibition at the

Biltmore Hotel
Until October 27th

. . . presenting to all lovers of old-world masterpieces and violinists an opportunity to view the following old violins:

A record Nicolas Lupot of the year 1799; Two J. B. Guadagnini of 1760 and 1774; Two Landolfi; Gagliano; Ruggeri; Tecchler; Mariani; Panormo; Montagnana; Vinaccia; Sorsana; Soliani and Vassallo . . . and other Italian violins.

Mexico Plans Payments on Interior Debt

[BY CABLE AND ASSOCIATED PRESS]
MEXICO CITY, Oct. 21.—An official of the Mexican Treasury Department today stated that economies effective between last September and the first of the coming year will be devoted to payment of the interior debt, in order to close the 1925 budget without a deficit.

This will make possible resumption of service on the foreign debt should an agreement be reached between Secretary of Finance Pani, who now is in the United States, and the committee of international bankers.

Steamer Halted in Midocean as Doctor Operates

[EXCLUSIVE DISPATCH]
NEW YORK, Oct. 21.—Because of heavy seas which interfered with a surgical operation in midocean, the United States liner Republic was halted twice to permit Junior Surgeon J. Mulholland to complete his work, according to a wireless message received today at the office of the United States Lines.

The patient was F. Tarbert, a boatswain, who was suffering from ulcers of the stomach. He is recovering, said Capt. Randall in the message.

The Republic was first stopped on Tuesday when Dr. Mulholland began the operation, but because the ship was being tossed so severely by the heavy seas, he was forced to discontinue it. Today when the wind died down he finished his work and saved the seaman's life.

IRRIGATION CANALS TO BE CONCRETE-LINED

[EXCLUSIVE DISPATCH]
MESA (Ariz.) Oct. 21.—About 250 men soon will be at work on a hurry-up job, lining with concrete the Eastern and Consolidated canals of the Salt River Valley Water Users' Association, the Water Users' Association, the funds being provided by the Roosevelt Water Conservation District in return for power concessions and a grant of a part of the water to be saved. This is the first large job of lining ever undertaken in the Salt River Valley. A narrow-gauge railroad is being constructed to bring gravel and sand from the river bed.

BEAR SLAIN WITH ARROW

[EXCLUSIVE DISPATCH]
PHOENIX, Oct. 21.—H. D. McVey, State manager of the Mountain States Telephone and Telegraph Company, and Vic Hanny, a local business man, have returned from a trip into Northeastern Arizona with the pelt of a bear slain by an arrow from the bow of the former.

CHINESE RED FORCES WIN SHARP FIGHT

City Eighty Miles North of Canton Captured After Fierce Struggle

[BY CABLE AND ASSOCIATED PRESS]
CANTON, Oct. 19. (Delayed in Transmission.)—Waichow, a city eighty miles northeast of Canton was captured on the 14th inst., by the Kuomintang troops after severe fighting in which heavy casualties were suffered.

Chinese are no longer allowed to enter Shameen, the foreign settlement of Canton, and even foreigners entering the settlement have their baggage searched by pickets stationed outside the settlement. The foreign consuls have been notified that the Canton River has been mined in the vicinity of Tiger Island and ships wishing to enter or leave the port must apply for a pilot. The official explanation of this is that it is to prevent piracy.

There has been some fighting among the strikers in the Chinese city.

The capture of Waichow indicates that the Kuomintang forces have made further advance to the northeast against Gen. Chen Chiung-Ming, the anti-Red general, who recently was reported to be gathering a force to attempt to capture Canton, which now is held by the Whampao cadets under Gen. Cheng Kai-Shek, the Red general. On the 7th inst., it was reported that the opposing forces were engaged at Shek Lung, about halfway between Waichow and Canton.

A previous report said the river had been mined owing to the reported presence of two gunboats from Northern China, presumably in support of Chen Chiung-Ming, who is an adherent of the Peking government.

[BY CABLE AND ASSOCIATED PRESS]
SHANGHAI, Oct. 22.—The Japanese Consul-General has been apprised that Chekiang soldiers crossing the Yangtze River in their advance toward Nanking, fired on the Japanese steamer Dah Ting, bound from Hankow for Shanghai. A Chinese passenger was wounded. It is said the attack was unprovoked.

EXPLORATION OF CLIFF DWELLINGS PLANNED

[EXCLUSIVE DISPATCH]
PHOENIX, Oct. 21. — Eric Schmidt, working under the auspices of an Eastern museum, has returned to cliff dwellings above Superior partially opened by him last winter with discoveries of archeological importance. He is said to be contemplating exploration of one or more of the large communal house ruins near Phoenix. The largest of such structures in this valley, located four miles east of Phoenix, now is the property of the city, under gift from Thomas Armstrong, Jr., attorney and banker.

Stories of Ship Crew Cowardice in Blaze Sifted

[BY A. P. NIGHT WIRE]
NEW YORK, Oct. 21.—Passengers' stories of drunkenness and cowardice by negro members of the steamship Comanche's crew, following the breaking out of fire in the ship's hold, last Saturday night off Florida, are to be sifted tomorrow by the government steamboat inspectors of this port, it was learned today.

Efforts are being made to have fourteen of the survivors, some of whom told such stories after arriving in New York, appear before the inspectors. The report of the local inspectors will be forwarded to Jacksonville, where the main investigation is under way.

Completion of Trail Delayed by Hard Rains

[EXCLUSIVE DISPATCH]
PRESCOTT (Ariz.) Oct. 21.—The Hassayampa Trail, the new State highway between Prescott and Phoenix, via Wickenburg, will not be open for general travel short of a month more, a delay having been caused by late storms that took away several bridges and brought down rock slides.

Several Prescott residents have managed to make their way through by dodging steam shovel and earth banks, but travel is detoured by way of Kirkland.

The new route is expected to put the two cities within four hours' easy travel of each other, as the distance will be only 110 miles, with a fine road bed and easy grades.

RUSSIA BEHIND "YELLOW PERIL"

South China Controlled by Soviet Officers

British Interests Said to Face Bankruptcy

Weapon Being Forged for Use Against Occident

[SPECIAL FOREIGN CORRESPONDENCE]

TOKIO, Oct. 1.—"This same yellow peril will become a real danger if ever the Chinese find a great white nation which is renegade and will organize the millions of China and fling them westwards."—Dr. A. Legendre, French scientist.

This is no exaggeration or merely an alarmist view of the tremendous forces at work in the Chinese upheavals today. It is the conclusion arrived at by a man of science who has been trained to think calmly and dispassionately, and what is going on in China today, especially in South China, amply bears out this terrible possibility.

South China is being run by a handful of Russian officers, with something like 8000 Russian troops in Canton. There has been much talk about the impossibility of Bolshevising China, but Russia does not believe in any such impossibility and, thus far, her plans have come to fruition to an alarming extent. The bulk of the Chinese people are not responsible for the agitations going on, and in South China they are merely the instruments of Bolshevik dictation, both Chinese and Russian.

Hongkong complains that if the present chaotic conditions be permitted to continue the British colony in South China will go bankrupt; while foreign merchants all over China, American, British, Japanese, Italian—in short of every country—are declaring that trade has been paralyzed. Even if these things are not true, the presence of so many Russian troops in Canton is not only full of ill omen, but is also creating an impossible situation, especially for Great Britain. It is only a question of time, if matters are allowed to drift, till the spark that will bring an awful explosion will be applied.

All the reports reaching here go to show that Russia is deliberately forging a weapon in China to hurl against the western nations. Only by using the vast man-power of China for her fell purpose of creating world revolution—which would be world dominion by Russia or a world made Bolshevik—can she do this. And Moscow is actually preparing, equipping and arming the Chinese for conflict.

The Russian Reds are the actual rulers in Canton today, and the Chinese Reds merely their political and military tools. Russia is organizing the Canton Reds with a view to wiping out the Chinese Whites in one well-directed campaign.

FORECAST PERU-CHILE WAR

"Red" Workers of Mexico Assert Tacna-Arica Plebiscite Will Result in Conflict

BY JACK STARR-HUNT

[BY CABLE—EXCLUSIVE DISPATCH]

MEXICO CITY, Oct. 21.—War between Chile and Peru is inevitable in the belief of the Red workers' element of Mexico. This element of Mexico's workers disclaims any relationship with the Reds of Russia which might be presumed on account of the name which has merely been adopted and commonly used here to distinguish that group of labor unassociated with the Regional Confederation of Mexican labor. The Reds' official designation is known as the Mexican General Confederation of Workmen. It represents, however, every union outside the jurisdiction of the Regional Confederation.

The Reds conducted a mass meeting recently at which resolutions were adopted protesting against the participation of workmen in what was referred to as the "imminent war between Chile and Peru." The statement was made that in the event of such a war, the workmen of the two countries would be the first called upon to go to the front and it was against this action on the part of both South American governments that the protest resolutions were adopted.

In the call issued for the meeting the Reds declared: "We are citizens of the world and compatriots of all men who work, and therefore we do not recognize barriers against interchange, either moral or material, between workers and producers who hold the same ideals and common purposes."

The object of the meeting was made public throughout the city and especially in union circles in order that it should be fully understood that a defense move in behalf of Chilean and Peruvian workmen was the cause of the meeting which was conducted at the base of the statue of Benito Juarez, former president.

It was stated at the meeting that, through the medium of two delegates representing the Socialistic workers' element of the United States, complete co-operation in defending the cause of South American workers was being located outside of the country who were allied with them.

Previously to the opening meeting, a secret meeting was conducted for leaders of all unions affiliated with the Red workingmen of Mexico when it was decided among other things that the means of protesting against the participation of Chile and Peru workers in the coming war was not to be any sort of a violent manifestation, but an open air gathering which everybody could attend.

A half a dozen orators addressed the gathering and in substance each said that the Tacna-Arica dispute will scheduled to be decided by the plebiscite vote under the direction of the United States. They all pointed out, however, that neither country would ever be willing to accept the role of defeat and that therefore it was practically certain war would be declared and in which event, the workmen and farmers would be the first to be used as cannon fodder in order to satisfy the vanities of the ruling men of both countries.

ARNOLD DALY BACK HOME AND 'BROKE'

Actor Displays Frayed Clothing; Seeks Job on Legitimate Stage

[EXCLUSIVE DISPATCH]

NEW YORK, Oct. 21.—An elderly gentleman whose punctilious tailoring and British appearance immediately proclaimed him an American actor, emerged from the second-class cabin of the Majestic yesterday, adjusted his single eyeglass and strode on deck just as he used to enter in "Arms and the Man," nearly two decades ago.

"Yes," he announced, though none had doubted it, "I am Arnold Daly."

"Oh, yes," continued the actor, "I'm strapped. Quite stony, you know. Look at the sleeve of my great coat"—it was frayed as a shawl fringe—"disgraceful, isn't it?"

"I've practically no clothes left," he said. "A chambermaid stole my only bathrobe, and another woman stole a hat Pearl White gave me in Paris—the best hat I had. I figured it was too cold to come home with no clothes on, so I hurried over—and here I am."

Daly blamed French methods for his difficulties. He said he went abroad to act for a French film company, but the film was never finished.

Daly said he wanted to get back to the legitimate stage, and would be a good boy if some manager would give him a job.

ZITA PLANS ENTHRONING OF HER SON

Kaiserin's New Scheme Disclosed to Supporters of Exiled Hapsburgs

[BY CABLE—EXCLUSIVE DISPATCH]

VIENNA, Oct. 21.—A throne for every one of her sons is Kaiserin Zita's newest scheme, Baron Schager, leader of Austria's monarchists and former administrator of the fortune of Kaiser Karl, told a small group of 10,000 desperate supporters of the exiled Hapsburgs.

The plan provides that Austria join Germany. Zita rebelled at this idea, but was reconciled to it and issued orders to her followers to concentrate on efforts to carry it through. Her eldest son would become king of Hungary, her second son would be placed on the throne of Austria. Poland would be the realm of her third born, while the Czecho-Slovakian crown would adorn her fourth son. This is the dream of the proud exiled Empress.

Zita is working out the details of the plan, which provides among other clauses the exclusion of the Jews from the Hapsburg monarchy. They will be allowed to live in the countries, but without the rights of citizens. They are barred from positions as officials or officers and only a small percentage of them will be permitted to attend universities.

Vienna smiles at the illusions of the former sovereign, but the monarchists are enthusiastic.

Doctors Study New Treatment of Broken Neck

[BY CABLE—EXCLUSIVE DISPATCH]

LONDON, Oct. 21.—Physicians from all parts of Great Britain have been studying the recovery of Herbert Gray from a broken neck by a new treatment. After Gray slipped on a step several months ago, an X-ray revealed that the vertebrae of his neck had been dislocated.

Local doctors of Holton-le-Moor gave him but a short time to live. He was transported to a hospital and under the special treatment gradually recovered.

Anita Whitney's Friends to Ask Pardon for Her

[BY A. P. NIGHT WIRE]

OAKLAND, Oct. 21.—Miss Charlotte Anita Whitney, club woman and civic leader, who is awaiting commitment to San Quentin prison to serve a sentence of from one to fourteen years for violation of the State Syndicalism Act, said here today that she would not apply for a pardon.

As Miss Whitney was admitted to bail on the testimony of a physician that incarceration in a prison would be fatal to her, a group of her friends here contemplate asking the Governor for a pardon on that basis. Otherwise any other pardon appeal would have to be signed by the prisoner.

ANCIENT SKULL MAY RANK WITH PILTDOWN

[BY CABLE AND ASSOCIATED PRESS]

LONDON, Oct. 21.—Part of a fossilized human skull discovered in a deep excavation in Leadenhall street, London, may, in the opinion of archeologists, rank in importance with the Neanderthal and Piltdown cranial shells.

CENSORSHIP BY SOVIET RELAXED

Removal of Restrictions on Dispatches Considered

Correspondents Given Free Hand on Mail Copy

Trade Monopoly Bureau's Reorganization Likely

[BY CABLE—EXCLUSIVE DISPATCH]

MOSCOW, Oct. 21.—Abolition of the censorship on foreign press telegrams and reorganization of the foreign trade monopoly department on a new basis are being seriously considered by the soviet authorities. Neither is by any means certain but it can be said that both are now more probable than at any previous moment.

Regarding the censorship, it is argued that the period of counter-revolutionary danger is past and the soviet government is now too firmly established to fear anything worse than annoyance as a result of foreign telegraphic freedom from Russia. It is realized, too, that restriction of press liberty here can not fail to strengthen malicious reports about Russian affairs from the Baltic states and other sources outside the soviet union. Therefore, it seems more logical to give foreign correspondents here a free hand, but with a gentle reminder that they will be held personally responsible for the accuracy and good faith in their dispatches.

CENSORSHIP RELAXED

In point of fact the censorship here on dispatches is already much relaxed. As regards mail copy the censor's stamp no longer is required.

Reorganization of the foreign trade monopoly bureau formed a subject of keen discussion of the recent session of the central committee of the Communist party, which appointed a commission to study the matter in detail. During the past four years there always have been rumors about this time of year that the monopoly bureau was to be reorganized but hitherto its chief, Krassin, has been able to resist any material change. Appointment of this commission and nomination as president of Kulbeshef, one of the most vigorous critics of the present system of the monopoly bureau, indicates a change is no longer avoidable.

RAKOVSKY TO PARIS

The fact that the soviet Ambassador at London, Rakovsky, instead of leaving for England last Sunday, as he intended, will go to Paris indicates that Krassin, titular Ambassador at Paris as well as commissar for the foreign trade monopoly, is likely to stay here sometime. Incidentally although Rakovsky proposes to stay in Paris only a week or so, it also indicates that the soviet government would like to talk with the French before approaching the more difficult problem of negotiations with England. Krassin always has stood for the transaction of foreign business directly by the monopoly bureau, some of whose departments abroad have swelled to unwieldy dimensions—nearly 2000 employees in Germany, more than 1000 in England, and upward of 500 in France.

Million Dollar Suit on Chicago Mayor Up Soon

[BY A. P. NIGHT WIRE]

CHICAGO, Oct. 21.—An early trial of the suit of The Chicago Tribune to collect more than $1,000,000 from former Mayor W. H. Thompson and members of his administration was assured today. Judge Friend in Circuit Court overruled a demurrer of two new defendants in the suit and ordered all defendants to file their answers within thirty days.

The Tribune as a taxpayer, filed suit to collect money which, it charged, was fraudulently paid to real estate experts employed to evaluate property in condemnation suits. The $1,000,000, the bill charges, was split among the defendants.

Late Ripening Grapes Cause Car Shortage

[BY A. P. NIGHT WIRE]

SAN FRANCISCO, Oct. 21.—The heavy rush of California grapes into the packing sheds has caused a car shortage that is beginning to worry many growers, a local paper says tonight. Fervent appeals for more cars, the article says, are being sent out by growers from many points in the San Joaquin Valley, declaring they are facing heavy losses through failure to get their products to the markets.

The car shortage is attributed to a late crop of grapes bringing about a demand for cars all at one time, and the slowness in the grape movement in eastern terminals is due to a recent rush of fruit which has caused prices to drop.

Pharmacists of Arizona Would Amend Dry Law

[EXCLUSIVE DISPATCH]

YUMA (Ariz.) Oct. 21.—Interest in the third annual convention of the Arizona Pharmaceutical Association, which opened here today and will continue through tomorrow, centered upon a drive to have the Arizona liquor laws so amended as to permit the sale of liquor by medical prescription.

The old dry law of the State does not permit the sale transportation or manufacture of intoxicating liquors under any circumstances or for any purposes, although it does not prohibit simple possession. Harry Martin of Phoenix stressed the importance of a united move in this direction.

"DIRECT-U" will direct you to the places that sell Hanan Hosiery or any advertised product. Write or phone The Times, MEtropolitan 0700.

SOVIET AGENTS BUYING SHEEP

Russians Visit Stockyards at Chicago

Plans Made for Improving Native Breeds

American Farm Implements Desired

[EXCLUSIVE DISPATCH]

CHICAGO, Oct. 21.—Three representatives of the Russian soviet government were sightseeing in the stockyards after having toured the West on a sheep buying expedition. They bought 3000 head, mostly rambouillet bucks, paying as high as $2000 a head, the total purchase price being $250,000.

The delegation consisted of Michael S. Perefer Kovitsh, manager of the live-stock department of the Russian government, Prof. Michel F. Ivanoc of a Moscow Agricultural University, and N. N. Klebnik, official interpreter. W. W. Burch, editor of the American Sheep Breeder, welcomed them, hailing their visit as the beginning of the resumption of trade relations between America and Russia.

RUSSIA PROSPERS

M. Perefer Kovitsh said at the beginning he could not discuss political questions but he was perfectly willing to discuss Russia's agricultural situation. One inferred from him that Russia is experiencing prosperity. Among the other bits of information concerning Russia gleaned from these visitors were these:

Russia now has about 80,000,000 sheep and hundreds of millions of head of other live stock. The rams purchased here are not to increase the quantity there but to improve the quality. Through crossing breeds it is expected a better grade of wool will be produced. Sheep shearing machinery was bought here for a trial.

Russia is anxious to enlarge its textile business and to be able to depend entirely on its own production of wool for manufacturing purposes. Another committee has been studying our textile mills near Philadelphia and Boston.

One of the greatest needs of Russia at this time is a great quantity of farming implements. Since the revolution the farmer now has practically all the land he wants but has been unable to develop all his ground because of the lack of farm machinery.

Another Russian commission has purchased a huge quantity of Ford tractors as well as many Ford trucks. More are to be bought later. Another need is dairy machinery. Russia exports a large amount of butter to England and Germany and is desirous of exporting more.

SHEEP FROM ENGLAND

Several thousands of Shropshire, Hampshire and Lincoln long wool sheep were bought in England before these agents of Russia came here to get more. They also bought five boat loads of hogs. The need of hogs is about the same as of sheep, to improve the breed. Russia has built up quite an industry in exporting bacon to England but needs more curing machinery which is being obtained in Denmark and England.

Kovitsh said he had intended to buy perhaps as many as 6000 head of sheep here but was misinformed as to the best season for buying. Russia is doing everything possible to aid its farmers, graduates of agricultural schools being sent among them to teach them modern methods and use of modern machinery. Use will be made of our stockyards and packing plant systems.

Rains Relieve Long Drought in Blue Grass

[EXCLUSIVE DISPATCH]

LOUISVILLE (Ky.) Oct. 21.—Kentucky is recovering from the worst drought the State has ever known. Steady rains the last week or two have gone far toward flushing the hundreds of streams in the lowlands, have poured a considerable volume of water in the mountain headwaters of rivers and have replenished wells, cisterns and city reservoirs.

But, according to estimates, at least $5,000,000 in damage was wrought to farmers over the State. Blistering heat and the excessive drought continued with slight relief from the latter part of May until October. Corn and tobacco, the main crops, received blows equally hard and in many sections, garden vegetation was almost ruined. Many towns ordered residents not to sprinkle lawns and even the Saturday night bath was in danger of becoming extinct.

Jamaica to Ask Investigation of Ship Seizure

[BY CABLE AND ASSOCIATED PRESS]

KINGSTON (Jamaica) Oct. 21.—The seizure of two Caymanian schooners and the arrest of their crews numbering thirteen by the Colombian government was brought up in the legislative council today. The government has decided to ask the British Foreign Office to inquire into the circumstances.

The Colombian government has complained that the vessels were catching turtles in the prohibited zone. It is reported a British warship may proceed to Cartagena, Colombia, to investigate the occurrence.

The Caymanian Islands, lying about 200 miles northwest of Jamaica, are included under the government of that colony.

COOLIDGE URGED TO PRESS VETERAN AID

[BY A. P. NIGHT WIRE]

WASHINGTON, Oct. 21.—Additional legislation in behalf of disabled veterans of all wars was urged upon President Coolidge today by Fred Stover of Butler, commander-in-chief of the Veterans of Foreign Wars, who urged the President to transmit the subject in his message to Congress.

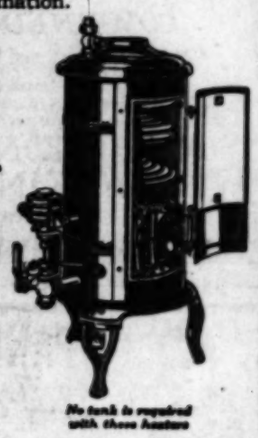
Hot Baths Always Ready No Time or Money Wasted

Br—r—r! No hot water. Someone forgot to light the heater, or they beat you to it and used it all. No bath today. It's enough to make a man swear!

But if you had a Hoffman instantaneous, automatic water heater you'd *swear by it*, for then the supply of steaming hot water couldn't be exhausted. Any quantity ready, at any time, at the turn of the faucet.

And this service is economical. You pay to heat only the amount used—not a tankful when you need but a panful. Better look into this—quickly. Call or 'phone for full information.

The New No. 35 HOFFMAN Automatic Gas Water Heater NOW ONLY $75



At the right is shown the new Hoffman No. 35 now priced at $75. For larger homes the new No. 45 is only $90. See and learn about both of these models.

No tank is required with these heaters

U.S.C. HOSPITAL LIST GROWING

Many Trojan Gridders Laid Up With Injuries

Boren Latest Addition to Men on the Blink

University of Arizona in for Warm Afternoon

This football business at U.S.C. begins to resemble a case of the survival of the fittest. A flock of promising young men are now on the hospital list and the prospects are that the number of injured players will increase during the next few days rather than fall off.

HOWARD JONES

Howard Jones is endeavoring to put enough charge into his line so that he won't have to grow white-haired worrying about a touchdown with his team on the six-inch line—as was the case last week. In order to secure this charge it is necessary that the athletes go through considerable scrimmage, inasmuch as nothing but the real stuff will suffice to show Jones what a man has or hasn't, the affairs are knock-down, drag-'em-out brawls.

Charley Boren, only recently fallen heir to a halfback berth, is the latest to join the hospital ranks. Boren was dashing about last night, tripped and had to be assisted from the field, his leg refusing to support him in its customary manner. How serious is his injury remains to be seen.

Others temporarily laid up include Morton Kaer, quarterback; Lloyd Hershberger, tackle; and Hobbs Adams and Morris Badgro, ends. In addition, Cliff Herd has about half his freshmen squad on

(Continued on Page 3, Column 5)

TROJAN FROSH FACE STANFORD TEAM SATURDAY

U.S.C. Babes Working Hard for Big Game of Season

Hibbs, Tackle; Coach Herd; Porter, Halfback

THE mystery bug has bitten Cliff Herd, frosh coach at University of Southern California, and the Trojan mentor has refused to divulge his line-up against the Stanford Babes when the teams clash as a preliminary to the Stanford-Oregon Aggie game at Palo Alto Saturday. Herd is driving his young hopefuls through a strenuous practice in preparation for the tilt. The squad is to leave Friday evening. Fox at center, Schaub at guard, Hibbs at tackle, and Porter at full seem to be the only berths that will go to the men named with any degree of certainty. The rest of the positions are being hotly contested for and could be gobbled up by any of a number of men.

The Babes went through a scrimmage against Bill Cole's justly famous ineligibles yesterday afternoon, and the latter squad, using the plays employed by the Cardinal Frosh, went through for too many touchdowns to mention unblushingly, with an ease that was only too apparent. Herd was considerably upset over the showing of his charges, and promised some sudden changes in the way of line-up if a decided turn for the better didn't appear shortly.

The squad is scheduled to leave tomorrow evening for the game, arriving at Palo Alto early Saturday morning.

TIGERS HUNT GRIZZLIES

Two Grid Teams Meet Saturday in Determining Game of Conference Schedule

Two potential Southern California Conference football championship teams clash Saturday afternoon at Patterson Field, when Coaches Sid Nichols and Bill Spaulding will send in the best they have on the grid squads at the two schools in what is generally conceded to be the decisive game in the campaign for the league title. After the battle is over should the Branch emerge victors then both teams will remain potential champs. Should the Tigers win the Branch will not be anything more than potential for this season and the Eagle Rock team will be generally conceded to have the bunting cinched.

Much has been said about the weakening of the two teams as a result of injuries, influenza, and all the what-nots that afflict football players and send coaches in to delirious tantruma, a close relative to delirium tremens, at this time of the year. Loren Peak has been oft reported lost to the Grizzly crew, but reports from the Vermont-avenue school state that the young man in question refuses to be in anything but condition for the contest.

George Purser, one of the early-season stand-bys of the Tiger coach, is still in a weak condition as a result of the flu, but his teammate, Buxton, who was sick from the same cause at the same time, has recovered and will play at half for the Bengals.

Capt. Ranius will strengthen the center of the line considerably. Hitch has had a poor shoulder, but the injury was slight and he will be quite sure to be seen at guard Saturday. Nash will be the other of the center trio.

Cy Walton is in perfect condition and gives Coach Spaulding his real punch in the offensive. He is going to give the famed Tiger ends plenty of work for his long suit is running the ends. He weighs less than 150, but he is all quality.

WILL START JUAREZ TRACK THIS WINTER

[BY A. P. NIGHT WIRE]

EL PASO (Tex.) Oct. 21.—Racing will be resumed this winter at the Juarez track, which was closed in 1916, during the Mexican revolution.

Col. Matt J. Wynn, general manager of the Kentucky Jockey Club, one of the owners of the Juarez track, yesterday notified Fred Fenchler of the Jockey Club, Juarez, that he had concluded arrangements for a three-year lease of the track to permanent and responsible eastern racing men.

The Juarez track was the fastest in the world and because of the weather broke all records for weather-fair fast-track days.

DE PINTO, STARKEY DRAW

[BY A. P. NIGHT WIRE]

KLAMATH FALLS (Or.) Oct. 21. Mike De Pinto of Portland and Kid Starkey of Klamath Falls fought a slashing ten-round draw here last night in the main event of the municipal boxing commission card.

WALKER NOW END-MAN

[BY A. P. NIGHT WIRE]

STANFORD UNIVERSITY, Oct. 21.—The Stanford varsity went through a hard scrimmage with the "Goofs" on practice field this afternoon in preparation for their tangle with the Oregon Aggies here Saturday. Dick Hyland, halfback and safety man, is still a little out of shape from his work against the Trojans last Saturday, but he is expected to be in top form by the end of the week.

Ed Walker made such a good showing last Saturday at one end position, he has been made over from quarter into end, and probably will solve Coach Warner's biggest problem, which is to have ends on both sides of the line who can stop fast halfbacks on opposing teams.

Five Cardinals were tried and discarded before Warner decided upon Walker.

TWO ST. MARY'S STARS OUT AS NEVADA CONTEST NEARS

[BY A. P. NIGHT WIRE]

SAN FRANCISCO, Oct. 21.—Injuries may keep two of St. Mary's star football players out of the game against the University of Nevada here next Saturday.

It was learned today that "Ducky" Grant, captain of the Oakland college eleven, might be unable to play for the rest of the season owing to an injured leg.

There is also a chance that "Red" Strader, sensational fullback, will be out of the Nevada game. He was pretty badly mauled by California last Saturday.

CARDINALS ENCOUNTER FARMERS

Oregon Aggies at Palo Alto Saturday; Have Never Won from Stanford

[BY A. P. NIGHT WIRE]

CORVALLIS (Or.) Oct. 21. Undaunted by the fact that they have never yet defeated Stanford in the three times that the football teams have met, the Oregon Aggies have been working nightly for the coming contest with a show of speed and determination which indicates a terrific battle next Saturday.

The Aggies met the Cardinals first on the local field in 1919, when the score was 14 to 6. Incidentally that was the first appearance on the Coast of the much-discussed huddle system of calling signals, Stanford using it to good advantage, but later abandoning it. In 1921 the teams played to a 14-to-7 score, the Cardinals winning. Again in 1922 they won, but by a narrow margin of 6 to 0.

The accurate toe of "Wee" Schulmerich, half, may be expected to play a prominent part in any scoring the Aggies may do at Palo Alto. Schulmerich scored field goals from placement last year against the University of Washington, University of Southern California and Oregon. His ability to convert the extra point won the game with Washington State College, 14 to 13. This year field goals have been made against Willamette and Gonzaga, while against Whitman, Schulmerich turned in seven extra points in seven tries.

Little World's Series Begins Today in North

[BY A. P. NIGHT WIRE]

SAN FRANCISCO, Oct. 21. The Louisville baseball team, champions of the American Association, arrived here today for their nine-game series with the San Francisco Seals, beginning tomorrow.

The visiting team, twenty-five strong, worked out today at Recreation Park. Although defeated by Baltimore in a recent series, the Louisville club is rated one of the best ever organized in eastern and middle western minor leagues. The Seals this year are about the strongest outfit gathered together on the Coast for many seasons. They had little difficulty in winning the 1925 Pacific Coast League pennant.

CHARLIE CHUNG SHOOTS TWO STROKES UNDER PAR

Almond-Eyed Player Turns in Card of 68 in Feature First-Round Match on Hollywood Links

BY BILL WISE

Charlie (Golfing) Chung, Chinese Hawaiian champ, playing in this fourth California tournament, clipped two strokes from par over the Hollywood Country Club course yesterday, to defeat Capt. A. Bullock-Webster, home-club ace and former State amateur title-holder, 4 and 2, in the feature first-round title match of the annual club invitational.

One down at the turn, and two over par, Chung came home, four under for the fast last nine—to finish two under par, in a match that drew a record gallery that was amply rewarded by a liberal display of championship golf.

Charlie Chung

Capt. A. Bullock-Webster, outstanding Hollywood golfer, who equaled Pro Bill Amor's course record of 66, several months ago played his usual steady game, but lost to a literal flock of birdies and pars, chalked up by the Chinese challenger during the last nine.

Par—Out	4	4	4	3	5	3	4	5	36
Chung—Out	4	4	4	3	5	3	4	5	36
Webster—Out	5	4	4	3	5	3	4	5	38
Par—In	3	4	4	5	4	3	4	5	36
Chung—In	3	3	4	5	4	3	4	5	34
Webster—In	3	4	4	5	4	3	4	5	36

L. R. Conn of Flintridge defeated George R. Cornes of Hollywood, Rancho and Lakeside, 4 and 2 in the feature upset of the day. The golfing druggist rarely misses finishing in the money and after tying with George Von Elm and Earl Neitzel for second low gross honors in the qualifying play, George was expected to ride through to the finals, despite the fact that he would have been called upon to meet the tourney sensation—Charlie Chung, today.

Stanley Hughes, diminutive home club star, one of the most popular figures in western golf, defeated Dr. A. H. Moore of Los Angeles, 5 and 4, in another fast title flight match. Ben Burton of Wilshire

BEARS JOURNEY NORTH

Leave Berkeley for Portland to Meet University of Oregon Eleven in First Conference Game

[BY A. P. NIGHT WIRE]

BERKELEY, Oct. 21.—The Golden Bear emerged from its quarters tonight for an invasion of the North. Accompanied by coaches, officials and student rooters, twenty-five members of California's varsity football squad entrained late in the evening for Portland, where the Blue and Gold will open its conference season with a game against the University of Oregon.

Another sizzling day of practice greeted the team today. With only three days of this week to run through plays and signals, Coach Andy Smith sent his charges through work lasting from mid-afternoon until late at night. A ghost ball aided the players. In addition huge arc lights were called into action to flood California stadium with brightness.

Besides intensive practice on fundamentals this week, Coach Smith put especial stress on the kicking end of the game. This system of long high punts delivered deep into enemy territory with a pair of fast ends to down the opposing safety man in his tracks, is the Smith style of play. Accompanying such a method is the possible chance of recovering a fumbled ball besides the ultimate gain of much yardage. Dixon, the Bear punter, has been kicking only fairly well in practice. His average has been around 40 yards.

With the exception of two men, the Blue and Gold squad left in good shape. Grimm, a backfield man, is suffering from a bad an-

Stars Compete in National A.A.U. Squash Tournament at Hollywood Athletic C

JUNIORS PLAY WITH SENIORS

Gallery and Butler Favored to Win Tourney

Bill Tilden Only Champion Contender Out

Winners in Today's Matches Will be Paired

With thirty-two entries, comprising the better-known national stars, the senior national A.A.U. squash tournament opens today on the courts of the Hollywood Athletic Club. With the exception of Bill Tilden, national net champion, who has left the city, all of the leaders in the recently completed junior play will appear in the present tournament. Play today starts promptly at 11 o'clock.

In addition to the singles play, an even dozen teams have entered the doubles division, promising a flock of expert competition in that sector.

Tom Gallery, victor in the junior play, and David Butler, who finished third, are the outstanding favorites. Gallery defeated Tilden rather handily in the final match for the title, after Big Bill had blazed his way through a healthy contingent of preliminary opponents.

Winners of the sixteen matches, will immediately be paired in eight more contests, and these will be run off today, leaving eight to remain in the round before the semi-finals. The pairings:

Tom Gallery vs. Lyon, Jr.; U. Harriet vs. Sandy Wilson; H. Godshall vs. Roy Sargeant; Cahoune vs. Frank Borzage; Les Klawater vs. B. A. Hinckley; F. Carlton vs. Fred Keller; Doc Frieze vs. Lem Bailey; Boltinghouse vs. Hinckley; Albright vs. Wilkins; Henderson vs. Cox; Schaumer vs. Jones; Dodge vs. Dan Jones; Holman vs. Carver; Church vs. Freischke; Redwine vs. Bailey; Cooley vs. Butler.

Gallery-Hinckley vs. Church-W. Jones; Godshall-partner vs. Butler-Schaumer; Frieze-Dodge vs. Keller-Cawes; Eastman-Thompson vs. Calhoune-Bailey; Jones-Carlton vs. Boltinghouse-Lyon, Jr.; Cox-Sargeant vs. Wilson Albright.

Branch Rooters Back Bears in Pomona Battle

When Andy Smith's Golden Bears go against the Pomona College eleven in the Coliseum a week from Saturday they will have the backing of 3000 Southern Branch rooters. The Grizzlies are in the north on that date, playing St. Mary's. Accordingly the Southern Branch management has asked for 3000 seats to urge the Bears on to victory in their brawl with the Sagehens.

The California eleven will be quartered at the Ambassador Hotel during its sojourn here. The Bear band, numbering fifty pieces, will accompany the team south.

TIGERS STAGE HUGE RALLY IN NEW BOWL

The greatest football rally in the history of Occidental College will be held in the new college Greek Theater, tomorrow night to arouse spirit and enthusiasm for the decisive game scheduled for Saturday between Occidental and University of California, Southern Branch, on Patterson Field.

The rally not only marks the first important game of the season, but it marks the beginning of the night rallies made possible by the recently completed theater. The bowl accommodates 5000 people and the rally committee of the institution plans to pack the new structure to capacity.

THE IRON DUKE

BY FEG MURRAY

Metropolitan Newspaper Service

There should be plenty of morals drawn in any life story of William Muldoon, former chairman and present member of the New York State Boxing Commission, but this account will go no further than to say, "If you want to be hale and hearty at 80, be on the level."

For those three words, "On the level," exactly describe Muldoon's whole life, as professional wrestler, trainer of John L. Sullivan, health farm owner and boxing commissioner. And now Bill Muldoon, "the Solid Man," who was born four years before the first Gold Rush to California, has a springy step and a flash in his eye, and the appearance of a man of 50.

William Muldoon first became prominent in sporting circles about forty-five years ago as manager for John L. Sullivan. He arranged a benefit for John L. in 1881, and eight years later took the fat old warrior in hand to get him in shape for his bout with Kilrain. He made the "Old Roman" train as he'd never trained before, and to enforce his discipline, wielded a mean baseball bat, or threw the Boston Strong Boy time and again with his wrestling skill.

Muldoon was a drummer boy in the Civil War at the age of 16, later a member of the New York police force, and world's Graeco-Roman wrestling champion. And, in spite of once having knocked out the late T. R., he and the President were the best of friends.

NINE DAYS OF HORSEMANSHIP START AT ASCOT SATURDAY

With a program calling for the settlement of fourteen world's championships in cowboy sports in nine days beginning Saturday afternoon, officials of the organization of Add P. Day, now operating at Ascot Speedway, are in high gear and running smoothly along a road that seems certain to end with the most successful round-up in the history of the West.

Opening Saturday afternoon the contests will be waged twice each day—afternoon and night—with the winners collecting not only carloads of cups, silver plate and equipments, but also the $20,000 in cash prizes that has been hung up. The Los Angeles round-up, hereafter to be an annual event of the fall season in Los Angeles, is getting away to an auspicious start, with the prize money the largest, the stock the best in the country and the contestants all winners of more than thirty of the annual round-ups and rodeos all over the United States Canada and Mexico.

More than twenty carloads of horses and steers have arrived for the round-up. The ranges of Montana, Idaho, California, Nevada, Washington, Oregan and Northern Mexico have been scoured for the very best of fighting horses and steers and every seasoned veteran rider and bulldogger entered in the contests has expressed the opinion that the winner of the Los Angeles round-up will be entitled, from every angle, to write "world's champion" after his name.

Ascot has undergone a thorough reconstruction for the big contests. In addition to the 12,000 reserved seats in the huge grand-stand more than 15,000 free seats have been added encircling the quarter-mile track that has been built. Reservations have been piling up at the office of the organization and tickets are on sale at all the regular downtown theater ticket agencies. Telephone reservations may be made by calling ANgelus 0149.

BAY LEAGUE TEAMS CLASH

Two of the Bay League's strongest lightweight elevens come to blows today at Inglewood, when that city's team tries to administer a kayoe to Redondo. Neither school has been trimmed in league arguments to date, and there is little edge either way.

The Sentinels have good men in Shaffer and Hagen, fullback and quarterback, respectively. Cox, a lad who has given many ends miserable afternoons and caused others to stand up before the withering glances of stern-hearted coaches, is Redondo's best. He has speed and football instinct.

Huntington Park, a team to be reckoned with before the schedule concludes, has a bye. Compton, also undefeated, should not have much trouble with San Pedro on the former's grounds. Venice and Santa Monica, tail-enders, will go through a program of exercises at Samohi.

STANFORD SPORT BRIEF

[EXCLUSIVE DISPATCH]

PALO ALTO, Oct. 21.—When the Stanford eleven conquered the Trojans they not only stole the "Thundering Herd's" thunder but they also had a big role on the backs of the highly touted Herd. Last New Year's it was the Notre Dame team that gained the spot of the horsemen but they had nothing on Pop Warner's men when they stopped the Southern California boys. Mike Murphy, in the role of chief rider, endeared himself to every loyal Stanford supporter, and the same can be said of Capt. Ernie Nevers and the rest of the team.

The Stanford men suffered no injuries except the usual bruises that come with any game. "Mugs" Mitchel is still limping around from a bad bump on the knee, but it has not kept him from calling signals in the practices during the week.

The freshman eleven just eased out the strong Sacramento junior College team last Saturday by the score of 7-0. Good defense by both teams made it difficult to gain much yardage. The Bears' score came in the third period. A pass, Wilkes to Sims, was good for 30 yards, and another first down put the ball on the Junior College 5-yard line. Harder, right end, took the ball over on a double reverse after the Sacramento players had failed. The temporary loss of Byrne, Artesen, and Jones in the line made it difficult to gain through the forward wall. Wilkes, at halfback, was getting off some good punts and is proving to be one of Coach Hunt's most valuable men.

Entries in the intramural handball tournament have closed and the first rounds will be played Monday. Two singles and two doubles teams have been entered by each living group on the campus. Varsity handball players are not allowed to compete.

Encina pool has been filled and the swimmers have been taking their first workout of the year during the past week. A new low diving board conforming with the Olympic regulations has been installed. Both the high and low boards are now of regulation height.

Forty golfers will tee off at the Burlingame Country Club course between now and the end of the month in the all-University tournament. Each contestant will complete seventy-two holes of medal play. The man making the best score will be elected to the varsity squad. There will be three groups, arranged according to handicaps, and the winner and runner-up of each division will be awarded medals.

Fritz Dibler, Tom Caudill and Dick Lang, members of last year's varsity, are entered and will encounter plenty of competition. Eddie Wayburn, of the 1925 Frosh squad, Bobbie Rose, last Jess star, and Mike Miller, a transfer from U.S.C., are also entered for the honors in the tournament.

FREAK FOOTBALL

Last year I happened to be in Los Angeles at the time of the opening of the football season, and ambled out to the Coliseum to see the Southern California eleven exercise at the expense of Caltech. During the fourth quarter, a play happened that may well be described as "One for the books." Once in a great while the ball may travel 140 or 150 yards in one play, as in the case of a touchdown made from the kick-off, but in this instance the ball went a total distance of 21 yards farther than twice the length of the field.

Green's strategy, on observing that his opponents were asleep, was quite all right, especially as he made sure that the referee had not blown his whistle before he set out for the Caltech goal line. But it was highly amusing to see him drop the ball when tackled only two yards short of his destination after carrying it further than any of the longest runs on record. And then, as an anticlimax, came the Caltech man's 42-yard dash towards the U.S.C. goal.

In 1923 a freak happening occurred in the Detroit-Hope College game, when Hope had the ball for 16 consecutive downs, yet fell back 40 yards. The answer is that on three separate occasions Hope kicked on the fourth down only to have the kick blocked and a Hope player recover the ball.

FARREN VICTOR OVER SCOTT IN BAY CITY

[BY A. P. NIGHT WIRE]

SAN FRANCISCO, Oct. 21.—Frankie Farren, San Francisco lightweight, won a decision in six rounds from Harry Scott of Oakland here tonight.

Art Emery, San Francisco, took a six-round decision from Tim Bahey of San Jose. They are welterweights.

Peter Meyer, San Francisco lightweight, won a technical knockout from Johnny Edwards of Manila in the third round.

BAY CITY STAR IS TITLEBOUND

Mrs. Sheedy Golfing to Crown in Northern Tourney

Trips Mrs. Lengfeld 6 and 5 in Second Match

Quartet of Stars Win Through to Semifinals Today

[EXCLUSIVE DISPATCH]

SAN FRANCISCO, Oct. 21.—Mrs. Frank Sheedy, San Francisco golf champion, strode a pace nearer the Northern California championship today when she defeated Mrs. Louis Lengfeld, 6 and 5, on the new Ingleside course. Mrs. Sheedy meets Mrs. Brent Potter in one semifinal tomorrow, Mrs. W. C. Van Antwerp, tournament medalist, playing Mrs. Milton Bernard in the other.

The mills of golf ground slowly today, but they ground exceedingly well. So well that play has finally reached a stage when the bridge-table pickers are reluctant to hazard an opinion. The semi-finalists are four of the finest golfers in Northern California. While Mrs. Van Antwerp and Mrs. Sheedy still retain an edge by reason of their proved match mettle, their opponents are both experienced and competent.

MRS. SHEEDY WINS

By scoring an approximate 85, the flashiest round of the day, Mrs. Sheedy again took the spotlight today. She had Mrs. Lengfeld 4 down at the turn and, despite two 7s, took 44 on the nine, one better than Mrs. Lengfeld.

After losing the tenth, Mrs. Lengfeld made a brave birdie 2 on the eleventh. Back again in bang-bang style came Mrs. Sheedy to take the twelfth, when the Beresford champion lapsed to a 7 and the thirteenth with a fair 4.

Mrs. Potter eliminated Mrs. Ernest A. Lafleur, 6 and 5. The Lake Merced player ousted Mrs. Charles F. Ford Tuesday, but could not keep afloat in the deep water of second-round class.

Mrs. Potter, like Mrs. Sheedy, has played much at Lincoln Park, although she is officially registered from San Jose Country Club. In the Diamond Jubilee tournaments a month ago, she defeated the city title-holder in medal competition.

CONTINUES DRIVE

Mrs. Van Antwerp continued her relentless drive toward the championship when she outscored Mrs. W. C. Gilmour, 6 and 5. Mrs. Gilmour, one of the most recent Olympic Club players to give promise of continuing good golf, was up against a much too-seasoned competitor today.

During the last few years Mrs. Van Antwerp has plucked titles like roses. In this tournament, her first real test comes tomorrow. Mrs. Milton Barnard of Sequoyah has exhibited a silky game in every start of this tournament.

REDLANDS HIGH TEAM PLAYS COLTON TODAY

[EXCLUSIVE DISPATCH]

REDLANDS, Oct. 21. — Coach Malcom Smith of Redlands High School will take his football team to Colton tomorrow for the second league game of the season. This week he has been attempting to smooth off some of the rough spots that showed up in the game with Riverside and hopes his men will play a pretty good game against Colton, at least good enough to win and wipe out the sting of the defeat handed them last year. The lightweights are to play Colton the next day; both games will be at Colton.

PLANE FALL FATAL TO EX-HOUSTON MANAGER

[BY A. P. NIGHT WIRE]

HOUSTON (Tex.) Oct. 21.—Marvin Goodwin, 38 years of age, pitcher, purchased by the Cincinnati Reds, and last year's manager of the Houston, Texas League club, died today from injuries received in an airplane wreck Sunday.

SPEED SKATE CHAMP EXHIBITION WINNER

Art Staff, world's champion speed ice-skater, easily defeated Speed Taylor, a local skate marvel, in a five-lap exhibition race last night at the Palais de Glace. Staff gave Taylor a half-lap handicap, but overcame the local speedster on the fourth lap and won by a good margin.

TRAPSHOOTING AT MALIBU

Lee McMurray of the B. H. Dyas Company announced yesterday that the Malibu Lake Club, located eight miles beyond Calabasas, will hold an open trapshooting tournament next Sunday morning. Competition will start at 10 o'clock. The program will be 100 targets with two trophies up.

WOMEN TO GOLF AT WESTWARD HO

Members of the Women's Auxiliary of the S.C.G.A. are scheduled to play in a special two-class match play against par tourney at Larry Kelly's Westward Ho Club today. Entrants will play three 9-hole rounds over the short course in the morning, and after luncheon, will play 18 holes over the miniature layout for trophies donated by the club. There will be another feminine tourney at Annandale tomorrow. Winners of low net in three classes will be awarded drivers donated by A. K. Bourne, vice-president of the club, who shot 76, for the first time, yesterday.

COAST PREP LEAGUE TEAMS SET FOR WEEK-END ACTION

Lightweight teams in the Coast Prep League, undoubtedly the strongest circuit in Southern California, mingle tomorrow in a trio of contests, with the varsities setting forth Saturday.

San Diego claims the leadership in the organization at present, as a pair of victories put the squads in the lead, the southerners being the only school to turn in two victories.

Tomorrow's lightweight games find San Diego, which defeated Alhambra, 20 to 0, at Glendale to engage the Dynamiters, who last week trounced South Pasadena, 30 to 6. Long Beach, 15-to-13 conqueror of Santa Ana, performs at Alhambra; Whittier, which tied Pasadena, entertains Santa Ana, while Pasadena visits at South Pasadena.

The varsity struggles Saturday are expected to give a good line on prospective championship material. San Diego, having scored a decisive 45-to-0 victory over Alhambra, is touted as the ultimate victor. The southerners, in three games, have rung up the imposing total of 167 points, while the enemy has not been able to score. This includes a 76-to-0 victory over Sweetwater, and a 46-to-0 defeat of Manual Arts, as well as the Alhambra triumph. Glendale dropped a 26-to-13 decision to South Pasadena, and is not expected to afford Perry's charges much opposition.

The Pasadena-South Pasadena contest should prove interesting, however, as one squad will be eliminated from contention by losing. The Pasadena varsity played a scoreless tie with Whittier last week, in a well-played game.

A similar condition exists at Whittier, where the Poets entertain Santa Ana. The results of the two games are expected to give a good line on the Long Beach-Pasadena contest, one of the annual fixtures of the prep season. Pasadena is unbeaten in tilts to date, but defeated Franklin by a score of only 6 to 0, while South Pasadena defeated the same squad, 24 to 0.

Long Beach is favored to win over Alhambra in the other game.

The standings and schedules for both circuits are as follows:

LIGHTWEIGHTS

	W	L	T	Pct.
San Diego	1	0	0	1.000
Glendale	1	0	0	1.000
Long Beach	0	0	1	.500
Pasadena	0	0	1	.500
Whittier	0	0	1	.500
Alhambra	0	1	0	.000
South Pasadena	0	1	0	.000
Santa Ana	0	1	0	.000

TOMORROW'S SCHEDULE

South Pasadena at Pasadena.
Whittier at Santa Ana.
Long Beach at Alhambra.
San Diego at Glendale.

VARSITY

	W	L	T	Pct.
San Diego	1	0	0	1.000
South Pasadena	1	0	0	1.000
Santa Ana	0	0	1	.500
Pasadena	0	0	1	.500
Whittier	0	0	1	.500
Long Beach	0	1	0	.000
Alhambra	0	1	0	.000
Glendale	0	1	0	.000

SATURDAY'S SCHEDULE

Glendale at San Diego.
Pasadena at South Pasadena.
Santa Ana at Whittier.
Alhambra at Long Beach.

Goldstein to Face Hellman in Bay Arena

[BY A. P. NIGHT WIRE]

SAN FRANCISCO, Oct. 21.—Two ten-round bouts, bringing together some rugged, hard-fighting boys will be served up as separate boxing plums to fans here this week.

Abe Goldstein of New York, former bantamweight champion of the world, meets Chuck Hellman of Portland in a ten-round main bout of the New Mission Athletic Club program tomorrow night. Hellman came into the spotlight recently by a sensational win over Doc Snell, the Tacoma battler. The bout was held in Los Angeles.

Friday night Billy Alger of Phoenix, Ariz., and Spug Meyers, crack welterweight of Pocatello, Idaho, will sling leather in a ten-round fight at Dreamland rink. It will be Alger's fifty-seventh contest in sixty weeks.

Grizzly Golf Squad Forming Under Kelly

The Southern Branch golf team which was successfully coached to the Southern California collegiate title in 1924 by Larry Kelly, professional at the Westward Ho Country Club, is now organizing under his direction for the coming season.

The Grizzly golfers go to Palo Alto on November 14, when a six-man team will play the Stanford team. This is the day of the big game between California and Stanford this year.

Those who are out for the team are: Joe Crail, Harold Thompson, Amos Cuthill, Arch Cuthill, Red Dequa, Al Jacks, Frank Knox, Ed Rockwell, Harold McAllister and Everett Moore.

REASON FOR CHANGE IN TILT DATE GIVEN

Grid fans who wondered at the "wherefore" of the scheduling of the U.S.C.-Idaho game on Friday, October 30, instead of Saturday, were considerably enlightened this morning when Gwynne Wilson, graduate manager, pointed to the fact that the game is to be played at Moscow, and if it were on Saturday, Washington and Washington State would be tangling at Pullman, some twenty miles away. As the W.-W.-S. tilt is the annual "big game" of the Pacific Northwest, it was deemed advisable to move up the Trojan-Idaho game, and thus provide that section of the country with the biggest week-end of grid sport in its history without having conflicting games and dates. Wilson is preparing for the grid-o-graph, which will be in action in Bovard Auditorium, giving local fans a play-by-play account of the game.

THREE MORE JOIN DYAS HONOR CLUB

The last week found three more golfers applying for membership in the B. H. Dyas Hole-in-1 Golf Club. The trio had ample qualifications, each sinking a tee shot.

R. D. Hamilton scored a hole in one the fourteenth at Griffith Park. Walter Whitner sunk his tee shot at the eighth at Hollywood Country Club, and James Martin holed out in one at Griffith Park eighteenth hole.

The Dyas Hole-in-One Club is open to all golfers in California and Arizona. If a hole in one is made, the golfer is invited to send in a certified score card and his address to the Dyas Company. A gold emblem is awarded to new members.

HOLLYWOOD POLOISTS IN CONTESTS TODAY

Following the plans outlined by the new board of directors at the Hollywood Heights Polo and Hunt Club, night games at that organization will be discontinued and the Midweek game will be played on Thursday afternoon at 4:30, according to an announcement made yesterday by Frank Foster, president of the club.

The first of these matches will be held this afternoon when the Blues and Whites, the two fastest teams at the club, clash in an eight-chukker match. Both teams will be in excellent condition, having practiced every day this week and both will be well mounted on fresh horses, a carload and a half of which arrived here a few days ago from Imperial Valley, where they have been schooled for polo for more than six months past.

MITT CHAMPION IS OUTCLASSED

(Continued from First Page)

reached by apparently six inches Ballerino put up the kind of battle that had the whole house rooting for him. He was cheered even more in defeat than he probably would have been in victory.

Hudkins had Ballerino in trouble as early as the third round, when he smashed him into the ropes with a right to the head. However, Mike offset this blow and evened the round with a furious left hook that he brought up from the floor. They finished the round in a wild head-to-head seance.

MIKE LANDS OFTENER

Ballerino took the fourth by landing oftener than Hudkins, but the latter grabbed the fifth in spite of a left smack to the eye that rocked his head and made him blink.

The sixth was Hudkins's by a block, the "Wild Cat" resorting to his favorite tactics of working in close and pounding Ballerino violently about the kidneys.

The seventh was another Hudkins round, Ace hitting his foe with everything in the place, and yet, in spite of the rain of punches that beat upon his face and body, Ballerino had the stuff to crash a terrific left on Hudkins's jaw, which undermined the "Wild Cat's" pins.

HUDKINS GETS WILD

Hudkins was wild in the eighth, and Ballerino landed the cleaner blows, landing three rights to the head in a row, followed by a left to the same place.

The last two rounds belonged to Hudkins by virtue of his knockdowns of Ballerino, the ninth-round smash being a left hook to the jaw, and the tenth-round upset resulting from a right to the head.

The weights were announced as 130 for Ballerino and 135½ for Hudkins.

Before the main event started Jimmy McLarnin was introduced and received a tremendous ovation. He is to fight Jackie Fields at the Olympic November 12. Tommy O'Brien also got a big cheer when he was introduced and Jack Dempsey, the heavyweight king, was the recipient of a terrific roar of approval when he was induced to leave his seat beside the lovely Estelle and climb into the squared circle.

The semi-wind-up verdict was dragged down by Jack Spar, who almost knocked Sailor Ashmore out in the sixth and last round of their melee.

Frankie Britt brought his fight with Sailor Arrabe to a sudden close by knocking out his Filipino foe with a right to the head in the second round.

Morrie Eagleson and Sailor Mezier fought a roundhouse brawl to a draw in four sessions, and Bobby Near copped the curtain-raiser by knocking out Steve Zittle in the fourth round, the towel being thrown in for Zittle.

Ward Stopped by Navy Champ in Harbor Bout

Sailor Richie King, all-Navy featherweight champion, knocked out Battling Ward of Compton, in the eighth round of a scheduled ten-round main event at Wilmington last night. A right to the jaw did the business. Ward was down twice in the seventh round, once for no count and again for the count of nine, the bell saving him.

Sailor Reed of the U.S.S. Idaho and Harry Nelson battled to a good draw in the semifinal bout of eight rounds. Sailor Lucas of the U.S.S. Mississippi took a decision over Sailor Navarro of the U.S.S. Pennsylvania in the six-round special.

Sailor Eicher of the Maryland was knocked out by Arza Connelly in the third round of the opener with a right to the jaw. Frank Holborrow refereed. The house was packed to capacity.

PIRATES GET SERIES CHECKS FROM LANDIS

[EXCLUSIVE DISPATCH]

CHICAGO, Oct. 21.—Checks totaling $142,650.56 were mailed today from the office of Baseball Commissioner Landis to the world's series winning Pittsburgh Pirates. Twenty-five members of the team get full shares of $5332.71 each. Fred Clark, assistant manager, was awarded $1000, and the same amount goes to pitcher Rube Oldham, who pitched the last few innings of the final game with Washington and fanned Goose Goslin for the out that closed the series.

The Washington players will get their 40 per cent of the players' share of the gate by the end of the week.

FRESHMEN IN PRELIM

Yearlings Clash Before Varsities at C Tiger Contest Saturday

A game that bids fair to be the best exhibition of by the freshmen teams in the Southern Conference place when the Occidental College frosh eleven and first-year squad the University of California, tangle son Field in a curtain raiser for the varsity struggle stitutions.

Although the green-greeners have lost all conference the past years, the squad coupled to like a Vesuvius tables and give feat.

Vikings Meet Sons in Only Soccer Clash

With the two athletic clubs idle next Sunday, the scramble for points will be renewed with the Sons and Vikings in the stellar soccer attraction. These two squads with one win apiece are extremely anxious to again break into the win column and can be relied on to play hard to accomplish their purpose.

In some quarters, the Vikings are favored to take the measure of their opponents, but as a general thing there is little odds being given on either team. The game should be one of the hardest and most keenly contested yet seen this season.

Preliminary to the feature game, the Scots and Thistles will tangle. This game will start at 1 p.m. Thistles have not yet rounded into form, but with a little more experience, they should succeed in making it interesting for any of the other entries. It is just possible that Scots will find them quite some puzzle to solve.

PENN AND CHICAGO ALUMNI VIEW GAME

Friendly enemies of the University of Pennsylvania and the University of Chicago will meet at noon Saturday here in the University Club, Sixth and Hope streets, to hear the tide of battle being waged between the football teams of the two schools back on Franklin Field, Philadelphia. The Chicago alumni are being hosts to all Penn men this week at the club, having arranged for a complete play-by-play account of the game direct to the clubrooms. Because of the difference in time, reports will start coming in about noon.

TEA WITH SOCCER

The West Ham F. C. ground, one of the leading soccer football elevens of London, just completed, will accommodate 45,000 fans. It includes a first-class restaurant. It is a unique departure and will permit enthusiasts to obtain luncheons and teas on the spot.

inned Ranks of East's Unbeaten Teams Due to Be Depleted Saturday

OBSERVATIONS

BY THE INNOCENT BYSTANDER
BILL HENRY

NEXT Saturday's football game between the Grizzlies and Occidental will determine whether or not there is an an outstanding football team in the Southern California Conference. The only possibility for such a distinction is Occidental College. If the Grizzlies trim the boys from Eagle Rock it will look pretty much as though all of the football teams in Southern California, with the exception of the Trojans, are just about on a par, and that par is far below that of U.S.C. If the Tigers are victorious by anything resembling a score they will stick out pretty clearly above the rest of the field in the south.

• • •

Several schools around here are demanding recognition and are going to get it sooner or later. San Diego Junior College has a record for the season that may not set the world on fire, but none of the southern conference teams can sneeze at it. The boys from up on the hills—Azteca, they call themselves—have so far beaten both Caltech and Redlands and were nosed out, after a bum punt in the final period by the Grizzlies. La Verne, after being steam-rollered by Occidental, put up a battle with the Grizzlies and nearly beat Whittier.

• • •

We'd say from what we've seen that there is a distinct improvement in the type of football being played by the colleges hereabouts. A few seasons ago Pomona and Occidental were the only teams that looked as though they had been coached at all. Right now the coaching staffs at all of the conference schools are competent and thorough and are teaching their teams how to play first-class football. Their success is limited largely by the quality and quantity of material which is to be found at these comparatively small institutions.

• • •

Those who wish to settle arguments regarding the Stanford-vs.-U.S.C. gridiron fracas might drop in at the Metropolitan and see the game through the camera's eye. Much of the play is shown, particularly the play on which Elliott scored the only Trojan touchdown. There is also a pretty snappy set of pictures of the tail-end of the world's series, one view showing our own Johnny Rawlings on crutches in the foreground of the Pittsburgh team. Both pictures are unusually good stuff for those who are interested in all varieties of sport.

• • •

Watch out for a couple of wicked games Saturday that have not been getting a whole lot of publicity, but which will be rather tough just the same. Redlands is all prepared to hand Pomona a surprise and the San Diego Teachers are laying for Whittier.

BEAR ELEVEN JAUNTS NORTH

(Continued from First Page)

kle. Sargent, a linesman, was bruised in the St. Mary's game last Saturday. Both are expected to be in condition for the Oregon battle.

The squad will go through a light workout Friday on Oregon soil. The following men are making the trip: Imlay, Carlson, Dixon, Young, Griffin, Jabs, Willy, Blewett and Perrin, backfield; Mell, Sargent, Miller, Couper, Carey, Cock, Hooker, Brown, Harvey, Fitz, Rau, Niswander, Giddings, Coltrin, Thatcher and Dougherty, linesmen.

AGGIES PREPARE FOR GAME WITH STANFORD

[BY A. P. NIGHT WIRE]
CORVALLIS (Or.) Oct. 21.—Coach Paul J. Schissler of Oregon Agricultural College put his men through a hard scrimmage last night, in preparation for the game against "Pop" Warner's Cardinals in Palo Alto, Cal., Saturday. The men were going at top speed until it was too dark to see the ball. Twenty-four men will accompany the coach to Palo Alto.

CHINESE GOLF STAR WINNER

(Continued from First Page)

shot through T. J. Haley, still another Hollywood star, for a 2 up win and will meet Hughes in a second-round match today.

Earl Neitzel, only home club ace in the lower bracket of the title flight started his titleward journey with a 4-and-3 win over J. A. "Jim" Talbot, Jr., of the Los Angeles club. W. W. Beckwith, runner-up in his own club's invitational at Rancho, two weeks ago, defeated Ben Fahy, 4 and 3 and will meet Neitzel in a second round match today.

G. M. Lewis of Los Angeles, defeated E. L. Brown of Bill Amor's championship Hollywood organization, 2 up, while F. S. Smith of Annandale was winning a lot of personal glory by defeating A. L. Moser, pater of California's greatest golfing youngster, Allen, 3 and 1.

Neal Rasmussen and Jim Knudson, Swedish golf exponents, traveled twenty holes to win their fast second flight matches yesterday. Neal followed W. Forrest Cornett, golfing son of old Phi Kappa Psi over time to win 1 up on the twentieth while Knudson, w.-k. lumber magnate, chased C. G. Gardner of the Los Angeles club to the same green before winning, 1 up.

Knudson and Rasmussen meet today. Jim out-talked Neal at Rancho, but Rasmussen is wearing ear-muffs today and the tables may be reversed.

With the official announcement of the Flintridge club yesterday, that players in the auxiliary mixed foursome tourney would be allowed to start their second round matches at 9 o'clock the Hollywood invitational foursome event, scheduled Sunday, received many added starters. Beautiful prizes—on a par with any ever donated by President W. H. Richards's hospitable club, will be awarded the winners of both low gross and low net—and a record field is expected to play in the classic. Starting times may still be reserved by phoning the Hollywood club—Van Nuys 1187, at once.

Yesterday's results with today's pairings and time of play, follow:

Tuesday's results:

HOLLYWOOD FLIGHT, 1 P.M.

L. B. Coffin defeated George Cowan, 4 and 3.
Charlie Chung defeated J. Bullock-Webster, 4 and 2.
Stanley Hughes defeated Dr. A. H. Mann, 3 and 1.
Jim Burton defeated T. J. Haley, 1 up.
Earl Neitzel defeated J. A. Talbot, Jr., 4 and 3.
W. W. Beckwith defeated Ben Fahy, 4 and 3.
G. M. Lewis defeated E. L. Brown, 3 up.
F. S. Smith defeated A. L. Moser, 3 and 1.

SECOND FLIGHT, 12:30 P.M.

Harry Blythe defeated Perry Ferguson 3 and 1.
J. L. Welch defeated R. W. Kirby, 4 and 3.
C. F. Rinslow defeated W. C. Park, 3 and 2.
W. Hardy defeated L. G. Rowland, 1 up.
S. Myers defeated C. W. Clemmings, 2 and 1.
Howard Hanna defeated Howard Hughes, default.
Nigel Rasmussen defeated W. Forrest Cornett, 1 up, 20 holes.
J. A. Knudson defeated C.G. Gardner, 1 up, 19 holes.
Pair with Chung and Webster's cards.

THIRD FLIGHT, 12:30 P.M.

W. R. Gunn defeated C. A. H. Mullins, default.
Otis Hunt defeated P. S. Estes, default.
E. E. Adams defeated C. A. Hoffman, 3 and 1.
W. H. Canada, Sr., defeated Brandon Hunt, 3 and 2.
W. W. Wills defeated Harold Gunderle, 2 up.
H. A. Bingham defeated S. A. Pickett, 3 and 1.
C. F. Beckham defeated C. W. Beckner, 4 and 2.
Ray Burton defeated A. A. Sugg, 4 and 3.

FOURTH FLIGHT, 11:45 A.M.

W. C. Young defeated H. E. Finnerty, 1 up.
R. J. Howe defeated Fred Barman, Jr., 3 and 2.
Perry Rose defeated Larry Sasser, 2 and 1.
E. L. Hendricks defeated Clare Kemp, 2 and 1.
C. F. White defeated W. D. Frederick, 3 and 1.
H. Rhodes defeated A. M. Cutten, 1 up.
C. Shaffer defeated T. Filer Moran, 3 and 2.
A. P. Lahman defeated J. K. Chaler, 3 and 1.

FIFTH FLIGHT, 11:00 A.M.

R. A. Bidell defeated C. A. Jenkins, default.
C. Peterbaugh defeated Jack Richardson, 4 and 3.
J. D. Biddle defeated Al Ray, 3 and 2.
Paul Reed defeated A. E. Burkhart, 2 and 1.
H. C. Tarwater defeated C. M. Dunning, 3 and 2.
D. L. Storey defeated R. A. Spalsbur, 1 up.

FIFTH FLIGHT, 10:30 A.M.

Phil Gough defeated W. G. Lashender, 3 and 4.
A. E. Johnson defeated R. C. Long, 2 and 1.

SIXTH FLIGHT, 11 A.M.

K. P. Ahrens defeated G. B. Hinckley, 3 up.
F. H. Dolan defeated S. E. Brennecke, 2 up.
H. Baker defeated W. S. Goodrich, 3 and 2.
J. H. Nash defeated Jack Cole, 6 and 5.
F. X. Kelly defeated G. C. Hall, 7 and 6.
D. J. Jones, Jr., defeated E. A. Wilson, 3 and 2.
M. Reid defeated Duke Wellington, 2 up.
Guy C. Sims defeated V. Rutledge Day, 6 and 4.

SEVENTH FLIGHT, 10:40 A.M.

C. L. Penn defeated R. B. Cunningham, 2 and 3.
E. E. Moon defeated J. E. Hunt, 3 and 1.
H. H. Clark defeated F. C. Griffin, default.
Dr. W. H. Brownfield defeated I. J. Tuill, 7 and 6.
W. E. Baker defeated W. A. Brenner, 2 and 3.
A. M. Hookway defeated A. M. Stamm, 7 and 6.
J. L. Abbott defeated C. K. B. Ammark, 3 and 1.
A. H. Rude defeated G. C. Duncan, 2 up.

EIGHTH FLIGHT, 10:15 A.M.

W. E. McCleary defeated A. E. Bouza, 2 and 1.
H. F. Boardman defeated P. D. Parker, default.
D. A. Westerling defeated R. R. Crabtree, 2 and 1.
G. E. Arbogast defeated A. D. Kerwin.
G. R. Dexter defeated C. E. Listenmaier, 7 and 5.
R. L. Kelly defeated J. A. Amundsen, 3 up.
C. Goodrich defeated E. W. Zeiser, 6 and 4.
M. Stein defeated A. B. Simpson, 3 up.

DATE ON TAP FOR ROSENBERG

[BY A. P. NIGHT WIRE]
SAN FRANCISCO, Oct. 21.—Harry F. Morrison, boxing promoter, announced today that negotiations were "nearly completed" for a title match between Phil Rosenberg, world's bantamweight champion, and the winner of tomorrow night's bout between Abe Goldstein and Chuck Hellman. If terms are agreed upon, Morrison said, the fight will be held here on Thanksgiving Day under the auspices of the New Mission Athletic Club.

Boxing Card Lined Up by Mercury Club

With the double purpose of being the curtain raiser for a winter of great athletic activity and a hair-raiser for the fans, the Los Angeles Athletic Club's first fall boxing show will be held Thursday night, next week. It will be a nine-bout card, and among the battlers will be four of the best men of the United States Fleet, which is a guaranty of energetic action.

L.A.A.C.'s peerless heavyweight, Harry Beum, the man with fists like mauls, who fought National Champion Joe Woods to a standstill in the closing summer event three months ago, will feature the bill, his opponent being Sailor Traeger, the cleverest big gun the Navy can muster. Beum is prepared for the fight of his life, having kept himself in tiptop condition all summer, and when he and the sailor clash there will be something doing. Traeger has the reputation of being a hard and fast hitter and good all around, and is in perfect trim for a tough match.

The card:

John Signorelli vs. Guy Racciona, 130 pounds.
Morris Kozinsky vs. Joe Abramson, 130 pounds.
Al Leonard vs. Ted Lewin, 135 pounds.
Clark Williams vs. Sailor Graham, 142 pounds.
Billy Bukie vs. Sailor Henry, 150 pounds.
Chet Gleason vs. Sailor Pate, 121 pounds.
Huerta Evans vs. Don Kennedy, 116 pounds.
Mike Watters vs. Jimmy Bronson, 126 pounds.
Harry Beum vs. Sailor Traeger, heavyweights.

SAGECHICKS PREP FOR BAPTIST BABES

[EXCLUSIVE DISPATCH]
POMONA COLLEGE, Oct. 21.—"Fuzz" Merritt has been giving his Pomona Sagechicks plenty of work this week in preparation for the game with Redlands Saturday. The affair with the Baptist babes marks the second conference contest for the chicks. They were beaten, 7 to 6, last Saturday in a game with Caltech, but have shown more improvement this week and should turn in a victory over Hoge Workman's young proteges.

A fast scrimmage was staged with Citrus Union yesterday, while the varsity was met in a rough affair Monday afternoon. Art Colley, star halfback, will be unable to play against Redlands, due to an injured ankle received in practice Monday. Colley was Merritt's best kicker and passer and will be missed.

REDLANDS TO MEET SAGEHENS

Nixon Presents Revamped Eleven for Tilt Against Bulldogs Saturday

[EXCLUSIVE DISPATCH]
POMONA COLLEGE, Oct. 21.—This week is a hard one for the Pomona varsity football squad with Coaches Nixon and Heath wasting no words with the boys following the defeat at the hands of Caltech last Saturday. With the third conference game coming up at Redlands Saturday, the mentors are making every kind of experiment in an effort to put forth a winning team.

In this week's workouts the varsity men who started the U.S.C., Southern Branch and Caltech games have occupied positions on the sidelines with former second and third stringers holding down regular jobs. Whether Nixon will keep this scheme for the Redlands game is problematical.

Bob Burger, Fritz Heimahalgh, and Selly Rich, three regulars, have been on the shelf for several days and unable to scrimmage even if Nixon gave them the chance. Rich is out with a case of water on the knee, and will be unable to play against Redlands. He may be in shape for the California game on the 31st inst.

BULLDOGS HOPE FOR TITLE

[EXCLUSIVE DISPATCH]
REDLANDS, Oct. 20.—The University of Redlands football squad looms as a possible contender for honors in the Southern California Conference according to those who saw the Bulldogs hold the strong Occidental Tigers to a 14-to-6 win last Friday at Eagle Rock. The Redlands squad went down to play Oxy with the odds heavily against them, but battled the Tigers for three quarters, 7 to 6, with Oxy putting over another score in the last frame.

Coach Hoge Workman expressed himself as well pleased at the showing made by his squad in their first conference game of the season and expects the Bulldogs to give Pomona a tough fight next Saturday when the two teams meet at Redlands. Pomona has won from Redlands for the past three years and the Baptists are out to beat their rivals this season.

U.S.C. HOSPITAL LIST GROWING

(Continued from First Page)

the blink. Cliff couldn't scrimmage a lot of his boys last night because Trainer Andy Anderson ran out of adhesive tape to keep the athletes from falling apart.

The University of Arizona man seem in for a decidedly rough afternoon Saturday. Jones has said repeatedly that he wants linemen big enough to make a real hole for his backs to score touchdowns through. A lot of athletes think they can answer to the requirement. All will probably get a shot at the Wildcats and each man will be battling for the coveted jobs—hence the warm afternoon for Fred McKale's charges.

STRONG FOR GOLF

The Cambridge University of England golf program for the season embraces twenty-three contests starting October 17, with a trial match and concluding March 23 and 24 next, with the annual Oxford classic at Burnham and Berrow.

LIGHT SQUADS SHOW STUFF

Infant Football Machines in Action Today in Second Round of Schedule Play

Some idea of the relative strength of the lightweight football squads in the City League will be gained after today's battles. The babes have staged three hard-fought games, that for thrills have compared favorably with the varsity games.

Hollywood will take on the Manual Arts 130-pounders at Wilson Field for a game that should prove to be the best on the card. There is no love lost between the Artisans and the Foothillers, which means action and plenty of fight. Both teams dropped their first game and they will have an added impetus to win, for the team that loses will occupy the cellar position, at least temporarily.

PASSES WILL WORK

The Jefferson eleven took the Toiler babes into camp last Thursday afternoon by a close margin. The final score was 7 to 0, and the Artisans put up a good battle. They are weak against a passing attack, but carry a punch when it comes to hitting the line.

Hollywood was badly defeated by the Poly gridders in their first start by a 19-to-0 score. The Foothiller line is weak and let the Poly backs through for gain after gain. However, the Poly babes are conceded an excellent chance to cop the lightweight title so the Toilers may have less luck in subduing the Foothillers.

LINCOLN VS. JEFFERSON

Lincoln will meet the Jefferson lightweight aggregation in the other tilt of the afternoon. The Jefferson team pulled a neat win over Manual Arts last week and look good to repeat the performance over Lincoln. Lincoln came very near defeating the Franklin babes last week but misfired by one point. The game ending 8 to 7 in favor of the Kitefiyers.

Polytechnic, Franklin and Los Angeles draw byes this week, but will step into the midst of the fray next Thursday afternoon.

LIGHTWEIGHT STANDINGS

	W.	L.	Pct.
Polytechnic	1	0	1.000
Jefferson	1	0	1.000
Franklin	1	0	1.000
Manual Arts	0	1	.000

Gregory	Q.	Hendricks
Meiks	L.H.R.	Bland
Morse	R.H.L.	Fontana
Griffin	F.	Ramsey

SENCIO SLIGHT FAVORITE

William Harold Roberts and his U.S.C. band of 100 pieces will add a touch of color to the bouts at the Hollywood American Legion stadium tomorrow night. Roberts is bandmaster at the Legion stadium and also at U.S.C.

The big bout of the night will be the Roy Riley-Clever Sencio main event, going ten rounds to a decision. Sencio is making his last start in Los Angeles before fighting Fidel La Barba, the flyweight champ. The Filipino is a slight favorite with the boys to win over Riley. He is given a very slight shade, owing to his cleverness.

Billy Atkinson in the semi-windup with Sailor Liston is an exceptional shot, as Liston only a year ago was a main-eventer in California. One of his greatest fights was against Alex Maurice at the Legion stadium. Billy Hart and Benny Furrell will make up the special event. Hart is a big card at Hollywood. His style of tearing in and throwing gloves has made him popular. Sailor Ritchie and Sailor Kenny, two sailors from the U.S.S. Nevada, will fight in the first two spots. Ritchie is battling Chris Hansen, a new face in the racket around here, and Kenny fights Young Chico.

ICE HOCKEY SEASON ON

Local Teams Practicing Nightly at Palais de Glace; Great Season Indicated

Hockey got off to a flying start on Monday evening. The Hollywood Athletic Club team held the first practice of the season at the Palais de Glace, Southern California's only ice skating rink, and the L.A.A.C. squad followed this up with a snappy workout on Tuesday. Last night the Club Casa Del Mar team, the youngest in the local league, held its first practice and tonight the Automobile Club of Southern California's team, which is really the old Monarch squad, will hold a workout.

All four teams seem to be better organized than they were last season, more than thirty men being on the ice every night that practice has been held, and it is believed that the ice game is due for a great season.

Abbie Newell, manager and captain of the L.A.A.C. squad, was particularly pleased with the showing his team made, and on the strength of the preliminary appearance some fifty men who are members of the club and have played hockey at one time or another, sought him out and arranged to be on the ice at the next practice to make a bid for places on the team.

The next L.A.A.C. practice will be held Saturday night at 9 o'clock and at that time there will be a lot of old-timers on deck as well as a host of newcomers. Eddie Hume, Jack Duggan and Red Oakley, all stars of last season's team, were on hand last Tuesday night and were given a great ovation by the large crowd of fans who witnessed the workout.

SIGNS TO COACH

Eddie Butler, former All-American quarterback for Cornell University, has signed to coach the basketball players of Brooklyn Law School.

DOWN—a PHILTEX with long points. Fashionable, comfortable, long wearing. The latest semi-soft, banded collar.

A tire that keeps its good looks to the very end of its long service life

SOME tires that look well on the show room floor begin to look shabby after a few miles of service.

The U. S. Royal Balloon not only compares favorably in appearance with any tire when new.

The important thing to note is that it *holds* its good looks.

Finger marks, grease and mud stains do not show on its handsome *all black* body.

And the flat "Low-Pressure Tread" wears *slowly* and *evenly*.

Because the weight is properly distributed over the entire tread surface, the uneven, disfiguring wear that soon gives a ragged appearance to round treaded balloon tires does not occur.

This and the patented Latex-treated Web Cord construction of the carcass permit the U. S. Royal Balloon to be run at proper cushioning pressure.

There is no need to over-inflate to save the tires.

Thus, appearance, long mileage, comfort and car protection are all provided for.

The man who is riding on U. S. Royal Balloons is enjoying the advantages of "the balloon tire principle at its best."

LOCAL LAUGHS

Each week The Times produces a film entitled "Local Laughs," consisting of the fifteen best jokes submitted by local people. Weekly prizes are paid of $5, $3, $2, and twelve of $1 each. A list of theaters showing the film, together with rules for submitting jokes, are given daily in a coupon in The Times. Prize-winning jokes, and names and addresses of winners, appear only on the screen. Jokes receiving honorable mention will be given a place of honor on The Times comic page each week-day, and each of these contributors will receive a souvenir of acknowledgement.

An American was talking to a Scotsman who asked: "Frae what land do ye come?"

"From the greatest country in the world."

"What a peety ye've lost yer accent."

M. S. Wolcott, 514 South Spadra Road, Fullerton.

"Baldwin slipped on the polished floor the other day and killed himself."

"A hardwood finish, eh?"

C. V. Preble, 913 North Acacia street, Compton.

"Wonder why so many men sing while taking a bath?"

"I know why — the bathroom door won't lock."

B. Mayer, 5425 Harold Way, Hollywood.

"Can you remember your license number?"

"Sure. Half a dozen, Heinz varieties, the speed I can't make and a pair."

"What is it?"

"457-602."

M. P. McGehee, 5072 Sunset Boulevard, city.

...Council Brings Up ...e Convention

...Have Pastors for ...e Guests

...ington, Oct. 21.—The ...s held a $1,250,000 ...the First Congregational ...ch, of which President ...member, was present- ...the national council ...ational churches in ...

...ferred to a committee. ...proval is voted. Rev. ...Brown, the President's ...is able to solicit sup- ...port in Congregational churches throughout the country.

Moderator J. F. Harwood referred to the proposal as one "demanding and being worthy of the thought of the entire denomination."

It is based on the theory that the denomination should have a building of national character in the Capital.

The old practice of "putting up the pastor for the night" is being enlarged upon this week at the White House, where seven Congregational ministers, two of them with their wives, are house guests.

When Rev. Jason Noble Pierce, pastor of the President's church, requested the membership to "take in" their quota of delegates to the Congregationalist convention, the President and Mrs. Coolidge declined to be left out, announcing they had room for nine persons.

The nine include two former pastors and a present pastor of Edwards Church of Northampton, Mass., Mr. Coolidge's home town.

White House officials said the visitors were guests, not of the nation, but of Mr. and Mrs. Calvin Coolidge, Congregationalists.

In the Philippine Islands there are 2,000,000 acres of unused land which is said to be suitable for the planting of rubber trees.

Roasted in Los Angeles by Jourdnes Corporation

IN business today one of the most valuable assets is the item which is represented only by the friends that business has made during its existence—known for lack of a better term as "Good Will".

But even Good Will in many cases has lost its original meaning due to the tendency for business to grow so large that personal contacts are lost. In this bank, although growth has made it many times its original size, the officers still render Personal Service to its Customers.

The Union Bank & Trust Co. has no branches.

TRIPLE MRS. IN LAW'S CLUTCHES

Virginia Gorham Adams Schmidt Rosenberg who forsook the monotony of plugging a switchboard to be thrice led to the altar within a period of two years without the formality of being legally freed from her former husbands, according to the complaint of her latest spouse.

Indigestion Puts Irene Castle in Chicago Hospital

[EXCLUSIVE DISPATCH]

CHICAGO, Oct. 21.—Mrs. Irene Castle McLaughlin, wife of Maj. Frederick McLaughlin, is at the Michael Reese Hospital undergoing treatment for acute indigestion. Mrs. McLaughlin was taken to the hospital yesterday. She is in no danger, physicians said today, and no operation will be performed.

The McLaughlins, who are expecting a second visit from the stork early in 1926, are planning to move into a new apartment at 2350 Lincoln Park West. They passed the summer in Lake Forest, but upon their return to town this fall abandoned their "honeymoon apartment" at 232 North Michigan avenue, which previously had been Maj. McLaughlin's bachelor apartment, in favor of more commodious quarters. The famous dancer was married to the Chicago broker in November of 1922. About a year later their daughter, Irene" was born.

BEAUTY UP ON CHARGE OF BIGAMY

Three Asserted Husbands All Maintain They're Madly in Love With One Wife

NEW YORK, Oct. 21.—Married to three men, each of whom professes to be madly in love with her, two of whom nearly came to blows for the privilege of being her official protector—this is the unusual plight in which pretty Virginia Gorham Adams Schmidt Rosenberg, 21 years of age, triply deserving of the title "Mrs.," finds herself.

Arraigned before Magistrate Louis Brodsky in Tombs Court on a charge of bigamy, on the complaint of her latest husband, Harry Rosenberg, of 2110 Seventh avenue, she waived examination and was held in $1000 bail for the grand jury.

For months she has plugged monotonously at the switchboard of a small hotel. Then within two years she accumulated a trio of spouses without the formality of discarding any of them—legally. Then one morning she awoke in a cell in Oak-street station to find herself the most sought-after girl in New York City.

The wave of her popularity, already commenced, reached its crest with her appearance in court. Camera-men and reporters crowded about her, each as eager to engage her attention, solely for himself, as were her spouses. They elbowed one another, shouting, trying to grasp her arms, plucking at her coat. One man was pushed off the sidewalk in the melee. Throughout it all she clung to her bondsman, Louis Tapper, whom she accompanied to a near-by restaurant for luncheon.

The Stevensons are now getting along fine together

Mrs. Stevenson was crazy about motoring. But she was mad as a hornet over the way the old car looked and Dad had his troubles. Finally he got busy with some Acme Quality Motor Car Finish and now the "missus" and the motor are both radiant. The finish is easy to apply. Makes new cars out of *old* ones. Has long endurance. Comes in just the color you want.

BRAVES AFRICA'S PERILS

Mrs. Delia J. Akeley First White Woman in History to Cross Dark Continent Alone

[EXCLUSIVE DISPATCH]

[Copyright, 1925, by the North American Newspaper Alliance]

NEW YORK, Oct. 22.—For the first time in history, a white woman has crossed darkest Africa alone. She is Mrs. Delia J. Akeley of the Brooklyn Museum of Arts and Sciences.

Armed with only ordinary travel papers and carrying credentials as a special correspondent of the North American Newspaper Alliance, she started from Lamu, on the east coast of Africa, on October 16, last year. She came out at the mouth of the Congo River, on the west coast, September 3, last, and arrived in New York today.

Her first three months was a perilous journey through the jungles and deserts of East Africa. She reached Nairobi and sent out her last communication with civilization.

Entering the Central African jungle at Kasinyi on Lake Albert with only twelve cartridges, she reappeared at Matadi on the Congo River five months and twenty-four days later with three cartridges unspent, and five hitherto unknown specimens of jungle animals.

THIRD VISIT

This was Mrs. Akeley's third visit to the dark continent. She is about 50 years of age and her previous visits were made with her husband, Carl Akeley, the famous explorer, who persuaded Theodore Roosevelt to make his African hunting trip.

Mrs. Akeley spoke today of the later and more difficult stages of her journey—her unprecedented five months' struggle across Central Africa to the Atlantic. She saw only two white men during this time, a Belgian official and a Swiss trader and was entirely alone in charge of her convoy of black porters.

"I ventured out with a slender stock of munitions because I was unwilling to wait for more at Lake Albert," she said. "The penalty I paid came four months later in the Ituri Forest, where the Pygmies—a Congo tribe, yellowish in color, and averaging four feet in height—coveted the use of my gun against elephants, whose meat was needed for food and against whom their only weapons were poisoned arrows.

"Decoyed by the Pygmies before a herd of elephants, I escaped with my cartridges unspent, but fell under a charging buffalo, which had been wounded by an arrow. Limping back to my camp with a badly injured thigh, I immediately distributed my reserves of palm wine, tobacco and salt to the menacing Pygmies. During the feasting I escaped with my convoy.

RECEIVES WARNING

"The first stage of my trans-African journey across the Somali Desert had to be undertaken without adequate preparation, because I received warning that the Governor was about to forbid my trip because of its dangers to a woman. I forestalled his message by plunging up the Tana River in a dugout with two blacks.

"On my trip I wore a costume mostly purchased on Fifth avenue—riding breeches, pongee shirt, elkskin shoes and pith helmet."

Mrs. Akeley began her African explorations with her husband in 1905, as a collector of birds and butterflies. On that trip she used a gun for the first time, killing an eland and a gazelle with the first two shots she had ever fired. Beginner's luck like that, she says, gave her the confidence that has made her one of the world's famous markswomen.

She will spend the next few months writing and lecturing and will leave again for Africa in March on another expedition for the Brooklyn museum.

FEDERAL DEPARTMENT GETS RENT INCREASE

[BY A. P. NIGHT WIRE]

WASHINGTON, Oct. 21.—The Department of Justice, recently threatened by ouster proceedings, will continue to keep house on Vermont avenue under a five-year lease entered into today between the Public Building Commission and the owner. The rent will be increased from $75,000 to $100,000 a year.

announcing
Our Future Home and Our
Removal Sale!

WE GO down to 7th and Broadway. Prices go down to you! RINGLING RAILROAD EXTENSION PLANNED

SANTA FE BELIEVED TO BE CONTEMPLATING ROAD TO WAURIKA

[EXCLUSIVE DISPATCH]

WAURIKA (Okla.) Oct. 21.—Reports reaching here are to the effect that when the Santa Fe lines formally take over the Oklahoma, New Mexico and Pacific Road from John Ringling it will at once set about making plans for extending the road from Ringling to Waurika. The Ringling line lies between Ardmore and the town of Ringling and has a branch to Healdton from a point on the main line a few miles east of Ringling.

Whether extension of the line to Waurika can be accomplished without a fight is problematical. That the Burlington, which operates a road between Wichita Falls and Waurika, has had its eye on the Waurika-Ringling gap there is no doubt. Neither is there any doubt that for some years the Rock Island has had that route in contemplation. In fact, the Rock Island once made a survey of the route.

The Santa Fe, before the Interstate Commerce Commission, is opposing construction of a proposed line of the Rock Island from Liberal, Kan., to Amarillo; and it is exercising the same might in opposing a line of the Burlington from Estelline, Tex., to Plainview, Lubbock and other points of the South Plains. The assumption naturally is formed that both the Burlington and the Rock Island would oppose a Santa Fe project from Waurika to Ringling.

SHIP'S CAPTAIN SLAIN BY MATE

Liner's Officer Kills Chief, Wounds Engineers

Slayer Charges Persecution to Victims of Aim

Dead Commander Nephew of New York Financier

[BY CABLE AND ASSOCIATED PRESS]

ANTWERP (Belgium) Oct. 21. Capt. A. H. Clews, commander of the Canadian Pacific liner Melita, was shot and killed in his cabin on the Melita here early today while he slept. Two other officers of the ship were wounded. Thomas Towers, first officer, was arrested, charged with the murder, and will be handed over to the British authorities at Southampton when the liner arrives there tomorrow morning. He is said to have told police he shot Capt. Clews because the commander and other officers had tried to wreck his career.

Capt. Clews was a nephew of the late Henry Clews, Wall street financier, who, English by birth, died in America in 1923.

The wounded officers were taken to an Antwerp hospital in a serious condition. They are David K. Gilmour of Glasgow, assistant chief engineer, and John Holliday of Bottle, England, second engineer. A bullet was removed from one of Holliday's lungs and he was thought to be out of danger.

Police say that shortly after Towers went to the captain's cabin early this morning, a pistol shot was heard. The captain was found dead with a bullet wound in his head.

The police say that Towers, after shooting the commander, entered Gilmour's cabin and shot the engineer in the face.

Other officers were attracted to the scene and in a struggle with Towers the second engineer was shot twice in the lungs. Other members of the crew eventually overpowered Towers and disarmed him.

Capt. Clews, whose home was in Birkenhead, was born in Liverpool. He joined the Canadian Pacific in 1904. In the World War he served first in the Cameroons, returning from there to England in command of a German prize ship. Afterward he was made commander of the transport Montezuma and made fifteen voyages between Canada and England in command of troopships. He held the Royal Humane Society's diploma for life saving.

Cardinal Barely Escapes in Crash at Philadelphia

[BY A. P. NIGHT WIRE]

PHILADELPHIA, Oct. 21.—Cardinal Dougherty, archbishop of Philadelphia, narrowly escaped serious injury today when his limousine was in collision with a trolley car at Melrose, a suburb. Rev. Dr. Gerald O'Hara, his secretary, suffered a broken hand. The cardinal was bruised and shaken up. The chauffeur was not injured.

As the cardinal's automobile crossed the trolley tracks the engine stopped. A trolley car, coming downgrade, crashed into the automobile despite the motorman's efforts to avoid the impending collision. The machine was carried forty feet.

DEAD LINE VIOLATORS MAKE HEAVY HAUL

[BY A. P. NIGHT WIRE]

NEW YORK, Oct. 21.—The police "dead line" was violated today by a gang who entered the Nassau street establishment of Israel Oleet, diamond dealer, bound the staff and rifled the safe of the firm's stock of jewels. Estimates of the loss were $50,000.

BRITISH FLYERS TO SHIFT ENGINE

Mystery Shrouds English in Baltimore Cup Race

New Napier Motors Reported Shipped Secretly

Powerful Machines Develop 700 Horsepower

[BY CABLE AND ASSOCIATED PRESS]

LONDON, Oct. 21.—The Evening Standard reveals that two new Napier engines have been shipped secretly to the United States to be mounted tomorrow on the Gloster Napier planes, which will be piloted by British aviators in the race for the Schneider seaplane cup at Baltimore, the 24th inst.

When the British flyers, Capt. C. B. Wilson, Capt. Henry Baird, Hubert Broad and Bert Hinckler, sailed for the United States September 24, last, it was reported they had something up their sleeves for the Baltimore races, and the team was said to be the best equipped flying expedition that ever left England.

A speed of 226.752 miles an hour was attained with a Napier engine of 630 horsepower, but the new engines develop 700. The Napier Company, the Evening Standard says, guarantees the machines to stand this terrific strain for twelve hours, which is an ample margin as the race will take no more than an hour.

CAPT. BAIRD CALLS REPORTS ALL RUBBISH

[BY A. P. NIGHT WIRE]

BALTIMORE, Oct. 21.—Capt. Henry C. Baird, senior pilot of the British team, tonight characterized as "all rubbish" London reports from the Evening Standard that new Napier engines, secretly shipped to the United States, were to be mounted tomorrow on the British entries for the Jacques Schneider trophy. No changes in engines have been made in the British planes since their arrival in this country, Capt. Baird said, and the proximity of the race makes changes impossible, were any such contemplated.

Capt. Baird said that while he could not say what may have been done or planned in England, since the team's departure, he believed it most unlikely that new engines would be shipped without the knowledge of the British flyers here.

"To my mind it is all rubbish," he said, "no changes have been made in our engines, I can promise you, and we can't make any now."

Capt. Baird will pilot the supermarine Napier S-4, styled the British mystery plane when it was shipped from Southampton, where it made 226.752 miles an hour in a trial flight.

ALL BUT ONE PLANE GROOMED FOR CONTEST

[BY A. P. NIGHT WIRE]

BALTIMORE, Oct. 21.—Weather conditions over the Jacques Schneider seaplane trophy course at Bay Shore Park were improved today, but with one exception the seven specially designed racing craft being groomed for the contest Saturday, remained on the runways.

Ricardo Marsellli, Italian World War flying ace, and pilot of one of the big Machi flying boats on which Italy is staking her chance of winning permanent possession of the International Trophy, made a short flight this afternoon.

Lieut. George T. Cuddihy, who will pilot one of the Navy entries, familiarized himself with the course this afternoon with a trial spin in the powerful Curtiss, which, equipped as a land plane, won the Pulitzer Trophy race at St. Louis in 1921. Finishing touches were being placed on the three American entries.

The British entries, the monoplane super-marine Napier S-4 and a biplane Gloster-Napier III were trundled from their hangars for motor tests. The plank runways quivered as the Napier-Lion engines roared and strained at the lashings. No attempt was made to take the ships aloft. Capt. Hubert Broad, who will pilot a Gloster-Napier III in the race, went over the course as a passenger in a United States Navy seaplane.

Fail to Prevent Use of Title by ex-Kaiser's Wife

[BY CABLE AND ASSOCIATED PRESS]

STUTTGART (Germany) Oct. 21.—Efforts by Republican guards to begin proceedings against Princess Hermine, wife of former Emperor William, for asserted unlawful usurpation of the title, "Kaiserin Hermine," have failed.

An attempt to lodge a criminal complaint against her under Paragraph 360 of the penal code was made in Nurnburg, but the court there passed the allegations along to another court, which declined to present the charge to the District Attorney. Likewise the public prosecutor would not take any action.

It was charged that Hermine designated herself as "wife of His Majesty, William II, former Emperor." Also it was alleged that she was registered in the list of visitors to the Spa at Wildbad as "Empress and Queen," and that a local photographer issued picture postcards of her with the words, "Kaiserin Hermine in Wildbad, 1925," on them.

TWO MYSTERIOUSLY STABBED IN ST. LOUIS

[BY A. P. NIGHT WIRE]

ST. LOUIS, Oct. 21.—Dr. J. B. Lohan of Charleston, W. Va., a delegate of the American Public Health Association convention here, and Early Tromley, 26 years of age, of San Diego, Cal., an accountant, were mysteriously stabbed early today by an unidentified man. They were taken to a hospital by a taxicab driver who found them in a store doorway. Tromley, whose condition is serious, told police he and Dr. Lohan were leaving the apartment of Mrs. Alice Smith when a man attacked them.

RIFFIANS VEIL PEACE TERMS

Conditions Given to French Through Writer

Berber Chieftain Willing for Amity or Warfare

Abd-el-Krim Satisfied With Progress of Fighting

BY VINCENT SHEEAN

[BY CABLE—EXCLUSIVE DISPATCH]

[Copyright, 1925, in United States, Great Britain and all other countries by North American Newspaper Alliance. All rights reserved.]

ADJIR, Sept. 24 (By courier to Tangier, Oct. 21.)—In the course of my eight hours' interview with Abd-el-Krim, the Riff chieftain gave me a detailed statement of the terms on which he is willing to make peace. But at his suggestion these are to be communicated to the French before being published. I am therefore taking steps to do this.

There is no doubt of the sincerity of Abd-el-Krim's desire for peace. On the other hand, he is not being forced into this attitude by any pressure of military necessity.

RIFFS SATISFIED

"We have every reason to be satisfied with our military campaign thus far," he said to me, "and we are prepared to continue indefinitely. If France wants peace, we are ready for peace. But if France wants war, we are ready to fight on forever."

There were many interruptions in the course of my eight-hour talk with the Riff leader, but nevertheless he had time to ask scores of questions on French and Spanish internal politics, and to discuss many related questions as well as the paramount problem of war or peace here. I received the distinct impression that he counts upon French and Spanish public opinion to reinforce his plea for peace, at least to a certain extent. He believes that the two governments will be obliged to make peace before long unless they can win a decisive victory.

After our long discussion of the exact terms on which he will be willing to sign a treaty of peace with France and Spain—which I cannot divulge at the present writing—the Riff chieftain devoted a considerable part of the remainder of the interview to a declaration of the French responsibility for the present war and to assertion of his insistent claim that the Franco-Spanish offensive has thus far been a failure so far as actual results are concerned.

"I possess actual proof that the French planned this war against the Riff more than a year ago," he said. "Throughout the year preceding the outbreak of hostilities, French agents were busy among the border tribes attempting to enlist their services in war against us. The French military chiefs in Morocco feared that the example of our successful struggle against Spain would lead to imitators among the native tribes in French Morocco, endeavoring to do the same thing there.

"French officers in the advanced outposts even wrote letters to the chiefs of the Guesnaya tribe, asking them to withdraw their allegiance to the Riff government, stating that the Riff government was not a valid organization, that it could never be recognised, and that it was certain to be overthrown by France eventually. These letters were turned over to me and I have them now in my possession here at headquarters.

"Despite this and even more conclusive evidence of France's intention to make war against us, we did not attack. France attacked us, and all statements to the contrary are false.

ATTACK AND COUNTER

"The French attacked us at the end of April this year, driving our garrisons out of several positions in the Beni Zeroual country, where we had been established for a long time within what is technically called French Morocco, although the French had never actually occupied it. We had garrisoned this territory in the interests of our geographical and economic unity.

"The French attacked us there on the pretext that they were protecting the Beni Zeroual tribe against our aggressions—this, although the Beni Zerouals in overwhelming majority favored us.

"This made war inevitable. We counter-attacked on the Wergha River. My brother went to the Wergha front and organized the campaign all along the line. The story of this summer's fighting has been a steady record of Riffian victories.

"Today the tribes in all territories not actually controlled by French garrisons have all come over to us. We have every reason to be satisfied.

"The French know full well that my desire is for peace. I have written Marshal Lyautey many times in the past two years, suggesting some sort of a national and friendly agreement on the frontier in order to avoid any such clash as that which precipitated the present war.

"But Marshal Lyautey never replied to my letters."

FRENCH LOSSES IN RIFF WAR GIVEN

[BY CABLE AND ASSOCIATED PRESS]

PARIS, Oct. 21.—Casualties suffered by the French forces in Morocco up to the 1st inst., were 2176 killed, including 39 officers and 8297 wounded. Premier Painleve told the Finance Committee of the Chamber of Deputies today.

The Premier said that the expenses of the Moroccan campaign have been 950,000,000 francs.

French casualties in Syria, he said, had totaled 6626 killed, wounded and missing since France took over the mandate in 1920.

He stated that the expenses of the French regime in Syria from 1920 to the end of 1924 amounted to 2,000,000,000 francs, and in 1925 had totaled 197,000,000.

FRENCH PREPARE FOR WINTER QUARTERS

[BY CABLE AND ASSOCIATED PRESS]

FEZ (French Morocco,) Oct. 21.—As their last operation prior to going into winter quarters, the French troops operating against the Moroccan tribesmen have taken advantage of a spell of fine weather to clean up the Beni Ouriguel country, the final stronghold of the dissident tribes on the banks of the Ouergha River.

In withdrawing their outpost at Sidi Bourokba, a short distance south of Ajdir, for the winter, the French line has been shortened about forty miles.

Capt. Amundsen Pays Respects at White House

[BY A. P. NIGHT WIRE]

WASHINGTON, Oct. 21.—Capt. Roald Amundsen, the Norwegian explorer, calling at the White House today to pay his respects to President Coolidge, said he believed the best way to fly over the North Pole now is by dirigible. He believes, however, that development of the airplane within the next few years might make it the most feasible means.

The explorer recently returned from an attempted airplane Polar flight.

PATRON LIST IS AID IN RUM WAR

Prominent Persons Named in New York Cabarets

Prosecutor Gets Weapon to Help "Dry Thanksgiving"

Harry K. Thaw Included With Ann Pennington

[BY A. P. NIGHT WIRE]

NEW YORK, Oct. 21. — Possession of a list of prominent patrons of gilded cabarets where champagne flowed as of old, except in the matter of price—is one factor on which Federal Attorney Buckner is counting for fulfillment of his prediction that there will be a dry Thanksgiving on Broadway.

He believes that the proprietors of thirty exclusive places upon which notices of padlock proceedings have been served will consent to close their places without forcing jury trials rather than have their books scrutinized or undergo the loss of prestige they would suffer by having the names of their patrons revealed.

Names of some patrons of one of the cabarets under fire already have been revealed without, however, any intimation that their checks covered anything more than the heavy cover charge or expensive food.

PATRONS CITED

An announcement of the opening of Del Fey, one gilded palace involved in padlock proceedings when known as El Fey, has come into the possession of Mr. Buckner.

"It is New Year's Eve every night at the Del Fey," he said.

The announcement then mentions among past visitors to the club Lord and Lady Mountbatten, Harry K. Thaw, Ann Pennington and sundry other stage and screen celebrities.

Abe Atell, ex-pugilist, was caught carrying champagne into the club.

Curiosity remains unsatisfied as to how Mr. Buckner obtained the evidence against places which, he says, had a regular Bertillon system of identification for patrons, involving introductions and scrutiny through peepholes before admission.

Soon after he entered office he padlocked fourteen cabarets by the expenditure of $1400 for champagne through lawyer friends, one of whom was threatened with blackballing recently when up for admission to the bar association. But these places were selling liquor more or less openly.

PIPING SYSTEMS

Nothing has come to light as to how he obtained evidence against exclusive old-time bars at which men and women in evening dress stood up to the brass rail or against heavily curtained after-theater clubs to which champagne and bergundy were supplied by piping systems.

"We have ironlriveted cases," said Mr. Buckner, regarding the newest batch of places under fire, "and I will urge the court to hand down a twelve-months' padlock to each defendant who elects to fight."

The best bargain obtained by a consent decree, he added, will be six months' padlocking. He estimated that all cases will be disposed of in time for a good dry Thanksgiving. The time of closing in the cases of cabarets prosecuted previously averaged a month.

Just after the latest padlock proceedings, the 1729-ton wooden steamship Corona, seized off Atlantic City, was brought to port, with $468,000 worth of liquor and twenty men aboard.

Unveil Tablet on 128th Birthday of 'Constitution'

[BY A. P. NIGHT WIRE]

BOSTON, Oct. 21. — The old frigate Constitution was 128 years old today. A tablet commemorative of the launching of this oldest United States warship on October 21, 1797, was unveiled this afternoon aboard the Constitution in the navy yard here.

The exercises, led by Mayor James M. Curley, were participated in by school children. The tablet was unveiled by Theodore Frothingham III and Eleanor Frothingham, great-great-grandchildren of Commodore William Bainbridge, commander of the Constitution in the war of 1812. During the ceremonies a flag made before 1800 and carried by a privateer was unfurled.

A campaign is now under way for funds with which to restore the old ship, battered and worn by the vicissitudes of a century.

UTILITIES CHAIRMAN STRICKEN ON STREET

[BY A. P. NIGHT WIRE]

WASHINGTON, Oct. 21.—O. C. Calderhead, chairman of the Washington State Public Utilities Commission, was stricken with apoplexy here yesterday, but paralysis which first affected his entire side was reported at the hospital today to be clearing up. Calderhead, who came here for the convention of public utility commissioners and remained over to attend the railroad valuation hearings before the Interstate Commerce Commission, was stricken on the street while on his way to the hearings and removed to a hospital where later he regained consciousness.

AMERICAN SOLDIERS TO EVACUATE PANAMA

[BY A. P. NIGHT WIRE]

WASHINGTON, Oct. 21.—American forces which entered Panama City from the Canal Zone to aid Panama authorities in preserving order during the recent tenants' strike in that city will be withdrawn within the next two days unless renewed disturbances require their continued stay. Consent of the State Department to the plan for withdrawal has been given Canal Zone and American officers in Panama.

"DIRECT-U" will direct you to the places that sell Martha Washington Sewing Cabinets or any advertised product. Write or phone The Times, MEtropolitan 0700.

LIST, YE MEN, TO LORD ASTOR

[BY CABLE AND ASSOCIATED PRESS]

NUNEATON (Eng.) Oct. 21.—Viscount Astor advises men to do their utmost to induce their wives to take part in politics.

"It is a matter on which I am well qualified to pass an opinion," Lord Astor said in a speech. "I have seen more homes wrecked through women concentrating on clothes and gossip than through taking interest in public affairs. I believe the best woman, the best homemaker, is the one who is interested in politics."

WIFE CHARGES LOVE PIRACY

Seeks Damages From Musical Comedy Actress for Asserted Theft of Mate's Affections

[EXCLUSIVE DISPATCH]

MINEOLA (L. I.) Oct. 21.—Mrs. Katherine Frey, today had the leading role in the eternal triangle drama of two women and a man, being played before Justice Leander B. Faber and a jury in the Supreme Court here. Testifying in the $100,000 suit against Wilda Bennett, musical comedy star, for alienation of the affections of her husband Charley, sportsman and owner of race horses, she told how she and Frey had lived in a domestic Eden until the actress arrived on the scene.

Tall, slim, gray-eyed and with blonde hair smartly bobbed, she retained her perfect poise as she related the tragedy of her married life, in which, according to her story, the villainess was Wilda Bennett. Only once she broke down. As she came to tell of how her husband kept her out of his room and threw her down a flight of steps, remaining himself with a woman she took to be Wilda, her self-possession left her. In recollection of that humiliating scene, the tears broke from under her lashes and she let them flow.

And while for hours she thus held the front of the stage, another tall, slim woman sat in the courtroom, in the middle of the second row, with a dark coat and ermine collar wrapped closely about her, gazing intently at the witness, but herself showing no emotion of any sort. That was Wilda Bennett. And in the row in front of her was Charles C. Frey, for whose $100,000 affections these two had fought.

Mrs. Frey testified that she had married her husband in 1919 and they had lived happily together until 1923. He had been a bookmaker when she married him, and they met in Louisville, six years before. As husband and wife they went around the "racing circuit" together. They stopped at various hotels. They had no quarrels until 1922. Then, while in New York, they did have one quarrel and she went to New Orleans and later home to Louisville, where she remained with her parents for six weeks recovering from an attack of appendicitis.

FREIGHT CARS USED FOR SHIPPING GRAPES

[EXCLUSIVE DISPATCH]

STOCKTON, Oct. 21 — Fruit growers and shippers of the Lodi district have resorted to the use of freight cars in an effort to move between 3000 and 3500 cars of grapes, estimated still to be left on the vines. The refrigerator car shortage has become acute, but many shippers believe that with the passing of the hot weather, the freight cars will be suitable.

GEN. MULCAHY GIVEN ESCORT TO STEAMER

[BY A. P. NIGHT WIRE]

HOBOKEN (N. J.) Oct. 21.—Gen. Richard Mulcahy, first commander-in-chief of the Irish Free State army, who had been in the country as a delegate to the interparliamentary union, sailed today for Queenstown on the steamship America. To prevent a repetition of the hostile demonstration with which Gen. Mulcahy was greeted on his arrival, police today furnished an escort of five men.

FRUIT GROWERS PAID HUGE SUM

Prune and Apricot Pool in Clear With Members

Liquidation Far in Advance of Former Year

Audit of Books Discloses Prosperous Season

[EXCLUSIVE DISPATCH]

SAN JOSE, Oct. 21.—The last of 53,500 checks, aggregating $4,314,316.71, left the offices of the California Prune and Apricot Growers' Association this morning, representing payments to grower members made since July 1, and, for the first time in its history, putting the organization upon a current basis. At the same time, while deliveries of prunes to the association are 14,000,000 pounds less than at this time a year ago, total sales to date are approximately 300 per cent of the total at this time last year, while apricot sales are virtually 100,000 pounds ahead of last season's record at this date.

The foregoing facts are disclosed by a statement of General Manager Joseph M. Parker, based upon last-minute figures compiled by the association accounting department.

Of almost equal significance and importance, especially to the 11,000 or more grower members of the association throughout the State, is the fact that the huge payments mentioned have been financed by means of loans only about one-sixth as large as those of last year, with an interest saving amounting, roughly, to $240 a day to the association.

On this point Mr. Parker's statement show that notes payable at the present moment, despite the fact that nearly $4,500,000 have been paid out, total only $250,000, as compared with the total a year ago of $1,441,000. In other words, on October 17, 1925, the association had received approximately 14,000,000 pounds less fruit than in 1924, but had advanced $900,000 more to the growers and had borrowed $1,191,000 less to accomplish this result.

In explanation of the fact that fruit receipts by the association to date are less than a year ago, Mr. Parker said, "There are three reasons for this: The season is about two weeks late; the crop is smaller than in 1924; and, on account of the greater popularity of dehydration, we requested growers to hold prunes in their own bins until thoroughly cured before delivery."

"DIRECT-U" will direct you to the places that sell Auto Strop Razors or any advertised product. Write or phone The Times, MEtropolitan 0700.

WATER SURVEY PLANS TOLD

Huge Appropriation to be Spent in Sacramento and San Joaquin Valleys and Southern California

[EXCLUSIVE DISPATCH]

SACRAMENTO, Oct. 21.—Plans for continuing the water resources survey being conducted by the State division of engineering and irrigation, announced today by Paul Bailey, assistant State Engineer, reveal that the $150,000 appropriation made by the last Legislature, will be expended in the Sacramento and San Joaquin valleys, and in Southern California.

Bailey declared that the plans were agreed upon at a conference held in San Francisco last Monday, and attended by nine of the leading engineers on California. The high points of the survey, the results of which will be submitted to the 1927 Legislature, were given out by Bailey as follows:

Location on each of the main streams, of the most favorable reservoir site at edge of the valley floors, that will serve to re-equalize the stream flow, after it is used in mountain areas for power, mining or other purposes, to the needs of domestic, industrial, irrigation, navigation, and other uses on the plains below.

Determination of the cost of these foothill reservoirs and their values for all purposes, including the conservation of water, power development, flood control, storing of mining debris, etc., and their manner of operation for securing the greatest public benefits.

Underground water survey of Southern California and the Southern San Joaquin Valley.

General layout of a co-ordinated plan for the ultimate irrigation, drainage, control of floods and reclamation of the great central valley.

General layout of a co-ordinated plan for the ultimate supply of water for all purposes in Southern California and the control of floods.

Division of these general plans into units that will provide an enormous program of progressive development.

"GETS-IT"
ENDS CORNS
Pain All Gone
In 3 Seconds

World's Fastest Way

"Gets-It" is a scientific liquid that millions use, among them famous dancers, athletes, doctors and folks who walk a lot. It ends corns. One drop stops pain in 3 short seconds. Then the corn loosens and comes off . . . all gone, forgotten. You walk in peace. There are imitations of "Gets-It." So watch out. Get the genuine. All druggists. Enough to kill a dozen corns costs 35c.

preview radio—
extra-ordinary
Suite 902-904 Biltmore Hotel
October 20th to 25th, Inclusive

The Radio— Judged by any standard Stromberg-Carlson Radio Receiving Sets measure up—whether it be beauty of design and finish—furniture standards of beauty—an artist's requirements and conception of tones and quality—an electrical engineer's specifications of construction—or the Radio Fan's desire for distance, sensitivity, selectivity and trouble-free and dependability of performance—in fact, it is tomorrow's radio today—the last word.

The line for 1925-26 season comprises four distinctive and beautiful models, giving what may be required in radio at the lowest price at which these essentials may be secured.

Five-tube, three-dial control, table and console models at $190 and $330, respectively, and

Six-tube, in table and "high boy" floor model, dual control. Selling for $225 and $360.

Both sets are constructed for the use of the latest developed tubes, neutrodyne principle, with Ray H. Manson's application.

The Factory— Radio development has been one of the wonders of the age. Advancement and perfection in both broadcasting and reception have been remarkable. In the former it has been the problem of the few and is simple in comparison with the difficulties of reception.

Who should be better qualified to meet the difficulties and intricate electrical manufacturing problems than a company with 33 years of successful experience in the manufacture of telephones and telephone switchboards?

The Stromberg-Carlson Telephone Mfg. Co. of Rochester, N. Y., with plant facilities and capital, with the best engineering talent and with experience gained in the manufacture of over 3,000,000 telephone instruments and the construction of telephone main office switchboards, some of which cost over $1,000,000, may be depended upon to engineer and manufacture good radio.

The Distributor— Woodill & Hulse Electric Co., established in Los Angeles 34 years ago, in the year 1891, when the electrical industry and Los Angeles were as yet undeveloped, know that in offering Stromberg-Carlson Radio Receivers they are presenting the very best in radio.

Our Company has an enviable reputation as a most successful distributor of electrical specialties, and one reason for this is that it has been most careful in its selections, having always thoroughly investigated both the manufacturer and the goods.

Not having handled radio heretofore we have approached this class of goods with more than average caution, due primarily to our endeavor to benefit by the lessons the trade has learned. So, therefore, after a careful and intensive analysis for over six months of the whole field, we announce with pleasure and pride our selection as distributors of Stromberg-Carlson Radio Receivers and Apparatus.

To the Trade— Every real merchant handling radio today realizes the difficulties he is confronted with and the general chaotic condition that exists and the fact that it is not possible for all those manufacturing radio today to live through and carry on. Radio is a science, its manufacture is a highly technical business that requires experience, manufacturing plant and facilities, capital, also merchandising experience and reputation. How many can qualify?

Stromberg-Carlson Radio Receivers will be sold by us through franchise dealers only. We have thoroughly investigated the quality and performance of this merchandise, we have known the manufacturer for years, we can thoroughly recommend both.

Stromberg-Carlson receivers perform satisfactorily; they give entire satisfaction; they stay sold because they don't give trouble; the franchise is valuable; the merchandise is fully guaranteed, mechanically and as to sales policy. We advise you to investigate—NOW. The hours will be from 1 to 5 p.m. and from 7:30 to 9:30 p.m.

To the Public— Although this display of the latest Stromberg-Carlson achievement is held primarily as an introduction to the trade, we feel that it is advisable to invite the public, as it was impossible for us to exhibit at the recent Radio Show.

In spite of the fact that we have given no publicity to the matter of our intensive investigation of the radio market and field and final decision to handle Stromberg-Carlson, it has become known what our decision is, and we have had many requests to see these remarkable sets.

We therefore extend an invitation to anyone who is interested; the hours will be from 9 to 12 A. M. and from 7:30 to 9:30 P. M. Knowing that there is a keen interest in radio, particularly in its advancement, these new sets will be a revelation to everyone. No sets will be sold to the public, as we deal only through authorized franchise Stromberg-Carlson dealers.

GIRAND PROJECT HEARING CLOSES

Power Commission Takes it Under Advisement

Legality of Waiver Offered by Applicant Studied

States Prepared to Fight if Dam Approved

[BY A. P. NIGHT WIRE]

WASHINGTON, Oct. 21.—The Federal Power Commission today took under advisement the application of James G. Girand for a license to construct a water power project at the Diamond Creek site in Arizona.

A warning from representatives of Girand that he and his associates will not be used as pawns by six of the basin States to force the seventh, Arizona, to sign the Colorado River pact, marked the closing of the two-day hearing. At the hearing, opposition to the application was expressed by representatives of all the basin States and by numerous private interests.

Arguments today centered about the legality of the waiver offered by the Girand interests designed to protect all upper basin States against loss through the Girand project of use of waters of the rivers within their boundaries. Attorneys for the upper basin States questioned whether such a waiver would be binding either upon Girand or upon the commission, but its legality strongly was upheld by William H. Burgess, representing Girand, who declared it one of the simplest of legal forms.

Secretary Work, a member of the commission, also indicated the legal aspects may prove determining factors, declaring "it seems to me that the whole question resolves itself into whether the waiver offered by Mr. Girand would be legal."

Secretary Work has requested that this phase be taken up.

WANTS SAFEGUARDS

L. Ward Bannister, Denver, speaking for the city of Denver and upper basin States, declared the waiver offered by C. T. Knapp, representing Girand, could not be legal because of the limited jurisdiction of the Federal Power Commission, which he said, grants land and not water rights at river sites.

Bannister urged that if the commission seriously considered the waiver, the upper basin States should be given opportunity to suggest additional clauses and safeguards to be written into it.

Atty.-Gen. Boatright of Colorado opposed granting Girand or any others license for developing water use on the Colorado which would serve to develop Arizona interests until such time as that State had entered a water compact. He also expressed fear that the Girand project, by regulating the flow of the river, would increase the use of water below the dam by other interests for irrigation, which would result in establishment of many more priority rights in the lower regions to the detriment of upper States.

Former Representative Mondell, Wyoming, urged the commission to delay action on the Girand application until such time as one of the seven States definitely had rejected by legislative action the proposed compact. He said that action of Congress after passage of the Federal Water Power Act in declaring in favor of a division of the Colorado's waters among the basin States also might be taken to supercede the act itself as an expression of Congress. He held that the commission is morally, if not legally, bound to withhold grant to any water rights on the Colorado until after such division of waters is made, or Congress recalls its most recent action.

Arguments developed almost unanimous agreement among the States that legal action against the Girand project will be taken if the commission grants his application.

There was no indication when the commission will hand down its decision. It also has under consideration a proposal by the State of Arizona for a power development project at Bridge Canyon in that State, which was offered shortly before hearings on the Girand application began.

WORK URGES SURVEY FOR COLORADO POLICY

[BY A. P. NIGHT WIRE]

WASHINGTON, Oct. 21.—Recommendations for a broad conservation policy covering the nation's natural resources were made by Secretary Work tonight in a survey of the year's work of the Interior Department.

This policy, he said, should not be based upon the idea of hermetically sealing the nation's resources to preserve them for future generations, but upon the commonsense plan of using what is needed but eliminating waste.

The review, which officials intimated contains some of the recommendations the Secretary will include in his annual report, also suggests a comprehensive survey to determine a definite government policy for all phases of the Colorado River's development for the increased use of water power as a means of conserving the nation's coal resources, and for the conservation of the fertility of the soil in farming sections, a subject which he declared had not received proper consideration in programs already adopted.

The Secretary further recommended co-ordination of all Alaskan administrative activities in one bureau under one Cabinet officer, in the interest of economy.

ARIZONA FILES ON GLEN CANYON DAM SITE

[EXCLUSIVE DISPATCH]

PHOENIX, Oct. 21.—The claim of the State of Arizona upon the Glen Canyon dam site, above Lee's Ferry on the Colorado River, is in accordance with the High Line Canal Association's plans for a storage dam at that point, with diversion of the stored waters at Bridge Canyon, through a ninety-mile tunnel. The Glen Canyon dam is to be 570 feet high, to store 40,000,000 acre feet of water, backed 100 miles upstream far over the Utah line. The diversion dam would be 900 feet high, with water taken from it at the 825-foot level above the river bed.

The State filing on Glen Canyon has been made with State Water Commissioner Trott and is to be forwarded at once to the Federal Power Commission. It is in the name of the board of directors of State institutions through its secretary, C. M. Zander. This officer today advanced an administration theory of opposition to the policy of storage at either Boulder or Black canyons, declaring that "at those points the river would be regulated for only a small fraction of its possible development and leave a large area exposed to evaporation."

The Glen Canyon dam site for years was under exploration by the Southern California Edison Company, which appears to have abandoned it. It was examined by a board of government engineers which rejected it, on the ground that the walls and base could not bear a dam and because building rock could be obtained near by. Three years ago Prof. E. G. P. Smith, head of irrigation engineering at the University of Arizona, summed up these objections by stating:

"The rock is a fine grained, poorly cemented sandstone which pulverizes when quarried and is fit neither for building blocks nor for concrete aggregate. Material for the dam would have to be hauled five or six miles at great expense. The depth to bedrock is great and the location is 140 miles from a railroad and there is no market for power within 560 miles that could justify construction cost of a high dam."

VOLCANO NO BAR TO SLEEP

[BY A. P. NIGHT WIRE]

NEW YORK, Oct. 21.—The phenomenon of a volcano spouting molten lava skyward, forming a glowing rainbow across the sky, and emitting thunderous reports, does not prevent the 1000 inhabitants of Thira, Santorini Island, in the Aegean Sea, from sleeping soundly, Dr. Henry S. Washington reported on his return here today. Dr. Washington, professor of geology at Carnegie Institute, journeyed to Greece shortly after the volcano became active in August, to study its action. Residents of Thira have become accustomed to the din, he said, and when the eruption ceases, about next August, they probably will experience a period of insomnia until they become accustomed to the silence.

Tract Involved in Scandal to be Developed

[EXCLUSIVE DISPATCH]

SACRAMENTO, Oct. 21.—Wrightwood, a tract of land in the San Bernardino Mountains, which figured in the recent notoriety which involved the State Banking Department, is to be developed by southern interests, according to articles of incorporation which were filed today with Secretary of State Frank C. Jordan.

The tract is to be improved as a summer and winter resort by the Wrightwood Development Company of Los Angeles, which is capitalized at $200,000.

The directors are James M. Oliver, attorney for the State Banking Department; M. M. Gilbert and A. J. Wheeler, Los Angeles, and George E. Richardson and Robert L. Smith of Colton.

ARIZONA WOMAN ENDS LIFE

[EXCLUSIVE DISPATCH]

PHOENIX, Oct. 21.—Mrs. Charles Henderson ended her life in a Glendale hotel today by drinking two ounces of carbolic acid. She announced her deed as she stepped into the room of another lodger and then fell to the floor. Relatives live in Dallas, Tex.

ESPEE TO BOOST PACIFIC COAST

World Advertising Drive Planned for 1926

Details Are Formulated at Bay City Meeting

Opportunities of Southwest Will be Described

[EXCLUSIVE DISPATCH]

SAN FRANCISCO, Oct. 21.—"Persistent world advertising, and more of it, for the Pacific Coast and the Southwest will be obtained by the Southern Pacific Company in 1926," T. M. Schumacher, vice-president in charge of traffic for the company, stated today on adjournment of a conference of twenty-five of the company's traffic representatives to outline the railroad's 1926 advertising program.

Officials of the company from all parts of the United States, including those in charge of the Southern Pacific's foreign agencies, were present at the meeting. In working out the advertising program, the main purpose was to bring more tourists, settlers and industries to the West.

"The Pacific Coast is developing at a faster pace than any other section of the country," Schumacher said. "Reports of our representatives in Europe and in every large center of the United States shows that the Pacific Coast and its progress is attracting world-wide interest. The financial investment which the company will make in its 1926 advertising program will direct this attention to the home, agricultural and industrial opportunities, as well as tourist attractions along our lines.

"Tourists become residents and residents become producers. The best opportunities for the individual are found in the West. Through this extensive advertising we hope to induce many thousands of people from the East and other countries to come out here and see for themselves, the advantages and attractions to be found in this as yet undeveloped western empire."

RICHES LOST FOR MAN BY COURT RULE

Sanatorium Inmate Held Incompetent to Handle Own Fortune

[BY A. P. NIGHT WIRE]

NYACK (N. Y.) Oct. 21.—Ezekiel O. Rose of Stony Point, now in a sanatorium at Cornwall, was declared incompetent to handle his estate of $2,000,000 by a commission which reported here today to Surrogate Mortimer B. Patterson.

On Saturday of this week, Supreme Court Justice Taylor will select a committee to handle Rose's affairs.

The story of Rose's business career is that of a man who held the theory that he could become by honest means a millionaire in a township of 5000 population by catering to every need of the residents and set out to prove it. Rose came to Stony Point in the Civil War days to serve as a licensed druggist at $200 a month in the Penny Drug Store, which he later acquired.

He stocked the store with foodstuffs, clothing, grain, farming implements and sundry other goods. He guaranteed metropolitan quality, prices and service.

The result was that the Rose Store gave its proprietor an estate valued a few years ago at $1,500,000. A few weeks ago he entered the Cornwall Sanatorium.

FASCISTI ACQUITTED OF MURDER CHARGE

[BY CABLE AND ASSOCIATED PRESS]

REGGIONELL 'EMLIA (Italy) Oct. 21.—Four Fascisti, charged with murdering Antonio Piccinini, a candidate of the Socialist Maximillist party in the general election of April, 1924, were acquitted in the court of assizes here today. The jury held that Piccinini had been murdered, but cleared the four of participation in the crime. A great procession of Fascisti escorted the exonerated defendants to their homes amid enthusiastic singing.

EXPULSION OF CARRICO REQUESTED

Mexican State Seeks to Oust American Chamber Head in Strike Case

[BY CABLE—EXCLUSIVE DISPATCH]

MEXICO CITY, Oct. 21.—Expulsion from the country of S. L. Carrico, president of the American Chamber of Commerce, is asked in a resolution adopted by the State Legislature of the State of Tabasco. The resolution has been sent to all other States with requests for their co-operation in a complaint to be filed with Federal authorities against Carrico's interference in Vera Cruz politics in connection with a deadlock between merchants and employees there.

Carrico recently signed a message as president of the American Chamber of Commerce, which, it has since been stated, was unauthorized by the board of directors, addressed to Gov. Jara of Vera Cruz. It was in the nature of a threat that unless Jara withdrew his opposition to Vera Cruz merchants Carrico would use his influence to induce Mexico City buyers to instruct their New York houses to ship goods through some port other than Vera Cruz.

Group Going to Study Pygmies Reaches Iowa

[BY A. P. NIGHT WIRE]

DES MOINES, Oct. 21.—Four men constituting the Stirling-Smithsonian Airplane Expedition Company, going to study pygmies in the jungles of New Guinea, arrived in Des Moines late today by airplane. San Francisco is their flying goal. From there they will go by boat, shipping their metal Liberty-engined plane.

The expedition is being sponsored by the Smithsonian Foundation and will be commanded by M. W. Stirling, who will join the four at San Francisco.

SARDINE PACK IS ESTIMATED HIGH

Canning Operations Started at Harbor Yesterday

Industry Expected to Enjoy Best Year in History

Tuna Season Nears End With Output Less Than 1924

Canning of the largest sardine pack in the history of the industry began yesterday with two San Pedro canneries swinging into action, and the balance of the canneries expected to run at full capacity within a week, according to a statement made yesterday by a leading broker of the industry.

The sardine pack this season is estimated at more than 1,500,000 cases, compared with 550,000 cases last season. It is reported that there is an enormous demand for the coming pack, and this authority states that approximately three-fourths of the pack is already sold under contract. Approximately 50 per cent of the sardine pack is exported, the larger portion of which goes to the Orient, where the high-grade product is replacing the cheaper grades of that region.

There are nine canneries in the harbor district with facilities to pack sardines. As the tuna season is about at an end, the canneries, which are not equipped to pack both tuna and sardines, will cease tuna canning to pack the more plentiful sardine. Two of the canneries have facilities to pack both tuna and sardines at the same time. The sardine pack will probably continue in progress until early March.

The oil obtained from the sardines is being converted into the finest grade of fish oils and this industry is becoming one of the most important of the harbor district.

With the close of the tuna season near, canners familiar with the industry predict that the pack of white tuna in Southern California will total approximately 450,000 cases, compared with a total pack of 500,000 cases last season. The pack of the light meat variety is estimated at 250,000 cases. The peak of the tuna canning season was reached during the first part of August and continued until the middle of September. Tuna from Mexican waters will continue to arrive in the harbor district in small quantities until about the first of the year.

The tuna market has held firm since the season opened early in July. The opening price was $3 a case for white tuna, $1 a case lower than the opening price in 1924. The prevailing price for white tuna yesterday was $3 a case, which has varied little during the season. The market is well cleaned up, the carryover at the present time amounting to less than 40,000 cases, compared with a carryover of 70,000 cases on this date last year. The carryover of all of the canneries is less than the carryover of one cannery last season.

One authority states that he believes the entire season's pack of tuna will be cleaned up soon after the first of the year. Little buying is expected until December, as eastern brokers are waiting to buy for delivery after inventories are made the first of January.

London Daily Radio

BY ARTHUR W. KIDDY
BY WIRELESS—EXCLUSIVE DISPATCH

[Copyright, 1925, New York Evening Post, Inc.]

LONDON, Oct. 21. — Financial markets were cheerful to buoyant today.

Chief interest in the markets was centered on possible gold withdrawals before sailing of the Mauretania. In insurance circles, where rates have increased sharply this week, it is estimated that between £3,000,000 and £4,000,000 will be shipped to the United States on this liner, although it is generally agreed that, if sterling improves in the meantime, the amount will be considerably reduced for the profit on gold shipments has been reduced through a rally in sterling and higher insurance charges.

Vauxhall Motor shares were in keen demand on reports of a provisional agreement under which General Motors Corporation will obtain control. Oil shares were buoyant, while rubbers and home industrials were in good demand.

Foreign securities were relatively strong, the chief feature being Brazilian issues and European reconstruction loans. French issues were held back by the weakness of the franc and the statement in the Morning Post from its Paris correspondent that subscriptions to the new gold loan would probably reach an equivalent of only £60,000,000, whereas three times that amount had originally been hoped for.

LOCAL TAXES TAKE TOLL

Increases Absorb Savings From National Campaign for Reduction; Requa Shows Danger

BY EARLE E. CROWE

To the best of its ability the Washington government is marshaling its forces for a campaign to reduce Federal taxes from $300,000,000 to $500,000,000. And just as assiduously the State, county and city governments are nullifying the effects of Federal reductions, both present and potential, by continuous increases in local taxes.

As Mark L. Requa, prominent California Republican and general director of the oil division of the United States Fuel Administration during the war, writes, the situation is so alarming that a definite movement should be started to consider the subject of important decreases in local taxation. Extravagance in local government apparently is nicely balancing the economies in national government, and the taxpayer is no better off then he was befora.

INCREASE HIGH

Mr. Requa, in a newspaper article, produces statistics to show that the cost of government in California, including State, county and city, increased from $116,000,000 in 1911 to $300,000,000 in 1921, and is estimated at $500,000,000 in 1925. The increase between 1921 and 1925 is nearly as much as the saving in Federal taxes contemplated by the Coolidge administration.

He further places the responsibility principally on the county and city governments by showing that of the 1925 estimate of $500,000,000 as the cost of government in California, the State is responsible for only about $74,000,000.

Of course, the plenitude of cheap money is mainly the cause of the orgy of spending on the part of the local governments, just as it is the reason behind the furious speculation in the stock market. And, as in the stock market, where many untutored speculators are due for an expensive trimming, hundreds of local governments are spending money blindly, without thought of revenues or the burden imposed on the taxpayers.

TAXPAYERS HIT

Before any corporation borrows, it must first convince the bankers that income is sufficient to pay the interest charges and discharge the debt at maturity. If there is any possibility of resorting to an assessment on the stockholders to pay the interest, the banker will decline to continue negotiations. But this is what many municipalities are doing. They authorize bond issues for improvements and if current revenues are insufficient to meet the interest requirements, the taxes are boosted, without regard to the earning power of the taxpayers. As long as the assessed valuation of the property is ample, the bonds are well secured, but the taxpayers are shouldering a constantly increasing burden that cuts in heavily on income.

In his article, Mr. Requa points out that in California the total value of all agricultural products last year was $419,000,000, or $81,000,000 less than the tax bill. In 1921 the value of agricultural products was $13,000,000 more than the tax bill.

INCOME INSUFFICIENT

Mineral products, including petroleum, were valued last year at $358,000,000, or $142,000,000 less than the tax bill, in 1921, the value of mineral products failed to meet the total taxes by $55,000,000, as against $142,000,000 in 1924, although the value of mineral products had increased almost $90,000,000.

"The problem of the State," Mr. Requa writes, "is no different from that of the individual, save in point of magnitude. If we spend more than we earn, we must borrow. If our borrowing is long continued we face disaster. The question immediately arises, where is the danger line in cost of government in the State of California?"

Conservative municipal financing demands that debts shall not grow as rapidly as wealth. In the majority of instances the larger cities conform to this yardstick but many of the smaller towns and cities are borrowing away above their heads. One authority estimates that the small cities and towns in the United States had a total debt of $821,811,740 in 1922, and increased this amount by $642,596,000 up to the end of 1924.

In cases like this the extravagance holds a real danger, and unless it is curbed, the taxpayers will never benefit by the enlightened taxation policies of the national government.

MAKING OF MOTORS AT TOP SPEED

September Best in Two Years for Large Plants Aside from Ford

[EXCLUSIVE DISPATCH]

NEW YORK, Oct. 21.—Automobile manufacturers, aside from Ford, turned out more cars in September than in any month in two years, with one exception, and then the total was only 4000 larger, according to current issue of Motor. Ford production, while materially larger than in August, was less than half of normal, but his plants are swinging into their full stride and his business for the last quarter undoubtedly will far exceed the same period of last year, for the company has an enormous backlog of unfilled orders.

Ford output this month will rise sharply while that of the rest of the industry will decline moderately. A considerable proportion of the cars manufactured in the last two or three weeks have gone on the floors of dealers, which were almost bare, and retail stocks are again approaching normal in many lines.

This curtailment of output is the most gratifying feature of the situation. If it is continued it will avert overproduction and conserve profits not only for dealers, but for manufacturers themselves. The volume of trade still is highly satisfactory, but sales in the last quarter could not be expected to equal or even approximate those of the second and third.

The only danger at present is that in their eagerness to maintain their sales volume dealers may acquire unwieldy stocks of used cars and sell too many new ones on unsound credit terms.

Eleven Issues of Bonds Will be Sold Soon

Eleven municipal bond issues, aggregating $12,759,000, will be awarded in the State of California during the next six weeks, according to a report made yesterday by Dean, Witter & Co., investment bankers of Los Angeles.

On the 23rd inst. an issue of $5,000,000 East Bay utilities district 5 per cent bonds, due 1935 to 1974, will be sold. On the 26th inst. $422,000 San Diego County Hospital 5 per cent bonds, $55,000 San Diego County Detention Home 5 per cent bonds and $700,000 Los Angeles University site 4½ per cent bonds will be awarded.

An issue of $7,132,000 Sacramento-San Joaquin drainage district 5 per cent bonds will be sold on the 27th inst. November 1, an issue of $50,000 Hillsboro municipal improvement 5 per cent bonds, due 1926 to 1950, will be awarded.

Four issues are scheduled to be sold November 2, as follows: $7000 Townsend school district 5 per cent bonds, due 1928 to 1941 (Tulare county;) $150,000 Solano county highway bonds; $60,000 Bret Harte Union High School 5 per cent bonds, due 1926 to 1955 (Calaveras county,) and $95,000 Sausalito school district bonds (Marin county.)

An issue of $36,000 Sunnyvale municipal improvement bonds (Santa Clara county) will be awarded on December 7.

McCORMICK GOLD NOTES ON MARKET

Bankers Offer Securities of Large Pacific Coast Lumber Concern

An issue of $1,000,000 Chas. R. McCormick Lumber Company three-year serial 5½ per cent secured gold notes, dated August 1, 1925 and due August 1 and February 1, 1926 to 1928, will be offered today by Dean Witter & Co., at prices to yield 5.50 to 6 per cent, according to maturities.

The Chas. R. McCormick Lumber Company has acquired, through consolidation, timber lands, mills, terminal yards, wharves and vessels of the nine different McCormick companies operated on the Pacific Coast. In addition the company has purchased the timber holdings and manufacturing plants of the Pope and Talbot interests in Washington.

The consolidation gives the McCormick company from fifteen to twenty-five years' supply of timber unsurpassed in quality and location, saw-mill facilities with an annual production of 250,000,000 feet, steamships for coastwise and intercoastal timber trade, terminal docks at Seattle, Portland, San Francisco, Los Angeles, San Diego and Brooklyn, N. Y., yards at Los Angeles, San Diego, Riverside, San Bernardino, Oceanside, Cal., and Brooklyn, N. Y., and a large buying organization.

Atlantic Coast sales offices will be located in New York City and the company's general offices will be in San Francisco. The physical properties of the company, exclusive of the Pope and Talbot holdings, have been valued at $5,891,510.70, and the total funded debt of the firm is $1,273,630, of which $1,000,000 is represented by this issue of notes.

NORWEGIAN MORTGAGE BONDS SOLD

Bankers Market Issue of Sauda Falls Company, Ltd., Gold Securities

Blair & Co., Inc., White, Weld & Co., and the Herrick Company have sold an issue of $4,000,000 Sauda Falls Company, Ltd., first mortgage 5 per cent sinking fund gold bonds, series A, due October 1, 1955, at 98 and interest to yield 5 1-3 per cent, according to an announcement made yesterday.

Sauda Falls Company, Ltd., a subsidiary of Union Carbide and Carbon Corporation, was organized in 1913 to develop water power resources of Storelven, Norway, for which it holds concessions from the Norwegian government extending to 1979. The properties owned by the company have been appraised at a value in excess of $7,700,000.

After completion of the present financing, it is estimated that based on power already developed on present contracts, the Sauda Falls Company, Ltd., will show a substantial annual surplus from earnings after deducting all expenses of operation, taxes, interest and sinking fund payments on the present $4,000,000 issue of series A bonds.

The average annual net earnings of the guarantor company, Union Carbide and Carbon Corporation and subsidiaries, after all charges for the three years ended December 31, last, were $14,897,280, equal to over seventy-four times the maximum annual interest charges of $200,000 on the present issue of bonds.

MARY PICKFORD ON BANK DIRECTORATE

Announcement has just been made of the election of Mary Pickford to the directorate of the Federal Trust and Savings Bank of Hollywood, known as "the motion-picture bank," of which Joseph M. Schenck is president. Included on the board is Douglas Fairbanks, husband of the actress.

BUSINESS TODAY

Country is Entering a Great Gas Age, Says H. M. Addinsell, Who Sees Romance in the Rejuvenation of an Industry Now a Century Old, But Not Yet in Its Prime.

BY PAUL WILLARD GARRETT

[EXCLUSIVE DISPATCH]

[Copyright, 1925, New York Evening Post, Inc.]

NEW YORK, Oct. 21.—In Wall street H. M. Addinsell is known for the vision he caught years ago of a great future in public-utility bonds and for his persistency in advocating them. The firm of which he is a partner, Harris, Forbes & Co., began business in the very year that witnessed the birth of the electrical industry and its pioneer work has been in the power and light field.

It may appear that he has forsaken the old love for Mr. Addinsell now to say that the experts in his firm see a rich future for the gas industry, but such a change in heart he has not made. Without losing any of his enthusiasm for the great growth that lies ahead in the electrical industry, he points to another field that is in his opinon just on the verge of big things.

WILL GAS HURT?

An emphatic "No," is the answer Mr. Addinsell gave to this question and he had figures to back him up.

Gas as an industry began years before the first Edison plant opened on Manhattan Island in 1882. Many are still alive that remember the day, forty-three years ago last month, when electric current was sent from the Pearl-street station, but the first gas company in this country was organized sixty-three years earlier, in 1816, at Baltimore.

That the advent of the electric light would kill the gas business was common thought forty years ago, but Mr. Addinsell's investigations show that then was when the gas industry began to grow.

SALES MOUNT

Apparently the development of the electric light, by forcing gas manufacturers to find new uses for their product, was a boon instead of a blow.

Starting as a lighting enterprise, the gas industry has become primarily a fuel producer. No less than 85 per cent of the gas sales today are for fuel and the ratio steadily is mounting. In 1924 lighting sales contributed only 15 per cent of the total, industrial fuel sales 24 per cent and domestic fuel sales 61 per cent.

This interesting change in the character of business would not be so significant, except that the volume has thereby been raised enormously. Gas for fuel, so some would have us believe, is coming into general popularity.

At any rate, none of us can deny that sales of manufactured gas leaped from 306,000,000,000 cubic feet in 1919 to 405,000,000,000 in 1924. Here is an industry that reaches back almost to the War of 1812, but which in the last five years has enjoyed a 33 per cent increase in gross business. If the expectation of a 50 per cent increase in sales within another three years is borne out, business will add to its record many more stories of fresh romance. What is more, a new and great field for investment will have been opened to our growing army of investors.

BUSINESS PHILOSOPHY

BY WILLIAM FEATHER

WE ALL know that men and women do better work and more work when they are happy and contented than when they are worried or feel they are oppressed.

But few of us know there is a physical reaction which produces this effect.

Physicians tell us that fear contracts the blood vessels and checks the flow of blood. A man who is constantly in fear of the powers over him, who fears he will lose his job or that some other calamity will befall him, is by his state of fear placing himself in a position to realize calamity.

OIL STOCKS UP; JULIAN IRREGULAR

Bank and Utility Shares Generally Move Lower; Mines Active

Movements on the Los Angeles Stock Exchange yesterday were irregular with Julian Petroleum preferred and common issues leading in activity and the balance of the oils generally higher.

Julian prferred opened 1-4 point higher at 17½, dropped back to 15, recovered to 17⅝ during the afternoon, and closed at 17, a net loss of ¼ point. The common opened steady at 6⅛ but sold off to a close at 6, a net loss of ⅛ point. Marine Corporation was a heavy trader and advanced to a close at 1.65, a gain of 2 points over Tuesday. Standard Oil of California added 2 points to 56¼, after opening at 57. Union Oil closed 1¼ point higher at 36½ and Union Associates ⅝ point higher at 34¼. United Oil advanced 1 point to a close at 57 with a big turnover.

Los Angeles Investment was a heavy trading stock, and after opening steady at 5.80, reacted to 5.70 and recovered to 5.73 at the close, a net loss of 7 points. Southern California Edison common was ⅛ point higher at the opening, but declined during the morning session to 124, and sold steady at 123½ during the balance of the day. Edison 7 per cent and 6 per cent preferred added ¼ point each to a close at 111¼ and 97⅝ respectively. Los Angeles Gas and Electric sold steady at 86¼.

Bank stocks continued the decline of Tuesday with Bank of Italy leading with a drop of 20 points to a close at 415. American-commercial Corporation opened 8 points lower at 215, but recovered to a close at 216, a net loss of 7 points. Bancitaly Corporation traded steady at 219. National City Bank of Los Angeles sold higher at 157.

San Francisco Gold was the feature of trading in the mining list with an advance of ¼ point to 25½, on a large turnover. North Star closed ½ point lower at 3 and Oatman United ⅛ point lower at 5. Big Jim Mines was traded in at 12.

Lumber Orders Increase With Production Off

Small decreases in production and shipments, with a slight increase in new business, are contained in the report of 343 of the larger softwood mills of the country for the week just closed, compared with the report of 360 mills the previous week, according to a report of the National Lumber Manufacturers' Association. In comparison with reports for the same period a year ago, increases in all three items are noted.

Unfilled orders of 123 southern pine mills at the end of last week amounted to 248,923,136 feet, compared with 249,888,768 feet for the week previous. For the 104 west coast mills are unfilled orders were 115,490,286 feet, as against 117,600,280 feet for 101 mills a week earlier.

The West Coast Lumbermen's Association of Seattle reports new business for the 104 mills reporting for the week 4 per cent below production, and shipments 6 per cent above new business. California Redwood Association reports production about the same, a slight decrease in shipments and a heavy increase in new business.

Of the reporting mills, the 335 with an established normal production for the week of 208,018,407 feet, gave actual production of 109 per cent, shipments 106 per cent and orders 102 per cent thereof.

BANK CLEARINGS SHOW GAIN

With all sections of the country showing an increase, bank clearings in the United States during September, like those of most preceding months this year, established a new high record for the period, aggregating $39,617,647,800. This is 12.7 per cent more than the amount reported to Dun's Review for September, 1924, there being a gain of 12.9 per cent at New York City and one of 12.5 per cent at outside centers. The New York City clearings total $21,774,428,500, and those at outside cities $17,843,269,300.

A net increase of 6 per cent is shown by the cities included in the New England section, with gains at Boston, Springfield, Fall River, Lowell, Holyoke, Portland, Hartford and Providence. The expansion in the Middle Atlantic States is 14.4 per cent, increases occurring at Philadelphia, Pittsburgh, Scranton, Reading, Wilkesbarre, Harrisburg, Buffalo, Rochester, Syracuse and at some other points. Returns for the South Atlantic section show the unusually large gain of 30.6 per cent, with more particularly marked increases at Baltimore, Washington, Richmond, Atlanta and Jacksonville. For the southern group the September bank clearings exceed those of that month of last year by 10.7 per cent, with gains at most cities and notably at St. Louis, New Orleans, Memphis, Nashville, Dallas and Little Rock. In the Central West the September clearings are 13.2 per cent larger than those of a year ago, especially large increases occurring at Chicago, Detroit, Cleveland, Cincinnati, Youngstown and Milwaukee. Statistics for the western section show an expansion of 4.3 per cent, due principally to larger totals at Minneapolis, St. Paul, Denver and Salt Lake City. On the Pacific Coast last month's clearings exceed by 16.3 per cent the amount for the corresponding period of 1924, all cities included in this section showing increases, notably Seattle, Portland, San Francisco, Los Angeles, San Diego and Oakland.

LATIN-AMERICA BUYS MORE

Trade of the United States with Latin America continues to show gains despite the suggestion that the prewar movements of manufacturers from Europe to that area might be renewed. American exports to South America alone in the first eight months of this year, were $264,000,000, against $201,000,000 in the corresponding months of the preceding year, according to the trade record of the National City Bank of New York.

Exports to Central America during the eight months of the current year totaled $48,000,000, compared with $42,000,000 last year; to Mexico, $98,000,000 against $86,000,000; Cuba and Santo Domingo, $143,000,000 against $140,000,000 in the first eight months of 1924.

This increase in purchases from the United States is reciprocated by a corresponding increase in imports to this country. Imports from South America in the first eight months of 1925 were $344,000,000, compared with $307,000,000 in the same months of the preceding year; Central America, $31,000,000 against $28,000,000; Mexico, $127,000,000 against $113,000,000 in the preceding period.

Argentina, Brazil, Uruguay, Cuba and all of the West Coast of South America showed marked increases in imports from this country, especially in manufactures, which form a large share of purchases from the United States. United States exports to Argentina in the period of the current year were $97,000,000 against $74,000,000 in the same period of 1924; to Brazil, $60,000,000 against $42,000,000 and the balance showed marked increases.

Manufactures are the chief articles in which United States exports to Latin America show increases; namely, automobiles, rubber manufacturers, electrical apparatus and cotton cloth. Motion-picture films show increases in shipments to Argentina, Brazil, Chile, Panama and Mexico.

The United States' principal purchases from Latin America are wool, hides, quebracho, nitrate of soda, coffee, cacao, rubber, fruits from the Central American States, wool and hides from Argentina, copper from Mexico, sugar, tobacco, iron ore and cabinet woods from Cuba, nitrates from Chile, tin from Bolivia and copper from Chile and Peru.

Trade of the United States with South America in the calendar year 1925 will probably be approximately $900,000,000, as compared with $847,000,000 in the year preceding the opening of the World War.

IRON TRADE TONE SEEN AS FIRMING

Positive Indications of Strength Reported in All Divisions of Industry

[EXCLUSIVE DISPATCH]

CLEVELAND, Oct. 21.—Positive signs of strength are appearing in all divisions of the current iron and steel market, says Iron Trade Review. Orders for finished steel, particularly bars, sheets and tin plate are exceeding the output of the mills in spite of a high rate of production. Deliveries on certain products have become deferred from two or three days, the time required several weeks ago, to from six to eight weeks. This situation has given support to producers who were unsatisfied with quotations resulting from recent price competition and who have made attempts to maintain higher levels.

Pig-iron prices also are stronger, marked advances being the rule for first quarter delivery. The diversion of coke for domestic use continues a factor in the market for metallurgical fuel and Connellsville foundry and furnace coke are advancing almost daily. Steel works operations have increased since last week. The Steel Corporation is at 80 per cent of ingot capacity. This rate holds true also for the Chicago district while Pittsburgh is at 78 per cent.

Railroad buying in heavy volume is indicated by events of the past few days. Expectation that railroads entering Chicago will place from 500,000 to 600,000 tons of rails for 1926 delivery, is borne out by recent awards and current inquiry. The tonnage placed by these roads already totals 412,000 tons. The New York Central opened bids today on 205,000 tons. The Pennsylvania is tentatively in the market for 100,000 to 200,000 tons. With an award of 125 locomotives by the New York Central and the placing of forty by other roads, interest in power and rolling stock requirements of the railroads has revived.

Structural awards for last week total 25,861 tons, a marked falling off from the previous week. Automobile sheets have been advanced $3 a ton, making No. 22 gauge 4.40 cents, Pittsburgh. Prices on all grades of sheets have stiffened, the minimum now being 2.30 cents, Pittsburgh, for blue annealed, 3.15 cents for black and 4.30 cents for galvanized.

Coke, under the stimulating influence of strong domestic demand, has advanced to a minimum of $7.75 for foundry fuel and $7.50 for furnace grades. The rapid increase in the cost of fuel is affecting pig iron and furnace operators are either taking forward business at sharply higher prices or are withdrawing quotations for delivery beyond December 31. The General Motors Corporation has placed 14,000 tons and the Standard Sanitary Manufacturing Company, 20,000 tons.

The Iron Trade Review's composite of fourteen leading iron and steel products this week is $37.61, compared with $37.43 last week and $37.35 a month ago.

Metal Prices

[BY A. P. NIGHT WIRE]

NEW YORK, Oct. 21.—Copper quiet; electrolytic spot and futures 14 1-2.

Tin firm, spot and futures 42.62.

Iron steady, prices unchanged.

Lead steady, spot 9.50 and 9.60.

Zinc strong, East St. Louis, 8.27 and 8.40; futures 8.35 and 8.37 1-2.

Antimony, spot, 18.00.

World's Highest Wages Paid in United States

[BY A. P. NIGHT WIRE]

WASHINGTON, Oct. 21.—Wages, as measured both by their amount and what they will purchase, are higher in the United States than in any of eighteen other countries covered in a monthly index compiled by the International Labor Office.

The index, based on wages for various lines of skilled and unskilled labor and on food and rent costs in a principal city for each of the countries on July 1, places the figure for Philadelphia at 182. The next highest in the list was Ottawa, Can., with 165, while the lowest, 42, was reported for Lisbon. London, with 100, was used as the index base.

COTTON OFF IN DULL DAY OF TRADING

Fear of Fresh Bearish Crop Reports Continues to Check Activity

[EXCLUSIVE DISPATCH]

NEW YORK, Oct. 21.—Heavy frost in the central part of the cotton belt last night extended down to near the coast of Mississippi and thence eastward to Western North Carolina and South Carolina, as well as Georgia and Alabama. Frost was of a severe character in the Fort Smith, Little Rock and Chattanooga districts, appearing also at Wilmington, Charleston, Macon, Montgomery, Vicksburg, Meridien, Shreveport and Nashville and in Western Texas.

Ordinarily this development after heavy to killing frost of yesterday over the northern part of the belt from Northwest Texas throughout Oklahoma, Arkansas and the Memphis district, would have put the market up today. It was, however, offset by circulation of a private crop estimate of 14,832,000 bales without linters by one of the largest spot houses here which a month ago had put an estimate for 13,400,000 bales.

The effect was to cause many traders to apprehend more private crop reports, increasing their figures, would appear during the course of the next few days in advance of the government's crop report, due at 11 o'clock, our time, Monday.

There was accordingly no desire to increase speculative commitments on the bull side to any extent with this tendency to expect another bearish government crop report of around 15,000,000 bales without linters. The result was the market continued in its dull and dragging position of yesterday with little new local or outside speculative buying, and trade interests generally here and at Liverpool inclined to hold off until the report appears.

Prices started 10 to 20 points lower and made a maximum decline of 20 to 22 points from yesterday's closing in the early trading, October selling at about 21.70 cents; December 21.45; January 20.70; March 21 cents and May 21 1-8 cents. From those prices there was a rally of 10 points on the usual profit taking by shorts and some buying by local traders for a turn, but it did not hold.

The Weather Bureau's predictions for fair and warmer weather made it look as though the present cold wave in the South would pass off without much actual damage to the crop. It will, however, be several days before anything definite on this point can be learned.

Foreign Steel Bond Offering Due Out Today

F. J. Lisman & Co., Morgan, Livermore & Co., and A. M. Lamport & Co., bankers, are offering today $400,000 7 per cent first mortgage thirty-year sinking fund gold bonds of the Alpine Montan Steel Corporation, dated March 1, 1925, and maturing March 1, 1955, at a price to yield 7.30 per cent. These bonds are part of a total authorized close issue of $5,000,000, which represents the sole bonded indebtedness of the company.

The Alpine Montan Steel Corporation is one of the leading steel companies in Europe, and produces 100 per cent of all the iron and 70 per cent of all the steel manufactured in Austria. It has a long record of successful operation, having paid $27,319,000 dividends, averaging 15.7 per cent annually, and carried $23,819,000 to reserves from total net profits of $68,109,000 during the twenty-four years from 1900 to 1923. The company's great resources are indicated in the value of plants and equipment, conservatively appraised at $28,464,000, and inventory $4,042,000.

The earning power of the corporation is shown by the yearly average of $2,790,000 for net profits attained during the eight years preceding the World War, or equal to seven times interest and sinking fund charges on the present issue.

Rentes Issue Up Sharply in Rush on Paris Bourse

[BY CABLE AND ASSOCIATED PRESS]

PARIS, Oct. 21.—Three per cent rentes gained 3 points today over yesterday's market price of 44.50; they closed at 47.50 today.

Reports on the Paris Bourse that one of the clauses of the Caillaux financial plan for the restoration of the treasury provides for the recall of all the 4, 5 and 6 per cent rentes and their consolidation into 3 per cents caused an unprecedented rush on the latter.

The 4, 5 and 6 per cent rentes also gained about 2 points each in sympathy with the upward trend, the higher interest rentes being bought in order to convert them into 3s.

LODI TAX RATE $1.40

[EXCLUSIVE DISPATCH]

STOCKTON, Oct. 21.—A total assessment roll of $4,916,062 was announced by John F. Blakeley, City Clerk of Lodi. Soldier exemptions reduce this to $4,840,462. The tax rate for the year will be $1.40.

$1,000,000

Chas. R. McCormick Lumber Co.

[OF DELAWARE]

Three Years Serial 5½% Secured Gold Notes

Dated August 1, 1925 Due August 1 and February 1, 1926-1928

The Company The Chas. R. McCormick Lumber Co. of Delaware has acquired through consolidation, timber lands, mills, terminal yards, wharves and vessels of the nine different McCormick companies operating on the Pacific Coast. In addition the Company has purchased the timber holdings and manufacturing plants of the Pope and Talbot interests of Washington.

This consolidation of the McCormick and Pope and Talbot properties will give the Chas. R. McCormick Lumber Co. from 15 to 25 years' supply of timber unsurpassed in quality and location, saw mill facilities with an annual production of 250,000,000 feet, steamships for coastwise and intercoastal lumber trade, terminal docks at Seattle, Portland, San Francisco, Los Angeles, San Diego, and Brooklyn, New York, yards at Los Angeles, San Diego, Riverside, San Bernardino, Oceanside, California and Brooklyn, New York, a highly efficient buying organization, Atlantic Coast sales offices at New York City with general offices at San Francisco.

Security The physical properties of the Company (exclusive of the Pope and Talbot properties) have a total value (less reserves) of $5,891,510.70. The Company's total funded debt amounts to $1,273,630 of which $1,000,000 is represented by this issue of 5½% gold notes, and the balance of $273,630 in deferred installment purchase money mortgages.

The consolidated balance sheet of the Company as of June 30, 1925, after giving effect to this financing and purchase mentioned above shows current assets of $5,156,284.34 and current liabilities of $1,636,401.48, leaving net current assets of $3,519,882.86. The equity of net current assets is more than $3,519 for each $1000 note. Based on the total net assets of the Company each $1000 note of this issue shows an equity of $11,864.

Earnings The net income of the consolidated companies after depreciation but before Federal taxes for the six-year period ending Dec. 31, 1924, averaged $539,272.63 per annum or approximately 9.8 times the maximum annual interest requirements on this issue.

United Cigar to Expand in Florida Field

Keeping in line with the rapid development of property in Florida, the United Cigar Stores Company of America is planning to open 100 new stores, in that State, according to announcement made yesterday by George Whelan, an executive of the company.

At the same time, Mr. Whelan said that through the operations of C. A. Whelan, president of the company, the United's real estate holdings in Florida had increased enormously within the past year.

Mr. Whelan said, however, that the company was not in the real estate business in a speculative way, but merely acquired property where it was deemed advisable to open stores.

"The United Cigar Stores Company is probably the largest real estate firm in the world," Mr. Whelan said, "and we probably pay more rent than any other firm in the world.

"Where we find property that is suitable for a store location, if the price is right, we buy it. Then frequently we turn around and sell it, retaining a lease on that part of it which we require for our own business. In this manner our profits in Florida in real estate have been enormous in past years, due to the foresight of C. A. Whelan, who is directly is charge of these matters."

The Clearinghouse

News of Spring Street

National Department Stores, Inc., reports through Blair & Co., Inc., net profits of $1,028,508 after taxes and charges, for the six months ended July 31, last. This is equivalent, after 7 per cent dividend requirements on first and second preferred stocks, to $1 a share earned on 500,000 shares of no par common stock and compared with $1,400,041 or $1.87 a share on common in the same period of the previous year.

Net sales for the six months were $38,254,247, as compared with $33,698,669 in the corresponding period of last year.

Pierce-Arrow Expands

The rapid expansion of the Pierce-Arrow Motor Car Company during the last year is reflected in a report of sales announced yesterday by President Myron E. Forbes covering the first nine months of the current year.

The number of passenger car units shipped during the third quarter of the year shows an increase of 91 per cent over shipments during the same period last year. For the first nine months of 1925 the total increase in passenger-car shipments is 146 per cent.

Truck shipments for the third quarter represent an increase of 86 per cent, and the company's motor-bus business has increased 128 per cent over the same quarter of last year.

SEAT ON EXCHANGE SETS SALE RECORD

[BY A. P. NIGHT WIRE]

NEW YORK, Oct. 21.—The phenomenal activity in transactions on the New York Stock Exchange with an accompanying harvest of brokers' commissions, today carried the price of membership to a new record height of $135,000, compared with the previous record of $126,000 last week. Another seat also changed hands today at $130,000.

CLARK ESTATE VALUED

[EXCLUSIVE DISPATCH]

PRESCOTT (Ariz.) Oct. 21.—Appraisers of the estate of the late Senator W. A. Clark have found only $1,346,509 subject to Arizona inheritance tax. The main asset of the estate, stock in the United Verde Copper Company, is held to have been owned in New York and Montana.

BOND QUOTATIONS

Trading Broadens

[BY A. P. NIGHT WIRE]

NEW YORK, Oct. 21.—The bond market gained strength today as broadening activity pointed to a steady expansion of investment demand. Trading interest, which recently was swallowed up by the wild fluctuations of stock prices, seemed to be finding its way back into bond channels, and constructive operations were resumed in several important groups.

Nowhere was the revival of buying activity more effective than in the foreign division. Analysis of the provisions of the Locarno treaties gave investment circles a better impression of the lasting benefits likely to accrue to European nations—particularly Germany, Poland and Czecho-Slovakia—and this outlook found expression in accumulation of these countries' bonds.

New high records were established by the German 7s, the Rentenbank 7s and the city of Berlin 6½s, all of which changed hands in large volume. The government's bonds reached a new peak at 102⅝, but closed fractionally below this level, and their strength carried the other leading German issues into new high territory. Indications that a more liberal investment policy regarding German industries would be advocated here was an important factor in stimulating a demand for these bonds.

Prospects of new loans also contributed to the strength of Polish and Czecho-Slovakia obligations. Poland was reported to have closed negotiations for a $100,000,000 loan with an international banking group, based on government monopolies, but American bankers denied they were interested in the deal. The long-awaited loan for Czecho-Slovakia was said to have been placed before the State Department for approval.

Railroad and oil-company liens were the principal points of activity in the domestic list. Skelly 6½s led the movement in petroleum bonds, while buying of the rail embraced Missouri Pacific, Norfolk and Western, Northern Pacific, Erie, Seaboard and International and Great Northern issues.

Following are yesterday's high, low and closing prices of bonds on the New York Stock Exchange and the total sales of each bond.

PRICES ADVANCE AT LIVELY PACE

General List Mounts Higher on Heavy Buying

Rail and Industrial Shares Set New Highs

Favorable Earnings Reports Boost Oil List

[BY A. P. NIGHT WIRE]

NEW YORK, Oct. 21.—Speculation for the advance gained increased momentum as trading broadened in today's stock market, both the rail and industrial averages attaining new record high levels. Total sales ran just about 2,500,000 shares, being exceeded this year only by the wild markets of Friday and Monday.

Bullish sentiment was created by a variety of factors, including the publication of additional favorable railroad and oil company earnings statements, lower call-money rates, hardening steel and nonferrous metal prices and last, but not least, by the orderly manner of the advance. Brokers reported an increase in public participation. Buying of the oils was given impetus by rumors of increased dividends and another sharp drop in crude-oil production last week. Mariand crossed 55 to another new 1925 peak price and net gains of 3 points or more were recorded by Associated Oil, Houston, Independent Oil and Gas, Maracaibo, the Pan-American issues, Phillips and Standard Oil of California.

RAID FAILS

Profit-taking interrupted, but failed to halt, the advance in the railroad shares. Baltimore and Ohio, which is expected to go on a $6 dividend basis before the end of the year, crossed 86 to a new high, and New York Central, which is said to be contemplating raising the rate from $7 to $8, attained a new top at 127 3-4. Southern Railway, Erie common, Pere Marquette and Western Pacific also bettered their previous 1925 high prices.

A brisk demand again developed for the copper shares. Utah Copper sold above $100 a share for the first time since 1917. Cerro de Pasco was run up over 4 points to a new high for the year at 62 1-4 and American Smelting advanced over 3 points to 113 7-8.

Trading in the Armour packing issues again assumed enormous proportions. Armour "B," the first sale of which was a block of 11,000 shares at 19 3-8, later advanced to 20 1-2, a new top, in speculative expectation of an early inauguration of dividends at the rate of $2 annually.

Spirited buying also took place for United States Rubber, common, which crossed 80 to a new peak for an extreme gain of over 4 points. Among the two-score other issues to reach new high ground for the year were American Tobacco A and B, American Safety Razor, Columbia Gas and Electric, Continental Insurance, Cushman's Bakery, International Business Machine, New York Canners, Paige Detroit, Texas Gulf Sulphur, Union Bag and Paper, United States Realty and Yellow Truck, preferred. S. S. Kresge jumped 51 points on a few sales.

MONEY EASES

Call money renewed at 4 1-2 per cent and then dropped to 4. Time money continued to rule firm, with 4 3-4 to 5 per cent the prevailing rates. Commercial paper rates were unchanged.

Confused movements took place in the foreign exchange market. Demand sterling climbed above $4.84, despite additional gold shipments from England to the United States, but several of the Continental rates were heavy. French francs hovered around 4.41 cents, or just above the year's low and Italian lire again sank below 4.00 cents. Danish krone broke over 50 points to 24.50 cents and Norwegian krone dropped about 35 points to around 20.28 cents.

Market Averages

	20 Industrials	20 railroads
Wednesday	135.15	106.91
Tuesday	133.84	106.35
Week ago	132.60	106.16
Year ago	107.46	90.24
High 1925	135.15	106.91
Low 1925	114.81	90.12

Total stock sales 2,517,700 shares.

PRODUCE MARKET

Trading today was moderate with continued liberal supplies and few price changes. Cranberries advanced sharply following advances at Chicago and Boston. Lettuce is slightly higher with light supplies on hand. Potatoes are very firm with limited trading and prices advancing. Tomatoes are slightly higher and other vegetables about unchanged.

APPLES—Northern, Bellefluers, mostly 4.00@4.50 per cent. Owens Valley, Yunsips, Jonathans, 4@4½ per pound, small 3½ cents pound. Delicious 4@5 cents pound. Washington, Oregon, Idaho, Utah, Jonathans extra fancy, $.25, fancy $.10 box. Orchard run, culls out, lace and fill, mostly 1.50@1.65, poorer, 1.50 boxes.

BANANAS—Central America, 5@6½ per pound; poor quality and ripes, 3@4 per pound.

BERRIES—Local, Kentucky Wonders, 8@7 per pound; limas, 8.

BUNCHED VEGETABLES—Per dozen bunches: Beets, 35; carrots, 30; onions, 10; spinach, 30; radishes, 15; turnips, 35.

CABBAGE—Local, 1.65@1.85; few $2 ret.

CAULIFLOWER—Local, Snowball, 1.85@2.10; poorer, 1.50 crate.

CELERY—Local, mostly 1.75@2.00 per crate.

CRANBERRIES—Massachusetts, Early Blacks mostly 5.00@6.25 per half barrel box. Washington, McFarland, 5.50@5.75 per half barrel box.

CUCUMBERS—Local, 1.25@1.40, few fancy, 1.60@1.85 lug.

FIGS—Local, blacks, whites, mostly 10@15 per pound; few best, 14@16; poorer, 3@5.

GRAPEFRUIT—Arizona, Clarkes, 4.25 per box.

GRAPES—Local, northern, Thompson seedless, 40@50c per lug. Muscats, ordinary, 1@2 cents, few 3. Malagas, ordinary 1@3 cents per pound, few 3½@3½. Tokays, 1@2½, few 3. Black Morocco, 2; Cornichons, 5@3.

LEMONS—Local, market pack, 6.75@7.00 per box.

LETTUCE—Northern, mostly ordinary, 2.50@2.75; few best, 3.00@3.25 crate.

ONIONS—Local, basket Spanish, 1.75@2.00; few best, large, 2.25@2.40 cwt.

ORANGES—Southern, special brands, Valencias, 3.50@4.75 per box; very small, 6.50@7.00.

PEARS—Northern, Bartletts, mostly 6@6½ per pound; few, 7; poorer, 3@5.

PEAS—Northern, 10@14, best, 15 per pound.

PEPPERS—Local, Bells, 3½@4 per pound; Chilis, 2½@3.

POTATOES—Stockton, sacked, Long Whites, ordinary, mostly 3.00@3.25; poorer, 2.50@2.85 cwt.

SQUASH—Local, Italian, 1.00@1.10 per lug; crookneck, 60@85; summer, 90@1.00; Hubbard, banana, 2@2½ per pound.

SWEET POTATOES — Local, Orange county, Nancy Halls, Jersey, 2@3½; Turlock, Nancy Halls, Jerseys, mostly, 2½@3.

TOMATOES—Local, mostly ordinary, 50@75 per lug; few best, 1.00@1.25 lug.

WALL STREET PARAGRAPHS

Rails Resume Leadership as Confidence of Buyers Gains

[EXCLUSIVE DISPATCH]
(Copyright, 1925, New York Evening Post, Inc.)

NEW YORK, Oct. 21.—The stock market broadened today to include in its activities more of the oil stocks and an increasing number of copper shares. The rails were among the leaders of the day and Wall street felt confident that the speculative favor soon would further swell to push the carriers as a whole into the front rank. New highs were made both among the rails and industrials, and in every instance where members of the former group were so singled out for attention, it was to the tune of an increased dividend in the offing. Just how much of the day's strength could be attributed to short covering was not easily to be determined, but observers were strong in their conviction that it was a factor which could not be disregarded. Specialty stocks were taken in hand for a fling and, in such developments, insurance stocks were prominent. Lacking more definite information it was the natural assumption that the advance among the fire insurance stocks might be traced to the appreciation of securities held in the strong boxes of investment. Commission houses indicated that the public following in the market was at peak and there was no sign of any let-up from that quarter. Money rates were easy and promised to become more so. In fact, one wire house flashed the view that before the day had ended 3 per cent funds would be obtainable. Cast-Iron Pipe got across 200 for the first time in months and apparently under the same auspices which had taken the stock on its record-breaking rise to 250.

Affecting Oils

Merger talk affecting the oils began to appear, but much of it was not particularly new to those conversant with the industry. That the Waite-Phillips property was to be brought to Wall street had been known for weeks and herein had been set forth. But less generally known was the fact of negotiations between the Prairie Oil and Gas and Pure Oil for the latter's pipeline. If such a transaction could be effected it would give Prairie a direct outlet to the Gulf, from which shipments could be made on terms more equitable with those received by other shippers of crude. It was the contention of men familiar with oil operations that the exhibits of the "first line" companies would be much better than their smaller competitors when it came time to compile figures for the full year. Between 35 and 38 per cent of their capitalization was predicted for a number of them, but it was assumed that prior to their issuance the market would have discounted much.

Another Group Livens

Utah Copper got above $100 a share for the first time since 1917, when it was on its way down from the record level of $130 a share reached in the preceding year. Incidentally, the stock got to within a dozen points of the price paid for a block of stock by Kennecott. Street observers were of the opinion that the copper shares were about to shake off their lethargy and get into the speculative whirl. Statistics were stressed as inviting such a stand and, with another banner year in point of consumption, 1925 was pictured as going out in a blaze of glory for the industry. Prices of the metal had not been satisfactory to many producers, but generally it was conceded that a steadily maintained 15 cent level would prove beneficial for every pound produced.

Glad Tidings

Record tops were reached by American Tobacco issues, both the common and "B" shares outstripping all previous levels. Further strength in these shares was attributed to higher dividends, which the financial community heard would be substantial in form. From the $7 basis, prevailing since the present capital structure was adopted about a year ago, an increase to $8 was predicted.

Another Dividend

It was an open question whether dividends would be restored this year to the junior shares of United States Rubber, but the stock went forward into higher territory under big buying power. From its $10,000,000 investment in the Far East, the company was estimated to be getting 20 and 25 per cent of its crude rubber requirements and the worth of that venture was expected to be revealed by the end of the year, when close to $20 a share was predicted from manufacturing operations and profits from its own rubber plantations.

If One Waits

It should be possible shortly to figure to the last penny the amount of profit accruing to the Rock Island treasury from its flyer in Cotton Belt shares. Already there had gone into the record the exact price paid by the former to Edwin Gould for its investment in St. Louis Southwestern shares and when the Kansas City Southern shall ask the Interstate Commerce Commission for its sanction of the deal it must include the price paid to Rock Island.

We Say Again!
BUY
MEXICAN
"ASSENTED BONDS"
But Act Quick

It is our understanding that Senor Pani, Secretary of Finance for Mexico, is now in New York conferring with the International Bankers' Committee relative to the early resumption of interest payments on Mexico's Guaranteed Bonds.

"Assented Bonds" have advanced steadily since we first called attention to them—they are going higher. At present prices they offer extraordinary yield and profit possibilities.

THE INVESTOR

Investors Turn to Foreign Government Dollar Bonds as Difficulty Increases in Obtaining Attractive Domestic Issues at Suitable Price Levels.

[EXCLUSIVE DISPATCH]
(Copyright, 1925, New York Evening Post, Inc.)

NEW YORK, Oct. 21.—Investors seeking to bolster up the yields on their bond holdings have found it increasingly difficult this year to obtain high-grade domestic corporate issues at anything near suitable levels.

The logical result has been that they have had to choose between unseasoned domestic corporate obligations and foreign government dollar bonds, many of which are selling at levels to return a high yield, but which ultimately will seek their real investment level.

And their choice has been made more readily apparent by the relative activity that has characterized trading in foreign government dollar bonds during the year. Incidentally some banking firms, having sensed this noticeable trend toward the foreign group, have made a careful survey of the foreign situation. They have come to the conclusion the investor who wants a well-balanced list yielding a reasonable return can afford to include a reasonable amount of high-grade foreign securities among his holdings.

Investment opportunities, says Blyth, Witter & Co., always lie where the demand for capital is greatest. When capital is in demand interest rates go up, and, conversely, when money is plentiful interest rates go down. The wide fluctuation of United States government bonds in the last five years, it is pointed out, is a sound example of the working of this principle.

With the bulk of the world's wealth concentrated in the United States as an outcome of the war, European and other borrowers who ten years ago went to London for accommodation, have had to turn to this country and pay rates demanded by American capital. This is necessary to attract greatly needed American funds.

Before the war, or in 1913, the securities of a number of sound European and South American governments were selling in London, then the principal market for foreign bonds, on a 3.85 to 4.45 per cent yield basis. Today the same identical dollar bonds of the same identical countries are yielding a return ranging from 5.55 to 7.77 per cent.

Thus it would appear foreign securities are now to be had at bargain prices. On the point of safety it is known that the older commercial nations have long recognized the moral obligation of a state debt, and interest and principal with few exceptions have been promptly met when due, particularly in the case of external loans.

HISTORY RECALLED

Probably the present and last generation do not generally realize it, but it is a fact, nevertheless, that the United States government has experienced its periods of high interest rates. In the Civil War period Treasury notes were put out on a 10 per cent basis. Within a few years, however, with the return of normal conditions interest rates on government securities were back again to 2½ and 3 per cent.

Only as recently as 1920 the Third 4¼ Liberty Loan sold on a 5.87 per cent yield basis, but presently they are back to less than 4 per cent. American investors who are reluctant to consider sound foreign government issues now available at attractive yields would do well to give adequate attention to the situation.

LOS ANGELES MARKET

CATTLE—Approximately 850 cattle were offered on yesterday's market. Of these, around 500 were counted in the fresh arrivals. The quality of the run in general was rather plain and trading on the whole was a slow affair. Prices generally were around the steady mark. Half a load of 1039-pound steers made 7.90, with two loads of medium 937-pound weights at 7.65. Common steers turned largely from 6.25@6.75, while several lots of steers to stocker and feeder dealers cleared from 5.25@6.00.

No strictly good cows or heifers were offered, the best in load lots stopping at 5.25, with the bulk of the stock clearing from 4.50@5.25, while only odd head and small lots sold higher. Canners and cutters turned largely from 2.25@3.75, while the small supply of bologna bulls cashed from 4.25@4.75, with a few beef kinds selling up to 5.25.

CALVES—Demand for yesterday's moderate calf supply was narrow and only a few sales were made. The undertone was weak, with the trade talking generally 25@50c lower. A few lots of southwesterns cleared from 7.50@8.25, with common kinds and bunches largely 5.00@6.50. A few choice heal milk sealers sold upward to 9.75.

HOGS—No shd and choice butchers were offered on yesterday's market, the best on hand being a bkd of 230-pound heal fed butchers at 12.90. Other heal fed turned for 12.75, with a few light weight pigs at 13.25. Several lots of mixed packing sows and weighty butchers cleared from 12.75, with packing sows largely 12.00@12.25. Good and choice eastern butchers are quotable upward to 14.25.

SHEEP—None. Good and choice lambs are quotable from 13.50@14.50, with common to choice sows from 5.50@8.00.

YESTERDAY'S QUOTATIONS

Slaughter cattle and calves: Steers (1100 pounds down,) medium, 7.25@8.50; common, 6.25@7.25. Heifers (850 pounds up,) good, 6.00@7.00; (all weights) common and medium, 3.75@6.00. Cows, good, 5.25@6.00; common and medium, 3.75@5.25; canners and cutters, 1.75@2.75. Bulls, good (beef yearlings excluded,) 5.00@5.50; (sausage-bologna) canner to medium, 3.50@5.00. Calves (milk fed excluded;) medium to choice, 7.00@9.00; cull and common, 4.50@7.00.

Hogs: Medium weight (200 to 250 pounds,) medium to choice, 13.25@14.25; light weight (160 to 200 pounds,) common to choice, 13.50@14.25; light lights (130 to 160 pounds,) common to choice, 12.25@14.00. Packing hogs, smooth and rough, 11.50@12.25; slaughter pigs (90 to 130 pounds,) medium, good and choice, 12.00@13.75. (Soft, or oily hogs and roasting pigs excluded in above quotations.)

Slaughter sheep and lambs: Lambs (84 pounds down,) medium to choice, 13.50@14.50; (all weights) cull and common, 10.00@13.50. Ewes, common to choice, 5.50@8.00; canners and culls, 3.50@5.50.

Outside Markets

[BY A. P. NIGHT WIRE]

SAN FRANCISCO, Oct. 21.—Hogs: Steady; most 140-170-pound butchers, 14.50. Inquiry for light lights good, 225 to 250 pounds, 14.00.

Cattle—Steers slow, barely steady; eight cars 1190-pound Nevadas around 8.00; few loads medium California's, 7.50@7.75. Good cows and heifers weak, three cars good Utah heifers, 8.50@8.75; two cars medium 900-pound cows, 6.75; numerous loads cows direct. Calves weak; medium 200-225-pound southwesterns, 8.00@8.25; good to choice vealers scarce, heavy calves weak.

Sheep—Lambs firm; eight decks good 69-pound Oregons, 15.00; six decks choice 78-pound Utahs, 15.25; 1000, 78-80-pound Island lambs, 14.25@14.50; ewes firm.

KANSAS CITY (Mo.) Oct. 21.—Cattle, 13,000; calves, 3500; slow, heavy steers and grassers steady; others and yearlings dull, weak to 15 lower; spots off 25; killing quality improved; top heavy steers, 11.25; one load averaging around 1500 pounds, 11.00; best medium weight, 10.50; numerous loads better grades unsold; she stock steady; grass fat heifers, 9.00@9.75; butcher cows, mostly 4.00@6.75; canners and cutters, 2.25@3.25; calves steady to 50 lower; medium and heavyweights off most; choice veals, 11.00@11.50; bulls steady; stockers and feeders comparatively scarce in first hands, steady to strong; top feeders, 8.50.

Hogs—10,000; slow; mostly 15@25 lower than Tuesday's average; practical shipper top, 11.45; part load early, 11.50; packer top, 11.35; bulk of sales, 11.00@11.35; bulk desirable, 160-200 pounds, 11.15@11.35; packing sows, 10.00@10.35; stock pigs, 10 to 15 lower, 11.25@11.85.

Sheep—6000; lambs steady to 15 higher; best westerns, 15.25; other range arrivals and fed offerings, 15.05@15.10; best natives, 14.90; better grades, mostly 14.00@14.50; odd lots sheep steady.

CHICAGO, Oct. 21.—Hogs, receipts 14,000; slow, mostly steady at Tuesday's average; big packers inactive; bulk desirable 150-200-pound weight, 11.50@11.75; better 140-150-pound kind largely 11.00@11.50; top, 11.90; bulk packing sows, 9.70@10.10; majority better strong weight killing pigs, 11.75@12.00; heavyweight hogs, 11.00@11.75; medium, 11.35@11.60; light light, 11.00@11.50; packing sows, 9.25@10.25; slaughter pigs, 11.25@12.00.

Cattle—Receipts, 15,000; scattering sales best steers steady; weighty kind fairly active; others and westerns sluggish; tending lower; early top matured steers, 15.75; weighty westerns upward to 16.50; she stock slow; steady; bulk bulls steady to strong; vealers steady to 25 cents off; largely 11.00@11.50 to packers; few 12.00; stockers and feeders firm.

Sheep—Receipts, 19,000; fat lambs, slow; steady to 25 higher; advance on shipping account; few loads of natives to shippers, 15.35@15.50; others, 14.75@14.85; feeding lambs strong; early sales of choice light kinds, 15.00@15.05; few sales fat native ewes fully steady, 6.50; bulk, 6.50@7.75.

SOUTH ST. PAUL (Minn.) Oct. 21.—Cattle—Receipts 2200; grass fat steers and yearlings, weak; packers bidding lower; fat she stock and canners and cutters fully steady; bologna bulls strong; spots 25 cents higher; stockers and feeders very dull; heavy accumulation in dealers hands; plain quality fat cows and heifers, mostly 3.50@5.50; few good cows up to 6.00; best heifers around 7.00; bulk canners and cutters, 2.75@3.25; bologna bulls, 3.75@4.25; medium to good grades stockers and feeders, steers mostly 5.00@6.50; one load choice feeders late Tuesday at 8.15.

Calves—Receipts 2500; steady; vealers 25@50 higher; bulk good, lights 10.50@11.00.

Hogs—Receipts, 13,000; about steady with Tuesday's average; desirable 160-270-pound averages, largely 11.10; top, 11.15; packing sows, 9.25@9.75; bulk feeders and slaughter pigs, 11.75; average cost Tuesday, 10.75; weight 211.

Sheep—Receipts, 2500; slow; few opening sales steady; desirable fat lambs, 14.00; unfinished kinds at 13.00; heavy, 11.50; culls, 9.50; fat ewes, 5.00@7.50; receipts include four doubles of feeders billed through.

OMAHA (Neb.) Oct. 21.—Hogs—Receipts, 7000; weak to 15 cents lower; mixed and packing grades showing most decline; good and choice 140-300-pound weights, 11.10@11.40; top, 11.40; rough and heavy packing sows, 9.50@9.85; smooth up to 9.90; bulk of all sales, 9.65@11.25; average cost Tuesday, 10.53; weight 228.

Cattle—Receipts, 11,500; fed steers and yearlings slow, weak to 25 cents lower; mostly 10@15 lower; bulk of all sales, 9.50@11.50; several loads held higher; grass steers, steady to weak; bulk, 7.00@8.00; two loads of Wyomings, 9.50; she stock weak to 15 lower; bulls and vealers steady to strong; stockers and feeders slow; steady; bulk grass cows, 5.50@6.00; few loads, 6.50@6.60; heifers, mostly 5.25@6.25; canners and cutters, 2.00@3.50; bologna bulls, 3.75@4.25; practical veal top, 11.50; few 12.00; stockers and feeders, 6.25@7.75.

Sheep—Receipts, 6500; fat lambs, strong to 25 higher; bulk fat range lambs, 15.00; natives, 15.00@15.25; choice 90-pound clipped lambs, 14.00. Sheep and feeders steady; odd lots fat ewes, 7.50@7.75; bulk feeding lambs, 15.00; breeding ewes up to 8.75.

ST. JOSEPH (Mo.) Oct. 21.—Hogs, 6000; 25@35 lower; top, 11.35; bulk, 11.00@11.30.

Cattle—2000; slow; bulk of steers, 8.50@11.00; cows and heifers, 3.25@9.25; calves, 4.50@11.00; stockers and feeders, 5.00@8.50.

Sheep—2500; steady to strong; lambs, 14.00@15.25; ewes, 6.25@8.00.

PORTLAND (Or.) Oct. 21.—Cattle and calves nominally steady; receipts, 35.

Hogs—Shade higher; receipts, 75; heavyweight, 250-350 pounds, good and choice, 11.75@12.50; medium, 200-250 pounds; medium good and choice, 12.00@12.50; light, 160-200 pounds; common, medium, good and choice, 12.50@12.85; packing hogs, rough and smooth, 8.00@11.00.

Sheep and lambs nominally steady; receipts, 770; direct.

OTIS STEEL REPORTS EARNINGS INCREASE

[BY A. P. NIGHT WIRE]

NEW YORK, Oct. 21.—In contrast to net loss of $829,251 for the ninth month of 1924, Otis Steel reports net profit of $1,595,034 for the same period this year, which is equal to $18.08 a share on the preferred stock and $1.52 a share on the common.

BAD CHECKS

The following bulletin on bad-check writing was issued yesterday by the forgery detail of the Los Angeles Police Department, detective bureau:

Attention of the public is called to the activities of a bad check artist using the name of Homer Snead, and giving his address as 1785 Hillhurst. Upon investigation this number proves to be a vacant lot. Snead's checks are drawn on the Bank of California, Hollywood Junction Branch. Following is a description of the man: American, 5 feet, 10½ inches tall, weight 145 to 150 pounds, 27 years of age, dark brown hair, dark eyes, slim build, smooth shaven, medium complexion, wears a gray suit and hat.

If an attempt is made by the above described suspect to obtain cash or merchandise in your place of business, detain him under some pretense until you can summon a police officer.

Baseball Talk

"No," said Uncle Pennywise, "I never acted as an umpire but once."

"What cut short your career?"

"The first ball pitched I called a strike. Just as I hollered 'strike' the ball went over the fence for a home run."—[Louisville Courier-Journal.

BY ROBERT J. PRITCHARD

The Ventura-avenue oil field at Ventura was the scene of another well of gusher proportions yesterday, with the completion by the Shell Company of its Gosnell No. 16, with an initial production of 3500 barrels a day. Gosnell No. 16 was drilled to 5275 feet, and came in practically clean, the initial cut being only 3 per cent and the gravity 30 deg.

Completion of this well gives the Shell Company a total output of about 15,000 barrels in the Ventura-avenue field, most of this production coming from five wells drilled to the deep zone, with a number of other wells producing from the old shallow zone. On the Gosnell lease the Shell has four deep wells, with No. 4 on the Edison lease also producing from the lower sand.

Ventura-avenue production probably will be increased again within a week by the Associated Oil Company's Lloyd No. 8, which stopped drilling yesterday, and began preparing for completion.

Quits Pioneer Well

The discovery well of the Rosecrans field has been officially abandoned. The Union Oil Company, whose Rosecrans No. 1 in the southeast end of the present producing district, located near the intersection of Main street and Rosecrans avenue, first found the oil sand nearly two years ago, has finally listed the old pioneer project for abandonment.

Rosecrans No. 1 started the Rosecrans development by finding an oil sand at about 3950 feet. Difficulty in excluding water at this point led to a long succession of cement jobs, and finally the deepening of the well. After most operators had definitely put the well on the unsuccessful list, due to its mechanical condition, the Union brought it in with a production of about 2500 barrels a day of the 42 deg. gravity oil, which made this area famous. The well produced satisfactorily for many months, but recently went to water, and attempts to overcome the condition were unsuccessful.

Peeler to Speak

R. L. Peeler, president of the California Petroleum Corporation, will be the principal speaker today at a luncheon of oil men to be held at noon in the ballroom of the Alexandria. The luncheon will be held under the auspices of the Chamber of Mines and Oil, which is providing a program of music and entertainment. A feature of the luncheon will be the introduction of new members.

Gets Wet Well

The California Petroleum Corporation, whose Kreitz No. 1 in the north end of the Rosecrans field, not far from J. B. Dabney's dry hole, was one of the best wells in the Athens district, is having less success with its No. 3 well on this lease. The well came in a few days ago from a depth of 4250 feet, but made less than seventy-five barrels a day, with a considerable proportion of water. The well originally was drilled to 4290 feet, but was plugged back because of bottom water, and apparently failed to plug back far enough.

Official Report

Oil-field operations reported to State Oil and Gas Supervisor R. D. Bush during the week ending the 17th inst. show twenty-three new wells started, as compared with twenty-seven during the previous week. Of the twenty-three notices to drill filed this week, seven were for wells in the Long Beach field, one in the Santa Fe Springs field, two were in the Torrance field, two in Los Angeles county, one in Orange county, one in Riverside county, one in the Bardsdale field, one in the South Mountain field, one in the Conejo field, one in San Benito county and five in the fields of Kern county. The total new wells this year is 1113, as compared with 1152 at the same date last year.

Tests for water shut-off this week numbered nineteen, as compared with twenty-one during the previous week. Yearly total to date 1199; total to same date last year, 1338.

Deepening or redrilling jobs this week numbered ten, as compared with thirteen during the previous week. Total to date this year, 766; total to same date last year, 661.

Abandonments this week numbered fifteen, as compared with eleven during the preceding week.

Crude Oil Output

According to figures collected by the American Petroleum Institute, Pacific Coast office, the total production of crude oil in California for September amounted to 20,062,763 barrels, an average of 668,759 barrels a day. This is a decrease of 8340 barrels a day under August production.

Total stocks of crude and all products in Pacific Coast territory increased during the month 4,974,317 barrels. The total stocks at the end of the month were 143,008,256 barrels. The total stock increase for 1925 up to September 30 was 22,986,292 barrels.

"ALPINE MONTAN"

Producer of 100% of all iron and 70% of all steel in Austria

A modern, aggressive organization with a long history of financial success built around the famous mountain of iron, "The Erzberg" with 200,000,000 tons of high grade iron ore blocked out, four hours by rail from Vienna and only 20 miles from the company's largest plant at Donawitz. The people behind the enterprise make up a group of Europe's ablest bankers and industrialists.

Security: A closed first mortgage on the huge Donawitz plant and the world-famous "Iron Mountain" (Erzberg) in Styria (Austria).

Value of Plants, Equipment and Inventories: $32,506,000 (Equal to 6½ times present bond issue).

Ore Reserves: Iron ore reserves (200,000,000 tons high-grade iron ore blocked out) appraised at $6,500,000. 84,000,000 tons of coal, 4,000,000 tons of magnesite limestone, and 10,000 acres of timber lands have been written off out of earnings.

NOTICIAS MUNDIALES DE ULTIMA HORA

Atendiendo a la importancia que tiene el estudio del español en los Estados Unidos, particularmente en esta gran metrópoli tan inmediata a territorio hispanoamericano, diariamente aparece en "The Times" esta sección española con algunas interesantes noticias de última hora. Tres veces por semana se insertará una lección práctica elemental de castellano, y los lunes encontrará el lector dos lecciones para estudiantes adelantados.

A cuantos deseen aumentar sus conocimientos de español les conviene leer esta columna todos los días.

NOTAS TELEGRAFICAS

Noticias de Washington

WASHINGTON, Octubre 21.—Los funcionarios del ministerio de Hacienda previeron una larga serie de cambios de notas relativas a la deuda de Francia.

Se libraron órdenes para que se aparejaran algunos contratorpederos norteamericanos, a fin de proteger a los ciudadanos de este país en Siria.

La comisión de presupestos de la cámara ha escuchado a numerosos otros testigos, formular indicaciones sobre el asunto de impuestos.

Creen los Rojos Mejicanos que Habrá Guerra Entre Perú y Chile

CIUDAD DE MEJICO, Octubre 21.—El elemento obrero rojo de Méjico cree que es inevitable la guerra entre Chile y el Perú. Los trabajadores rojos de la citada república afirman que no tienen conexión ninguna con los rojos de Rusia, como podría erróneamente inferirse por el nombre que llevan, y que tan sólo se ha adoptado y es de uso general aquí, para distinguir al grupo de obreros que no se ha unido a la Confederación Regional de obreros mejicanos.

Los rojos convocaron hace poco a un mitin en masa, durante el cual se aprobaron algunas mociones, por las que se protesta contra la participación de los obreros en lo que calificaron de "inminente guerra entre Chile y el Perú". Dijose que caso de que estalle dicha guerra, serán los trabajadores de ambos países los primeros en ser llamados a línea de fuego; y justamente contra ese acto de ambos gobiernos sudamericanos, es contra el que adelantan sus resoluciones de protesta los rojos de Méjico.

En la convocatoria del mitin dicen éstos lo siguiente: "Somos ciudadanos del mundo y compatriotas de todos los hombres que trabajan, y, por lo tanto, no reconocemos barreras que se opongan al intercambio, ora moral, ora material, entre los obreros y los productores, que sostienen unos mismos ideales y comulgan en iguales propósitos".

El Rey del Acero Satisfecho de la Situación

CHICAGO, Octubre 21.—Charles M. Schwab, presidente de la directiva de la compañía Siderúrgica de Bethleheim, llegó hoy a Chicago rebosante de optimismo en lo que atañe a la situación industrial de los Estados Unidos, y vaticinando un porvenir mucho más brillante aún. Dijo que nunca habían estado mejor los negocios, ni más prometedora la perspectiva.

Vino el señor Schwab a esta ciudad para hablar ante la convención anual del Instituto Americano de Conserveros de Carne. Con la sonrisa feliz de un muchacho en vacaciones, discutió el hombre del acero las condiciones de su propia industria y de las demás del país, y en toda su conversación fué el optimismo su estribillo.

NOTAS LOCALES

El Arresto de unos Estafadores Provoca casi un Motín

Un conato de motín, en el que una muchedumbre de mujeres agitaba los puños en el corredor y las oficinas de la Golden State Corporation, cuyo domicilio social esta en el edificio Loew's State, fué ayer el resultado provocado por la aprehensión de dos de los directores de la citada compañía, sobre la que pesa el cargo de haber hecho circular anuncios falsos. La situación se puso tan tirante en la mañana, y acudieron en número tan cercido las mujeres que han invetido su dinero en este negocio de la venta de medias por "cadena sin fin", y que hoy piden a gritos que se les devuelvan sus fondos, que la policía pidió reservas, y fueron enviados dos policías uniformados y dos de civiles, que permanecieron apostados en las cercanías de las oficinas durante casi todo el día.

Joseph Kaufman y Ned Blane, que fueron los que idearon aplicar a la venta de medias este plan de la cadena sin fin, fueron emplazados ayer ante el juez de policía Pope, Declararon no ser culpables, y se fijó la fecha del juicio para el próximo miércoles a las 2 p.m. Se exige a cada cual una fianza de $250.

Se Aproxima la Solución del Asunto de "Hutch"

Ayer, tras una hora de conferencia con el Fiscal Keyes, en las oficinas gubernativas, el gobernador Richardson anunció que se pasarán varios días antes de que llegue al acuerdo de revocar o de confirmar la libertad preparatoria de Everett "Big Hutch" Hutchings. Agregó que no tomaría ninguna medida en este asunto hasta su regreso a Sacramento.

Charlas Infantiles para Chiquillos de Escuela

NUMERO 95

En 1528 tuvo el mando de una expedición para explorar las costas de Guatemala y Yucatán (in 1528 he commanded an expedition to explore the coast of Guatemala and Yucatan), y en 1532 condujo un refuerzo de trescientos hombres para ayundarle a Pizarro en la conquista del Perú (and in 1532 led a reinforcement of 300 men to assist Pizarro in the conquest of Peru).

En aquella tierra del oro De Soto acumuló un gran caudal (in that golden land De Soto captured great wealth), y el joven soldado de fortuna, que había desembarcado en América, sin más que su espada y su escudo (and the young soldier of fortune, who had landed in America with no more than his sword and shield), volvió a España con lo que en aquellos días era una enorme fortuna (returned to Spain with what was in those days an enormous fortune).

ENCORE OF HONEYMOON TRIP FATAL

Oakland Carpenter Loses Life Re-enacting Cruise of Former Years

[EXCLUSIVE DISPATCH]

RED BLUFF, Oct. 21.—A desire to experience over again a pleasurable honeymoon trip drifting down the Sacramento River in a houseboat, which he had taken with his bride twenty-one years ago, led to the accidental drowning of John E. Noe, San Francisco carpenter, a few days ago.

This was brought out by investigation of a cousin, William J. Noe, of 1602 Twelfth avenue, Oakland, who refuted the first theory of suicide when Noe's unpiloted houseboat was found drifting in the river near Los Molinos.

Noe wanted to live over again the memorable trip on the river before he died and went to Red Bluff and purchased the boat. He is believed to have fallen overboard. Mrs. Noe, now advanced in years, was not able to take the trip with her husband and he went alone.

Two More Dead as Chicago Beer War Continues

[EXCLUSIVE DISPATCH]

CHICAGO, Oct. 21.—Two men were killed early today in Chicago's deadly beer war, which was shifted temporarily to Chicago Heights. Boss Giorgano was shot to death as he sat in a roadhouse by an assassin who fired a shotgun through a window. His cousin, Pasquelle Tolizzotto, who fled from the place as Giorgano was shot, was overtaken by the killers, and he, too, was shot to death.

Lieutenant of Police Paul Kasdorf, who is investigating the case, said all the shootings in that vicinity were caused by rival bootleggers scrapping over territory invasions. "Things are getting so bad," he said, "that the police will have to mark off the territory with district and names of bootleggers having prior rights so that invasions and the resulting deaths will stop."

California Trust Official Returns From Trip East

Leo S. Chandler, vice-president of the California Bank, and president of the California Trust Company, has returned to Los Angeles after an extended trip to the financial centers of the East and Middle West. Accompanied by Gordon Smith, comptroller, and Col. J. B. Chaffey, junior vice-president of the California Bank, Mr. Chandler attended the American Bankers' Association convention at Atlantic City in September. He is a member of the executive committee of the association, and was a member of the victorious Los Angeles 1926 committee, which won the convention for Los Angeles next year.

Mr. Chandler reports a healthy financial condition throughout the East.

"There are no outstanding factors which would argue for the curtailment of continued industrial and commercial expansion in the entire country," Mr. Chandler said. "The demand for money has been quite firm over the last month, and will probably continue so for the balance of the year.

"Touching, as we did, the foremost industrial sections of the country, we noted particularly that most of the large manufacturing concerns have had a very prosperous year."

WORLD PRODUCTION OF PIG LEAD GAINS

[BY A. P. NIGHT WIRE]

NEW YORK, Oct. 21.—Production of pig lead in September by countries that produced 79 per cent of the world's output in 1924 amounted to 103,961 short tons against 101,941 in August, the American Bureau of Metal Statistics reports. The nine months' output was 928,862 tons, a monthly average of 103,207, against 95,022 tons monthly in 1924. Production of silver in North America and Peru in the nine months this year is calculated at 140,622,037 ounces. Stocks in the hands of American refiners the 1st inst. were the lowest of the year, 276,-663 ounces.

FERGUSON UNDER FIRE

Legislative Session May Be Called in Row Over Road Funds as Governor Refuses to Act

[BY A. P. NIGHT WIRE]

AUSTIN (Tex.) Oct. 21.—A special session of the Texas Legislature to investigate charges of reckless expenditures in the highway department under the reign of Gov. "Ma" Ferguson.

Dismissal from Washington without gubernatorial concurrence, however, apparently would be flying in the face of a majority of the members of the Legislature. A poll conducted by the Associated Press among members to determine their sentiments on the proposed call has shown thus far 42 against the proposition, 16 for and 10 undecided.

SEES DIFFICULTY

In response to the query, State Representative Ben F. Foster expressed the opinion that "only the Governor can call a special session of the Legislature, except in case of impeachment proceedings against her."

There has been no hint of possible impeachment proceedings and it is a matter of conjecture here whether Speaker Satterwhite's Washington statement was made in cognizance of that possible interpretation.

Ma Ferguson's situation is one entirely unique in modern politics. Mr. Ferguson was removed from office in 1917 by impeachment charges specifying misappropriation of State funds. In 1924, however, Mrs. Ferguson ran for office to "vindicate" her husband's name, and was elected the first woman Governor on a wave of anti-Ku Klux Klan sentiment that routed Klan candidates and left "Ma" a huge majority and the position of almost a national heroine.

SHIPPING and Los Angeles Harbor NEWS

PORT GROWTH TOPIC OF SPEAR

Wilmington Optimists Hear Harbor Manager

Tells How to Boost General Cargo Tonnage

Development of Agriculture One Essential

Los Angeles should have double the general cargo now handled at her port, and can have; but she first must undertake cultivation of more lands, and encouragement of not only factories and varied industries, but railroads as well, according to Charles H. Spear, new port manager, speaking before the Optimists' Club of Wilmington.

"It is necessary that all resources of the district served by the harbor be developed to provide tonnage to attract increased shipping," he said. "This done, you can double your general cargo, excepting oil."

Railroads are the arteries which supply the life blood to the harbor, and those wishing to come to the port should be favored, he said. The government, he said, regards Los Angeles Harbor not as a local port but as a national outlet and as such regards railroads as a prime essential.

Waterfront facilities are ample to meet present needs, he declared, adding complimentary mention of the previous harbor administrations on the improvements made. Railroad rates, he believed, still showed instances of favoritism for San Francisco, but equitable changes will come, in fact important cases affecting class and commodity rates are now under consideration by the Interstate Commerce Commission.

Mr. Spear has spoken before half a dozen civic organizations at the harbor in the last fortnight, and was scheduled to appear last night before the dock employees of the American-Hawaiian Steamship Company, holding their first annual dinner at the Tavern, Wilmington.

INTERCOASTAL RATE RISE EAST LOOMING

Talk of an advance in intercoastal water rates eastward, applicable around the first of next year, was heard at San Francisco, at a meeting of the International Conference members a month this week.

The increase is said to be the outgrowth of the abnormal amount of tonnage being transferred from the Pacific to the Atlantic Coast this season, with no let-up in sight. Demands for space eastbound exceed capacities of all freight carriers for several months, and the number of shipments from Los Angeles Harbor, booked for a particular ship, remained on the dock because the vessel had no room.

Westbound cargoes are reported fair, local shipping men say, adding that this condition only makes matters worse, as with such a number of ships in service to handle eastbound cargoes, they have to come West with whatever they can get.

Seams opened up in one of A. B. Hohenshell's fishing barges off Long Beach yesterday, water-logging the craft so she had to be towed by the launch Ripple to a berth opposite the Halfhill plant, it took out 15 tons of water on the way. She will be thoroughly overhauled, it is said, by Captain Paparos, operated by Hohenshell or Reinedo in similar service.

The steamer Cisnana, in from Chile, en route to the Puget Sound, is one of six big steamers of Norton, Lilly & Co. assigned to transport $15,000,000 worth of Northern Pacific wheat to the east coast. The others are the Montgomery City, Crofton Hall, Maine, Pacific and the Corvus.

Los Angeles Harbor's popularity as a bunkering port, due to her cheap oil, is evidenced again this week by a large number of craft scheduled to take fuel at here. Steamers Torvanger, Alaska and the George Allen filled their bunkers yesterday; the Capto, Sumanco and Torvanger today; the Alaska tomorrow, and the Haligon and the Nicaragua Saturday. Others are scheduled to take on stores of craft discharging cargo at the port.

The Greek steamer Maria Strathatos is due from Norfolk, en route to British Columbia, Saturday. It is her first trip to this port, and she is the second Greek vessel ever seen here, the Dionysis Strathatos visiting here two months ago.

The liner H. F. Alexander, diverted from this coast, will sail from New York for Miami today for Los Angeles, in that service, instead of the forty-eight trips before her return to Pacific coastwise service next May. Bookings are heavy for many trips ahead, according to R. H. Robertson, general passenger agent of the Admiral Line. The Dorothy Alexander of the same line also will go on the eastern run, but returning to a port of registry, Seattle, it was ordered transferred to the Clyde-Mallory Line, following the sinking of one of their craft last week. This will leave the Emma Alexander with Alexander and four Admiral liners on this coast for that company.

Four hundred and thirty vessels of 1,974,331 tons, according to the revenue report of the operating division of the harbor, presented the Harbor Commission yesterday for payment of wharfage and dockage. Wharfage from wharfage and dockage was $72,086.80, plus wharfage $11,878.97, municipal terminal railways $7097.81, and municipal rail scales $216.89, totaling $92,887.58.

J. Otis, Fish Harbor fisherman, was reported probably drowned at sea at Turtle Bay several days ago, according to fishermen here. Otis, according to his friends, sought to row to a neighboring boat in his skiff, when a squall arose and his boat vanished.

Contract was awarded the Griffith Company yesterday by the Harbor Commission for the paving of Harbor Boulevard from Seventh to Fourteenth street, San Pedro, and work will be begun within 10 days, according to Griffith officials. The contract called for five inches of concrete and two inches of bituminous surface. It will be the last link in the Harbor Boulevard, and will permit truck traffic from docks in the outer harbor to pass straight through the port community without climbing hills over a tortuous course traversing the heart of San Pedro.

SHIPPING

PORT INDEX

OUTER HARBOR DISTRICT

North San Pedro.
22-23—Outer Harbor Dock and Wharf Company.
24-25—C. L. Kreider.
26—Municipal High Danelly Cotton Compress.
27-28—Nicaro Steam Line (McCormick & McPherson).
29-30—Ralph Steamship Line, Furness Line.
70-71—Pan-American Petroleum Company.

SAN PEDRO DISTRICT

72—Southern Pacific slip.
74-75—Southern Pacific Lumber Company.
76-77—Southern Pacific wharf, south of Fifth street.
86-87—Southern Pacific wharf, north of Fifth street.
84-85—First-street wharf.
88-89—Banning & Nayt, Inc., L. A. Shipstak Line.
90-91—Marine Engine Works.
94-95—Kerckhoff-Cuzner Mill & Lumber Company.
97-101—Standard Oil Company.

WEST BASIN DISTRICT

102—L. A. Lumber Products Company.
103-109—Los Angeles Shipbldg. & Dry Dock Co.
110-120—Associated Oil Company.
121-123—San Pedro Lumber Company.

130-131—Union Oil Company.
132-134—Pacific Steamship Company, Admiral Line, Panama-Pacific Line.
135-137—Los Angeles Steamship Company; United American Line.
138—Williams Line.
139-140—Struthers & Barry, Inc., Transoceanic Cars.
142—Julian Petroleum Corporation.
143-165—Shell Company.
170—California Petroleum Corporation.
171-176—American-Hawaiian Steamship Company.
177-178—McCormick Steamship Company.
181—Associated Oil Loading Wharf.
184-185—Catalina Terminal.
187—C. J. Lebaron, Vegetable Oil Company.
188—Pacific Mail Steamship Company; Garland Line.
189-191—Norton, Lilly & Co.
192—Municipal Stockyard.
196-197—Charles R. McCormick Lumber Company.
198-199—L. W. Bliss Lumber Company.
200-201-202—Consolidated Lumber Company.

TERMINAL ISLAND DISTRICT

214-217—Petroleum Export Company.
222-225—Hammond Lumber Company.
226A—Dollar Line.
226B—General Steamship Corporation.

CARGO VESSELS AT THIS PORT

Steamer POINT LOMA, Capt. Benson, from Grays Harbor, 6:10 a.m. Lumber for Hart-Wood Lumber Company.
Steamer KATHERINE DONOVAN, Capt. Valeau, from Grays Harbor, 6:30 a.m. Lumber for Donovan Lumber Company.
Motorship VAQUERO, Capt. Johnson, from Mexican waters, 5:25 a.m. Fish cargo for Vaquero Line.
Steamer GEORGE ALLEN, Capt. Clarke, from Grays Harbor, 7:40 a.m. Lumber cargo for Garland Line. Called for bunkers only.
Steamer HARVARD, Capt. Poulsen, from San Francisco, 10:35 a.m. Passengers and freight for Los Angeles Steamship Company.
Tanker DERBYSHIRE, Capt. Ulrow, from Martinez, 4:20 p.m. To load oil for Union Oil Company.
Steamer CATALINA, Capt. Morris, from Avalon, 8:20 p.m. Passengers and general cargo for Wilmington Transportation Company.
Steamer ROSE CITY, Capt. Madsen, from Portland, 6:05 p.m. Passengers and general cargo for McCormick Steamship Company.

DUE TO ARRIVE
9 P.M. TO MIDNIGHT

Steamer CLAUSEUS, Capt. NESS, from Tsuspilla. General cargo for Planet Line. Norton, Lilly & Co., local agents.
Tanker RICHMOND, Capt. Smith, from Portland. To load oil for Standard Oil Company of California.
Steamer EVERETT, Capt. Lon, from San Diego. Partial lumber cargo for McCornick Lumber Company.
Steamer STANWOOD, Capt. Swenson, from Gray's Harbor. Lumber cargo for W. R. Chamberlin Company.

DEPARTURES
WEDNESDAY, OCT. 21

Steamer ODUNA, Capt. Peterson, for Tampa, 12:10 a.m. Lumber cargo on account of Pacific-Caribbean Gulf Line.
U. S. S. RAMAPO, for Canal Zone, 12:30 a.m. Oil cargo for U. S. Navy.
Steamer PRENTISS, Capt. Beach, for San Diego, 12:50 a.m. Partial lumber cargo for A. F. Mahrer Company.
Tanker CATHWOOD, Capt. Phillipsen, for Olympia, 7:15 a.m. 76,078 barrels of oil for Union Oil Company.
Norwegian Tanker LIDA, Capt. Arnisen, for Yokohama, 7:45 a.m. 64,490 barrels of oil for Shell Oil Company.
Steamer CATALINA, Capt. Morris, for Avalon, 10:30 a.m. Passengers, mail and freight for Wilmington Transportation Company.
Steamer EMMA ALEXANDER, Capt. Bartlett, for San Diego, 12:40 p.m. Passengers and freight for Pacific Steamship Company.
Steamer ADMIRAL EVANS, Capt. Bong, for Portland, 12:28 p.m. Passengers and freight for Pacific Steamship Company.
Steamer MARY E. MOORE, Capt. Rosenblatt, for Bandon, 1:40 p.m. To load lumber for Moore Mill and Lumber Company.
Steamer GEORGE ALLEN, Capt. Clarke, for New York, 1:45 p.m. General cargo and lumber for Garland Line.
Steamer ENTRALIA, Capt. Johnson, for Eureka, 2:25 p.m. To load lumber for Bayside Redwood Steamship Company.
Steamer HARVARD, Capt. Poulsen, for San Diego, 4:20 p.m. Passengers and freight for Los Angeles Steamship Company.
Tanker HALCO, Capt. Nelson, for Columbia River, 4:45 p.m. To load lumber for Hammond Lumber Company.
Steamer GADDOPEAK, Capt. Evenson, for Puget Sound, 7:05 p.m. General cargo for Nelson Steamship Company.
Steamer WHITNEY OLSON, Capt. Hutton, for Bellingham, 7:10 p.m. To load lumber for Oliver J. Olson Company.
Tanker GEORGE W. BARNES, Capt. Johnson, for Boston, 8:50 p.m. 73,000 barrels of oil for Pan-American Petroleum Corporation.
Steamer DAN F. HANLON, Capt. Gallis, for San Francisco, 8:55 p.m. Partial lumber cargo for Hanlon Company.

DUE TO DEPART
9 P.M. TO MIDNIGHT

Steamer DOROTHY WINTERMOTE, Capt. Larsen, for San Francisco. In ballast to load lumber for Tuttamire Lumber Company.
Steamer FLORENCE OLSON, Capt. Jackson, for Tacoma Bar, via Ventura. Partial lumber cargo for Oliver J. Olson Company.

CARGO VESSELS DUE TO ARRIVE
Thursday, Oct. 22

Mexican Steamer CHIAPAS, Capt. Bustlla, from San Francisco. To load passengers and freight for Mexican States Line, McCormick & Co., local agents.
Steamer EMMA ALEXANDER, Capt. Bartlett, from San Diego. Passengers and freight for Pacific Steamship Company.
Steamer HARVARD, Capt. Poulsen, from San Diego. Passengers and freight for Los Angeles Steamship Company.
Steamer HUMBOLDT, Capt. Baughman, for San Francisco. Passengers and freight for Los Angeles Steamship Company.
Steamer YALE, Capt. Self, from San Francisco. Passengers and freight for Los Angeles Steamship Company.
Steamer CATALINA, Capt. Morris, for Avalon. Passengers and freight for Wilmington Transportation Company.
Tanker RICHMOND, Capt. Smith, for Portland, 42,955 barrels of oil for Standard Oil Company of California.
Tanker DERBYSHIRE, Capt. Ulrow, for Martinez, 60,105 barrels of oil for Union Oil Company.
Steamer EVERETT, Capt. Lon, for Everett. To load lumber for Charles R. McCormick Lumber Company.
Norwegian Steamer TORVANGER, for British Columbia. General cargo on account of South Alberta Lumber Company.
Tanker PAUL SHOUP, Capt. McDonald, for Seattle. To load oil for Associated Oil Company.
Tanker GALENA, Capt. Nelson, for Bolton. To load oil for Chanslo Oil Company.
Tanker D. G. SCOFIELD, Capt. Fox, for Richmond. To load oil for Standard Oil Company of California.
Japanese Tanker TACHIBANA MARU, Capt. Kunishima, from Tokuyama. To load oil for Shell Oil Company.
Steamer HAMLIN F. McCORMICK, Capt. Larson, from San Diego. Partial lumber cargo for Charles R. McCormick Lumber Company.
Steamer SKAGWAY, Capt. Johansen, from New Westminster. Lumber for Mitchell and Walker.
Steamer SIERRA, Capt. Jansen, from Bellingham. Lumber for E. K. Wood Lumber Company.
Steamer DAVID C. MEYER, Capt. Danckaert, from San Diego. Partial lumber cargo for Wiggins, Meyer & Co.
Steamer FRANK D. STOUT, Capt. La Bonte, from Coos Bay via San Francisco. Lumber for California and Oregon Lumber Company.
Steamer SUMANCO, Capt. Smaridge, from Bellingham. Lumber for Transoceanic Lines.
George T. Darragh, local agent. Calling for bunkers.
Steamer OHIOAN, Capt. Koona, from Boston. General cargo for American-Hawaiian Steamship Company.

CARGO VESSELS DUE TO DEPART
Thursday, Oct. 22

Mexican Steamer CHIAPAS, Capt. Bustlla, for Carinas and Mexican ports. Passengers and freight for Mexican States Line.
Steamer EMMA ALEXANDER, Capt. Bartlett, for Seattle. Passengers and freight for Pacific Steamship Company.
Steamer HARVARD, Capt. Poulsen, from San Diego. Passengers and freight for Los Angeles Steamship Company.
Steamer HUMBOLDT, Capt. Baughman, for San Francisco. Passengers and freight for Los Angeles Steamship Company.
Steamer YALE, Capt. Self, for San Diego. Passengers and freight for Los Angeles Steamship Company.
Steamer CATALINA, Capt. Morris, for Avalon. Passengers and freight for Wilmington Transportation Company.
Norwegian Steamer TORVANGER, for New York, en route to British Columbia. General cargo on account of Alberta Lumber Company. Calling for bunkers.
Norwegian Steamer CAPTO, Capt. Gran, from British Columbia. General cargo on account of Canadian American Steamship Company. Calling for bunkers.
Steamer WEST SEQUANA, Capt. Bradstrup, from Singapore. General cargo for American Far East Line. Struthers & Barry, local agents.
Steamer CURACAO, Capt. Pedersen, from Portland. General cargo for Pacific Steamship Company.
Steamer PANAMAN, Capt. Galbraith, from San Francisco. To load general cargo for American-Hawaiian Steamship Company.
Tanker PAUL SHOUP, Capt. McDonald, from Seattle. To load oil for Associated Oil Company.
Tanker GALENA, Capt. Nelson, from Bolton. To load oil for Chanslo Oil Company.
Tanker D. G. SCOFIELD, Capt. Fox, from Richmond. To load oil for Standard Oil Company of California.
Steamer DAVID C. MEYER, Capt. Danckaert, from San Diego. In ballast to load lumber for Wiggins, Meyer & Co.
Steamer HORACE X. BAXTER, Capt. Johansen, for Puget Sound. To load lumber for J. H. Baxter & Co.
Steamer SAMOA, Capt. Wurmsley, for Columbia River. To load lumber for Hammond Lumber Company.
Steamer SUMANCO, Capt. Smaridge, for New-ark. Lumber for Transoceanic Lines. George T. Darragh, local agent. Calling for bunkers.
Steamer CLAUSEUS, Capt. Ness, for Puget Sound. General cargo for Planet Line. Norton, Lilly & Co., local agents. Calling for bunkers.
Tanker D. G. SCOFIELD, Capt. Fox, for Point Wells. 69,185 barrels of oil for Standard Oil Company of California.
Steamer MONTICELLO, Capt. Higgins, for San Francisco. General cargo for United American Line. Los Angeles Steamship Company, local agents.

GOOPS!

A Daily Lesson in Manners for Children

BY GELETT BURGESS

GREEDINESS.

"I want the biggest and the best!"
How often have I heard expressed
Such greedy thoughts as these, by those
Too rude and selfish, I suppose,
Ever to think how they appear.
Don't be a Goop like that, my dear!

WHAT'S DOING TODAY

Civitan Club luncheon-meeting, Biltmore, noon.
Hollywood Industrial Blast, Hollywood and Gower, evening.

WOOLWORTH GEM THEFT DESCRIBED

Loser Takes Witness Stand at Grand Jury Inquiry Into $683,000 Robbery

[BY A. P. NIGHT WIRE]

NEW YORK, Oct. 21.—Mrs. Jessie Woolworth Donahue today appeared before the grand jury to tell of the theft last month of jewels valued at $683,000 from her suite in the Hotel Plaza. Meanwhile the identity of "Sam Layton," the 230-pound man in brown who was given $65,000 when he handed the jewels to Noel C. Scaffa, private detective, for the company insuring the gems, is still unknown to the police.

Asst. Dist.-Atty. Pecora said he will ask one or more indictments charging the compounding of a felony in the obstruction of justice. Pecora said that Scaffa entered into the bargain with "Layton," agent for the thief or thieves, six days before he turned the pearls over to the police.

Donahue paid none of the money and has not incurred the possibility of indictment. The ransom money was paid by an insurance company through Scaffa.

Mrs. Donahue, who was an heiress of the Frank W. Woolworth estate, testified for forty minutes, and was instructed to take the stand again tomorrow.

Pecora said that Scaffa will not be called in the investigation "unless he himself demands it." The detective will be "forced to sign a waiver of immunity in that event," Pecora said. The jewels, which which have been in police custody since their return, were shown to the jury.

PRISON ESCAPE PLOT THWARTED BY GUARDS

[BY A. P. NIGHT WIRE]

LITTLE ROCK (Ark.) Oct. 21.—A plot, said by prison officials to have been laid by members of the Birchfield gang of bank robbers and killers, to poison guards and inmates and to blow up the stockade, was thwarted at the State prison farm at Tucker Sunday, the authorities disclosed today. Packages containing eight sticks of dynamite and a can of poison, mailed to inmates, were intercepted. Roy Johnson, serving a life term for murder, told officials he had heard plans discussed for the escape, which included dynamiting of the stockade yesterday.

A NEW TREATMENT FOR DISEASE—BACKED BY GAYLORD WILSHIRE

Without the use of medicines, drugs, diets, baths, massage, or any other discomforts, Wilshire's "I-on-a-co" is accomplishing miraculous results in relieving sickness and disease.

This marvelous new scientific treatment has been amazingly successful in overcoming rheumatism, arthritis, goitre, indigestion, nervous prostration, etc. You should investigate it, too, and try it—absolutely free.

The "I-on-a-co" is personally backed by Gaylord Wilshire, well known as the originator of the Wilshire district.

Nervous Prostration

MRS. A. W. KIMBALL, 1763 Childs Ave., Los Angeles. (Sept. 24th, 1925.)

"Having been an active professional and club woman for the last ten years, I suffered a serious breakdown last spring and summer and found instant help and cure in Ionaco."

Free Treatment

Bring a clipping of this advertisement to any of our offices and we will give you a free treatment of Wilshire's "I-on-a-co." Or send for free booklet. To people unable to call at office, we will be glad to send a representative to give a home treatment—free.

THE WEATHER

[Official Report]

LOCAL OFFICE, U. S. WEATHER BUREAU, Los Angeles, Oct. 21.—[Reported by H. B. Hersey, Meteorologist.] At 5 o'clock a.m. the barometer registered 30.01; at 5 p.m., 30.00. Thermometer for the corresponding hours showed 61 deg. and 68 deg. Relative humidity, 5 a.m., 75 per cent; 5 p.m., 73 per cent. Wind, 5 a.m., northeast, velocity 3 miles; 5 p.m., southwest, velocity 5 miles. Temperatures, highest, 77 deg.; lowest, 60 deg. Rainfall for season, .74 of an inch; normal to date, .43 of an inch; last season to date, .21 of an inch. Barometer reduced to sea level.

WEATHER CONDITIONS.—Oct. 21: Very light showers or some fine rain occurred at some points in the extreme Upper Mississippi Valley, but no precipitation of importance has fallen anywhere in the country during the past twenty-four hours. The temperature has risen considerably in the Plains States, and moderate temperature is reported over the greater portion of the country this morning. In Southern California fair, warm weather prevailed yesterday. It is a little cooler this morning, with clear or partly cloudy weather at nearly all stations. Fair, moderately warm weather may be expected in this vicinity Thursday.

SUN, MOON AND TIDES.—Los Angeles, Oct. 21: Sun rises 6:04 a.m., sets 5:31 p.m. Moon rises 11:04 a.m., sets 9:23 p.m. Los Angeles Harbor, Oct. 22: High tides, 12:36 a.m. and 11:41 a.m.; low tides, 5:39 a.m. and 7:23 p.m.

LOCAL TEMPERATURES.—Oct. 21: Minimum and maximum temperatures from Southern California points, reported yesterday to the Los Angeles office of the U. S. Weather Bureau, were as follows:

Stations—	Max.	Min.
Corona	84	47
Imperial	91	55
Los Angeles Harbor	86	59
Mt. Wilson	67	56
Newport Harbor	81	58

BRITISH LAY LABOR LACK UPON JAPAN

America, Too, Will Feel Orient's Growth, Printers' Convention Told

[BY A. P. NIGHT WIRE]

CHICAGO, Oct. 21.—Great Britain's army of unemployed is great because of the industrial growth of Japan, the convention of the United Typeothetae of America was told today by A. E. Goodwin of London. Mr. Goodwin is director of the Federation of Master Printers of the United Kingdom and Ireland.

Japanese competition with Great Britain is especially keen along textile and machinery lines, Mr. Goodwin said.

"Japan is becoming a strong competitor of Great Britain in eastern markets. India, too, is rising and instead of the jute industry being centered in Dundee, Eng., as formerly, there are jute mills now up and down the Ganges."

He predicted that the East's competition also will be more sharply felt by Americans than heretofore.

The delegates were told by Dr. Francis H. Bird, director of research of the organization, that it is planned to add rubber to paper to keep print-paper from stretching. The need of a paper which will not stretch is especially felt in color printing, when paper must be run through the presses several times, he said.

"One of the causes for stretching is the amount of moisture in the paper. By mixing the uncoagulated juice of the rubber tree, with paper pulp in the beater, a paper with very high tensile strength is produced. It is impervious to moisture and takes a fine finish."

ARRESTS LOOM IN NUDE DANCE

Women Performers and Man May Land in Toils

Charges of Contributing to Delinquency Likely

Boys Declared to Have Been Present at Lodge

Three arrests loomed as a possibility yesterday as a result of an investigation being conducted by Dep. Dist.-Atty. Joos into a stag party at a West Washington street lodge during which, it is asserted, two 15-year-old boys were permitted to watch the performance of two nude women dancers.

The two boys are Joe Garder, 2433 Brooklyn avenue, son of Rabbi Garder, and Isadore Schiller, 661 North Mott street, who have told the complete story of the stag party to Joos and to Investigator James Smith.

According to Joos, the two dancers, whose only garb was a string of beads, and the instigator of the dance face charges of contributing to the delinquency of the two youths.

NAMES WITHHELD

Joos was positive in his statement that complaints will be issued as soon as his inquiry is completed and that he already has unearthed evidence sufficient to warrant their issuance. The names of the persons involved were not disclosed.

The matter was presented to the District Attorney's office, Joos said, by Mrs. Garder, who asked for the prosecution of those responsible. Smith was detailed immediately to make an investigation.

Both Joos and Smith exonerate the officials of the lodge and the lodge itself of any responsibility. The nude dance came as a complete surprise, lodge members told Joos, as certain members, upon hearing of the plans to stage such a dance, put up such strenuous objection it was thought the plans were dropped. At the height of the party the dance was put on to the amazement of the onlookers and was described as "a surprise affair."

BOYS PUT OUTSIDE

Nathan Schiller, father of the Schiller boy, took the two youths to the affair, Joos was told, that they might witness some boxing contests which were a part of the program. When the "surprise" was put on, several members of the lodge objected to the presence of the two boys and ushered them to another room, closing and locking the door. A man, whose identity is known to Joos, is asserted to have provided a means for the boys of seeing the nude dancers through a window in spite of the protests of others present.

As a result of the dance it has been represented to Joos that several members of the lodge face expulsion. Officials of the lodge are co-operating with the county officials in every way possible and are helping to establish the identity of the two nude dancers.

Comfort in Good Looking Shoes

Here's an example of what we mean by it.

They look good here, but just slip the

Cantilever Shoe for that bottom

on your tired feet.

You'll enjoy the feel of them, and the way they look.

The prices figure out less per Month of Service than some of lower grade and price. Besides the Comfort, Cantilever Shoes are an economy.

We are the sole authorized dealers in this territory.

OLD LOVE NOTES CAUSE DIVORCE

Wife Says Husband Fought With Her When He Found Letters

If Mrs. Margaret Cummings has any advice at all for the bride it probably would be:

"Burn your old love letters."

Mrs. Cummings didn't, and that is why she was seeking a divorce from William H. Cummings, she told Judge Gates yesterday.

"Right after our honeymoon he ran across some letters from an old beau of mine, and they made him mad, and he fought with me," she said.

Judge Gates gave her a decree on a showing of cruel treatment.

DISTRICTING BEARS FRUIT IN SQUABBLE

Other Councilmen Envious of $100,000 Awarded to Jacobson's Section

The fruits of district representation were displayed at yesterday's session of the City Council, when the other Councilmen grew envious of Councilman Jacobson and a $100,000 appropriation made by the county toward the paving of San Fernando Road from Dayton avenue to the city limits of Glendale, which is located in Councilman Jacobson's Thirteenth District.

"You can't take that money away from my district," said Councilman Jacobson. Whereupon Councilman Sparks announced that the next public improvement dollar-sagie that flew into the Council chamber was to be captured by him for the Fifth Councilmanic District, and accused Councilman Randall good-naturedly of trying to kidnap $1,000,000 for San Fernando Valley improvements.

"It's true," said Councilman Randall, "that I am trying to get $138,000 for the improvement of thirty miles of streets in the San Fernando Valley, as compared with the thirteen miles planned by the former Council, but the San Fernando Valley is entitled to a great deal more than that."

"I am watching you," said Councilman Sparks, "to see that you leave something for the Fifth District."

Bob Shuler Asks Council Ban on Nude Pictures

Rev. R. P. ("Bob") Shuler filed a complaint with the City Council yesterday against what he terms the display of nude and obscene pictures and magazines on news stands in the city. He called upon the City Council to investigate and to take steps to stop the display of these pictures.

The pastor of Trinity Methodist Episcopal Church said in his letter that he had made a canvass of the city and had found on display at news stands a ton of pictures either nude or more suggestive than nude, and he said that these pictures were injurious to the morals of the growing generation. He declared that young girls and boys carried these pictures to school and showed them to each other. The minister said that he knew that the City Council had the welfare of Los Angeles at heart, and can be trusted to investigate and correct the condition he complained of.

The communication was referred to the City Council's Public Welfare Committee, of which Councilman Allan is chairman.

Suspect Held in Robbery of Pool Hall Till

A 25-cent piece was the total capital of Guy Phillips, 21 years of age, a mechanic, when he was arrested yesterday by Detective Lieutenants Vail and Abercrombie as the bandit who held up a clerk at a pool hall at 248 East Fifth street and escaped with a coin sack containing several dollars in silver.

His arrest was due to the fact that he was said to have been recognised by several men who were in the pool hall at the time of the robbery. Phillips is said to have held his hand in his pocket so that it appeared to be a concealed pistol. He was arrested in his room at 510 Wall street. Phillips is charged with suspicion of robbery.

SALESMAN SENT TO JAIL

Clarence Darrow, a salesman, yesterday was sentenced by United States District Judge Lindley to sixty days in the jail at Riverside for using the mails to defraud. Darrow was salesman for a local medicine concern and sent in large orders purporting to be from Texas druggists, on which he claimed commission. It was charged. It was discovered, it was said, the orders had never been given.

Says Bean and "Beans" Soon Parted

Mrs. Helen Bean and Daughter Joyce

Tale of husband's asserted spendthrift ways which led to violent disagreements win her divorce in Judge Summerfield's court.

BIBLE TEXT TAKEN TOO LITERALLY

Decree Given on Asserted Spendthrift Habits of Happy-Go-Lucky Spouse

Melvan Bean took the Bible too literally, Mrs. Helen Bean asserted yesterday before Judge Summerfield. His motto, she said, was "Take no thought for the morrow" and every time she saved any money up to buy clothes and things for Joyce Bean, who then was expected, Bean took it and had a party. This led to violent disagreements and finally to separation, Mrs. Bean said, when she could stand her husband's insistence that "Providence will provide" no longer.

Judge Summerfield granted her a decree. John J. Craig was Mrs. Bean's attorney. Joyce Bean attended her mother to court.

DEADLOCK SEEN IN BRIBERY JURY

(Continued from First Page)

Downs that Fitts said to him the day of his arrest: "To hell with your attorney."

The arguments to the jury were then opened by Dep. Dist.-Atty. Ryan, who sketched the facts as presented by the State. He was followed by Defense Attorney Emme, who made a plea for mercy on behalf of young Murphy.

Attorney White, chief of defense counsel, devoted most of his time to an excoriation of Hodges.

White asked the jury to consider that Hodges's testimony stood unsubstantiated, and declared that the State called no one to the stand to testify to Hodges's good character, while the defense brought on several to testify otherwise. White announced that the whole case was a "frame-up" engineered by Hodges and others. He demanded to know why the prosecution did not produce Councilmen Sanborn and Moore and President of the Council Workman and Minute Clerk Carroll as witnesses to describe their interest in the case.

Chief Trial Deputy District-Attorney Fricke closed the arguments for the State, and spent most of his time pointing out discrepancies between the testimony of Downs at the trial and his statement taken in the District Attorney's office shortly after his arrest. Fricke asserted the former Councilmen were nothing but "grafters" and ridiculed the vast conspiracy hinted by White.

The two former Councilmen were arrested by District Attorney's investigators in Downs's office at the City Hall last August immediately after Hodges, who was trying to get the Council to approve a franchise for the construction of a moving sidewalk under the Second-street tunnel, had left the room. A roll of money, containing $1000 in marked bills, was taken from each of the Councilmen, according to the testimony. Murphy, an associate of Downs, was arrested shortly after in Hodges's office.

URGES DOG-DEATH NOTICE

The California Antivivisection Society has petitioned the City Council to provide, by ordinance that veterinarians be required to notify the owners of animals that have died in veterinary hospitals so that the owners may identify these animals and direct the disposition to be made of the bodies.

PROGRAM READY FOR NAVY DAY

(Continued from First Page)

the battleship squadrons championship.

Several squadrons of fighting planes from the battle fleet Aircraft Squadrons at San Diego, will make exhibition flights during the morning and later will drop Navy Day literature over La Jolla, Del Mar, Oceanside, Newport Beach, Huntington Beach, Long Beach, San Pedro and Santa Monica. Marine Corps planes from San Diego will fly to San Francisco for exhibition flights.

HOURS FOR VISITORS

Visitors will be received on all ships, at all ports, from 11 a.m. to 5 p.m., while from 8 p.m. to 11 p.m. all ships so equipped will illuminate ship and execute searchlight drills. Fighting planes will also be shot from the launching catapults on the decks of various battleships, while all ships' bands will render concerts during the afternoon.

The following ships of the fleet will broadcast two-hour radio programs over local stations: U.S.S. Arizona, KHJ, 8 p.m. to 10 p.m.; U.S.S. Pennsylvania, KFI, 8 p.m. to 10 p.m.; U.S.S. Nevada, KFWB; U.S.S. Procyon, KFSG; U.S.S. Savannah, KNX.

Ships of the battle fleet will visit the following ports on Navy Day:

Los Angeles Harbor: Battleship Pennsylvania, submarine tender Savannah, base force flagship procyon, hospital ship Relief, repair ship Medusa, destroyer Stoddart, submarines, S-24, S-25, S-27, S-28, S-29 and S-33.

Long Beach: Battleships Arizona and Nevada.

IN BAY DISTRICT

San Francisco Bay area: Battleships West Virginia, Colorado, Tennessee, Maryland; destroyers Lavallette, Sumner, Farragut, Zailin, MacDonough, Farenholt, Somers, William Jones, Mare Island. Aircraft carrier Langley, tanker Kanawha, destroyers Mervine and Kidder.

San Diego: Tenders Melville, Altair and Arcostook; Eagles 35, 47 and 53; destroyers Sinclair, McCawley, Moody, Henshaw, Meyer, Doyen and Melvin.

Monterey: Battleship Mississippi, Santa Cruz; battleship Idaho, Santa Barbara: Battleship New Mexico, San Luis Obispo: Destroyers Sloat and Shirk, Pismo Beach: Destroyer Paul Hamilton, Crescent City: Destroyer Hull, Eureka: Destroyer Corry, Ventura: Destroyer Thompson, Venice: Destroyer Reno, Newport Beach: Destroyer Kennedy.

Puget Sound navy yard: Battleships, California and Oklahoma, cruiser Omaha; destroyers, Percival, Farquhar, John Francis Burnes and Decatur.

SUIT FILED IN ROW OVER DURANT STOCK

William K. Reuss yesterday filed suit to have himself decreed the rightful owner of 100 shares of stock in the Durant Motors of California, and to restrain the motors company from transferring the stock to any other party on the books of the company. Reuss named George W. Small a defendant in the action, asserting Small obtained possession of the certificate by representing to Reuss that he was an investigator of the company and induced Reuss to surrender possession of the stock. Reuss valued the stock at $1500. The complaint was prepared by Attorney T. C. Gould.

DOG POISONER THREATENED

Long Beach Citizens Up in Arms as Valuable Canines Fall Victim to Strychnine Scatterer

By a "Times" Staff Correspondent

LONG BEACH, Oct. 21.—An entire section of this city is up in arms today and threats of hanging and other violence have been expressed as the result of the poisoning of dogs here on a wholesale scale.

No less than twenty dogs, three of them valued collectively at more than $1000, died last night and today as the result of strychnine poisoning distributed about the west beach and the Lincoln Park section in bits of bacon and popcorn.

Residents of the section were aroused to a high pitch this morning as virtually every dog at large in the district last night and this morning fell victim to the poisoner. Detective Sergeants Wood and Smith, assigned to investigate, made a canvass of all drug stores in the vicinity to learn if possible the source of the strychnine and the possible identity of the dog poisoner.

Fear that children playing on the west beach and in the park may pick up poisoned candy or popcorn spurred police to increased efforts in running down the poisoner.

Mrs. W. H. Chandler, 20 Maine avenue, an odicial of the Long Beach Humane Society, found her valuable Pomeranian-Spitz dead near her home. A Chow dog valued at $300 and a coach dog valued at $500 were also among the victims. Police officers were instructed to be on the alert and to guard against violence on the part of dog owners if the poisoner is found.

ADVERTISERS TO OPEN SESSIONS

State Association Will Meet Tomorrow

Registration of Delegates First Business

Addresses Will be Made on Topical Subjects

The annual fall convention of the California Advertising Service Association, comprising leading advertising agencies in the State, will be conducted tomorrow and Saturday at the Beverly Hills Hotel.

Registration of delegates will start at 9:30 a.m. tomorrow in the headquarters at the hotel and at 10 a.m. the convention will be called to order by Max Hammel, president. Appointment of committees will be followed by reports and routine business. Robert Porter will speak on what the agency ought to know about client's business before advertising plans are inaugurated, to be followed by a discussion led by Don Francisco. Charles R. Stuart will talk and a discussion will be led by Emil Brisacher.

Luncheon will be served at noon. It will be followed by talks by Charles Duncan, Dwight Jennings, A. B. McAllister and Norman F. D'Evelyn.

At 3 p.m. Benjamin H. Read, managing director of the Southern California Editorial Association, will speak on the California plan. This subject will be discussed under the direction of Daniel E. Miner. Delegates from the northern part of the State will play a ball game at 4 p.m. with the southern members.

A feature of the evening program will be a talk on "Reforestation and What It Means to Advertising," by George H. Barnes, president of the American Reforestation Association. Garner Curran will speak on advertising in the Orient.

On Saturday there will be no sessions in the forenoon or afternoon so delegates may attend the U.S.C.-Arizona football game or take advantage of other entertainment.

That night James O'Shaughnessey, secretary of the American Association of Advertising Agencies, will be the principal speaker. Election of officers for the coming year and stating of the objectives for the year by Alvin Long of San Jose, will bring the convention to a close.

MAYOR QUIZZED IN WATER WAR

(Continued from First Page)

partment can pay the interest and sinking fund charges on the bonds as required by the charter. By the provisions of the charter, the entire water bond burden was transferred from the taxpayers to the water consumers, and the water department was made the 'goat' in the transfer of this burden."

Mayor Cryer admitted, under questioning by Councilman Hall, "that in the event of a referendum being filed against the ordinance and the vote on the ordinance being delayed until next August, the water department would be forced to abandon much extension and maintenance work, including the installation of new mains required by the growth of the city. Councilman Shaw declared this would be a blow to the growth of the city, especially to the service required for industries.

Counsel Mathews, who was one of the chief supporters of Mayor Cryer during the campaign last spring, declared that the water department "wants no quarrel with Mayor Cryer." The Mayor said in reply that he had always been a stanch supporter of the department, but repeated his contention that no real emergency, as contemplated by the charter, existed.

To this Counsel Mathews replied by declaring that Mayor Cryer had signed previous water-rate ordinances with the emergency clause attached. The Mayor said he was not prepared to deny that this was correct, but he said this particular emergency ordinance had been called to his attention.

"Who did it?" The water department was not consulted," said Counsel Mathews.

"I did," said Volney Craig, San Fernando Valley rancher, who is opposing the increased irrigation rates.

WOULD CAUSE DELAYS

Chief Engineer Mulholland and Special Counsel Mathews called special attention to the slowing up of public improvement work in the city, which would result if the department is unable to continue its program of main replacements because of lack of revenue provided by the new rates. They pointed out that when a street is in the course of pavement, the department has always gone in ahead of the new pavement and relocated its mains and laterals and laid new mains as required. Failure to meet these demands, Chief Engineer Mulholland said, would be a serious setback to the development of the city and would delay needed public improvements, as well as delaying needed fire protection and domestic service.

The committee took the matter under advisement. It may be possible that action will be delayed until Councilman Criswell's return from Washington on Monday, when there will then be a full Council present and the ordinance can be adopted by unanimous vote.

Judge Puts Off Trial of Pair in Liquor Scandal

Because of crowded calendar United States Judge Lindley yesterday extended to November 4 the trial date of P. D. Cummings, suspended Federal prohibition agent, and W. A. Outcalt, former Long Beach policeman, accused in a liquor scandal.

Cummings and Outcalt were indicted by the Federal grand jury on a charge of conspiring to violate the Volstead Act. Several cases of liquor were under the guard of Outcalt and Cummings is accused of having taken it.

Both are out on $2500 bond.

SAID TO BE EVE IN ILLUSIVE GARDEN

Mrs. Ena M. Harper

EDEN ISLE PROMOTER ARRESTED

Misrepresentation Charged in Descriptive Circulars on Mexican Project

Palmito del Verde Island, in a lake in Sinaloa, Mex., was represented as a Garden of Eden in circulars sent out by Mrs. Ena M. Harper, 1141 North El Centro street, when, in fact, it was the reverse, it is asserted in an indictment on which Mrs. Harper yesterday was arrested. Her sales manager, W. H. O'Bryan, is accused jointly with her and is expected to surrender today.

Besides painting the island in the realest colors, furnishing it with valuable timber and removing from it most of its insect life, Mrs. Harper is declared to have asserted the purchasers would at once receive full title despite the Mexican laws, which prevent foreigners from getting clear title to any land so situated in Mexico.

Mrs. Harper was taken in her lawyer's office, where she later arranged bail, which United States District Judge Lindley had reduced from $10,000 to $5000.

COMPRESS CHARGE ON COTTON CUT

Reduction Made by Harbor Board to Prevent Loss of Business at Port

The Board of Harbor Commissioners yesterday reduced the charges on the cotton compress by 25 cents a bale, an action, which, according to Secretary Starr, will result in Los Angeles Harbor receiving a large proportion of 60,000 bales raised annually in the San Joaquin Valley.

The tariff was reduced from $2 to $1.75 a bale. The board acted upon the recommendation of Commissioners Burge and Souden and General Manager Spear, who investigated the proposed change at the instigation of the Union Terminal Warehouse Company.

Cotton men from the San Joaquin Valley demonstrated to the board that if the tariff remained the same they would find it cheaper to compress their cotton at Bakersfield and ship it to other points. The reduction of the rate, it was said, will repay the Harbor Department in increased wharfage and warehouse returns.

Drive Opens on Truck Operating Without Permit

A drive against trucks operating without permits from the State Railroad Commission was begun yesterday, according to Inspector Perkins of the Department of Public Service, with the arrest of Lyle M. Kelly, proprietor of the Hemet Transfer Company. This concern, it was said, runs a fleet of trucks between Hemet and Los Angeles and the harbor.

Police Judge Pope suspended sentences of $1000 fine and six months in jail, and $500 fine and six months in jail, on charges of violation of the Transportation Act and the Interurban Freight Stage Ordinance, respectively, on condition that Kelly get permission from the Railroad Commission before operating again.

"Heartburn"

One of the symptoms of excessive acidity. Why suffer? Get rid of sour stomach, aches and pains, stiff joints, sore muscles, kidney or bladder troubles so often caused by an excess of body-made acids. Neutralize the acid with the aid of Mountain Valley Water from Hot Springs, Ark. Prescribed by physicians. Hundreds of Los Angeles people benefited. Phone for a case.

Erla Program Presented by Banta Company

ORPHEUS FOUR MALE QUARTET

SARA CARLIN, SOPRANO

to give one of his inimitable marimbalogues. Dick took the children on a musical tour of America, the British Isles, France, Italy, India and Hawaii, and then back to California, playing his musical respects to each with national or typical airs.

Dr. Mars Baumgardt, leading optometrist of the city and recognized astronomical authority, made his weekly appearance last evening with his regular lecture on the science of the heavens as related to our present day modes of living and methods of keeping time.

The matinee program of the Pacific States Electric Company presented a stellar group of radio entertainers, including Sara Carlin, soprano who was recently enrolled as one of the big favorites of the tower studio; Gladys Burch Dale, talented mistress of the violin; Grace Currey, popular harpist of the station, and "David and Rose" in instrumental duets.

A change from the usual midday programs was given at noon when Dot Street, soprano soloist, Lilyan Ariel, concert pianist, and Clyde Sparks, widely known baritone from WEB, Atlanta, Ga., gave the hour's entertainment, followed by Fred C. McNabb, who gave his weekly garden talk through the courtesy of the Aggeler & Musser Seed Co.

Later in the afternoon, McClellan Reed, whose voice was heard by the New Zealand and Fiji listeners, was again on the air with some of his excellent talks on "Child Psychology."

President Calvin Coolidge is to speak over radio at 10:30 Saturday morning. Eastern Standard time, but there is little chance of the address being heard here on the Coast because of the difficulties of DX reception in daylight. He is to talk at the international convention of Y.M.C.A. at Washington, with the address broadcast from WJZ, WRC and WGY.

Friendly enemies of the University of Pennsylvania and the University of Chicago are to meet at noon Saturday here in the University Club, Sixth and Hope streets, to hear the tide of battle being waged between the football teams of the two schools back on Franklin Field. The Chicago alumni are being hosts to all Penn men in California this week at the club, having completed arrangements for a play-by-play report direct to the club rooms. Because of the difference in time, the reports will start coming in at noon.

K-H-J The Times

TODAY'S PROGRAM

7 to 7:15 a.m.—"Setting-Up Exercises," by Prof. Barclay L. Severns.

12 to 12:30 p.m.—Leighton's Arcade Cafeteria Orchestra, directed by Jack Cronshaw.

12:30 to 1:30 p.m.—Broadcasting by remote control from the ballroom of the Biltmore Hotel, the Optimist Club luncheon, having as guests the following widely known personages: Special guest of honor, Betty Bronson, the "Peter Pan" girl; Mme. Elinor Glyn, noted English authoress; Connie Almy, interpreter of modern jazz, accompanied by Ernie Wehl; Ulysses Lappas, operatic tenor; Jack Dempsey; R. D. McLean, Shakespearean actor; Estelle Taylor (Mrs. Jack Dempsey,) and music by Simons Brick Company Sheiks.

2:30 to 3:30 p.m.—Matinee program sponsored by the Pacific States Electric Company, presenting the Arion Trio and Edward Novis, baritone.

6 to 6:30 p.m.—Leighton's Arcade Cafeteria Orchestra, directed by Jack Cronshaw.

6:30 to 7:30 p.m.—Children's program presenting Prof. Walter Sylvester Hertzog, radio historian; "Cousin Jim" Beardsley, guest announcer; Dickie Brandon, screen juvenile reporter; Joyce Coad, "Little Red Riding Hood of KHJ;" Sam Middleman, 17 years of age, violinist; Donald Erdman, 9-year-old whistler; "Jimmy" Ferguson, 4-year-old singer, with ukulele; Blanche Silbergliitt, child reader, pupil of Winifred Pollard.

7:45 p.m.—Dr. Phillip M. Lovell will talk on "Eczema."

8 to 10 p.m.—Program through the courtesy of the Banta Company. Presenting the Arion Quintet; Lilyan Ariel, pianist; Sara Carlin, soprano; Orpheus Four Male Quartet; Lois Miller, soprano, and Vera Thompson, contralto, in vocal duets, accompanied by Daisy Sinclair.

10 to 11 p.m.—Art Hickman and his Biltmore Dance Orchestra.

ORDINANCE FOR DRAIN

On motion of Councilman Sparks, the City Council yesterday adopted the new ordinance under the 1911 Act for the large West Jefferson-street storm drain. The property owners had objected to the previous proceedings, which were brought under the 1915 Act, and these proceedings were abandoned and the new ordinance presented.

CHARGE IN BABY FARM CASE DIES

Judge Dismisses Petit Larceny Count for Lack of Jurisdiction

Charges against Mrs. Hazel May Sims of petit larceny and obtaining money under false pretenses in the "baby farm case" were dismissed by Justice Wood yesterday, on the ground that the asserted offense was committed in Hawthorne and that his court had no jurisdiction. Representatives of the District Attorney's office announced that they would refile the charges in the Hawthorne court.

The trial of Mrs. Sims on a charge of conducting a maternity hospital without a license proceeded. Testimony was given by the 16-year-old girl who, it was asserted, at Mrs. Sims's establishment became the mother of the child about whom the "baby farm case" has revolved.

The child, it was said, with the consent of the mother, was turned over to a woman by Mrs. Sims for adoption. Mrs. Sims was originally charged with a violation of a section of the Penal Code relating to assumption of ownership of human beings, being charged with assessing both parties for expenses. This charge was dismissed.

The girl's mother testified that she had seen a maternity hospital advertisement in a newspaper. Miss Vera Ried, of the paper's classified advertising department, also testified concerning the advertisement, but it was not shown that Mrs. Sims had placed the advertisement in the paper.

The case was continued until tomorrow.

LAW ASKED TO CURB USE OF VERONAL

Drug Becoming as Great a Curse as Morphine, Says Club Speaker

Veronal is becoming as great a curse as morphine and other deadly drugs and a campaign should be started in California to influence the Legislature to place veronal on the restricted list of drugs, according to the statement and plea voiced yesterday before the Masonic Club by Judge Georgia P. Bullock, in charge of Department No. 6, and the only woman Police Judge in the United States.

"The number of women using veronal seems to be increasing and the physical, nervous and mental condition of the women addicts brought before me is pitiable," said Judge Bullock. "I do not know what veronal contains, but it has lead in it, for one thing, and its effect is stupifying. It should be removed from the free list of drugs."

Speaking of the Municipal Courts which she said she hopes will be established by December 1, Judge Bullock expressed the opinion that this system will facilitate the handling of cases.

"Also, I will be glad when my department is placed in new and better equipped headquarters for respect for law is advanced by clean, wholesome environment," said the speaker.

The speaker at the Masonic Club meeting at noon tomorrow at the Alexandria Hotel will be William A. Spaulding who will talk on "Songs of Masonry."

TAKEN ON OIL FRAUD CHARGES

Local Promoter Secretly Indicted Here Arrested in New York

James Oliver Stewart, a promoter of the Santa Fe Chief Oil Syndicate, was arrested yesterday in New York, according to a message received by U.S. Atty. McNabb, who then revealed that Stewart had been indicted secretly by the United States grand jury, September 10, last. The charge is using the mails in a scheme to defraud.

The syndicate, according to the charges, made about $350,000 for the promoters and then went to smash, getting the stockholders nothing. It had eighteen acres of land, ten of which were leased and eight subdivided, it was said.

Stewart, the message from New York said, gave $5000 bail and agreed to return to Los Angeles to face trial.

DAUGHTERS TO HONOR HIM

On his eighty-third birthday, A. S. Reel will be tendered a party by his five daughters at his home at 241 Lion Canal, Venice. Mr. Reel has lived in Southern California twenty years. H formerly resided in Vincennes, Ind.

CUPID'S AIDE FAILS AT HIS OWN GAME

Man Gets Divorce from Woman He Picked Out of His Marriage Bureau

Benjamin Padley, 74 years of age, got a divorce yesterday. The decree, according to testimony in Judge Gates's court, disposed of a romance originating in Padley's own matrimonial bureau.

Ten years ago, it was stated, Padley chose his wife from a list of prospects of his matrimonial agency. A few weeks after the marriage he was accused by other women clients of having made love to them, it was said.

Yesterday Padley told Judge Gates that his wife, Mrs. Martha A. Padley, had left him three times.

"Maybe she'll come back," suggested Judge Gates.

"I hope not," said Padley, who sued on desertion grounds.

The Padleys, it was revealed, had been engaged in intermittent divorce proceedings over a period of eight years. In 1917, Mrs. Padley obtained an interlocutory decree, but a reconciliation followed. Padley sued in 1921, and then they made up again. Last year he sued on cruelty charges, which he let drop, and then filed a desertion charge.

"Maybe you'll make up again," said Judge Gates, hopefully.

FISHING PLEA RESURRECTED

Ordinance Permitting Local Waltans to Ply Sport in City Reservoirs Again in Council

The annual effort of the fishermen of this section to secure the right to fish in the Los Angeles municipal water supply reservoirs was made yesterday in the City Council when an ordinance was presented by the Health and Sanitation Committee creating a Fish and Game Commission which should have the power to issue permits to catch fish in these reservoirs.

The adoption of the ordinance was blocked by Councilman Sparks, who secured a reference of it to the Committee of the Whole which will have a public hearing on the matter on the afternoon of October 29. The Councilman said that he would lead the battle against the adoption of the ordinance.

Water department officials in recent years have refused to grant permission for fishing in the reservoirs as, they said, experience had shown that the healthful condition of the city's domestic water supply was endangered by the fishermen.

The ordinance presented yesterday provides that there shall be created a new city commission of five members, all of whom shall be "bona fide sportsmen," but who are to receive no compensation. This commission is to have the authority to issue fishing permits for the reservoirs, but the fishing is not to exceed two days of each week, the days to be designated by the commission. The fee is to be $1 a fishing day.

Fishing must be done from boats, no dogs are to be permitted in the boats and there is to be no camping on the fenced-in land surrounding the reservoirs. The commission is authorized to employ wardens and guards from the funds derived from the license fees.

This regulated fishing in the city reservoirs was approved by Health Commissioner Parrish, but it is expected that the water department will vigorously oppose the adoption of the ordinance as being a dangerous "letting down of the bars" set up for the protection of the city's drinking water and will declare that the protective provisions are impossible of strict enforcement due to the large size of the reservoirs.

PERSONAL QUAKE AID PLEA MADE

New Action Inaugurated in Effort to Raise City's Relief Fund Quota

Directing a personal appeal to 10,000 Los Angeles citizens for aid in the effort being made to carry out the city's promise to help Santa Barbara, Campaign Manager Morris of the Chamber of Commerce yesterday injected a new element into the campaign for funds.

The appeal was in the form of a letter addressed to persons of means who, the record shows, have not as yet contributed to the Santa Barbara emergency relief fund. It pointed out that while the campaign for funds has been in progress for months, only $177,245 of the city's quota of $264,500 has thus far been collected.

"Los Angeles cannot afford to fall down on this enterprise, which involves the city's honor," the communication continued. "We made a promise to Santa Barbara on which its people had a right to rely, and it's up to every citizen of Los Angeles interested in the maintenance of the city's good name to see that that promise is fulfilled."

The letter called attention to the fact that the campaign has been conducted without a "drive," and without deductions from the contributions for campaign expenses, every cent having been delivered to Santa Barbara.

"Large if you will, small if you must, but whatever you feel is your share will help," reads the concluding paragraph. "Send it now to the committee headquarters, making the check payable to the Santa Barbara relief fund."

MASQUERADE DANCE

The woman's auxiliary of the Caledonian Club will have its annual Halloween entertainment and masquerade dance tomorrow evening at Forester's Hall, 955 South Olive street.

STILLS UNUSED BUT COURT FINES OWNER

James Cooper, 1025 West Washington street, pleaded guilty yesterday before United States Judge Henning to possession of illegal apparatus for the manufacture of intoxicating liquor, and was sentenced to pay a fine of $500. Two seventy-five-gallon stills, found at Cooper's home, had not been placed in operation.

29,939,000 square yards of concrete street pavement were laid in 1924

Over 1000 Cities Laying Concrete Streets This Year

The reason for this nation-wide popularity of *concrete street pavement* is the fact that it is the finest looking pavement money can buy, and gives greater service value per dollar than any other type.

Our free booklet, "Concrete Streets for Your Town," will tell you the whole story. Ask for your copy.

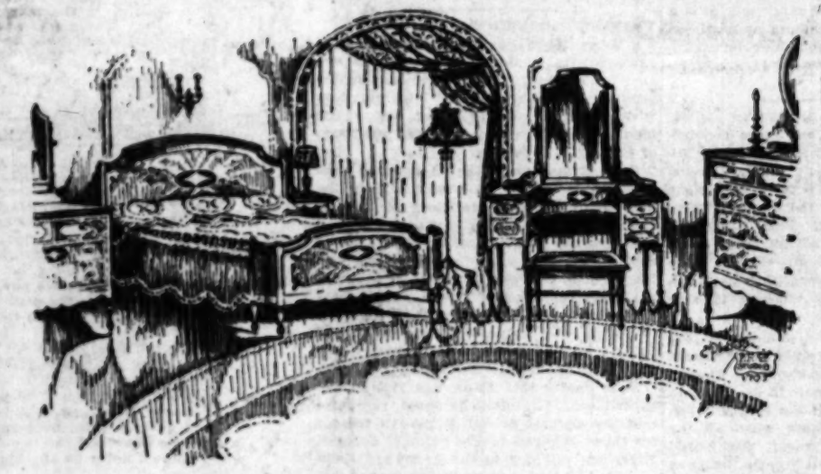
New Furniture at Lower Prices



Newer and Larger Selections of Quality Furniture Arrive Daily

Think of the hundreds of different designs to choose from—Living Room, Dining Room and Bedroom and odd unusual occasional pieces of furniture for every room in the home—at the lowest prices we have ever quoted.

• • •

Our New Policy
Now in Force

Lower Prices—Greater Volume
Our Unusual Terms Apply

• • •

4-Piece Bedroom Suite $159.50

4-6 Bed, Dresser, Chiffonier and Vanity as illustrated, in French Walnut. Four pieces for only $159.50.
Pieces priced separately as follows:

4-6 Bowfoot Bed	$35.00
3-3 Bowfoot Beds Pr	70.00
Dresser	45.00
Vanity	49.50
Chiffonier	$30.00
Chair	8.25
Rocker	9.25
Stand	9.00

The same suite can be furnished in American Walnut.

Living Room Set $110.00

Large, comfortable davenport and fireside wing chair. Deep springs in seat under spring filled cushions. This beautiful suite is upholstered in Jacquard velour, taupe color with rose background. A well-made suite at a very low price.

Same Suite in Plain Mohair, $225.00

Rose taupe color with reversible cushions covered on top with silk brocatelle.

Mahogany Desk

Genuine mahogany desk similar to one pictured, 32 inches wide, 39 inches high, with three good-sized drawers. Priced $57.50.

Occasional Chairs That Are New

Arm Chair $37.00
In mahogany finish with shaped back and seat upholstered in combination of tapestry and velour.

Louis XVI Chair $55.00
In mahogany finish, seat and back upholstered in imitation needle-point tapestry. An unusual value.

Jacobean Chair $68.00
Genuine walnut with turned arms, legs and stretchers. Upholstered in a wool tapestry.

First Quality Wilton Rug Values

9x12 First Quality Wilton Rugs,	$98.50
9x21 First Quality Wilton Rug	$292.50
11.3x21 First Quality Wilton Rug	$300.00
11.3x18 First Quality Wilton Rug	$289.00
11.3x15 First Quality Wilton Rug	$239.00

These rugs are the product of one of the leading and largest manufacturers in the country. All in perfect condition, no seconds. 22 patterns to select from.

*Extra large sizes in Persian patterns.

Tilt-Top Table

Table pictured in solid mahogany. Top 16x24 inches, 24½ inches high with top flat. An exceptionally good value at the low price quoted, $13.50.

ANOTHER LOT

Those who are discontented with their lot might hunt up the real estate man. Sometimes he specializes in exchanges.

THIS CLIMATE

Even the railbirds in Pershing Square are saying that October days are a bit hot for them. They have been having to move around a lot to keep out of the sun.

PEACE PLANS

They are getting back to playing kissing games in European countries. This is a pretty good sign that peace is having a show.

THE UNSATISFIABLE SEX

Practically every modern girl has the right to choose her own husband and now what a lot of them seem to want is the right to choose some one else's.

REDUCTIO AD ABSURDUM

Things are not so bad in Germany, after all. It is said that the German women are buying up the world's supply of pineapples in order to reduce their flesh. They have the idea that a pineapple diet is good to take off fat and so they are eating the fruit before breakfast and between meals. But at last accounts the dames were as massive as ever.

SPORT SUITS

Thus far the Britons have steadily failed to assimilate the sport clothes affected by Americans of both sexes. They do not appreciate our combinations of cut and color and even a yellow and purple sweater gives them the creeps. But they will get around to it yet. They are getting so that they can look on without wearing blinders and they may yet take our raiment to their bosoms.

THE DUCK HUNTERS

Catching wild ducks in nets from airplanes sounds sporty enough, but, now that it is being done, the netters are accused of commercialism. The shotgun brigade registers objections. Perhaps we should turn over the pursuit of the duck to the experts who are doing all their killing with bow and arrow. The one who brought down the first bird with his hickory shaft would be entitled to a place in the king row and get his name on the cup.

IN THE CABINET

Only Secretaries Hoover, Mellon and Davis—of the portfolio of Labor—now remain of the Harding Cabinet. The changes have been rather rapid since President Coolidge took command under his own right. The unusual thing is the presence of two chiefs of the same name. The new Secretary of War is Dwight Davis, while James J. Davis heads the Department of Labor. The Davis family has always been at the front in Democratic councils and this is the first time it has shown strength in the Republican camp.

NOT ALL PLAY

Cynics who hold that our colleges are given over wholly to athletics must have had a jolt when one of our major institutions let out three of its greatest football stars because they had not kept up to grade in their studies. It had been thought that if a student was an effective tackle on the gridiron he need not tackle anything else. Gains on the field and track were thought to be the only gains that counted. But it appears that there are requirements in scholarship after all. Brain and brawn must synchronize.

THE NEW MARK

The Pacific Coast League has produced a performer with the stick who has surpassed the record of Babe Ruth as a circuit clouter. Of course, the Coast season is a few games longer than the big-league time, but the difference is not great. Anyhow, Tony Lazerro, the Salt Lake shortstop, chalked up sixty home runs this year. In the last game of the season he lined out his sixtieth and thereby exceeded the world mark of fifty-nine, as set by George Herman Ruth. This western ozone has a wonderful zip to it. When a player makes sixty home runs in a single season he can't have much of any other place to go. No place like home.

IN DARKEST RUSSIA

The Russians are imagining that the agreement between France, Germany and other governments is a conspiracy to unite the world against sovietism and prevent the recognition of the present regime in Russia. This is not its purpose, but may indirectly be its effect. It will doubtless hinder any close-working agreement between Germany and Russia. But nobody is going to war with Russia on account of her Communism. If she will keep it to herself other peoples will leave her severely alone. There is strenuous objection, however, when the soviet leaders make desperate efforts to extend their system into other lands. Since it has failed to make a prosperous Russia, why should the theory be expanded?

FOR VALUE RECEIVED

A town in Florida with a present population of 20,000 is reported to have 4500 real estate operators at work. This is one seller to every four and one-half of the remaining population, including women, gents, children, minors, Pullman car porters, babies and aliens. Just about the average automobile distribution in States outside of California, or approximately a lot to every family.

One of the enthusiastic 4500 declares the market to be "liquid." Now "liquid," in the parlance of the financial district, means easy to move; has no reference to topographical conditions and is entirely unrelated to the great outdoor sport of locating one's corner lot by means of a trolling line from a row boat.

A lot to a family and a real estate salesman for every four and a half persons seems reasonable enough, but it appears that this by no means represents the saturation point, for the newspapers of the town under discussion, as well as other towns in the sales belt, carry columns of advertisements headed "salesmen and women wanted." When the season is well under way it is expected that there will be a salesman for every two prospects.

The Times is glad to pass along these glad tidings of jobs in Florida, for the type of struggling real estate salesmen who, while "working" California, have had a hard time keeping their activities within the approval of the authorities, some of whom have a curious, old-fashioned idea that the familiar doctrine, "caveat emptor," is out of date and should be supplanted by an American version in three words, "For Value Received."

The dominant sales argument of the "let-the-buyer-beware" sellers is "50 per cent sure and 500 per cent probable," and they are in their element in the eastern southland, where the patter is current sales talk and where no new lines need be learned.

We will miss these ballyhooers, but are willing to spare them and their peculiar talents to a fresh environment, and if they never come back it will be soon enough. The system of salesmenship which regards as a good asset an $8000 mortgage on a lot which sold a few months ago for $4000 does not fit in with the California idea of value received, and it is perfectly obvious that Southern California is benefited in direct proportion to the number of 500 per cent high-pressure real estate salesmen who trek to Florida, a majority of whom are fake promotion boomers, skinners and double-crossers, without business morals or conception of ethical, straightforward dealing. They have deserted us as a hopeless field for the exploitation of their talents. All of which is highly encouraging and points the way to one of the best and most constructive years in the history of Los Angeles real estate development.

We have plenty of real realtors left. These are the men who have put the "real" in "realty;" constructive men with a vision which goes beyond the transaction of the moment; good citizens; square dealers and straight shooters who are willing to and do tell the truth about what they have to sell and sell it on a basis which gives them a reasonable, legitimate return for honest effort. The absence of the other gentry is a great asset to the community and will go a long way toward keeping Southern California real estate upon a sound, conservative investment basis.

THE JUICE OF THE GRAPE

Year by year new and more convincing proof is given of the fact that our California grape growers were unduly alarmed in 1919 when they were posting huge signs among their vines along the highway, "Prohibition Would Destroy This Vineyard." Not only has the Volstead Act failed to injure the viticultural industry of the State in the least, but its passage has been followed by a tremendous increase in vine acreage and grape prices.

The total value of the products of the vine other than raisin grapes in California in 1919 was placed by government experts at $35,000,000. This year it is close to $50,000,000 on a conservative estimate and may far exceed that figure when all the returns are in. For a time it was feared that the recent rains had greatly damaged the crop, but the statistician of the State Board of Agriculture reports that the injury has been very slight.

So heavy has been the recent movement of our grapes to the eastern market that a shortage of refrigerator cars is reported by all the railroads. In the middle of September the Southwest had what was believed to be an ample supply of refrigerator cars to move the crop, but the tonnage offered has exceeded all estimates, and the volume of grape freight now moving eastward is the heaviest in all history. Ordinarily 1800 cars daily are sufficient for the freighting of the grape crop at this season, but of late the growers have been demanding nearly twice that number.

In preprohibition times there was many a year when our grape growers would have been glad to get $20 a ton for the best varieties of grapes. This year they have been selling at $75 to $125 a ton, and there would seem to be no limit to the grape-consuming capacity of the country. Most of the large orders come from New York, Philadelphia, Chicago and St. Louis, but there is a growing demand from the smaller cities and towns throughout the Middle West. Grapes are grown there, but they are not such grapes as the consumers receive from California.

The total value of all California grapes this year is narrowly estimated at $65,000,000, as compared with $54,690,000, the actual value of last year's crop. This includes raisins, the value of which this year is about $15,000,000.

In a total California fruit and nut area of a little less than 2,000,000 acres we now have over 700,000 acres of vineyard, a very large part of which is in the sunny Southland, which now has the most expansive and productive vineyards in the world. As hundreds of thousands of acres of growing vines have been added to our vineyard area since 1919, it would seem that the grape growers have not had much fear of the destruction of their vineyards of late years and that they have great faith in the future of the viticultural industry. What would they have thought six years ago if they had been told that today their elation over the tremendous demand and high prices of their grapes would be dimmed only by the fear that there would not be cars enough to transport their product?

Those who jump at the conclusion that the bulk of these grapes will be used for making wine will fall into the ditch. The demand for the unfermented juice is twenty times what it was before the advent of prohibition. Bryan's prophecy concerning the increased use of grape juice is one of his few dreams that came true. The value of unfermented grape juice at soda fountains and in bottles is greater than was the value of wine during the anteprohibition days.

PAYING THE PRICE

Army officers, active and retired, have expressed the opinion that the civilians who have been so hasty and noisy in condemning sending the Shenandoah into territory where storms were prevalent are wholly ignorant of the necessities and exactions of the national defense.

Craft of the type of the Shenandoah were expected to take a prominent part in the defense of American territory in case of foreign attack. Only by thorough tests can the efficiency and limitations of aircraft or any other defensive weapon be determined. None could tell with a certainty whether the Shenandoah could ride a storm; only experience could determine, and the time to secure this experience was while the country was at peace, when possible failure would not imperil the national defense.

None denies that there was risk in the experiment; but civilians must recognize that the element of risk is always present for those engaged in the national defense. Every one enlisted in the Army and Navy must hold himself in readiness to risk his life if such a sacrifice is deemed necessary and unavoidable.

There are forlorn hopes in times of peace as well as in war. New mechanical inventions must be thoroughly tested; and those in charge of them must learn through experience what they will do and what they will not do. The experts were unanimous in the opinion that the Shenandoah could ride any storm likely to gather in the territory through which it was scheduled to pass. Experience proved the experts were wrong and that experience was attended by an unavoidable sacrifice of life. The men who volunteered for the risk were heroes, and their dependents should become the wards of the nation.

Such sacrifices are cruel; but war itself is the essence of cruelty. Perhaps a future generation will be able to bring about a condition of universal peace and security, a condition of world affairs that will render them unnecessary. But that time has not yet arrived; and the United States must preserve and perfect its condition of preparedness to a point where a sudden hostile attack should not find it without adequate defense. While these conditions continue to exist certainty at the risk of a score of lives in time of peace is preferable to uncertainty and the risk of 1,000,000 lives and possible loss of national sovereignty in time of war.

PRAYING FOR RAIN

The Governors of five Southern States, having requested their citizens to pray for much-needed rain and part of them having received what they asked for, a discussion has arisen in the States concerned as to the propriety of the civil officials usurping the prerogative of the ecclesiastics. The results seem to prove that praying for rain is practically on the same footing as modern rain-making theories—if the rain is in the clouds there is a chance of bringing it down! Yet perhaps it is worth trying.

Evangelist Heavner of Georgia said "God is not in the slight-of-hand business and we may not expect any magical juggling on His part with natural law."

Dr. Jones of Atlanta resented the interference of the State executive and intimated that some folks appeared to think that the name of the Governor would exert influence with the Almighty! "There is a growing tendency," he said, "among people of the Christian churches to lose faith in the clear, pure spiritual appeal, and to feel that they need the authority and influence of political power."

The result is noted that, while three of the States whose Governors issued the proclamation got the rain for which they prayed (and Georgia was one of them) two of them did not, but Tennessee, which was not in the praying combination, got as much rain as any of the other three! Dr. Jones then wanted to know if the inhabitants of the two States that remained dry were being "punished while others were rewarded!"

The Savannah News thinks the "whole business was untimely" and that "if the people have the right kind of faith, why did they not begin praying for rain six weeks ago?" The Richmond News-Leader, however, says that "cynics will say, of course, that rain would have fallen on the Atlantic seaboard last night if the Governors had called upon all the people to pray for clear skies," but that thousands will believe that the rain came in answer to prayer.

ONE CAN'T BE TOO CAREFUL

This is the time of year when young men look carefully through last year's football records before deciding which college will give them the best education.—[New York Herald-Tribune.

The "Swiss Movement" for Peace

[Protected by George Matthew Adams]

Just About It
by James J. Montague

COMPENSATION

Betty may fancy that Harold B. Wright
Is a marvellous master of diction,
Tessie may take a terrific delight
In "The Sob Story Magazine" fiction.
Mabel may have not a thought in her head
To dazzle an erudite guy with,
But though, from the neck up, all three may be dead
Their faces will serve to get by with.

Teach a girl all of the wisdom in books,
But unless she possesses a bunch of good looks
She never will cuddle in sheltering nooks
While lovers in legions come wooing.
She may have a great and Minerva-like brain,
And never say anything dull or inane,
But we know and she knows that if she is plain—
There'll never be anything doing.

A lover's illusion is never destroyed
When a maiden observes to him coyly:
"Say Cyril, I think you're a regular boid
Because you show up here so oily."
Whatever she says, while she looks in his eyes,
He thinks is delightfully witty,
He don't care a rap if his charmer is wise—
As long as he's sure she is pretty.

Wit is an accident, wisdom is rare;
But why should a girl fall a prey to despair
When a pair of bright eyes and a shock of bobbed hair
Will win her a free-spending steady?
Why should she toil at expanding her ken
Or read all the tomes that the wisacres pen
To get what she wants most of all; namely, men—
When she knows she has got them already!

(Copyright, 1925, by the Bell Syndicate, Inc.)

AUTUMN

The hills are veiled in purple haze,
November is at hand—
The wistful grace of dying days
Is over all the land.

So little while ago 'twas June,
All tender springing green,
That turned to harvest's gold full soon—
And now 'tis fall, I ween.

The stately march of time goes on,
The seasons wax and wane—
These I salute, ere they be gone—
Hail and farewell again!

MAE GUTHRIE TONGIER.

A GOOD HOME BREW

In these days of prohibition it is always nice to have a recipe on hand for making a home drink with a kick. One of our Peoria (Ill.) readers sent us a recipe for a home brew, which, although it has a strong kick, comes within the law. The recipe is as follows: Chase a frog three miles and gather up its hops, to the hops add ten gallons of tanbark, half a gallon of shellac and a large bucket of soft home-made soap. Boil this mixture forty hours, then strain through an I.W.W. proclamation to keep it working. Finally, bottle in pint bottles, and add a grasshopper to each pint to give it a kick.—[Pathfinder.

LETTERS TO The Times

Public Protection

LOS ANGELES, Oct. 18.—[To the Editor of The Times:] I desire to commend the Los Angeles Times most heartily for the stand it is taking for proper punishment of crooks and protection of the good element of the public. This attitude is evidenced by the excellent cartoons appearing in the paper, the editorial articles and the way of writing news articles regarding crime, which do not put forth a lot of sentimental gush and maudlin sentiment regarding the "poor prisoner," "cute criminal," "just a mere boy," ad infinitum, ad nauseam, as is the habit of a certain Los Angeles evening paper.

It appears that a choice must be made between the interests of the good, honest, honorable, respectable part of society and the vicious, mean, crooked, parasitic part, and it is, indeed, gratifying that The Times is on the side of the good part.

Inasmuch as any paper or person which advocates proper punishment for criminals and which is against sobsistering helps to make a policeman's life safer, I wish to thank you from a personal standpoint for your admirable attitude, as well as from one of good for the general public, for you continually show you are against lax treatment of crooks.

EUGENE L. MIDDLETON.

Laws and Popular Vote

LOS ANGELES, Oct. 16.—[To the Editor of The Times:] In The Times of October 14 Mr. F. C. Finkle attempts to discredit the prohibition law because it "was never submitted to popular vote."

How many laws can he enumerate that were passed by popular vote?

In the "good old saloon days" were the license laws passed by popular vote? Does he not know that our representatives in the Congress and State legislatures that passed and ratified the dry laws were elected by popular vote?

If a referendum were had and the dry law upheld, would the wets be any more law-abiding than at present? Have we any good reason for thinking that they would?

Did they obey the restrictive clauses in the old license statutes any better? G. E. MOREY.

Second-Hand Odors

LOS ANGELES, Oct. 13.—[To the Editor of The Times:] If those people who are agitating for the repeal of prohibition would stop a minute they would find they have something to think about. There are probably 100,000 bootleggers in the United States, if the same ratio holds good throughout the country as it does in Los Angeles. Put them out of business and what are they to do? Can they do hard work, and will they? No, no. Then they will have to resort to crime; and a great crime wave will sweep this peaceful land, which can only be met by passing some other law which, by using these ex-bootleggers, we can bust wide open. Still, if we could prohibit the eating of Spanish dinners before attending the theater it might be a welcome enactment. If you had smelled the second-hand odors of a Spanish dinner you would know what I mean. R. N. PRICE.

RUTS

BY W. L. DAVIS

"A habit becomes a rut, and the only difference between a rut and a grave is the depth," said a speaker to a certain group in the city recently.

Ruts seem peculiarly indigenous to roads and religion. And it is about as difficult to escape from them in one as in the other.

Grooves are good for trains of cars, but they are rather poor tracks for the mind. They lack elasticity and cramp and hamper free travel on trains of thought.

Ruts grow deeper with age and usually end against a tombstone. They lack piquancy, afford meager scenery and are the dire foes of the picturesque and fascinating both in language and upon journeys.

Who would go past the same old places of interest every day of life, following the trends of thinking? Naturally, vision can impart no new knowledge. He who follows exactly the ways of his forebears knows no more than they. The mind shrivels and dies. No self-respecting brain will stand it. The heart sends up no new supplies to that organ, for there are no new cells to be developed.

Failure to follow the conventions of the years yields freshness; but it also invites peril. Who strikes out in a new way for himself but receives the reward of the pioneer. Nature besets him; beasts pursue him; enemies lurk behind every corner. No pioneer ever led a quiet, retired life.

When a sanction comes down from the past and has survived because of its validity there is every reason for venerating and retaining it.

But who will not have a new accessory on his car just because his old contraption lacked it? We insist upon new models for our journeyings; then why are we so insistent upon old expressions of the truth? Does not infinitude speak through each man first hand and commit part of the eternal verities to him?

Should he be but a parrot and repeat by rote the words of his antecedents? We demand the latest designs in our clothes; then shall we visit three balls for our ideas?

We object to ancient air. We do not care for meat that crawls off the table on to the floor. We are not enamored of cheese that goes off on the hop-skip-and- jump. Then why are we obsessed by ideas that are hoary?

Fable: Once there was a fond mother who started her child in school without giving the teacher any advice.

...ttorney Hears Case of ...Kidnap Ransom

'Dope' Found on Officer Proves Borax Powder

aire, with attacking her in a San Francisco hotel after plying her with liquor. The charges were dismissed later when she failed to appear in Police Court in the Bay City.

Joe Marson, patrolman, living at 178 South Avenue 19, and B. Dean, sailor on the U.S.S. Colorado, are still being held while police and Federal agents consider the status of their case. Marson and Dean were arrested on suspicion of violating the Harrison narcotic law.

It had been asserted that $2000 worth of cocaine had been seized in a raid on a hotel at 907 East Seventh street, which resulted in the arrest of Marson and Dean, and also that they had sold cocaine to Federal operatives.

Yesterday Acting Captain Littlejohn, head of the narcotic squad, announced that the supposed cocaine is borax powder mixed with mentholatum.

Marson will face the police trial board this morning. Dean, it is expected, will be released.

SURETY BOND GIVEN IN STREET WIDENING

The Greater Pico-street Association has deposited a surety bond with the City Council to indemnify the city for starting proceedings for the widening of Pico street from Santa Fe avenue to Alvarado street, in case, later, the improvement is protested-out by property owners.

PART TRUTH NOT ENOUGH FOR DIVORCE

Judge Refuses Decree to Husband When Wife Makes Impromptu Defense

Part of the truth is not enough to justify a divorce, Judge Summerfield ruled yesterday, even though it is true as far as it goes. So he refused a divorce to Clayton Bruce Smith from Margaret Smith. Smith said his wife stayed out late nights and called him vile names.

"Where is your wife?" queried the court, noting that the case was not defended.

"She's here in the courtroom," said Smith, pointing her out. She was called to the stand and asked if she had stayed out late nights and sworn at her husband.

"Yes, I did, but there was plenty of reason for it," she answered. "He told me he didn't love me, called me names, and said I could go out and stay as late as I wanted—he didn't care."

"Would you go back to him?"

"Yes, I would. I asked him last night to take me back, but all he'd talk about was what he was going to do when he got his divorce."

"He won't get it," said Judge Summerfield.

ARRANGE STREET PAYMENT

The widening of Western avenue from Pico street to Washington Boulevard is to be paid for by district improvement bonds, under action taken by the City Council yesterday.

COUNTY TRADES LAND WITH CITY

Deal Part of Plans for New Civic Center

Land Involved Situated in Spring Street

Future Meeting Called to Conclude Business

A real estate transaction of public importance took place yesterday morning in an executive conference between city and county officials concerning the straightening of Spring street, which must give way for the new City Hall.

Those in attendance at the meeting, which was conducted behind the closed door of the County Supervisors' conference chamber, were Mayor Cryer, Councilman Hall, Commissioner of Public Works Eldridge and General Manager Whitnall of the City Planning Commission, representing the city, and Supervisors Bean, Woodley, Cogswell and Wright. Representatives of the City Attorney's office and the County Counsel's office were in attendance.

Supervisor Bean afterward stated that the conference had gone off harmoniously.

"There were no differences between the board and the city officials," he said. "It was simply a matter of getting together with proper authority."

According to Mr. Bean it was decided to swap two small plots of ground, which will square up the city and county holdings in the region east of the Hall of Records. The county will dedicate to the city the northeast corner of the Courthouse grounds for the new Spring street, while the city will abandon New High street, between Temple street and Court street, and present to the county that portion not needed for new Spring street and the City Hall site, Mr. Bean said. He also stated that the county will purchase from the city a small lot fronting on New High street.

The matter of extending Spring street through what is now a corner of the County Jail, and lowering the grade of North Broadway will be discussed at a future meeting, Mr. Bean said.

RENTAL MONEY WILL DEFRAY SOME COSTS

As the city is now receiving $15,000 a month rental from buildings and offices in structures located on the site of the new City Hall and in the new Spring street, the City Council yesterday created a special City Hall fund, in which this income is to be deposited by the Board of Public Works. The money in the fund will be spent for razing buildings, which must be removed to make way for the new City Hall and the new Spring street, for landscaping the grounds surrounding the new City Hall and other expenses resulting from the development of this section of the Civic Center by the city.

BUCKETSHOP TRAIL LEADS TO BAY CITY

Deputy Will Return Today on Completing Inquiry Into Operations

Asserted bucketshop operations which, it is charged, resulted in tremendous losses to local investors, have extended to northern parts of the State, it was learned yesterday when the State Corporation Department announced that Deputy Commissioner Praul will return this morning from San Francisco, where he has been conducting an investigation for several days.

Deputy Praul was sent north when information was received from reliable sources that the asserted stock manipulations here had been extended to the Bay City.

Dist.-Atty. Keyes conferred with State Corporation Commissioner Daugherty yesterday relative to plans of the two officials to delve thoroughly into the asserted bucketshop operations of various local brokers, particularly in Julian Petroleum stock, it was learned last night.

Auditors under Daugherty have been going over the books of certain brokers and, if reports justify, the books will be placed before the county grand jury, Mr. Keyes said.

It is improbable, however, Mr. Keyes stated, that the matter will reach the grand jury this week.

The investigation was started at the request of S. C. Lewis, president of the Julian Petroleum Corporation, who charged between $1,000,000 and $2,000,000 was lost by speculators in the stock owing to bucketing of the transactions.

URGES CHANGE IN NAME

City Engineer Shaw has recommended that the City Council change the name of Laguna avenue to Porman avenue, beginning at Third street.

SISTERS TO FACE TRIAL FOR THEFTS

Court Holds Pair After Articles Found in Room Identified as Stolen

Two young women, described by police as "thief queens," yesterday were held by Justice Marchetti to answer charges of grand larceny and receiving stolen property after two persons had testified asserted stolen merchandise found in their room. They were Florence McMillan and Nellie McMillan, sisters, arrested last week at 231 East Fifty-fifth street.

Officers Seager and Lansing had an exciting time, they testified, taking the girls into custody. An energetic police dog was the first hindrance. After he had been disposed of, the officers sat down to wait for two men they expected to come to the house. When the first one appeared one of the girls broke away and ran out to warn him. As he fled she got in front of the officer and prevented him from shooting.

Other witnesses were Fred Dunn, who identified radio parts said to have been found in the house, and Mrs. Thomas Rich, who identified automobile tires. Two valuable Chinese rugs also were discovered, the officers said. Bail for the sisters was fixed at $5000 each.

EXPRESS TO GET VALLEY FOOD URGED

Jacobson Starts Move in Council for Obtaining Imperial Produce Here

To open up the Los Angeles market for Imperial Valley milk, cream, butter, eggs, vegetables and other food products, Councilman Jacobson yesterday introduced a resolution in the City Council starting a movement to establish railroad express service for food products between this city and the Imperial Valley. Councilman Jacobson's resolution follows:

"Whereas, the people of Los Angeles are required to pay large prices for milk, cream, butter, vegetables and other commodities, and,

"Whereas, Imperial Valley being the nearest point from which these commodities may be obtained; and,

"Whereas, the city of Los Angeles should co-operate with the Imperial Valley in creating a market for these commonditiies as mentioned herein; and,

"Whereas, former investigation of the dairy situation has proven that the people of the valley are ready to bring their milk up to a standard that will allow them to market their product in the city of Los Angeles, now, therefore, be it

"Resolved, that the City Council do hereby appoint a committee to take up with the Chamber of Commerce of the city of Los Angeles and the different chambers of Commerce or like organizations of Imperial Valley a demand that the Southern Pacific Railway Company establish express service from the Imperial Valley for the purpose of handling such commodities."

The resolution was referred to the City Council's Health and Sanitation Committee.

SHOW WILL BE RATTLING FINE PARADE

Al Malaikah Shriners to Stage Old Car Exhibition at Orange County Park

A "flivver parade" will be a prologue to the first fall ceremonial session of Al Malaikah Temple, Mystic Shrine, which will be conducted Saturday at Orange County Park. Superannuated, antiquated automobiles of all makes are eligible for entry, and prizes are offered.

For the most ludicrous, mirth-provoking entry, a life membership in Al Malaikah Temple is the prize, value $150; for the machine of most ancient vintage, a diamond Shrine pin, and for the most humorous rear-end sign a diamond Shrine pin is offered also. The parade will be followed by a barbecue.

The flivver parade will form at Birch Park, near Santa Ana, at 10:30 a.m., and will proceed through the business section of Santa Ana, then through Orange and El Modeno to Orange County Park. There will be a business session at 1:45 p.m. and the ceremonial at 2 p.m.

BANKRUPTCY ADMITTED BY SCHULBERG

Motion-Picture Producer Declares Difficulties Due to Bad Management

Benjamin P. Schulberg, independent motion-picture producer, yesterday in New York, filed a voluntary petition in bankruptcy in the Federal Court there, according to dispatches from the East last night.

The motion-picture producer, listed his liabilities as $820,774 and his assets at $1420, it was stated. Schulberg is said to have stated in his petition that his failure was due to the difficulties and bad management of an unnamed producing concession in which he recently was interested.

Among the principal creditors listed was Katherine MacDonald, screen star, who has a claim for $60,000 in salary, declared to have been owed to her by the Ambassador Pictures Corporation and for which Schulberg assumed responsibility.

Other creditors listed in the petition, according to the dispatches, were the Standard Finance Corporation of Los Angeles, $300,000; Standard Film Laboratories, Los Angeles, $90,000; Bernard F. Finagan, Los Angeles, $48,500; Sol Fillin, 1123 Broadway, New York, $110,000, and David Jaffe, 106 West Fifty-third street, New York, $30,000.

The producer some years ago was an official of the old Mayer-Schulberg studios on Mission Road, and since then has been regarded as one of the largest independent producers. More recently he produced his pictures at the F.B.O. studios in Hollywood, completing the last one about a month ago. He had several film celebrities under contract, it is said, among them Clara Bow and Alice Mills.

Find Missing Cartridges in Mystery Death

The missing cartridges in the death of James J. Hogan, 23 years of age, whose body was found Sunday in the Los Angeles River bed, were picked up yesterday by Deputy Sheriffs Stensland, Blasdell, Hunter and Hanby, some distance from where the body was discovered. Forty-eight cartridges were found, and with the two that remained in the automatic pistol found by the body, account for the box Hogan bought at the same time he purchased the pistol.

Although the Coroner's jury returned an open verdict in the death, the report of the deputies will be that the victim committed suicide. No motive has been found, however, to wholly remove the mystery from the death. The boy lived with his mother at 211 East Fifty-seventh street, Maywood.

INDIVIDUAL HOMES FOR CRITICAL BUYERS

STYLE 734
A new design. Cost of ready-cut materials, only $1010. Ask for our charge for construction, plumbing, etc.

25,500 Homebuilders Were Convinced

More than $30,000,000 now invested in completed Pacific Ready-Cut Homes—that's indisputable evidence that we are giving more value, more real dyed-in-the-wool service than is available elsewhere.

Five Pertinent Facts You Should Know

STOVE SPECIALISTS

VERY SPECIAL Today $34.00

Just to Start The Town Talking

Just to start the town talking about the SUNSET STOVE STORES, we have slashed the price on this modern, guarahteed SUNSET special to a point where you can't afford not to buy.

Similar stoves regularly sell for about $46.00 elsewhere. Today's price of $34.00 should certainly advertise this store more than all the calendars or yardsticks we could hand out in a month. Your old stove taken in trade.

Value $46.00

This SUNSET SPECIAL

Is made to our own specifications, right here in Southern California. (Which partly accounts for the low price we are able to offer.)

This store is based on our many years' experience with stoves, and our intensive study of the WORN PARTS of thousands of old stoves. Vulnerable parts are 10 times heavier than on ordinary stoves. This stove has Colonial grates, heavy burners and gas cocks, dazzling white splashers, cast iron and steel door frame and many other special features.

Try the Famous UNIVERSAL 30 DAYS FREE

The UNIVERSAL has RANGE is of course our "pride and joy." This great stove takes the cake, and bakes better than any cooking device you ever saw. To prove it our 30-DAY FREE TRIAL OFFER, at no cost to you, positively challenges your buying ability. And then—

A Year to Pay

SOCIETY

BY JUANA NEAL LEVY

Possibly one of the most enjoyable of the season's holidays is Halloween when from far and near society gathers for fun and frolic, whether at home or at country Clubs, downtown cafes or clubs, dancing and the many other forms of amusement hold sway.

The opening of the winter season at Midwick Country Club has been scheduled for All Halloween night, the 31st inst., and already numerous dinner parties are being arranged, the affair being in the nature of a dinner dance.

Among those who are planning to entertain are Mr. and Mrs. Stephens Kerckhoff, who will have fifty guests, Mr. and Mrs. William B. Joyce, Jr., who will entertain fifteen at their table. Mr. and Mrs. Edwin Meserve have bidden twenty-five, Mr. and Mrs. Richard Lacy are planning a dinner for twelve, Mr. and Mrs. Howard Schoder will have eighteen and Miss Jean Dulin thirty guests, while Dr. and Mrs. Dudley Fulton have bidden ten, J. F. Rhodes the same number, Mrs. Walter Marshall a dozen, Maj. J. E. Boswell thirty, Nelson A. Howard six, Don H. McKee eight, Mr. and Mrs. Jarvin Van Buren twenty, Mr. and Mrs. E. Avery McCarthy six, N. M. Harrison fifteen, Mr. and Mrs. William G. Jefferson five, W. A. Luce eight, Mrs. E. E. Wilhelm ten, Maj. L. C. Van Beven fourteen, Edgar Tower six and Mr. and Mrs. John Leggat eight.

The clubhouse will be elaborately decorated with all the fanciful modes and contraptions of the witches' night motif, and the affair promises to be a gala night.

Luncheon and Concert

Honoring Mrs. Thomas Kelso of Hollywood, who just returned from a summer abroad, Mrs. Arthur S. Parks of Dindsor Square is entertaining tomorrow afternoon with a luncheon at her home, taking her guests afterward to the Symphony concert at Philharmonic Auditorium. The decorations will follow out the autumn tones and those included are Mrs. Kelso, Mrs. Ralph Mallet Burdick, Mrs. Alexander Buchanan Barret, Mme. Enrico Piana, Mrs. Charles Warner of Pasadena, Mrs. Chester Wallace Brown, Mrs. Ralph Rounds and the hostess.

Hawaiian Luncheon

Mrs. Edward Hewitt Garrett of 523 South Rampart avenue entertained recently with a Hawaiian luncheon party, the favors all having been brought from Honolulu, and gay-colored leis marked the covers for Mrs. Max Roth, Mrs. Gustav Pockels, Mrs. Banning Garrett, Mrs. Isadore Roth, Mrs. Victor Benjamin, Mrs. Joseph Goldstein, Mrs. Elmer Misener, Mrs. Curtis Colyear, Mrs. Rafe Chaffin, Mrs. Leland Servis and the hostess. After luncheon bridge was the feature of the afternoon's entertainment.

Dinner Party

One of the interesting events of the week was the dinner party with which Rev. and Mrs. Elmer Ellsworth Helms entertained at the Elite Monday evening, honoring the officials of the First Methodist Church and their wives. Covers were arranged for seventy-four, the decorations being artistically carried out with pink carnations and ferns, the tables being lighted by pink candles in tall candelabra.

In College Circles

Sophomores at the University of Southern California have chosen Saturday, the 24th inst., as the date for their first dance, which will be held in the basketball pavilion of the university. This affair will be the third social event of the university year. Harry Rohr, president of the class, has appointed Miss Elizabeth Von KleinSmid to take charge of the dance. The pavilion is to be elaborately decorated in keeping with the Hallowe'en motif, and Kay Hatfield's orchestra will furnish the music for dancing.

Informal Affair

One of the prettily arranged affairs of the week was the informal senior tea with which Westlake School for Girls entertained yesterday afternoon, when Miss Elsie Kelly, attractive daughter of Mr. and Mrs. J. W. Kelly, president of the class, received the guests, assisted by members of the senior class, including Miss Lenora Payne, Miss Dorothy Day, Miss Waiva Alton, Miss Mildred Brown, Miss Alden Garman, Miss Embersine McMillan, Miss Mary Fleury and Miss Inez Moore.

A delightful musical program was given throughout the afternoon and among the guests were Miss Catherine Virginia Ault, Miss Mary Belle Claggett, Miss Margaret Colyear, Miss Gwendolyn Cowan, Miss Virginia Casad, Miss Katherine Donaldson, Miss Dorothy Farlow, Miss Coare Frye, Miss Mary Carolyn Kettle, Miss Eleanor Edwards Kettle, Miss Mary Frances Little, Miss Virginia McKenzie, Miss Margaret Lederer, Miss Eloise Mullane, Miss Patsy Palmer, Miss Marion Scofidlem, Miss Frances Stevens, Miss Helen B. Sumption, Miss Harriet Sandusky, Miss Ruth Scotten, Miss Bertha Winstel and Miss Helen Frances Funk.

In the North

Among the Angelenos who are enjoying a sojourn at the Cliff House in San Francisco are Mr. and Mrs. James G. Scarborough, Mr. and Mrs. Thomas P. Nicholson, Mr. and Mrs. George A. Tillon, Mr. and Mrs. F. S. Newman, Mr. and Mrs. Ira L. Bryner, Mrs. William Stanton, Mrs. R. J. Groves, Mrs. D. J. Brownstein, Miss Katherine Purcell, Mr. and Mrs. Raymond W. Phelps, Mr. and Mrs. Glenn Everett, Mr. and Mrs. Henry Levinson, Mr. and Mrs. J. M. Webster, Mr. and Mrs. B. W. Paul, Mr. and Mrs. Horace Dinbar, Mr. and Mrs. F. E. Lewis, Mrs. E. B. Robinson, Mr. and Mrs. J. W. Young, Mr. and Mrs. W. R. Dickinson and Mrs. Bessie F. Winner.

From Abroad

From across the water comes the word that Mr. and Mrs. Adolphe Fleischman of Los Angeles, after a tour of Switzerland, have gone to Biarritz, where they are stopping at the Hotel du Palais, while Mr. and Mrs. Robert E. Craig have arrived in Paris during a visit to the continent, and are at the Hotel Edouard VII, while Mr. and Mrs. Walter B. Cline are at the Continental and Mr. and Mrs. Charles A. Parmalee, who have been touring through France, are at Rheims recently, stopping at the Hotel de Lion D'Or. Mr. and Mrs. P. I. Watson, Miss Marr, Miss Natalie Marr and Miss Annie Marr are at Lugano, Switzerland, domiciled at the Splendide Hotel.

Afternoon Affair

Invitations are being issued by Mrs. Norman Sedgwick Sterry and Mrs. Earl Velorus Lewis for an afternoon tea at the home of the former, 134 South Rossmore avenue, Thursday the 29th inst., from 4 to 6 p.m.

TWINS MAKE FIRST PUBLIC BOW

[Wilbert Platt Photo]

Here Are the Baldwin Babies

SOCIAL princesses of days to come are these tiny babies, the Baldwin twins. Their mother is Mrs. Baldwin M. Baldwin of the younger set. She was Miss Nell Maxine Wilson, daughter of Mrs. Frank D. Barnhill, before her elopement and marriage as the result of a University of California romance. Mr. Baldwin is a son of Anita Baldwin.

The babes were born last July. On the right is Ann, who weighed three pounds and ten ounces when born, and on the left is Daxtra, who weighed five pounds and seven ounces.

POLICE SECRETARY PLACED ON PAY ROLL

George T. Jeffers, who recently was appointed secretary of the Board of Police Commissioners, is now expected to assume his duties, as the City Council yesterday adopted the ordinance necessary to place Secretary Jeffers's name on the city pay roll at $250 a month. Although Jeffers was appointed by the police board several weeks ago, Miss Mabel Olin has continued to do the work as temporary secretary until Jeffers's name was placed on the city pay roll.

London is in the path of a glacier, which may cover the city many years hence, says Prof. C. Spearman of England.

Woman Struck by Falling Tip of Flagstaff

The tip of a flagpole on a building at Sixth and Broadway broke off and fell yesterday while painters were at work on the pole. Mrs. Cora Thompson, 50 years of age, who was walking on the sidewalk was struck a glancing blow on the head by the fragment.

She was taken to the Receiving Hospital and treated for a lacerated forehead. Mrs. Thompson, whose home is in Lincoln, Neb., is visiting friends at 2737 Francis avenue.

"I'm Too Fat to be popular"—a pity

Excess fat has no excuse today. Millions of people have learned how to correct it. Look about you and you will see that slender figures are becoming almost universal. All ideas of style and beauty now demand them.

There is an easy, scientific way to fat reduction. It is Marmola Prescription Tablets. No abnormal exercise or diet is required. Just take four tablets daily and watch the delightful results.

Marmola has been used for 18 years. Countless users have told others about it, and the fame has spread. Now people are taking 100,000 boxes monthly. You can see the results everywhere.

Our book states every ingredient. It explains how and why Marmola acts. Your own druggist signs our guarantee. The reduction is gradual—rarely more than one pound daily. So the body adjusts itself to the new condition. Wrinkles don't develop.

Beauty, health and fitness demand normal weight. Excess fat is a blight to anyone. Today it has no excuse. In fairness to yourself. Learn how easy it is to combat it.

Marmola Prescription Tablets are sold by all druggists at $1 per box. Send this coupon for our latest book, a 25-ct. sample free, and our guarantee. Clip it now.

The Woman & Her Job

BY VALERIE WATROUS

(Questions concerning the problems of women will be answered if addressed to Mrs. Watrous at The Times.)

THE UNSKILLED WOMAN

Just now an employment-manager friend has been telling me of her troubles. And she has a-plenty, too, but her chief complaint is the woman who does not try to fit herself to meet the conditions in her life.

We had been discussing a woman whom we both had tried to help. She surely needed our best efforts, with a frail mother and a small child to support. And she was capable of earning only minimum wages. Three dollars a day isn't much with which to pay rent, buy food and clothe three people, and pay street-car fare.

My employment manager had done her best, but nearly four years of college and twelve years of music overlaid with ten years of mental inertia and no piano on which to practice, was all the foundation on which she had to build. She had been lucky enough to get $25 a week for a year, but it wasn't a position that could be duplicated, and she had not spent a single evening on self improvement.

"I tried to get her to study typing or book-keeping," my friend told me, "but I couldn't get her to realize the scarcity of such positions as she was holding. Since she lost it, there has been nothing but minimum wage jobs . . . she isn't worth more.

"She didn't know anything . . . you can't expect a man to pay more than laborer's wages to the unskilled.

"I have another woman with a 2-year-old child . . . she's too proud to take a minimum wage job, yet she has nothing. For more than a year she has known that they were growing poorer, yet she's never done a single thing to fit herself to earn a living. Now her husband has disappeared, and she has to work at anything she can get in order to live.

"Our biggest problem is the unskilled woman. She leaves me aghast. No city in the world offers the educational opportunities to be found in Los Angeles. Our trade schools are open for thirteen hours a day, and nearly every high school has evening classes teaching commercial subjects. Yet we interview thousands of women who want work and have nothing to offer except a high-school education."

ANSWERS TO QUESTIONS

Dear L. B. G. You tell me you are anxiously awaiting a reply by mail, yet you inclose a stamped envelope. Perhaps you inclosed it, but it was overlooked. Perhaps you inclosed a stamped envelope but it was overlooked. Perhaps you inclosed a stamped envelope but it was overlooked. Perhaps you inclosed a stamped envelope

Bacon Omelet
Toast Marmalade

Luncheon
Baked Beef Hash
Tomato and Lettuce Salad
Brick Ice Cream Small Cakes

Dinner
Venetian Soup
English Squab Pie
String Bean Salad
Baked Potatoes
Individual Orange Pies
Milk Coffee

BAKED-BEEF HASH

Mix two cupfuls of cooked beef cut in small dice with two cupfuls of cold boiled potatoes cut in small dice, one teaspoonful of salt, half a teaspoonful of fresh ground black pepper, and one-third of a teaspoonful of powdered thyme or mace. Cook two finely chopped shallots with one tablespoonful of butter until clear, add to the meat mixture and place all in a baking pan. Brush the top with melted butter and bake a nice brown in a quick oven. This is nice served with a poached egg on each portion.

VENETIAN SOUP

Beat two whole eggs with two teaspoonfuls of farina and half a cupful of milk, stir into four cupfuls of boiling consomme and cook ten minutes.

ENGLISH SQUAB PIE

Roast six squabs and cut in halves; heat four tablespoonfuls of butter in a frying pan, add six thin slices of beefsteak, three by four inches in size, and four chopped shallots; fry the steaks a nice brown and place in an earthenware or glass baking dish with the halves of squabs; add one can of button mushrooms, one tablespoonful of finely chopped parsley, and three hard-boiled eggs cut in halves. Add to the pan four tablespoonfuls of sifted flour, mix smooth, stir in two and a half cupfuls of boiling water, stir smooth and cook five minutes, season with salt and pepper and pour over the meat. Cover with pie pastry and bake in a moderate oven thirty minutes.

STRING-BEAN SALAD

Mix in a bowl rubbed with a clove of garlic two cupfuls of cooked string beans cut in even dice, one tablespoonful of capers, one cupful of chopped, peeled celery, three tablespoonfuls of chopped green peppers, three tablespoonfuls of chopped pimientos, a seasoning of salt and parika and four tablespoonfuls of French dressing; mix well, mound on lettuce-covered plates place a tablespoonful of mayonnaise dressing on each portion and garnish with ripe olives.

INDIVIDUAL ORANGE PIE

Sift two cupfuls of sifted flour with four level teaspoonfuls of baking powder, half a teaspoonful of salt, and one level teaspoonful of sugar. Add gradually to the flour one and a quarter cupfuls of milk and the well-beaten yolks of two eggs and beat smooth; add one tablespoonful of melted butter and the stiffly beaten whites of two eggs. Butter four shirred egg dishes and pour over the bottom of each dish a half-inch layer of the batter, cover the batter with peeled sections of sweet oranges that have been dipped in sugar; cover the orange sections with enough batter to fill the dishes and bake in a moderate oven. Remove from the oven and spread the top of each pie with a tablespoonful of hard sauce and serve with orange sauce.

HARD SAUCE

Beat to a cream half a cupful of butter and beat into it one and a quarter cupfuls of sifted powdered sugar and beat until smooth; add two tablespoonfuls of orange extract and beat again. Set in the ice box to harden.

HOUSEHOLD SUGGESTIONS

Hand Lotion for the Winter

A hand lotion is an absolute necessity in winter if the housewife wants to keep her hands soft and in good condition. The following recipe will make a quart of splendid lotion and will cost about $1. One ounce of quince seed soaked in one and one-half pints of warm water for a day. Strain. Add two ounces glycerin, two ounces tincture of benzoin, three ounces alcohol and ten drops rose essence. Mix well and bottle for use.

Little Things That Count

Rub a little lard on the squeaky oven door.

A cloth dipped in hot vinegar will remove paint stains from glass.

Salt added to the water when washing handkerchiefs will make the job easier.

A little baking soda added to a flax-seed poultice will make the poultice as light as a feather.

Mark Them First

If your curtains are the same pattern all over the house, it would be wise to put a tiny cross in color in the corner of each one, using the same color for each pair. It certainly simplifies the sorting after the curtains are freshly laundered.

Systematic Cutting

One woman has the grocer cut the bread on his cutter when she is preparing a number of sandwiches for a church festival. It saves a great deal of work at home and the few cents he charges is made up by no waste by poor cutting.

Safeguard the Back

Mirrors should be washed with as little water as possible. A wrung-out chamois skin is perhaps the safest cleaner as the mirror will quickly spoil if water gets on the back of the glass.

Be Careful

Be sure to remove your horn-rimmed glasses before using a hair curler. If the hot iron should rest on the spectacle rims along with the hair they are very apt to ignite, as they are highly inflammable.

Winter Shoes

A mixture of grease and oils which is fairly soft when cold should be applied freely to the shoes that are to be water-proofed for winter use. Be generous with the application as more grease will make the leather more resistant to water.

Undressing the Duck

A woolen cloth wrung out of boiling water, wrapped around the duck and allowed to remain for five minutes will make the down and feathers easy to remove. This might come in handy when your neighbor brings his first shot of the season and you don't know just how to go about it.

A Rug Necessary

A rug should always be placed alongside of the bathtub, just for safety's sake, if not for comfort. It is dangerous to step out of the tub onto a tiled floor with wet, and perhaps soapy feet.

Appropriate Sandwiches

Cookie cutters in the shapes of diamonds, clubs, hearts and spades are particularly appropriate for sandwich cutters for the card party. The sandwiches look most attractive on their separate platters.

FILM MANAGER TO SPEAK

Norman Sproul, general manager of the Universal Pictures Corporation, is scheduled as the principal speaker at the regular weekly meeting of the local Lions' Club tomorrow noon at the Biltmore. "The Waste in Industry" will be his subject. Entertainment will be furnished by the Universal Pictures Studios.

DENY LIGHTING PROTESTS

Protests against the ornamental lighting of Pico street from Vermont avenue to Crenshaw Boulevard have been denied by the City Council.

CONSULS TO ATTEND NEAR EAST LUNCHEON

Dr. William E. Doughty of New York, recently returned from the Near East, will talk on international good will at a consular luncheon of the International Golden Rule Committee at the Chamber of Commerce at 12:30 p.m. tomorrow. It is announced all the nations having consular representation in Los Angeles will be represented officially, as guests of the Southern California Committee for Near East Relief. Mayor Cryer will preside. The luncheon is in preparation for Golden Rule Sunday, December 6, which has been dedicated to the needs of the children of the Near East.

TWO HELD AS LIQUOR DEALERS WITH CARGO

Federal prohibition agents yesterday seized two asserted bootleggers and their cars, together with a stock of champagne, Scotch, gin and moonshine, according to their report. Bert Solomon of 1616½ North Normandie avenue, the agents say, was found with sixty quarts of Mumm's, twenty-two pints of Scotch and twelve quarts of gin in a brand new coupe. Harry G. Swettingham, at Broadway and Avenue 18, was found with a gallon of moonshine in his car, according to the agents. Both were arraigned before United States Commissioner Turney and held in $2000 bail.

You can now take Motion Pictures of
YOUR CHILDREN
as economically as taking snapshots

Now you can enjoy life's most precious moments over and over again. Baby's first attempt to crawl, to walk—her cunning little smiles and mannerisms. Her gradual growth into a bright-eyed, sturdy youngster romping and playing. These dear to heart scenes can now be forever preserved in motion pictures with FILMO and shown at home in the years to come.

WHAT FILMO IS

A perfected, compact motion picture camera that takes pictures of the same quality seen in the better theaters—just as easily as taking snapshots!

Telephone today for a demonstration in your home, or come into our studio and see a "movie" on the screen. No obligation whatever. An interesting booklet will be mailed FREE upon request.

Open Evenings Until 9 p.m.

You can rent motion pictures of your favorite stars, just as you do books from the Library.

Easy as Sighting a Spy Glass Weighs only 4½ lbs.

BREAK LONG STANDING TIE

Pasadena Directors Select New Board Member

Deadlock Held Solid for Two Months

New Official is Former Naval Commander

By a "Times" Staff Correspondent

PASADENA, Oct. 21.—The two-months' deadlock of Pasadena's Board of City Directors was broken this afternoon when the Board met and unanimously elected Frederick J. Loomis, retired United States naval commander, as the seventh member of the city's ruling body, succeeding John H. Simpson, resigned.

Today's special meeting, which resulted in Mr. Loomis's immediate election, was called after Chairman Franklin B. Cole had recommended that a recall of all six Directors be held, and an entire new Board be elected, as the only apparent means of breaking the long-standing deadlock.

Chairman Cole also declared that in the secret meeting held yesterday afternoon, Director William Easterbrook had offered to agree to the election of Mr. Loomis if Cole would resign as chairman of the Board. This Chairman Cole emphatically refused to do, styling the offer "insulting."

This afternoon all Directors were unanimous in expressing pleasure at the election of the new member. "There are no strings attached to Mr. Loomis's election," said Director Easterbrook. "Anything which may have been said or done in the past should be forgotten. We are taking a new stand and I hope everything will be harmonious from now on."

In addition to his distinguished naval record, Commander Loomis has been active in engineering and business enterprises, mostly in Connecticut, whence he came to Pasadena thirteen years ago. He resides at 550 La Mesa Place, and is president of the Twilight Club of Pasadena as well as former president of the University Club.

He was graduated from the United States Naval Academy in 1884, and resigned from the Navy in 1890. In New London, Conn., he was president of the Standard Brass and Copper Tube Company, and four years was commissioner of education in Waterbury.

It is expected that Mr. Loomis will have charge of the department of public works in Pasadena, the department supervised by Director Simpson before his resignation.

"I am delighted with the honor," Mr. Loomis stated today, "and I shall endeavor to give Pasadena the best kind of service I can give. It is a city of which we are all proud, and my aim will be to co-operate for its welfare and progress."

Baptists Hold Annual Meeting in Inglewood

[LOCAL CORRESPONDENCE]

INGLEWOOD, Oct. 21.—Baptists from all parts of the metropolitan district flocked here today for the opening sessions of the fifty-seventh annual conference of the Los Angeles Baptist Association. It is anticipated by Dr. A. P. Rossier, pastor of the First Baptist Church of Inglewood, where the conference began at 9:30 a.m., that more than 1000 delegates and their friends will attend the sessions which close tomorrow evening with an address by Dr. J. Whitcomb Brougher, prominent Los Angeles divine of this denomination, whose theme will be "Play Ball."

Mrs. O. T. Ellis presided as moderator, O. T. Palmer is vice-moderator, J. F. Elwell, secretary, and George A. Morrell, treasurer of the conference. The delegates were welcomed by Dr. Rossier, following the formal opening of the gathering by the moderator. The delegates are the pastor and two members from each church in the conference, with an additional delegate for every forty members. "Evangelism must begin in the home" was the message in the outstanding address by Rev. Gordon Palmer.

TO ADOPT NEW LAW TO GOVERN BOXING

[LOCAL CORRESPONDENCE]

INGLEWOOD, Oct. 21.—City Attorney Clyde Woodworth has been instructed to frame an ordinance regulating boxing here. It was intimated that the proposed ordinance will require that all public bout promoters must charge admission, thus automatically bringing the bouts under the supervision of the State Boxing Commission. Under the commission regulations a medical examination is required of all boxers at least two hours before they fight, and that a doctor be at the ringside throughout the program.

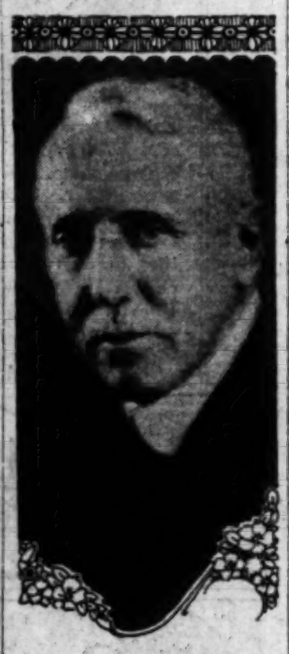
"We have nothing against boxing," was the declaration of City Trustee Earl T. Stoops at today's Council meeting when the matter was brought up, "but we would like to see the proper supervision. This knock-down-anddrag-out stuff has got to stop."

WHITTIER MAN IS ACCIDENT VICTIM

[EXCLUSIVE DISPATCH]

BAKERSFIELD, Oct. 21.—When his car crashed into an embankment at the side of the highway near Sandberg this morning about 7 o'clock William Plotts of Whittier was injured. Mr. Plotts was driving the car and lost consciousness, causing the machine to swerve into the bank and overturn. His son, Thomas Plotts, who was also riding in the car, escaped injury.

NEW OFFICIAL FOR PASADENA



Frederick J. Loomis

Chosen City Director at meeting of official board yesterday, ending deadlock existing since the resignation of John H. Simpson two months ago.

Santa Barbara to Start Work on New Harbor

[EXCLUSIVE DISPATCH]

SANTA BARBARA, Oct. 21.—Maj. Max C. Fleischmann, who gave $200,000 to start work on a breakwater before the earthquake, today renewed his offer and authorized the city to draw funds for starting the final surveys.

The city plans to raise sufficient funds in addition to Maj. Fleischmann's gift to complete the first unit of the work without a bond issue, leaving the completion of the project for bonds to be voted next year.

The first arm of the harbor will protect approximately thirty acres, while the construction of a combined two-deck pleasure and commercial wharf at the foot of Santa Barbara street, of reinforced concrete, will completely inclose the day, leaving the eastern portion below the proposed $2,500,000 Biltmore Hotel, for yachts, and the other section, near the industrial zone for commercial purposes.

WORK TO IMPROVE ROAD TO OCEAN

[LOCAL CORRESPONDENCE]

HANFORD, Oct. 21. — A most important road meeting will be held at Chandon, on the Cholame road through Cottonwood Pass, Kern county, next Friday. Among those expected to be present are State Highway Engineer Woodson of Fresno, E. E. East, State highway engineer of San Luis Obispo county, Chairman Carter of the Kings County Board of Supervisors and County Surveyor May from Hanford. The meeting has been arranged by N. V. Cooks, San Luis Obispo county representative of the Automobile Club of Southern California. The intent of the meeting is to secure additional funds from counties interested to smooth up and widen the Cholame Pass road from the San Joaquin Valley to the coast.

SERIOUS TROUBLE WITH MOTHER-IN-LAW

[LOCAL CORRESPONDENCE]

HUNTINGTON PARK, Oct. 21.—Charles Duncan has been placed under a bond of $1500 on a charge of assaulting his mother-in-law, Mrs. Minnie Murberg. Duncan resides on Chadwick Drive, in San Antonio Township, and it is stated that he visited the home of his mother-in-law where his wife was at the time, and that when he started away from the house, Mrs. Murberg jumped on the running board of the machine which he was driving and it is said he pushed her off.

She was badly bruised about the body and arms, and soon afterward called at the office of Judge Edward Miller, where she filed the affidavit. The case is set for hearing on the 28th inst.

DEATH ENDS SEARCH

Body of Missing Contractor Found in House He Had Recently Completed

[LOCAL CORRESPONDENCE]

ALHAMBRA, Oct. 21.—A search for Arthur N. Wheeler, 45 years old, former real estate man and building contractor, who disappeared from his home at 1721 South Primrose avenue Tuesday afternoon, was ended today when his lifeless body was found in a house at 196 West Newark avenue, Monterey Park, a residence that he had recently completed. Wheeler had ended his life by inhaling gas, according to police reports. The Coroner ordered the body removed to the mortuary of F. A. Utter & Son.

The discovery of the body was made by a resident of the neighborhood, who detected the odor of escaping gas. Police Chief Foster of Monterey Park was at once notified. Investigation showed that, as there was no gas jet in the room, Wheeler had turned on the gas from the outside meter, placed a box over the end of the pipe, thrust his head inside and then pulled a small rug over the box, causing his asphyxiation. A note, the contents of which were not made public, was left by Wheeler and turned over to the Coroner's office.

Wheeler had been a resident of this section for several years. He was active in the real estate business in Ramona Park and prominent in a business men's association of that section of Alhambra. Later he went into the building business, erecting several homes in Monterey Park, which he placed on the market. More recently he had been representing a loan company.

Members of the family are reported to have said today that they believed he was suffering from a blod clot on the brain and was probably irrational at the time of his act. The theory of financial difficulties was scouted by his friends. When Wheeler left his home at 2 o'clock, Tuesday afternoon, he had invited his wife to take a ride with him in their car. He apparently was in good spirits. On the 12th inst. he was honored at a birthday party at his home.

Besides his widow, Mrs. Emily D. Wheeler, he is survived by four children, a sister residing in South Pasadena and his parents who live in Chicago.

THEFT OF CRUDE OIL IS CLAIM

Landowners Sue Company for Royalties Said to be Due Them

[EXCLUSIVE DISPATCH]

SANTA ANA, Oct. 21.—Use of secret valves and pipelines for carrying away oil without knowledge of the land-owner ni order to evade payment of royalties was charged today in an injunction and damage suit filed by Mr. and Mrs. Sam Clapp and Mr. and Mrs. Fred C. Edwards of Huntington Beach, against the Julian Oil Well Pump Company, the Gypsy Oil Company and William Meredith. The plaintiffs, who claim ownership to five lots leased to the defendants, demand an accounting of royalties and $10,000 damages for asserted secret diversion of oil.

They also seek an injunction against the oil company, to prevent them from removing drilling equipment now on the ground. A decree quieting title against the oil lease is likewise sought. Proceedings were instituted in Superior Court through Attorney A. J. Thedieck of Huntington Beach.

The owners leased the lots in March, 1921, to Meredith, who subsequently assigned the lease to the Gypsy Oil Company, according to the complaint. Later the Julian Oil Well Pump Company took charge of the lease and operated a well that was brought in there. The well is said to have been producing for more than two years. About two months ago, the land-owners declare, they discovered the use of secret valves and pipelines at their well.

MURDER TRIAL ON IN BAKERSFIELD

[EXCLUSIVE DISPATCH]

BAKERSFIELD, Oct. 21.—Lyman Osborn and C. W. Shry appeared for trial today before Judge J. W. Mahon on a charge of attempting to murder Ed Chalfant, employee at the Cowboy mine in Caliente Canyon. Attorneys for the prosecution and defense spent most of the day in the selection of jurors to hear the testimony. The specific charge is assault with intent to commit murder.

According to the District Attorney's office it is alleged that Osborn and Shry, who had been discharged at the mine, held Chalfant responsible for their dismissal. The prosecution claims that the Sunday following their discharge, Osborn and Shry, armed with a six shooter, repaired to Chalfant's cabin, called him out and then shot him. They carried the wounded man into the town of Caliente.

MUST STAY IN JAIL

Man Convicted in Kings County Refused Bail

[EXCLUSIVE DISPATCH]

HANFORD, Oct. 21.—Fred Mills, convicted with two others of the murder of the wealthy young rancher, Lee Camp, has been denied a writ of habeas corpus by the Appellate Court on his appeal from the decision of Judge Van Zante of Kings county refusing him release on bail on the grounds that he was suffering from bad health due to incarceration in the Kings County Jail, where Jennie Laura Brown and J. H. Tipton are also confined, pending the result of their appeal from conviction of murdering Camp. Jail officials presented evidence that Mills was in good health and the jail kept in a sanitary condition.

A suit brought by Mrs. Pearl Camp King, to have the appointment of Mrs. Brown as executor of her brother's estate canceled and County Public Administrator E. D. Smith appointed to administer the Camp estate, comes up in the Superior Court tomorrow and the date will then be set for the suit of Mrs. King against Mrs. Brown to obtain possession of her brother's estate.

NEW THOROUGHFARE

San Fernando Valley Offers New Automobile Route

[LOCAL CORRESPONDENCE]

BURBANK, Oct. 21.—Glendale, San Fernando and Burbank will be connected by a 100-foot boulevard to be known as Glenoaks in the near future by virtue of a resolution passed by the Burbank Trustees, which provides for that thoroughfare through this city.

It is reported that all rights of way for the boulevard have been secured through Glendale and C. H. Kline, chairman of the local Planning Commission, is authority for the statement that the city of Los Angeles has pledged support of the project through Roscoe and the city territory to San Fernando.

This will open a new through highway from San Fernando to Glendale and will constitute a beautiful pleasure-car drive, relieving the San Fernando Road of a major part of through traffic to Los Angeles.

The Pacific Electric line from Glendale to the west limits of Burbank now follows this street and it is thought that if the line is ever extended to San Fernando Glenoaks Boulevard will be the route west from the present terminal.

ARREST MEXICAN WOMEN

[EXCLUSIVE DISPATCH]

SAN DIEGO, Oct. 21.—United States border patrol officers yesterday arrested six Mexican women at Aberhill, near Elsinore, on a charge of operating a house as a public nuisance.

The women were returned to San Diego and given into the custody of immigration officers, who will determine whether or not they are aliens and subject to deportation.

ZELZAH DILL PICKLE CROP PROFITABLE

Heinz Plant Packs Seven Thousand Barrels Taken from 350 Acres

[LOCAL CORRESPONDENCE]

ZELZAH, Oct. 21.—The Zelzah pickle season has closed here, with the largest and most profitable outturn since the industry started here several years ago. According to a statement made by the H. J. Heinz branch pickle works here, more than 7000 barrels of dill pickles were put up during the present season, the product coming from 350 acres of cucumbers raised in this vicinity. It is understood that local growers realized between $100 and $250 per acre for the cucumbers, which, when made into pickles, were shipped to eastern points in carload lots.

The Heinz company's plant, which is on the main line of the Southern Pacific Railroad here, will be enlarged within the next few months to handle increasing business, it being understood that a much larger acreage of cucumbers will be planted in this district next spring.

The Heinz plant also is planning to go into the tomato-packing business. Zelzah soil raising some of the best tomatoes grown in this valley. For next season the plant will contract in advance with tomato growers in order to be assured of sufficient receipts to keep workers busy after the season once starts.

ROBBER CONFESSES TO THEFT OF SILK

[EXCLUSIVE DISPATCH]

BAKERSFIELD, Oct. 21.—Yards and yards of valuable silk found by the police wrapped around his body beneath the clothing he wore drew a confession from Elpheino Seyas that he stole the material from the shop of Kam Lee and Company Monday evening, police announced today.

The discovery of the silk was made at police headquarters at the City Hall after more than six hours of gruelling cross-examination of Seyas and three companions, two of them women, who had been arrested early in the morning by Chief Dupes and Detective John S. Lambert.

WARM WEATHER IS FINE FOR COTTON

[EXCLUSIVE DISPATCH]

BAKERSFIELD, Oct. 21.—Warm weather during the last three days has given a final impetus to the maturing of Kern county's 1925 cotton crop, stated A. H. Swain, manager of the Cotton Sales Agency today. Harvesting of the county's great crop is proceeding on a large scale at this time. The work will continue on through the months of October, November and December, according to the manager. Up to date, Mr. Swain estimates that approximately 3500 bales of cotton have been ginned in this county this season.

NEW CITY ATTORNEY

[LOCAL CORRESPONDENCE]

MAYWOOD, Oct. 21.—Gordon Gale has been selected by the city board of trustees as the new City Attorney for Maywood, Otto Gerth having recently resigned. Besides Mr. Gale, there were three other applicants — John Hiland, Louis Budway of Huntington Park and also A. A. Trippel, City Attorney of Huntington Park.

The voters of the city recently held a special election as to whether the city, which is about fifteen months old would return to county territory, or remain as a city of the sixth class and those favorable to the territory remaining as a city, won out in the contest.

HOLD SAILOR FOR ASSAULT

Woman Says Prisoner Attempted to Kill Her With Pair of Scissors

By a "Times" Staff Correspondent

LONG BEACH, Oct. 21.—Pretty 18-year-old Theresa Grimsley, victim of a vicious attack by a sailor, armed with a pair of scissors, will recover from her wounds, physicians at Seaside Hospital here said today. Mrs. Grimsley is suffering from ten deep wounds in her back, breasts and arms, the result of an attack made on her in an apartment at 25 South Magnolia avenue, at an early hour this morning by E. J. Mears, 23, a sailor on the battleship Idaho, it is alleged.

The girl, who had gone to Mears's apartment at that address to recover a diamond ring which she had previously loaned the sailor, had warned four sailor friends that she feared rough treatment at Mears's hands and asked the sailors to stand by to help her in case of need. Screams coming from the apartment shortly after Mrs. Grimsley entered caused O. L. Shurin of the U.S.S. Brant, Paul Homer of the U.S.S. Arizona, Douglas Bohn of the U.S.S. Nevada and R. L. Logan of the U.S.S. Tennessee to climb a fire escape and break into the room in time to prevent Mears from killing Mrs. Grimsley, they told police afterward. When the quartet of sailors entered the room Mears ceased his attack on the woman and, with scissors and a chair, attempted to kill Shurin.

Police responding to call brought the woman and five sailors to the police station. Mrs. Grimsley was later taken to Seaside Hospital for treatment. Mears was booked on a charge of assault with a deadly weapon.

PROSPERITY HERE

Ontario Factory Enjoys Rush of Orders

[EXCLUSIVE DISPATCH]

ONTARIO, Oct. 21.—That orders are now pouring into the Ontario Hotpoint plant of the Edison Electric Appliance Company at a greater rate than at any time since the World War and that the present demand is far in excess of the most sanguine sales estimates compiled earlier in the year was revealed today at a department dinner presided over by E. H. Richardson, works manager, at the Hotpoint Club.

It was pointed out that the order situation has become so acute that the manufacturing concern is confronted with the necessity of purchasing raw materials, such as steel, locally instead of waiting for their delivery from the eastern markets, in order to meet the demand.

Improved business conditions have resulted in steady increases to the factory force, which now numbers more than 700 employees.

MOOSE OUTING AT JEFFERIES RANCH

[LOCAL CORRESPONDENCE]

BURBANK, Oct. 21.—The Loyal Order of Moose of all Southern California will stampede the famous James J. Jeffries ranch in this city Sunday, the 25th inst., as guests of the Hollywood lodge. It is to be a real picnic with all of the sports which go with picnics and all outdoor entertainments will prevail.

The Hollywood hosts have issued a broad challenge to any Moose lodge from anywhere to oppose them in a tug-of-war and claim to have the champion team of the Southwest.

Automobiles will meet all Pacific Electric trains at the Burbank station and will carry all arrivals to the ranch.

FULLERTON DECLINES TO ACCEPT TERRITORY

[LOCAL CORRESPONDENCE]

FULLERTON, Oct. 21. — Proposed annexation of Lansdowne, a seventy-five-acre plot of land near here, was rejected by the Fullerton City Council at their regular meeting Tuesday night on grounds that such a move was poor business, and that the property would prove a liability instead of an asset.

Residents of Lansdowne recently voted by a large majority to enter the city.

Valley Rushing Tons of Nuts to Market in East

[LOCAL CORRESPONDENCE]

LANKERSHIM, Oct. 21.—According to officials of the San Fernando Valley Walnut Growers' Association the valley this season will produce about 220 tons of nuts, according to survey just made. One hundred and thirty tons already have been delivered to the plant for processing, grading and shipment. Four carloads have been sent to New York City for redistribution for the eastern Thanksgiving trade.

Growers are receiving 29 cents a pound for fancy grades and 28 cents for seconds. This year, it is stated, walnuts are of extra good quality, but are not as large as last season. About ninety tons more of the walnuts are yet to be delivered to the plant here. Growers are being urged to ship in their crops in order that the walnuts may be hurried east in time for the special holiday buying.

All transactions are done on a co-operative marketing basis, very few growers in the valley not being members of the association.

ZELZAH GRAPE FARM YIELDS FORTY TONS

[LOCAL CORRESPONDENCE]

ZELZAH, Oct. 21.—J. H. McLauren, vineyardist who resides in this vicinity, has ten acres in Alicanta Bouche grapes which this year have yielded more than four tons to the acre. The entire crop brought at the rate of $95 a ton. The grapes are of the very best variety for making grape juice and wine. McLauren has thirty more acres planted of this variety, which will produce largely within the next two or three years. This year, McLauren interplanted the thirty acres with baby lima beans, making a large crop.

RETURNS TO FIND FRIENDS ALL GONE

[LOCAL CORRESPONDENCE]

HUNTINGTON BEACH, Oct. 21. Truman H. Greene, 83 years of age, local man, might well claim the title of Rip Van Winkle. Greene didn't go to sleep, but when he returned to his home town of Bismark, Ill., he didn't know the town and found only three of his old friends alive. He had been gone from the town of his youth forty years.

Greene has just returned from a 6000-mile trip through the East. He claimed "it got too cold back East," so he left for California. He intends to return East again next summer to visit his two daughters.

ROBBERS CONTINUE TO WORK AT OXNARD

[LOCAL CORRESPONDENCE]

OXNARD, Oct. 21. — Following three burglaries here several nights ago in which three safes were broken into, thieves, believed to be members of the same gang, entered the store of Murr Brothers early this morning and robbed the place of several hundred dollars' worth of merchandise. Entrance to the department store was gained through a transom over a rear door. A high board fence by the rear alley and a small warehouse building hid the window, allowing the burglars to work at ease obscured from sight. Silk shirts, boxes of hats, overcoats and other wearing apparel was taken. The cash register was looted and more than $100 in silver taken.

OPEN COMMUNITY CENTER

Alhambra Players Present Three-Act Play Under Direction of Richard Sterling

[LOCAL CORRESPONDENCE]

ALHAMBRA, Oct. 21.—Formally opening the Community Art Center in the old theater building at Stoneman and Main, the Alhambra-San Gabriel Community Players began their second season last night with the presentation of the three-act mystery play, "The Thirteenth Chair." Many interested patrons of the little theater movement from Pasadena and Los Angeles were present in the capacity audience.

The play, under the direction of Richard Sterling, who is embarking upon his second year with the local organization, was capably given, the cast being well balanced and above the usual amateur standard. Among the guest artists taking part in the production were Virginia Lykins Brown, who has appeared frequently with the Pasadena Community Players; Robert Loofbourrow, also from the Pasadena group, and G. Allison Phelps, formerly associated with the Potboilers of Los Angeles.

Other members of the cast included Frances Russell, Harold Coops, Dorothy Jo Welch, Richard Sterling, Raymond Jarecki, Helene Willis, Estelle Shotwell, Elenore Hart, Stewart Klingelsmith, Harry Wilhelm, Evelina Medina, George Tennyson, Edgar Willard and Tom Graham.

"The Thirteenth Chair" will be repeated tonight and Thursday night. Fourteen plays are scheduled for the local season. The second attraction will be "We Girls" on November 9, 10 and 11.

TO JOIN MANEUVERS

[EXCLUSIVE DISPATCH]

SAN DIEGO, Oct. 21.—Submarine Division No. 11, headed by the mother ship, Savannah and comprising the subs S-24, S-25, S-29 and S-32, will leave harbor tomorrow morning at 8 o'clock for the scene of fleet maneuvers off San Pedro.

The boats will complete their tactical maneuvers Saturday but will remain in Los Angeles Harbor over Navy Day, the 27th inst.

Valley Turkeys Are Set Aside for Home Use

[LOCAL CORRESPONDENCE]

VAN NUYS, Oct. 21.—The San Fernando Valley Thanksgiving turkey crop this year promises to be even larger than last, according to a statement by various buyers from wholesale houses in Los Angeles, who recently have been traveling over the valley and sizing up the flocks.

There is no regular turkey farm in the valley, though almost every rancher with acreage of liberal dimension has growing flocks of turkeys on the place, the total aggregating enough to supply the consumers of a large city.

Two or three weeks before Thanksgiving these turkeys are bought wherever found and then concentrated for market shipment. Many are dressed and placed in cold storage, ready for the holiday trade. As most of these flocks are shipped out of the valley the home consumer, who doesn't raise turkeys, has a hard time finding one at Thanksgiving, Christmas or New Year's, unless he contracts for it in advance. Many of thest individual contracts already have been made here at Lankershim, Owensmouth and San Fernando.

Ranchers in the vicinity of Van Nuys assert that at least a tenth of their turkey flocks already has been set aside for the use of Van Nuys residents, to be paid for at the Thanksgiving market price.

FARMING CENTER PLANNED

Ranchers Behind Move to Establish Educational Bureau in Middle of San Fernando Valley

[LOCAL CORRESPONDENCE]

MISSION ACRES, Oct. 21.—All San Fernando farmers and ranchers, and others in the valley interested in various phases of fruit, vegetable and poultry production are expected to attend a meeting that will be conducted here next Monday at 8 p.m., in Community Hall. A program of interest will be put on by the county farm bureau and the farm adviser's office in co-operation with the Chambers of Commerce and other civic clubs in the valley.

Recently plans were formulated for an active farm-bureau center in the Mission Acres district, to include all ranchers in the surrounding territory. The purpose of such a unit will be to foster all types of agricultural educational work, help the people with community problems and co-operate with existing organizations in behalf of the general welfare.

At the meeting Monday, Harvey Bissell, chairman of the water-conservation committee of the county farm bureau, will lecture on watershed protection as it affects the valley's agriculture. His efforts in forest protection already are well known in the Southland. F. H. Ernst, assistant farm adviser, also will be on the program.

A local committee headed by Chamber of Commerce members, Frank B. Stetson, Ross Teague, J. L. Plummer, J. G. Showalter, A. J. Mueller, W. E. Hodges, C. N. Stahl and other prominent valley growers are completing plans for the meeting.

A large delegation from each of the towns in San Fernando Valley is expected to be present at the conference.

PRAISES SOUTHLAND

Famed Writer and Linguist Comes to Pasadena on Leave From Eastern College

By a "Times" Staff Correspondent

PASADENA, Oct. 21.—Southern California, the world's most ideal spot in which to live, is the verdict of J. Grant Cramer, linguist, writer and professor of romance languages, who has lived, traveled and studied in Europe for more than twenty years, and is now in Pasadena on a year's leave of absence from Boston University.

Prof. Cramer, who intends to make Southern California his permanent home, is a nephew of Ulysses S. Grant, and son of M. J. Cramer, formerly United States minister to Switzerland and Denmark for fifteen years. He himself was assistant military attache at the United States Legation in Copenhagen during the World War.

"The future of Southern California is assured, I think," he said. "The growth and development has been almost unbelievable — the wonderful roads and gardens and beaches—the manner in which the people have put natural forces to work, and have overcome obstacles. And I think the years to come hold even brither promise.

"Another thing that I have noticed is the apparent freedom from class consciousness that prevails, the feeling of individual independence. The innumerable resources and pleasure resources seem to banish the differences between rich and poor."

Prof. Cramer spoke very highly of Southern California's educational institutions, commending such institutions as the California Institute of Technology, the University of Southern California and the University of California, Southern Branch, and also praising the high standards of the public schools.

In addition to being an accomplished linguist, speaking French, German, Spanish, Italian, Danish and Norwegian besides his native tongue, Prof. Cramer is the editor of a volume of the letters of his uncle, Gen. Grant, to the latter's father. He has given a coat, worn by Grant when he was a cadet at West Point, to the National Museum at Washington, where it is now on exhibition, and has a large collection of other interesting souvenirs and mementos of the famous President.

"Gen. Grant was essentially kind and honest with a remarkable trust in the honesty of others," Prof. Cramer said today. "I think whatever mistakes he made were through too much inherent confidence in the integrity of subordinates.

"I think the bravest thing he ever did, and he was a man of tremendous courage, was to write his memoirs when he was in such desperate pain in his last fatal illness.

"Of course I was very young when he was active in public life, but one of my most distinct man can be, but he took the time gave the commencement address and gave the diplomas at Hasbrook Institute in Jersey City when my older sister was graduated. At the time he was about as busy as a ma ncan be, but he took the time to come to the school and give the address because his niece was in the graduating class."

BRENON'S NEXT

WILL FEATURE TRIO OF PARAMOUNT STARS

By Grace Kingsley

The tingly autumn air of New York should be a boon to Herbert Brenon, Paramount director, inasmuch as he doesn't seem to be having one single minute's breathing time between making pictures, these days.

He needs to be feeling specially fit, too, because, having completed one picture about dancing, Brenon is about to begin another. He has just completed "The Song and Dance Man," a former George M. Cohan success, and Jesse L. Lasky announced to the western Paramount studio over the wire yesterday that Brenon will at once begin work on "Dancing Mothers," a success of the New York stage last season, written by Edgar Selwyn and Edmund Goulding.

BETTY BRONSON

The cast is an interesting one and includes in the featured leading roles Betty Bronson, Conway Tearle and Alice Joyce. Tearle will play the part of the husband, created in the stage version by John Halliday; Miss Bronson will play the daughter part, done by Helen Hayes, and Alice Joyce will do the mother role, played in New York by Helen Young.

Another announcement made by Hector Turnbull yesterday is to the effect that Michael Arlen's first studio activity for Famous Players-Lasky will be the adapting of Arlen's story, "The Ace of Cads," as a stellar picture for Adolphe Menjou. Arlen's first original story for the screen will serve as a starring vehicle for Pola Negri, as heretofore announced. Arlen has arrived in town and will take a trip to the studio today.

The foreign beauty hunger which seems to afflict the Paramount studios, if we are to consider the number of beautiful actresses being brought in from foreign parts, is to be further appeased by the engagement of Mlle. Arlette Marchal, said to be the loveliest actress in France. She will arrive in New York tomorrow to appear in Paramount pictures and will become a member of the Paramount stock company. Gloria Swanson is said to have first noted the French beauty when she saw her in a play on the Paris stage, and to have been instrumental in having Mlle. Marchal play a role in "Madame Sans Gene."

Two engagements for Irvin Willat's production of "The Enchanted Hill" are those of Christian J. Frank, screen heavy, and Matilde Comont, noted French comedienne of stage and screen, the latter for the role of Conchita, a Mexican servant.

Beverly Bayne Leaves

Beverly Bayne departed yesterday for New York, where she will visit her parents for the first time in two years. But her trip is not altogether of a social nature, as she has several offers to return to the eastern stage. She wants to look the ground over before making any decision.

Alice Calhoun Stars

You can't keep a star from shining, and similarly you can't keep a real picture star from scintillating. Wherefore it transpires logically that Alice Calhoun is again to have a stellar role. She has been loaned by Jack Warner to the Alpine Productions to be starred in a Tennessee feud-and-moonshine story called "Hill Folks." The story was written by Mary McCarty and will be directed by Fred Allen.

In this picture Miss Calhoun for the first time in four years will appear other than as a beauty of the drawing-room. She will discard her high-heeled pumps and nude hose for the time being and will chase back and forth bare-footed among the wide-open spaces while helping the hero straighten things out in the old mountain feud.

Juanita Hansen in Vaudeville

If you have been wondering what has become of Juanita Hansen, you need wonder no longer. Miss Hansen has signed for vaudeville in a Paul Gerard Smith skit for the big time.

Kosloff Ballet Popular

So great a sensation did Theodore Kosloff's lovely ballet, "The Romance of the Spanish Infanta," make in its performance in connection with the California Grand Opera Company, that it looks as though the members of the ballet will not be permitted to go on tour, as they had expected, for a while anyway, inasmuch as their services are greatly in demand for pictures.

The Kosloff ballet dancers have just been engaged to create a dance sequence in "Time the Comedian," being made for Metro-Goldwyn-Mayer.

Goes Back to Comedies

Just when it began to look alarmingly as though charming little Edna Marian, star of Century Comedies, would never again stop a custard pie, that company paused and took stock of itself. Miss Marian has been in features, but no longer ago than yesterday the young actress came home to, the Century lot and began working in a new series of comedies.

Bulletin from M.-G.-M.

A couple of interesting items from Metro-Goldwyn-Mayer inform us that Claire Windsor and Conrad Nagel have been cast in the leading roles of S. J. Kaufman's "Dance Madness," and that Claire McDowell has been assigned by Hobart Henley to play the part of Norma Shearer's mother in "Free Lips."

Good Reason Anyhow

If Marguerite De La Motte marries John Bowers, she may have all the fox wraps and coats her heart desires. Few lovers could offer their sweethearts more.

While in Sitka, Alaska, as a starring member of George Melford's Metropolitan unit filming "Rocking Moon," Bowers became interested in fox farms to such an extent that he made an investment. In addition to monetary returns, Bowers's splurge into fox farming presents him with the opportunity of buying fox furs at a startlingly low figure.

Mamma Visits

When Mrs. Selina Mason arrived in Los Angeles yesterday from Burlington, Vt., on her first visit to California, she was welcomed with a real surprise by her son, E. Mason Hopper, the noted picture director, who has just completed the building and furnishing of a new home in Brentwood for his mother. Although this is her first visit to the Pacific Coast, she has already seen motion pictures in the making. Hopper directed the scenes of George Washington crossing the Delaware in his production of "Janice Meredith," at Plattsburg, N. Y., across Lake Champlain from Burlington.

With the arrival of his mother, Mason Hopper will forsake his apartments on Sunset Boulevard in Hollywood, where he has resided for the last five years, to make his home with his mother in Brentwood. The new Hopper home is a Spanish farmhouse, designed and furnished, and the spacious grounds landscaped under the supervision of the director.

Mary Returns in Favorite Role

Mary Pickford,

Who comes back to the screen after an absence of many months in "Little Annie Rooney," which opens tonight at the Million Dollar.

FEMINISM THEME OF BENEFIT

Last night at the Philharmonic Auditorium, Ruth Helen Davis, New York actress-dramatist, was seen in one of her own plays which has been produced in New York and published in London.

The play is entitled "Egypt Speaks to Woman," and deals in a novel and original manner with the theme that feminism, which we think is a distinct product of our own day and age, actually dates back to early Egypt of 3500 years ago.

The drama starts in modern times and then goes back to old King Tut's country, showing the great Queen Hatasu threshing out the same problem of marriage versus career as the most advanced flapper of our day.

Two hundred and fifty of American's leading women were recently asked to write their opinions on this much-discussed question of marriage versus career and their ideas were very varied and received much comment.

"Egypt Speaks to Woman" is the first attempt to present this question from an historical point of view.

Ruth Helen Davis, author of six plays, among them "The Guilty Man," produced in New York by A. H. Woods, and adapter of Pierre Loti's "Daughter of Heaven," played Queen Hatasu.

Boyd Irwin played opposite Miss Davis, Mary Carr and her daughter, Luella, were seen in strongly contrasted roles, Mrs. Carr as the old-school mother and Luella as the modern feminist, who does not believe in marriage. Josef Swickard was the lovable father who has no patience with the modern point of view.

Others in the cast were H. Ellis Reed, D'Arcy Corrigan, Edward McLaughlin, Hal Ferner, Gordon Westcott, Pietro Sosso, Laurence White, Robert F. Gordon, Albert De Winton, Norman Peck, and an ensemble of over 100 people.

The Denishawn Dancers introduced a specially prepared Egyptian ballet with Dorothea Bowen as soloist and the music was in charge of Dr. Roland Diggle, well-known composer, and Heinrich Tandler.

The spectacular scenery of the recent operatic production of "Aida" was used.

The entire proceeds were given to help rebuild Trinity Church, Santa Barbara.

Rethberg Sings in Hollywood This Afternoon

Elizabeth Rethberg, dramatic soprano of the Metropolitan Opera Company, will be presented in recital in the Memorial Auditorium on Highland avenue near Hollywood Boulevard this afternoon at 2:30 p.m. This will be the only matinee appearance of Mme. Rethberg in Los Angeles and will give to musicians, artists, and other people who are employed in the evening and unable to attend a night concert, an opportunity to hear this famous singer.

This afternoon Mme. Rethberg will sing the following program:

1.
a. "Il Mio Bel Foco" ..... Marcello (1686-1739)
b. "Se to m'Ami" ..... Pergolese (1710-1734)
c. Aria of Susanna from the opera, The Marriage of Figaro" ..... Mozart
d. "Alleluia" ..... Mozart

2.
a. "Le Reve" ..... Bemberg
b. "Pastorale" ..... Bizet
c. "Chanson Espagnol" ..... Delibes

3.
a. "By a Lonely Forest Pathway" ..... Griffes
b. "Sing ye Rome Is Best" ..... Medtner
c. "The Time of Parting" ..... Hadley
d. "Awake, It is the Day" ..... Burleigh

4.
a. "An die Musik" ..... Schubert
b. "Gebeimes" ..... Schubert
c. "Gretchen am Brunnrade" ..... Schubert
d. "Wasbrend des Regens" ..... Brahms
e. "Von Ewiger Liebe" ..... Brahms

5.
a. Aria from "Tosca" ..... Puccini

This recital is the first number on the Hollywood High School artist course for this season. Of the artists who will appear at the school are John Phillip Sousa and his band, Wednesday, January 6, at 2:30 p.m.; the De Reszke Singers, Monday, January 18, at 11 a.m., or Richard Crooks, tenor, Tuesday, March 2, and the Barrere Little Symphony, Friday, April 16.

World Premiere of New Music at Biltmore

The first concert of the New Music Society, which takes place tonight at the Biltmore Ballroom, will be in every sense a premiere performance. The program is entirely new, it will be the first appearance in Los Angeles of Wesley Kuhnle, since his return from abroad, and the Adolf Tandler Little Symphony will make its initial bow for the season.

Kuhnle is an exponent of the ultra-modern, as his choice of program numbers on this concert show. He will play Shoenberg's Six Small Piano Pieces and "Musings" by Ornstein. He is a pupil of the late Jaroslaw de Zielinski and Richard Buhlig. He is credited with an unusually accurate technic, a necessary virtue in the interpretation of such geometric studies in sound as Schoenberg indulges in.

The New Music Society will open the program with a sonata for two violins and piano by Darius Milhaud, played by the concert master of the Little Symphony, Calmon Lubovisky, Henry Eichheim and Mrs. Eichheim at the piano. Miss Winifred Hooke, Wesley Kuhnle, and Homer Simmons will play the three piano parts to D. Rudhyar's big work, "The Surge of Fire." In this composition, eleven solo instruments are played by the following artists: Calmon Lubovisky, H. O. Dieta, Axel Simonsen, G. R. Menhenck, Alfred Brain, P. Pierno, J. Wallace, Jay Plowe, P. Memoli, P. Perrier, P. Moritz and Adolf Tandler, conducting.

Fun Prominent Feature of New Orpheum Bill

Nellie and Sara Keuna, those delightful singing sisters, whose harmony of voice matches their beauty and sweetness of atmosphere, will headline the Orpheum bill opening Monday. "Fifty Miles from Broadway," with Reg Merville and Harry B. Watson is returning on its regular visit. This big musical and comedy act has always been a most popular favorite. Good music and bucolic comedy are its real elements.

Thomas F. Swift, who amazed with his fun on a former visit in "The Gob," is back in the same act—a fact that will bring joy to hosts. Tom portrays the rollicking naval man in an entertaining way. His gob is real, human and lovable, and his fun is unctuous, clean and bright.

Then there are Freda and Palace, in "Bartch-a-klaloop," a weird title for a very funny musical act of different sort. The boys put real music in it, too, but one need not worry over that, the fun is so prominent and effective. Kao Taki and Yoki are of the Celestial kingdom. Meredith brings his clever dog Snoozer again, and Marion Harris, in her new songs, with Russell Robison and Roy Fox is held over, deservedly.

Reunion of Old Opera Favorites in "Phantom"

Former opera stars met after a separation of twenty-five years while they were playing parts in "The Phantom of the Opera," the mystery picture which is drawing large audiences to the Rialto Theater. The stars thus united were Alexander Bevani, long an operatic basso and Templar Saxe, formerly noted as a comic opera baritone.

Mr. Bevani who is now a producer of grand opera was enlisted by Rupert Julian, the director of "The Phantom of the Opera," to play the role of "Mephistopheles," in the opera scenes which constitute an important part of the plot of the story. This was a role that Mr. Bevani had sung more than 500 times on the grand opera stage.

In addition to portraying this character, Mr. Bevani was able to give very valuable advice to the director regarding the details of the presentation of the opera on the screen. Many of the thrilling occurrences in the picture are the result of the attempt of the managers of the Grand Opera House in Paris to produce the opera of "Faust" in defiance of the warning of the mysterious "Phantom."

A special prologue in which the music of "Faust" plays an effective part is given with the picture.

"All for You" Opens at Mason on Saturday

A strenuous rehearsal periods will be brought to a close at noon Friday when Director Frank Smithson orders every member of the "All For You" cast to their homes for a complete rest prior to their appearing on the stage Saturday for the premiere opening of the new Wilkes musical comedy.

With the arrival here a week ago of William Gaxton and Madeline Cameron from New York to play in the production, rehearsals were staged with renewed vigor. The arrival of the twelve English Dancing Rockets from London ushered into the play another wing to be drilled in accordance with the "All for You" script.

Supporting William Gaxton, Madeline Cameron and Ted Doner, Eddie Allen and the English Rockets, Arthur Kay's Orchestra and sixty others will be seen in the cast.

"All for You" is Wilkes's first musical comedy production since his presentation of the Duncan Sisters in "Topsy and Eva." The book was prepared by George V. Hobart and Charles Grapewin. Arthur Freed composed the score and lyrics.

Pimples

"OH, why can't I have a skin like other girls? Why do I have to have these ugly pimples, blotches and blackheads?

"If I could only find something that would clear up my skin and give me back my soft, rosy complexion, I know I would be the happiest girl in the world! What can I do?"

Is that you talking? If it is, you don't have to worry a minute! Just build up the rich, red blood in your body. Then your skin will be as clear and soft as anybody's.

That's what S. S. S. has been doing for generations—helping Nature build rich, red blood! You can build red-blood-cells so fast that the impurities that cause breaking out on the skin hardly get into the system before the pure blood annihilates them—kills them right out—stops them from breaking out through the skin.

And then this rich, red, pure blood feeds and nourishes the tissues of the skin and keeps it looking healthy.

That's all there is to it. Healthy, vigorous red blood such as S. S. S. helps Nature build, makes you healthy all over. It beautifies your skin — drives away pimples, blackheads, blotches, rash, boils and eczema—gives you back your appetite—builds firm, plump flesh and fills you full of new life and energy.

S.S.S.

All drug stores sell S. S. S. Get the larger bottle. It's more economical.

The Worst Form of Prohibition!

A table spread with the dishes that delight, and your stomach says "Don't eat, or you'll regret it!" That's regrettable, but not unavoidable. To those who know the simple secret of Stuart's, *nothing* is forbidden. Not even cabbage, onions, nor even *cocoanut pie!* Eat what you *want* to eat; you can, if you'll only tuck Stuart's in your pocket!

Dyspepsia! Indigestion! Sour stomach! These ailments are *not* caused by what you eat. Give your digestive system a chance, and it will function with almost *any* kind of food. Yes, doughnuts; baked beans; dishes cooked with onions.

Men and women of every age, in all walks of life, have sworn by Stuart's—for more than thirty years. Pleasant, harmless, and they *do the work.*

Your First Box FREE!

Any druggist in the land has Stuart's dyspepsia tablets. A big box is only 60c—they are less than a penny apiece! So, why suffer? Get a 25c metal box of Stuart's for the pocket—and keep it filled. One box *free* if you write the F. A. Stuart Company, Dept. C, Marshall, Mich.

SENATORS WILL BE GUESTS HERE

Irrigation and Reclamation Committee Coming

Members and Wives to Visit City Two Days

Reception Among Events for Southwest Tour

Sixteen United States Senators, comprising the Senate Committee on Irrigation and Reclamation, are scheduled to arrive in Los Angeles on Monday, the 26th inst., to begin an extended tour of the entire Southwest in order to study at first hand the problems in connection with the proposed Colorado River Boulder Canyon Dam legislation, it was announced yesterday.

The Senate committee, which includes some of the most prominent and well-known members of the upper house, will remain in Los Angeles throughout Monday and Tuesday, during which time it will conduct hearings at its headquarters, which have been established at the Biltmore Hotel.

All arrangements for the reception and program of the party during its two-day stay in Los Angeles are under the direction of the Boulder Dam Association, it was announced, following the receipt of a telegram by Burdett Moody, secretary of the association, from Senator Charles L. McNary of Oregon, chairman of the committee. In his telegram Senator McNary stated that he desired that the Boulder Dam Association take full charge of arrangements while the party is in Los Angeles.

WILL ARRIVE MONDAY

The Senate committee, accompanied by their wives and other government officials, are scheduled to arrive in Los Angeles Monday. A reception committee, headed by Mayor John L. Bacon of San Diego and composed of the mayors or other chief executive officers of every city in Southern California, will greet the Senators at the Biltmore at 10 Monday morning.

The reception is to be followed immediately by the committee's first hearing on the problems of the Colorado River. This hearing, it is expected, will continue throughout the day.

At noon Monday the committee will be tendered a luncheon at the Los Angeles City Club and at noon on Tuesday a luncheon will be given in their honor by the Los Angeles Chamber of Commerce.

The principal event of the Senators' stay in Los Angeles, it has been announced, will be a banquet given to the party by the City of Los Angeles on Tuesday evening, the 27th inst., at the Biltmore. It is expected that this banquet will be attended by representatives from every city and district in the Southwest. Tickets for the occasion are being handled by Secretary Moody, 207 South Broadway, telephone MEtropolitan 4200.

PERSONNEL OF PARTY

The party that will come to Los Angeles as members of the Senate committee now considering the Swing-Johnson bill which provides for the control and development of the Colorado River by the Federal government, includes: Senators Charles L. McNary of Oregon, chairman; Wesley L. Jones, Washington; Lawrence C. Phipps, Colorado; Hiram W. Johnson, California; Frank R. Gooding, Idaho; Ralph H. Cameron, Arizona; Tasker L. Oddie, Nevada; Samuel M. Shortridge, California; Holm O. Bursum, New Mexico; Morris Sheppard, Texas; John B. Kendrick, Wyoming; Key Pittman, Nevada; Furnifold McL. Simmons, North Carolina; C. C. Dill, Washington, and Henry F. Ashurst of Arizona.

Following the two days of hearings in Los Angeles the committee, it was stated, will start on a tour through Southern California, Arizona and Nevada. Among the places at which the members will stop will be San Diego, Imperial Valley, the Yuma project in Arizona and Las Vegas. From Las Vegas the party will visit the site of the proposed Boulder Canyon dam on the Colorado River and will at this point go over the ground of what is declared to be the greatest reclamation and power development project ever contemplated.

NOTABLES AT CLUB LUNCH

Mme. Elinor Glyn, Connie Alny, Ulysses Lappas, operatic tenor; Mr. and Mrs. Jack Dempsey, R. D. McLean, actor of the Mission Play, and Betty Bronson are scheduled as attractions of a ladies' day luncheon of the Optimists' Club at the Biltmore ballroom today. Howard Verbeck will be chairman of the day.

UNION PACIFIC ADDS LUXURY

Latest Type Observation Coach and Dining Car Start East As Innovation of Rail System

With the installation yesterday of the latest type observation coach and dining car on the Los Angeles Limited which pulled out of this city at 10:51 a.m., from Central Station, the Union Pacific Railroad has set itself a new standard of comfort.

One hundred passengers are aboard the solid Pullman eight-car train which is scheduled to make Chicago in sixty-eight hours.

The latest type of new equipment was added, railroad officials declared, in anticipation of a heavy influx of tourists to Southern California this winter. New-type observation coach and dining cars will be added to all limiteds as soon as delivery can be obtained.

"A careful analysis of the situation thoroughly has convinced our executives that we may expect a large tourist business to Los Angeles this year," said R. B. Robertson, assistant traffic manager. "Business is on a sound footing all over the country, and this, together with good crops throughout the central and western portions of the country, indicate that people in all lines will have ample means to travel, and when that condition prevails California is always due for a splendid business."

The new observation cars include a woman's club lounge, a men's club buffet, a barber shop for men and women, too; observation parlors, a spacious writing-room, a library and other comforts. The car is finished in light at a time. Through service is provided.

B. L. Reynolds, head of the dining-car service, was a proud man yesterday when the Limited left the city. The dining car, he said, is of the latest design, all steel, and will accommodate thirty-six diners at a time. Through service is given.

Among the first to visit the new observation coach were pretty Edna Thomas of Pasadena and Hyacinth Brown of Culver City. High officials of the line from Omaha, as well as local officials, were on hand to inspect the new cars before the train left. These incuuded W. S. Basinger, passenger-traffic manager; H. M. Adams and E. E. Calvin, vice-presidents, of Omaha.

The local officials were F. H. Knickerbocker, general manager; T. C. Peck, general passenger agent; J. Cruickshank, general agent; Frank H. Adams, general agent, Pasadena; W. F. Truelsen, assistant treasurer, and J. V. Carroll, general agent, San Pedro.

GERMAN PEACE ENVOY HERE

Good-Will Delegate on Round-the-World Tour Says Teutons Will Never Return to Monarchy

"Monarchism will never return to Germany because members of the substantial citizenry are stanchly in favor of the republic, said Dr. Oscar Hartman, former executive manager of the German Bankers' Association, who is now in Los Angeles on his round-the-world tour to preach a message of peace and good will, at the Biltmore Hotel last night. He is being entertained by Chamber of Commerce officials during his stay here.

Dr. Hartman, who was one of Germany's advisers in the reparations conferences, prefers to talk of how Germany is rebuilding rather than of politics of the past. The direct question, however, brought the assertion that the German people desire peace more than anything else and that any thought of a revolution to overthrow the republic is ridiculous.

"The ideals of President Von Hindenburg are well known throughout the world; he didn't run away after the war was over," Dr. Hartman declared. "As for me, I don't like to remember that there ever was an emperor."

"For the American people, the Germans hold nothing but kindly feeling. That we ever fought is something we want to wipe out because we owe so much to America. My trip here is largely for that purpose—the promoting of more friendly business and social relations.

"The West appears to me to be much more efficient and business-like than the East and I am particularly pleased to be in Los Angeles because I am to meet Henry Robinson, whom I met during the reparations conferences. I feel that we Germans owe Los Angeles a particular debt because Mr. Robinson belongs to Los Angeles and he played such a large part in perfecting the Dawes plan for which we are so grateful.

"People of Germany are weary of war. They want the privilege of peaceful pursuit of their own affairs. They want help in re-establishing industry and prosperity and much help has already been given by America. The recently concluded security pact by the European nations is the corner-stone of the House of Peace and will be the instrument which will work for the maintenance of peace among nations. It gives us assurance that we are on the way toward settlement of the problems raised by the war.

"When I first came to the United States last winter I found that we were experiencing great difficulty in selling German bonds. All my time was taken in New York conferring with financial leaders and giving them first-hand information. Now I am scarcely needed in New York. In fact, the last loan, $25,000,000 in Bavarian bonds, was oversubscribed two and one-half times in a short time at 92."

Dr. Hartman will remain in Los Angeles this week. His itinerary thus far has included trips into Canada and to Alaska and he hopes to visit Japan and the Orient before returning to Germany. He expects to be back in Germany by Christmas at the very latest.

FRENCH ELECTRICIANS HERE

Engineer and Executive Group, Studying Methods of United States, Arrive in City

Touring the United States to study electrical development here, a group of nine of the leading electrical engineers and heads of electrical companies in France arrived in Los Angeles yesterday for a three-day visit here.

The party, which registered at the Biltmore, is in charge of G. F. Neave of New York, assistant to C. H. Minor, president of the International General Electric Company of that city, which is acting as host to the visitors. They started from New York the 1st inst. and have inspected electrical plants at Buffalo, Cleveland, Detroit, Chicago and San Francisco before coming here.

"The sole purpose of the visit is to allow these foreign engineers to get a glimpse of the electrical industry in America," said Mr. Neave. "They are inspecting and studying electric plants, and are also taking notes on modern practices at central stations and among public-utility companies, as well as on problems relating to illuminating engineering.

"It is somewhat difficult to give an adequate idea of their impressions. Each man is more or less a specialist in his line and is therefore attracted by features of which the others do not take so much notice. Perhaps the one thing on which they have all remarked is the extensive use of electricity in this country."

On the Pacific Coast, where G. I. Kinney of the General Electric Company of San Francisco has acted as their guide, the visitors have displayed much interest in the hydroelectric plants. "The huge transmission lines carrying up to 220,000 volts in the northern part of California have been a subject of much comment among them," said Mr. Neave.

The personnel of the group includes Arrighi De Casanova, chief engineer of the group of generating plants supplying Paris with current, and known as the Electrical Union; Edmond Aubert, head of the company distributing current in West Paris; Paul Eschwege, head of the North Paris Electric Light Company; Edouard Imba, general manager of the Electrical Union; Albert Malle, head of the electric company of Strasbourg; P. Meunier, director-general of the Electrical Union, Paris; B. Partridge, chief engineer of the Paris Electric Light Company; Albert Petsche, president of Paris Electrical Union, and Maurice Saurel, president of the Paris Electric Light Company.

The visitors will leave Los Angeles for the East on Saturday morning. Their itinerary includes visits in St. Louis and Washington on their way east, and inspections of electrical plants in Boston and other Massachusetts cities upon reaching the Atlantic Coast. Their departure for France is set for November 7.

Men to Assume Female Roles in Masquers' Revel

An expose of the frills and foibles of Hollywood will be presented at the Masquers' revel tonight at Philharmonic Auditorium.

Julian Eltinge, female impersonator, will have the leading role in "The Masquers," in which all feminine parts will be taken by men. Many of Hollywood's best-known actors and directors will be in the cast. A half-dozen playlets will be on the program.

In the role of Harlequin, Robert Edeson, president of the club, which corresponds to the Lambs in New York, will introduce the players in the travesty, which will be directed by Earl Payne.

Hostesses will include Louise Dresser, Ruth Roland, Mabel Ballin, Bebe Daniels, Florence Vidor, Maude Fulton, Madge Bellamy, Renee Adoree, Madeline Hurlock, Mary Payne, Billie Dove, and Mmes. John Ford, Victor Schertzinger, Cyril Chadwick and John Sainpolis.

CHAMBER EXCURSION ARRIVES IN HAWAII

The Chamber of Commerce's seventh personally conducted excursion to Hawaii, aboard the steamer City of Los Angeles, arrived at its island destination yesterday and was given a resounding reception at the Maui docks, according to a cablegram received here from Charles P. Bayer of the chamber, who was in charge of the party. In Bayer's message to the Los Angeles chamber, he stated that all passengers were in the best of health and heartily enjoying the voyage. They expect to return to Los Angeles the latter part of October, it was said.

SPEAKS ON INCOME TAX

Rex B. Goodcell, Collector of Internal Revenue, will address a class in Federal income tax tomorrow night at the Accountants' Educational Institute, 630 Black Building.

CITY JEWISH BODIES WILL HELP CHEST

Delegates from Ninety-two Organizations Pledge Aid in Charity Campaign

[Illustration on Picture Page]

Pledging their whole-hearted support to the Community Chest, delegates from ninety-two Jewish organizations of the city met last night at the B'nai B'rith Hall. Three delegates from each of the religious, charitable and social organizations in the city were present.

The principal address of the evening was delivered by I. Irving Lipsitch, who has recently come here from San Francisco to take over the duties of executive director of the Federation of Jewish Welfare Organizations.

"Merely contributing your money to the Chest is not enough," said Lipsitch in the course of his address. "The people of Los Angeles owe it to the community to give both service and money, not only during the campaign but also throughout the year."

Other addresses were given by George Mossbacher, president of the Federation of Jewish Welfare Organizations; Rabbi Trattner, Rabbi Winkler, Joseph Loeb, W. W. Bearman, Dr. L. G. Reynolds, Dr. N. Kavinoky and others.

It is estimated by Jewish Welfare officials that 40,000 men, women and children of Los Angeles will be reached as the result of last night's meeting.

The 1926 Chest campaign will be waged from November 9 to 19, with an army of more than 14,000 workers canvassing the city and outlying districts for funds.

Due to the increased budget for 1926 Chest officials are asking increased subscriptions in the forthcoming appeal. Los Angeles has been allotted a quota of $2,830,798.94, which exceeds last year's budget by $308,390.30.

ARKANSAS MEET CALLED

President Troy Pace is calling on the Arkansas contingent to meet him Thursday evening, the 22nd inst., in the Veterans' Hall at 246 South Hill street. He has obtained the entertainment offered by the telephone company, which includes musical numbers and a brief play. There will be dancing, sociability, roll call of counties and awarding of prizes. All Arkansas people are invited, with a special welcome to the tourists.

"BIG HUTCH" ACTION NEAR

Governor Confers With Keyes on Secret Parole and Says Decision to be Made in Few Days

After an hour's conference with Dist.-Atty. Keyes in the gubernatorial offices yesterday, Gov. Richardson announced that his decision of revoking or approving the parole of Everett "Big Hutch" Hutchings will not be made for several days. He said he will not act until return-

Dist.-Atty. Keyes was the last of the men in public life scheduled to appear at the parole hearing. He carried several large files into the audience and returned with them. He would make no comment on the conference.

ISSUES STATEMENT

Gov. Richardson, in an official statement, said in part:

"I have not completed my investigation of this case but here are some of the fundamental facts:

"E. A. Hutchings was sentenced under the indeterminate sentence law to from one to ten years, not one to twenty, as has been published. In this case Superior Judge Willis of this county followed the law. He had no power to fix a definite term or a term other than one to ten years. Any criticism on this point should be directed at the law and not at the judge. The State Board of Prison Directors, then composed entirely of appointees of former Governors, fixed the sentence at seven and one-half years. Under the indeterminate sentence law that board could have imposed a maximum term of ten years. None of the members of the present board was then serving.

"The law gives prisoners credits for good behavior. The first year, two months; the second, two months; the third, four months; the fourth, four months; the fifth and every year thereafter, five months. A seven and one-half year sentence, therefore, means five years and fifteen days' time if the prisoner obeys the rules in the penitentiary. This time will be further shortened by law if the prisoner works on the road. Hutchings was in prison for one year, nine months and twenty-five days. Then he went to the road camp. He was in the camp one year, five months and twenty-three days. Here he earned eight months and twenty-nine days' credit. (The time actually served in prison and in road camp was three years, three months and eighteen days, and with legal credits earned, amounts to four years and seventeen days.)

AUTHORITY OVER HIM

If Hutchings had continued at the road camp he would have served his full time by April 7, 1926, and would then be entitled to his final discharge. The effect of Hutchings's parole was to reduce the time of imprisonment by eight months. As a parole prisoner the prison board will have authority over him until August 7, 1926.

"The District Attorney has requested me to review the action of the parole board and to take proper action in the matter. On this request I proceeded to listen to testimony and argument from officials and parties interested.

"One of the interesting phases of this matter is that the same newspapers which have abused me so roundly for being too severe in criminal cases, because I am upholding the verdict of juries and the decisions of judges, are now scoring the prison board for being too lenient. The hypocrisy of these journals is so apparent as to amuse all thinking people. These newspapers care nothing for truth or justice. Their sole desire is to injure me politically and thus aid in restoring the old political gang to power."

Dist.-Atty. Keyes was preceded in his audience with Gov. Richardson by Congressman John D. Fredericks, who was the attorney for J. B. Norris, the man who was reputed to have died of a broken heart after losing $51,000 in one of the asserted "Big Hutch" swindles. What was said at that conference also was guarded, although on the preceding day, I. F. Hutchings, a brother of "Big Hutch," offered to Gov. Richardson a letter from Norris's widow, dated April 15, 1923, and addressed to the prison board, asking for clemency for "Big Hutch" at an approaching hearing.

Fletcher Bowron, secretary to Gov. Richardson, denied a rumor about the State offices that a hearing had been refused a large body of women.

The women, according to the rumor, sought a pardon for Charlotte Anita Whitney, an Oakland woman, who was convicted on criminal syndicalism. Secretary Bowron said that neither he nor the Governor had seen such a committee, but that he (Bowron) had refused to let a delegation of men see the Governor because they had not gone through the required preliminary steps of filling out a regular application. The men, he said, were Rev. Clinton J. Taft, director, and Robert Whitaker, field secretary of the American Civil Liberties Union, and J. H. Ryckman, an attorney. Secretary Bowron said that he informed the committee of the necessary preliminary procedure and told them that he would have the required blanks forwarded to them from Sacramento.

In an official statement issued yesterday it was declared by Secretary Bowron that only one man in public position had appeared to ask for the return of "Big Hutch" to prison. The man is an official of the Crime Commission.

OTHERS HEARD

Faith Chevallier, social worker, pleaded for the parole system and deplored the attitude held by the public against paroled men. She said that she was convinced that "Big Hutch" would return to society as a social and economic asset.

I. F. Hutchings, in addition to producing Mrs. Norris's letter, declared that his brother had paid back more than he had received, and that he is now in New York, employed at $35 a week, supporting his wife and two sons and leading an upright life.

Rabbi Rudolph I. Coffee of Oakland, called on Gov. Richardson to approve the parole system and commend the prison board. He deprecated the criticism of the system as the result of misinformation and prejudice.

WOMEN STORM HOSIERY OFFICE

Near Riot Precipitated by Promoters' Arrest

Investors Seek Money from Chain Sales Firm

Police Called When Mob in Building Threatens

A near riot, with scores of women milling about in the corridor and the offices of the Golden State Sales Corporation, 312 Loew's State Building, was the aftermath yesterday to the arrest of two officials of the corporation on charges of false advertising. The situation grew so tense in the morning, with a steady stream of feminine investors arriving to demand a return of the funds they had deposited in the endless-chain hosiery sales plan, that a call for reserves was made. A quartet of uniformed and plain-clothes men responded and remained stationed about the offices during the better part of the day. Police Sergeant Vincent was in charge of the squad.

Joseph Kaufman and Ned Blanc, asserted originators of the endless chain sales plan as applied to hosiery, were arraigned yesterday before Police Judge Pope. They pleaded not guilty and their trial was set by the court for next Wednesday at 2 p.m. Their bail was set at $250 each.

ARRESTED TUESDAY

They were arrested Tuesday in the corporation's offices as the climax to an extended investigation by the Better Business Bureau and the intelligence division of the police department. Detective Lieutenants Lane, Hynes and Berenswaig, who headed the investigation and arrested the two corporation officials, stated that the firm has been operating here for the past four months and that literally thousands and thousands of men and women have invested in the endless-chain sales plan, hoping to obtain $10 worth of merchandise for $1.

S. J. Blanc, another official of the corporation, who was taken into custody during the raid on the offices Tuesday, was released a short time later without being booked at the police station. The officers stated that they decided not to press the charges against him after he explained that he had merely become somewhat excited and intended no harm. There is no complaint against him, the officers said, and he is not involved in the case.

Ned Blanc was not in his office when the detectives arrived Tuesday, but gave himself up to police yesterday afternoon.

WOMEN QUESTIONED

Some fifty or sixty women have already been questioned by the detectives and have expressed their willingness to appear against the two accused men at the trial. They have all invested in the unique plan, according to Detective Lieutenant Lane.

The corporation operated on a coupon basis. Investors signed a contract for which they paid $4. To this contract was attached three coupons, each to be sold for $1. Upon the sale of these three coupons to persons who in turn sold to three more persons the original investor was entitled to five pair of silk hosiery valued at about $16. The hosiery, however, was not given to the contract-holder unless the three purchasers of the coupons reported to the company and in turn bought three more coupons each. They in turn resold their coupons to others thus keeping up the endless chain system.

It is charged that only a part of the procedure necessary to obtain $10 worth of stockings for $1 was explained in the company's advertising and the false advertising charge was, therefore filed against them. Ferris R. Miller, manager of the Better Business Bureau, also declared that the plan was certain to leave someone "holding the sack" in the end since it would be impossible to keep the chain unbroken.

Urge Library to Provide Garage Under Grounds

The parking committee of the Los Angeles Traffic Commission has urged the Public Library Board to consider the building of underground garages under the new library grounds.

David R. Faries, speaking for the traffic commission, pointed out that the new library would attract thousands of people, thus adding to the already congested condition of the downtown streets, and that it is the duty of the Library Board to take steps to care for the patrons who will come in motor cars.

The committee proposed that under the grounds to the east and to the west of the library building, there should be constructed basement and sub-basement garages. These structures, it was pointed out, would accommodate 800 automobiles a day, and at a conservative estimate, give an annual yield of $49,920.

BIDDLE CASE INQUIRY ENDS

A certificate of death from acute alcoholism was signed by Coroner Nance late yesterday in the case of Mrs. Craig Biddle, Philadelphia and Los Angeles society leader, whose sudden death last Saturday caused an investigation by the police and the District Attorney's office.

Coroner Nance signed the death certificate after he had read the report of County Chemist Walker, stating that no trace of poison was found as the result of the chemical analysis made by him, and after a consultation with County Autopsy Surgeon Wagner, who said he had failed to find any evidence of injuries or death from criminal means.

Dr. Wagner's post-mortem revealed symptoms of a nature tending to show that excessive use of alcohol was responsible for the death. In the absence of any signs of poisoning and no positive indication of a heart disorder, Dr. Wagner decided that alcoholism was the cause of death.

Dr. Joseph S. Cipes, Mrs. Biddle's personal physician, who ordered her body sent to the undertaking establishment of Bresee Brothers, told the authorities he had been treating Mrs. Biddle for heart ailment, and attributed her death to it. He was present at the autopsy and was shown by Dr. Wagner that the heart was only slightly enlarged, a condition said by Dr. Wagner to be typical of alcoholism.

Final arrangements for the shipment of the body to Philadelphia will be completed today. Craig Biddle, millionaire sportsman and clubman, probably will accompany it East. The investigation started by the homicide departments of the police and the District Attorney's office came to an end immediately after the Coroner announced his official ruling.

The inquiry into Mrs. Biddle's death was started when the authorities learned that the woman's body showed bruises around the neck and on the back and that her body was ordered prepared for shipment without delay.

A REAL HOME BARGAIN

IN HEART OF BEVERLY.

In second block north of Santa Monica Blvd., 11 rooms, 6 bedrooms, and very large sleeping porch. 3 baths and cabinet shower. Gunite construction on metal lath. Floor joists, girders and studs are 2 inches wider than requirements of city ordinance. Subfloor is tongue and grooved. Humidair unit furnace. Full tile roof hand made. Lot 60x200. Beautifully landscaped with children's play ground. 2-car garage and laundry room.

This is one of the best built homes in Beverly. An ideal home for large family. It cannot be duplicated for the very low price of $45,000. Ask for Mr. Burr, or Mr. Gunn, with

GEO. E. READ, INC.,
467-9 Beverly Dr., Beverly Hills.
OXford 6177.

THIS IS UNUSUAL

A typical old Spanish home on beautiful tree covered corner lot. Designed and built by one of Los Angeles leading architects for the owner as a permanent home. Circumstances now compel him to sell and the John A. Vaughan Corp. has been fortunate enough to be asked by the owner to place this beautiful home on the market. At the price it is without a doubt one of the best values ever offered by this corporation.

It's beauty cannot be described but with its many conveniences, consisting of large grounds, beautiful baths, plenty of closets, patios, lily ponds, roof garden & the substantial construction it is surely an outstanding bargain and can only be appreciated upon inspection.

Come out to Beverly Hills and let us show you this beautiful sacrifice. Small amount of cash required and terms can be arranged. Call MR. BOGGS, 1208 Wilshire Blvd., Beverly Hills. OXford 6168.

WORTH $22,000. SELL $16,500.

POULTRY RANCHES—For Sale

LOWEST TERMS
1 1-4—2½—5-Acre Tracts
Super-abundance of cheap water.
Completely piped irrigation system.
2 huge concrete reservoirs.
Rich, sandy loam; ideal for poultry, rabbits, berries, truck gardening, etc.
IMPORTANT
Intensive farming is mighty profitable but is possible ONLY when the above mentioned features prevail. Reserved Farms is a complete development—a great SUCCESS—made possible by an enormous outlay of cash and the immense resources of Commonwealth Home Builders. Our terms of only $5 down and $5 per acre per mo. will prevail. Get in on this before it is too late. Located 9½ miles down the Santa Ana River Valley below Riverside—only 1½ hrs. easy drive from L. A. Free farming advice.
RES. E. PENDLETON
727 S. SPRING ST. TRinity 0091.

NOTICE OF REDEMPTION OF BONDS OF VENTURA COUNTY POWER COMPANY.

Notice is hereby given to the holder or holders of all outstanding bonds of the VENTURA COUNTY POWER COMPANY of the issue known as "First Mortgage Sinking Fund Thirty-Year Gold Bonds," dated the first day of November, 1909, and being the bonds mentioned as secured by that certain Deed of Trust or Mortgage, executed by said Ventura County Power Company to Title Insurance and Trust Company, as Trustee, dated November 1, 1909, and recorded December 31, 1909, in Book 198 of Deeds, Page 281, in the office of the County Recorder of Ventura County, California, that in pursuance of the provisions of said bonds and of said Deed of Trust or Mortgage, and in accordance with the resolution of the Board of Directors of Southern California Edison Company, as successor to said Ventura County Power Company, a certified copy of which resolution has been delivered to the undersigned, the said Southern California Edison Company has elected to and has directed and requested the undersigned to call for payment and redemption, and in pursuance of said direction and request, the undersigned does hereby call for payment and redemption on November 1, 1925, at the office of Title Insurance and Trust Company, Title Insurance Building, corner Fifth and Spring streets, Los Angeles, California, and at the office of the undersigned and First Mortgage Sinking Fund Thirty-Year Gold Bonds, and by the terms of said bonds there will then become due and payable upon each of said bonds the par value thereof, plus a premium of one per cent (1%) of said par value, and accrued and unpaid interest on said bonds to November 1, 1925, from which upon surrender, for cancellation, of said bonds and all unmatured coupons appertaining thereto, interest will cease. Payment will accrue or be payable upon said bonds after November 1, 1925.

In witness whereof, Los Angeles, California, this 8th day of October, 1925.
